

\$350,000,000

Kayne Anderson Acquisition Corp.

35,000,000 Units

Kayne Anderson Acquisition Corp. is a newly organized blank check company formed for the purpose of effecting a merger, capital stock exchange, asset acquisition, stock purchase, reorganization or similar business combination with one or more businesses, which we refer to throughout this prospectus as our initial business combination. We have not selected any specific business combination target and we have not, nor has anyone on our behalf, initiated any substantive discussions, directly or indirectly, with any business combination target. We intend to focus our search for a target business in the energy industry.

This is an initial public offering of our securities. Each unit has an offering price of \$10.00 and consists of one share of our Class A common stock and one-third of one warrant. Each whole warrant entitles the holder thereof to purchase one share of our Class A common stock at a price of \$11.50 per share, subject to adjustment as described in this prospectus. Only whole warrants are exercisable. The warrants will become exercisable on the later of 30 days after the completion of our initial business combination or 12 months from the closing of this offering, and will expire five years after the completion of our initial business combination or earlier upon redemption or liquidation, as described in this prospectus. No fractional warrants will be issued upon separation of the units and only whole warrants will trade. We have also granted the underwriters a 45-day option to purchase up to an additional 5,250,000 units to cover over-allotments, if any.

We will provide our stockholders with the opportunity to redeem all or a portion of their shares of our Class A common stock upon the completion of our initial business combination at a per-share price, payable in cash, equal to the aggregate amount then on deposit in the trust account described below as of two business days prior to the consummation of our initial business combination, including interest earned on the funds held in the trust account and not previously released to us to pay our franchise and income taxes, divided by the number of then outstanding shares of Class A common stock that were sold as part of the units in this offering, which we refer to collectively as our public shares throughout this prospectus, subject to the limitations described herein. If we are unable to complete our business combination within 24 months from the closing of this offering, we will redeem 100% of the public shares at a per-share price, payable in cash, equal to the aggregate amount then on deposit in the trust account including interest earned on the funds held in the trust account and not previously released to us to pay our franchise and income taxes (less up to \$100,000 of interest to pay dissolution expenses), divided by the number of then outstanding public shares, subject to applicable law and as further described herein.

Our sponsor, Kayne Anderson Sponsor, LLC (which we refer to as our "sponsor" throughout this prospectus), has committed to purchase an aggregate of 6,000,000 warrants (or 6,700,000 warrants if the over-allotment option is exercised in full) at a price of \$1.50 per warrant (approximately \$9,000,000 in the aggregate, or \$10,050,000 if the over-allotment option is exercised in full) in a private placement that will close simultaneously with the closing of this offering. We refer to these warrants as the private placement warrants throughout this prospectus. Each private placement warrant entitles the holder thereof to purchase one share of our Class A common stock at a price of \$11.50 per share.

Our initial stockholders currently own an aggregate of 10,062,500 shares of our Class B common stock (up to 1,312,500 shares of which are subject to forfeiture depending on the extent to which the underwriters' over-allotment option is exercised). We refer to these shares of Class B common stock as the founder shares throughout this prospectus. The shares of Class B common stock will automatically convert into shares of Class A common stock at the time of our initial business combination, or earlier at the option of the holder, on a one-for-one basis, subject to adjustment as described herein. In the case that additional shares of Class A common stock, or equity-linked securities, are issued or deemed issued in excess of the amounts offered in this prospectus and related to the closing of the business combination, the ratio at which shares of Class B common stock shall convert into shares of Class A common stock will be adjusted (unless the holders of a majority of the outstanding shares of Class B common stock agree to waive such adjustment with respect to any such issuance or deemed issuance) so that the number of shares of Class A common stock issuable upon conversion of all shares of Class B common stock will equal, in the aggregate, on an as-converted basis, 20% of the sum of the total number of all shares of common stock outstanding upon completion of this offering plus all shares of Class A common stock and equity-linked securities issued or deemed issued in connection with the business combination (excluding any shares or equity-linked securities issued, or to be issued, to any seller in the business combination and any private placement-equivalent warrants issued to our sponsor or its affiliates upon conversion of loans made to us). Holders of the Class B common stock and holders of the Class A common stock will vote together as a single class on all matters submitted to a vote of our stockholders, except as required by law.

Currently, there is no public market for our units, Class A common stock or warrants. We have applied to list our units on the NASDAQ Capital Market, or NASDAQ, under the symbol "KAACU" on or promptly after the date of this prospectus. We cannot guarantee that our securities will be approved for listing on NASDAQ. The Class A common stock and warrants comprising the units will begin separate trading on the 52nd day following the date of this prospectus unless Citigroup Global Markets Inc., Deutsche Bank Securities Inc., and Credit Suisse inform us of their decision to allow earlier separate trading, subject to our filing a Current Report on Form 8-K with the Securities and Exchange Commission, or the SEC, containing an audited balance sheet reflecting our receipt of the gross proceeds of this offering and issuing a press release announcing when such separate trading will begin. Once the securities comprising the units begin separate trading, we expect that the Class A common stock and warrants will be listed on NASDAQ under the symbols "KAAC" and "KAACW," respectively.

We are an "emerging growth company" under applicable federal securities laws and will be subject to reduced public company reporting requirements. Investing in our securities involves a high degree of risk. See the section of this prospectus entitled "Risk Factors" beginning on page 29 for a discussion of information that should be considered in connection with an investment in our securities. Investors will not be entitled to protections normally afforded to investors in Rule 419 blank check offerings.

Neither the SEC nor any state securities commission has approved or disapproved of these securities or determined if this prospectus is truthful or complete. Any representation to the contrary is a criminal offense.

	Per Unit	Total
Public offering price	\$10.00	\$350,000,000
Underwriting discounts and commissions(1)	\$ 0.55	\$ 19,250,000
Proceeds, before expenses, to Kayne Anderson Acquisition Corp.	\$ 9.45	\$330,750,000

(1) Includes \$0.35 per unit, or \$12,250,000 (or up to \$14,087,500 if the underwriters' over-allotment option is exercised in full) in the aggregate payable to the underwriters for deferred underwriting commissions to be placed in a trust account located in the United States as described herein. The deferred commissions will be released to the underwriters only on completion of an initial business combination, as described in this prospectus. See the section of this prospectus entitled "Underwriting" beginning on page .

Of the proceeds we receive from this offering and the sale of the private placement warrants described in this prospectus, \$350.0 million or \$402.5 million if the underwriters' over-allotment option is exercised in full (\$10.00 per unit) will be deposited into a U.S.-based trust account at J.P. Morgan Chase Bank, N.A., with American Stock Transfer & Trust Company acting as trustee, and \$2.0 million will be available to pay fees and expenses in connection with the closing of this offering and for working capital following the closing of this offering. Except with respect to interest earned on the funds held in the trust account that may be released to us to pay our franchise and income tax obligations, the proceeds from this offering and the sale of the private placement warrants will not be released from the trust account until the earliest to occur of (a) the completion of our initial business combination, (b) the redemption of any public shares properly tendered in connection with a stockholder vote to amend our amended and restated certificate of incorporation to modify the substance or timing of our obligation to redeem 100% of our public shares if we do not complete our initial business combination within 24 months from the closing of this offering and (c) the redemption of our public shares if we are unable to complete our business combination within 24 months from the closing of this offering, subject to applicable law. The proceeds deposited in the trust account could become subject to the claims of our creditors, if any, which could have priority over the claims of our public stockholders.

The underwriters are offering the units for sale on a firm commitment basis. The underwriters expect to deliver the units to the purchasers on or about , 2017.

We are responsible for the information contained in this prospectus. We have not authorized anyone to provide you with different information, and we take no responsibility for any other information others may give to you. We are not, and the underwriters are not, making an offer to sell securities in any jurisdiction where the offer or sale is not permitted. You should not assume that the information contained in this prospectus is accurate as of any date other than the date on the front of this prospectus.

SUMMARY

This summary only highlights the more detailed information appearing elsewhere in this prospectus. As this is a summary, it does not contain all of the information that you should consider in making an investment decision. You should read this entire prospectus carefully, including the information under the section of this prospectus entitled “Risk Factors” and our financial statements and the related notes included elsewhere in this prospectus, before investing.

Unless otherwise stated in this prospectus, references to:

- *“common stock” are to our Class A common stock and our Class B common stock, collectively;*
- *“founder shares” are to shares of our Class B common stock initially purchased by our sponsor in a private placement prior to this offering, and the shares of our Class A common stock issued upon the conversion thereof as provided herein;*
- *“initial stockholders” are to holders of our founder shares prior to this offering;*
- *“Kayne Anderson” are to Kayne Anderson Capital Advisors, L.P., a California limited partnership and its affiliates and the managing member of our sponsor;*
- *“management” or our “management team” are to our officers and directors;*
- *“private placement warrants” are to the warrants issued to our sponsor in a private placement simultaneously with the closing of this offering;*
- *“public shares” are to shares of our Class A common stock sold as part of the units in this offering (whether they are purchased in this offering or thereafter in the open market);*
- *“public stockholders” are to the holders of our public shares, including our initial stockholders and management team to the extent our initial stockholders and/or members of our management team purchase public shares, provided that each initial stockholder’s and member of our management team’s status as a “public stockholder” shall only exist with respect to such public shares;*
- *“specified future issuance” are to an issuance of a class of equity or equity-linked securities to specified purchasers, which may include affiliates of Kayne Anderson and/or one or more investors in funds or separate accounts managed by Kayne Anderson, that we may determine to make in connection with financing our initial business combination, to the extent permitted under applicable regulatory and contractual requirements related to those funds and accounts;*
- *“sponsor” are to Kayne Anderson Sponsor, LLC, a Delaware limited liability company and an affiliate of Kayne Anderson; and*
- *“we,” “us,” “company” or “our company” are to Kayne Anderson Acquisition Corp.*

Each unit consists of one share of Class A common stock and one-third of one warrant for each unit purchased. Each whole warrant entitles the holder thereof to purchase one share of our Class A common stock at a price of \$11.50 per share, subject to adjustment as described in this prospectus, and only whole warrants are exercisable. No fractional warrants will be issued upon separation of the units and only whole warrants will trade. Accordingly, unless you purchase at least three units, you will not be able to receive or trade a whole warrant.

Registered trademarks referred to in this prospectus are the property of their respective owners. Unless we tell you otherwise, the information in this prospectus assumes that the underwriters will not exercise their over-allotment option.

Our Company

We are a newly organized blank check company formed as a Delaware corporation for the purpose of effecting a merger, capital stock exchange, asset acquisition, stock purchase, reorganization or similar business combination with one or more businesses, which we refer to throughout this prospectus as our initial business combination. We have not selected any specific business combination target and we have not, nor has anyone on our behalf, initiated any substantive discussions, directly or indirectly, with any business combination target. We intend to acquire and operate a business in the energy industry and believe our management team is well suited to identify opportunities that have the potential to generate attractive risk-adjusted returns for our stockholders, although we may pursue a business combination opportunity in any business or industry. For our purposes, we define the energy industry as companies that own and operate assets that are used in or provided services to the energy sector, including, but not limited to, assets used in exploring, developing, producing, transporting, storing, gathering, processing, fractionating, refining, distributing or marketing of natural gas, natural gas liquids, crude oil or refined products.

Our management team and Kayne Anderson, an affiliate of our sponsor, have extensive experience in the energy industry—ranging from operating and acquiring companies within multiple sectors of the industry to making public and privately negotiated investments in the industry. We believe this experience makes us very well situated to identify, source, negotiate and execute a business combination with an attractive energy-related target.

We believe a key advantage in sourcing potential business combination targets is the network of contacts our management team and Kayne Anderson have, which includes senior executives in the industry, investment bankers, investment professionals at private equity firms and other financial sponsors and owners of private businesses. We believe Kayne Anderson's reputation and expertise in the energy industry will make us a preferred partner for potential business combination targets. Another key sourcing advantage is Kayne Anderson's existing investment activity in the energy industry, as we believe this will provide us with unique access to potential business combination targets. Further, we believe these industry relationships and investment activity give us a deep understanding of macro trends, investor expectations and market sentiment.

We believe the domestic energy industry is recovering from the downturn which began in late 2014. Based on our analysis, we are of the opinion that crude oil prices have stabilized and will continue to increase over the next few years, and recent actions taken by OPEC to reduce its crude oil production levels should accelerate the market rebalancing process. We believe that increased activity levels for upstream companies during 2017 are a result of higher crude oil prices and should result in a more robust operating environment for the domestic energy sector. We expect to identify many attractive business combination candidates because the prolonged downturn and less accommodating capital markets during this downturn have negatively impacted the financial health of many companies in the energy industry. We believe these factors will cause certain privately held and publicly traded companies to consider sales of all or a portion of their assets.

Our objective is to generate attractive returns for our stockholders. We seek to do this by utilizing a disciplined investment process when reviewing candidates for our initial business combination. Our management team and the investment professionals at Kayne Anderson are industry experts with the ability to identify attractive business combination candidates and capitalize on favorable industry trends. The diversity of our operating and investing experience will enable us to consider candidates in multiple sectors within the energy industry (with an emphasis on the midstream and upstream sectors) and target the area with the most compelling potential returns. We believe this flexibility increases the probability of successfully executing on our business strategy.

Kayne Anderson was founded in 1984 by Ric Kayne and John Anderson and has grown through a disciplined investment philosophy that emphasizes niche opportunities with attractive return expectations and lower risk characteristics. As of February 28, 2017, Kayne Anderson had approximately \$26 billion under management, and of that amount, \$20 billion was invested in energy companies. Today, the firm is recognized as a premier asset manager specializing in energy, credit, equity marketable securities, specialty real estate and growth private equity.

Kayne Anderson's track record in energy investing began in 1992, and since that time the firm has raised eight upstream-focused private equity funds and numerous hedge funds, closed-end funds and separate accounts focused on investing in energy marketable securities. The firm has approximately 60 professionals focused on energy investing, including former industry executives, petroleum engineers, investment bankers and research analysts. As of February 28, 2017, the firm managed \$7 billion in energy private equity funds and \$12 billion in energy marketable securities funds.

Our Chief Executive Officer and a Senior Managing Director of Kayne Anderson, Robert Purgason, has over 35 years of experience in the energy industry, most recently serving as senior vice president, Access at Williams Companies, Inc., responsible for the Central Operation Area and Operational Excellence for the entire enterprise. Mr. Purgason has deep operational and commercial knowledge of midstream companies and has previously served as chief operating officer of Chesapeake Midstream Partners, L.L.C. and Crosstex Energy, L.P. Mr. Purgason's strong leadership abilities, deep technical knowledge and energy-related M&A expertise make him well suited to evaluate candidates for our initial business combination and to serve as our Chief Executive Officer. He has served on the Board of Directors and is the past Chairman of the Texas Pipeline Association, the Board of Visitors Dean's Advisory Council for the College of Engineering at The University of Oklahoma, the Advisory Board for the Chemical, Biological & Materials Engineering School at The University of Oklahoma and past Program Chair and Director of GPA Midstream Association, where he authored numerous technical and marketing papers. He is currently a member of the Dallas Wildcat Committee and the National Association of Corporate Directors. Mr. Purgason also serves on the board of L.B. Foster Company, a manufacturing company specializing in rail, construction and energy related products.

Our Chairman, Kevin McCarthy, who is the co-founder and managing partner of Kayne Anderson's energy marketable securities business, has over 30 years of experience advising and investing in upstream and midstream companies. He has deep, long-standing relationships in the energy industry and serves as chairman of the board and chief executive officer of Kayne Anderson's four publicly traded closed-end funds (NYSE: KYN, KYE, KMF and KED) and is also on the board of directors of energy companies Range Resources Corporation (NYSE: RRC), a domestic upstream company, and ONEOK, Inc. (NYSE: OKE), the general partner of a large publicly traded MLP.

We will also draw on the experience of our Vice-Chairman and Kayne Anderson's co-Chairman, Robert Sinnott, who has over 40 years of investment experience and oversees Kayne Anderson's energy strategies. Since joining in 1992, Mr. Sinnott founded and built Kayne Anderson's energy investment platform into one of the largest domestic energy investment firms. Mr. Sinnott has significant relationships in the energy industry, and he serves as a director of California Resources Corporation (NYSE: CRC), a domestic upstream company. Mr. Sinnott also serves as a member of the board of directors that oversees Plains GP Holdings, L.P. (NYSE: PAGP) and Plains All American Pipeline, L.P. (NYSE: PAA), which is a large publicly traded master limited partnership (MLP).

With respect to the foregoing examples, past performance of Kayne Anderson and our management team is not a guarantee either (i) of success with respect to any business combination we may consummate or (ii) that we will be able to identify a suitable candidate for our initial business combination. You should not rely on the historical performance record of Kayne Anderson or our management as indicative of our future performance. Our officers and directors have not had experience with blank check companies or special purpose acquisition

corporations in the past. In addition, for a list of our executive officers and entities for which a conflict of interest may or does exist between such officers and the company, as well as the priority and preference that such entity has with respect to performance of obligations and presentation of business opportunities to us, please refer to the table and subsequent explanatory paragraph under “Management—Conflicts of Interest”.

Business Strategy

Our business strategy is to identify, combine with and maximize the value of a company with operations in the energy industry. In executing on this strategy, we will look to find a target that (i) complements the experience of our management team and Kayne Anderson, (ii) can benefit from our team’s operating and financial expertise and (iii) represents a compelling investment opportunity. We will focus our efforts on opportunities where we feel we have a competitive advantage and are best situated to enhance the value of the business after completion of the business combination. The ultimate goal of this business strategy is to maximize stockholder value.

Our management team and the investment professionals at Kayne Anderson have an extensive network of contacts in the energy industry. We believe this network is a key competitive advantage in sourcing potential business combination targets. We also believe that Kayne Anderson’s reputation, experience and track record of making investments in the energy industry will make us a preferred partner for potential business combination targets. We believe many privately held and publicly traded companies in the sector consider Kayne Anderson to be a trusted partner and recognize the firm’s ability to add value and enhance returns.

In addition, we believe the breadth of Kayne Anderson’s investment activities in the energy industry is a competitive advantage. Kayne Anderson is very active in both the midstream and upstream sectors across the capital structure (i.e., both equity and debt investments) in both publicly traded and privately held companies. As a result, Kayne Anderson believes it has a broader window into the energy industry, giving us a better understanding of macro trends, investor expectations and market sentiment.

Business Combination Criteria

Consistent with our business strategy, we have identified the following general criteria and guidelines that we believe are important in evaluating candidates for our initial business combination. We will use these criteria and guidelines in evaluating business combination opportunities, but we may decide to enter into our initial business combination with a target business that does not meet these criteria and guidelines. We intend to focus on candidates that we believe:

- are well positioned to benefit from a recovery in energy industry activity levels and/or increased levels of production from the key domestic shale basins;
- will benefit from our team’s operating expertise, technical expertise, structuring expertise, extensive network, insight and capital markets expertise in the energy industry;
- have opportunities to grow the business through organic growth projects and third-party acquisitions;
- will be well received by public investors and are expected to have good access to the public capital markets;
- are engaged in activities that are consistent with Kayne Anderson’s view of macro trends in the energy industry; and
- are expected to generate attractive risk-adjusted returns for our stockholders.

These criteria are not intended to be exhaustive. Any evaluation relating to the merits of a particular initial business combination may be based, to the extent relevant, on these general guidelines as well as other considerations, factors and criteria that our management may deem relevant. In the event that we decide to enter into our initial business combination with a target business that does not meet the above criteria and guidelines, we will disclose that the target business does not meet the above criteria in our stockholder communications related to our initial business combination, which, as discussed in this prospectus, would be in the form of proxy solicitation materials or tender offer documents that we would file with the SEC.

Initial Business Combination

NASDAQ rules require that we must complete one or more business combinations having an aggregate fair market value of at least 80% of the assets held in the trust account (excluding the deferred underwriting commissions and taxes payable on the income earned on the trust account) at the time of the agreement to enter into the initial business combination. Our board will make the determination as to the fair market value of a target business or businesses. If our board is not able to independently determine the fair market value of a target business or businesses, we will obtain an opinion from an independent investment banking firm that is a member of the Financial Industry Regulatory Authority, or “FINRA”, or an independent accounting firm with respect to the satisfaction of such criteria. While we consider it unlikely that our board will not be able to make an independent determination of the fair market value of a target business or businesses, it may be unable to do so if the board is less familiar or experienced with the target company’s business or there is a significant amount of uncertainty as to the value of the company’s assets or prospects.

We may, at our option, pursue a business combination opportunity jointly with one or more entities affiliated with Kayne Anderson and/or one or more investors in funds or separate accounts managed by Kayne Anderson, which we refer to as an “Affiliated Joint Acquisition.” Any such parties would co-invest only if (i) permitted by applicable regulatory and other legal limitations; (ii) we and Kayne Anderson considered a transaction to be mutually beneficial to us as well as the affiliated entity; and (iii) other business reasons exist to do so, such as the strategic merits of including such co-investors, the need for additional capital beyond the amount held in our trust account to fund the business combination transaction and/or the desire to obtain committed capital for closing the business combination transaction. An Affiliated Joint Acquisition may be effected through a co-investment with us in the target business at the time of our initial business combination, or we could raise additional proceeds to complete the business combination by issuing to such parties a class of equity or equity-linked securities. We refer to this potential future issuance, or a similar issuance to other specified purchasers, as a “specified future issuance” throughout this prospectus. The amount and other terms and conditions of any such specified future issuance would be determined at the time thereof. We are not obligated to make any specified future issuance and may determine not to do so. This is not an offer for any specified future issuance. Pursuant to the anti-dilution provisions of our Class B common stock, any such specified future issuance would result in an adjustment to the conversion ratio such that our initial stockholders and their permitted transferees, if any, would retain their aggregate percentage ownership at 20% of the sum of the total number of all shares of common stock outstanding upon completion of this offering plus all shares issued in the specified future issuance, unless the holders of a majority of the then-outstanding shares of Class B common stock agreed to waive such adjustment with respect to the specified future issuance at the time thereof. We cannot determine at this time whether a majority of the holders of our Class B common stock would then agree to so waive such adjustment to the conversion ratio. They may waive such adjustment due to (but not limited to) the following: (i) closing conditions which are part of the agreement for our initial business combination; (ii) negotiation with Class A stockholders on structuring an initial business combination; (iii) negotiation with parties providing financing which would trigger the anti-dilution provisions of the Class B common stock; or (iv) as part of the Affiliated Joint Acquisition. If such adjustment is not waived, the specified future issuance would not reduce the percentage ownership of holders of our Class B common stock, but would

reduce the percentage ownership of holders of our Class A common stock. If such adjustment is waived, the specified future issuance would reduce the percentage ownership of holders of both classes of our common stock.

We anticipate structuring our initial business combination either (i) in such a way so that the post-transaction company in which our public stockholders own shares will own or acquire 100% of the equity interests or assets of the target business or businesses, or (ii) in such a way so that the post-transaction company owns or acquires less than 100% of such interests or assets of the target business in order to meet certain objectives of the target management team or stockholders, or for other reasons, including an Affiliated Joint Acquisition as described above. However, we will only complete a business combination if the post-transaction company owns or acquires 50% or more of the outstanding voting securities of the target or otherwise acquires a controlling interest in the target sufficient for it not to be required to register as an investment company under the Investment Company Act of 1940, as amended, or the “Investment Company Act”. Even if the post-transaction company owns or acquires 50% or more of the voting securities of the target, our stockholders prior to the business combination may collectively own a minority interest in the post-transaction company, depending on valuations ascribed to the target and us in the business combination transaction. For example, we could pursue a transaction in which we issue a substantial number of new shares in exchange for all of the outstanding capital stock of a target. In this case, we would acquire a 100% controlling interest in the target. However, as a result of the issuance of a substantial number of new shares, our stockholders immediately prior to our initial business combination could own less than a majority of our outstanding shares subsequent to our initial business combination. If less than 100% of the equity interests or assets of a target business or businesses are owned or acquired by the post-transaction company, the portion of such business or businesses that is owned or acquired is what will be valued for purposes of the 80% of net assets test. If the business combination involves more than one target business, the 80% of net assets test will be based on the aggregate value of all of the transactions and we will treat the target businesses together as the initial business combination for purposes of a tender offer or for seeking stockholder approval, as applicable.

Our Business Combination Process

In evaluating prospective business combinations, we will conduct a thorough due diligence review process. This due diligence review process will be specific to the target business, but will include, among other things, a review of historical and projected financial and operating data, meetings with management and their financial sponsors (if applicable), an assessment of the commodity price risk of the business and our ability to mitigate such risks with hedges, on-site inspection of assets, discussion with customers, legal and environmental reviews and other reviews as we deem appropriate. We will also utilize our expertise and Kayne Anderson’s expertise operating energy-related assets and evaluating operating projections, financial projections and determining the appropriate return expectations given the risk profile of the target business.

We are not prohibited from pursuing an initial business combination with a company that is affiliated with Kayne Anderson or our officers or directors. In the event we seek to complete our initial business combination with a company that is affiliated with Kayne Anderson or our officers or directors, we, or a committee of independent directors, will obtain an opinion from an independent investment banking firm which is a member of FINRA or an independent accounting firm that our initial business combination is fair to our company from a financial point of view.

Members of our management team and our independent directors will directly or indirectly own founder shares and/or private placement warrants following this offering and, accordingly, may have a conflict of interest in determining whether a particular target business is an appropriate business with which to effectuate our initial business combination. Further, each of our officers and directors may have a conflict of interest with respect to

evaluating a particular business combination if the retention or resignation of any such officers and directors were to be included by a target business as a condition to any agreement with respect to our initial business combination.

All of the members of our management team are employed by Kayne Anderson or affiliates of Kayne Anderson. Kayne Anderson and its affiliates are continuously made aware of potential business opportunities, one or more of which we may desire to pursue for a business combination; we have not, however, selected any specific business combination target and we have not, nor has anyone on our behalf, initiated any substantive discussions, directly or indirectly, with any business combination target.

Kayne Anderson and each of our officers and directors presently has, and any of them in the future may have additional, fiduciary or contractual obligations to other entities pursuant to which such officer or director is or will be required to present a business combination opportunity. For example, Kayne Anderson and certain of its officers currently are obligated by contract to offer or allocate certain investment opportunities first to specific private funds managed by them. Accordingly, if any of our officers or directors becomes aware of a business combination opportunity which is suitable for an entity to which he or she has then-current fiduciary or contractual obligations, he or she will honor his or her fiduciary or contractual obligations to present such opportunity to such entity. We believe, however, that the fiduciary duties or contractual obligations of Kayne Anderson and our officers or directors will not materially affect our ability to complete our initial business combination. In addition, we may, at our option, pursue an Affiliated Joint Acquisition opportunity with an entity to which Kayne Anderson or an officer or director has a fiduciary or contractual obligation. Any such entity may co-invest with us in the target business at the time of our initial business combination, or we could raise additional proceeds to complete the business combination by making a specified future issuance to any such entity. Our amended and restated certificate of incorporation will provide that we renounce our interest in any corporate opportunity offered to any director or officer unless such opportunity is expressly offered to such person solely in his or her capacity as a director or officer of our company and such opportunity is one we are legally and contractually permitted to undertake and would otherwise be reasonable for us to pursue, and to the extent the director or officer is permitted to refer that opportunity to us without violating another legal obligation.

Our officers and directors have agreed not to become an officer or director of any other special purpose acquisition company with a class of securities registered under the Securities Exchange Act of 1934, as amended, or the Exchange Act, until we have entered into a definitive agreement regarding our initial business combination or we have failed to complete our initial business combination within 24 months after the closing of this offering.

We will have two independent directors upon completion of this offering, and we expect to add two more independent directors after completion of this offering. NASDAQ listing standards require that a majority of our board of directors be independent. In conformity with NASDAQ's "phase-in" rules, within one year of our initial public offering, a majority of our board of directors will be independent. An "independent director" is defined generally as a person other than an officer or employee of the company or its subsidiaries or any other individual having a relationship which, in the opinion of the company's board of directors, would interfere with the director's exercise of independent judgment in carrying out the responsibilities of a director.

Corporate Information

Our executive offices are located at 811 Main Street, 14th Floor, Houston, TX 77002, and our telephone number is (713) 493-2000.

We are an "emerging growth company," as defined in Section 2(a) of the Securities Act of 1933, as amended, or the Securities Act, as modified by the Jumpstart Our Business Startups Act of 2012, or the JOBS Act. As such, we are eligible to take advantage of certain exemptions from various reporting requirements that

are applicable to other public companies that are not emerging growth companies including, but not limited to, not being required to comply with the auditor attestation requirements of Section 404 of the Sarbanes-Oxley Act of 2002, or the Sarbanes-Oxley Act, reduced disclosure obligations regarding executive compensation in our periodic reports and proxy statements, and exemptions from the requirements of holding a non-binding advisory vote on executive compensation and stockholder approval of any golden parachute payments not previously approved. If some investors find our securities less attractive as a result, there may be a less active trading market for our securities and the prices of our securities may be more volatile.

In addition, Section 107 of the JOBS Act also provides that an emerging growth company can take advantage of the extended transition period provided in Section 7(a)(2)(B) of the Securities Act for complying with new or revised accounting standards. In other words, an emerging growth company can delay the adoption of certain accounting standards until those standards would otherwise apply to private companies. We intend to take advantage of the benefits of this extended transition period.

We will remain an emerging growth company until the earlier of (1) the last day of the fiscal year (a) following the fifth anniversary of the completion of this offering, (b) in which we have total annual gross revenue of at least \$1.0 billion, or (c) in which we are deemed to be a large accelerated filer, which means the market value of our Class A common stock that is held by non-affiliates exceeds \$700 million as of the prior June 30, and (2) the date on which we have issued more than \$1.0 billion in non-convertible debt securities during the prior three-year period. References herein to emerging growth company shall have the meaning associated with it in the JOBS Act.

The Offering

In making your decision on whether to invest in our securities, you should take into account not only the backgrounds of the members of our management team, but also the special risks we face as a blank check company and the fact that this offering is not being conducted in compliance with Rule 419 promulgated under the Securities Act. You will not be entitled to protections normally afforded to investors in Rule 419 blank check offerings. You should carefully consider these and the other risks set forth in the section of this prospectus entitled "Risk Factors."

Securities offered 35,000,000 units, at \$10.00 per unit, each unit consisting of:

- one share of Class A common stock; and
- one-third of one warrant.

Proposed NASDAQ symbols Units: "KAACU"

Class A Common Stock: "KAAC"

Warrants: "KAACW"

Trading commencement and separation of Class A common stock and warrants

The units will begin trading on or promptly after the date of this prospectus. The Class A common stock and warrants comprising the units will begin separate trading on the 52nd day following the date of this prospectus unless Citigroup Global Markets Inc., Deutsche Bank Securities Inc., and Credit Suisse inform us of their decision to allow earlier separate trading, subject to our having filed the Current Report on Form 8-K described below and having issued a press release announcing when such separate trading will begin. Once the shares of Class A common stock and warrants commence separate trading, holders will have the option to continue to hold units or separate their units into the component securities. Holders will need to have their brokers contact our transfer agent in order to separate the units into shares of Class A common stock and warrants. No fractional warrants will be issued upon separation of the units and only whole warrants will trade. Accordingly, unless you purchase at least three units, you will not be able to receive or trade a whole warrant.

Separate trading of the Class A common stock and warrants is prohibited until we have filed a Current Report on Form 8-K

In no event will the Class A common stock and warrants be traded separately until we have filed a Current Report on Form 8-K with the SEC containing an audited balance sheet reflecting our receipt of the gross proceeds at the closing of this offering. We will file the Current Report on Form 8-K promptly after the closing of this offering, which is anticipated to take place three business days from the date of this prospectus. If the underwriters' over-allotment option is exercised following the initial filing of such Current Report on Form 8-K, a

second or amended Current Report on Form 8-K will be filed to provide updated financial information to reflect the exercise of the underwriters' over-allotment option.

Units:

Number outstanding before this offering	0
Number outstanding after this offering	35,000,000(1)

Common stock:

Number outstanding before this offering	10,062,500 shares of Class B common stock(2)(3)
Number outstanding after this offering	43,750,000 shares of Class A common stock and Class B common stock(1)(3)

Warrants:

Number of private placement warrants to be sold in a private placement simultaneously with this offering	6,000,000(1)
Number of warrants to be outstanding after this offering and the private placement	17,666,667(1)

- (1) Assumes no exercise of the underwriters' over-allotment option and the forfeiture by our sponsor of 1,312,500 founder shares.
- (2) Includes up to 1,312,500 shares that are subject to forfeiture by our sponsor depending on the extent to which the underwriters' over-allotment option is exercised.
- (3) Comprised of 35,000,000 shares of Class A common stock and 8,750,000 shares of Class B common stock (or founders shares). The Class B common stock is convertible into shares of our Class A common stock on a one-for-one basis, subject to adjustment as described below adjacent to the caption "Founder shares conversion and anti-dilution."

Exercisability	Each whole warrant is exercisable to purchase one share of our Class A common stock and only whole warrants are exercisable.
Exercise price	\$11.50 per share, subject to adjustment as described herein.
Exercise period	<p>The warrants will become exercisable on the later of:</p> <ul style="list-style-type: none"> • 30 days after the completion of our initial business combination, or • 12 months from the closing of this offering; <p>provided in each case that we have an effective registration statement under the Securities Act covering the shares of Class A common stock issuable upon exercise of the warrants and a current prospectus relating to them is available (or we permit holders to exercise their warrants on a cashless basis under the circumstances specified in the warrant agreement).</p> <p>We are not registering the shares of Class A common stock issuable upon exercise of the warrants at this time. However, we have agreed that as soon as practicable, but in no event later than 15 business days after the closing of our initial business combination, we will use our reasonable best efforts to file, and within 60 business days following our initial business combination to have declared effective, a registration statement covering the shares of Class A common stock issuable upon exercise of the warrants, to maintain a current prospectus relating to those shares of Class A common stock until the warrants expire or are redeemed; provided, that if our Class A common stock is at the time of any exercise of a warrant not listed on a national securities exchange such that it satisfies the definition of a “covered security” under Section 18(b)(1) of the Securities Act, we may, at our option, require holders of public warrants who exercise their warrants to do so on a “cashless basis” in accordance with Section 3(a)(9) of the Securities Act and, in the event we so elect, we will not be required to file or maintain in effect a registration statement.</p> <p>The warrants will expire at 5:00 p.m., New York City time, five years after the completion of our initial business combination or earlier upon redemption or liquidation. On the exercise of any warrant, the warrant exercise price will be paid directly to us and not placed in the trust account.</p>
Redemption of warrants	<p>Once the warrants become exercisable, we may redeem the outstanding warrants (except as described herein with respect to the private placement warrants):</p> <ul style="list-style-type: none"> • in whole and not in part; • at a price of \$0.01 per warrant; • upon a minimum of 30 days’ prior written notice of redemption, which we refer to as the 30-day redemption period; and

- if, and only if, the last sale price of our Class A common stock equals or exceeds \$18.00 per share for any 20 trading days within a 30-trading day period ending on the third trading day prior to the date on which we send the notice of redemption to the warrant holders.

We will not redeem the warrants unless a registration statement under the Securities Act covering the shares of Class A common stock issuable upon exercise of the warrants is effective and a current prospectus relating to those shares of Class A common stock is available throughout the 30-day redemption period, except if the warrants may be exercised on a cashless basis and such cashless exercise is exempt from registration under the Securities Act. If and when the warrants become redeemable by us, we may exercise our redemption right even if we are unable to register or qualify the underlying securities for sale under all applicable state securities laws.

If we call the warrants for redemption as described above, our management will have the option to require all holders that wish to exercise warrants to do so on a “cashless basis.” In determining whether to require all holders to exercise their warrants on a “cashless basis,” our management will consider, among other factors, our cash position, the number of warrants that are outstanding and the dilutive effect on our stockholders of issuing the maximum number of shares of Class A common stock issuable upon the exercise of our warrants. In such event, each holder would pay the exercise price by surrendering the warrants for that number of shares of Class A common stock equal to the quotient obtained by dividing (x) the product of the number of shares of Class A common stock underlying the warrants, multiplied by the difference between the exercise price of the warrants and the “fair market value” (defined below) by (y) the fair market value. The “fair market value” shall mean the average reported last sale price of the Class A common stock for the 10 trading days ending on the third trading day prior to the date on which the notice of redemption is sent to the holders of warrants. Please see the section of this prospectus entitled “Description of Securities—Warrants—Public Stockholders’ Warrants” for additional information.

None of the private placement warrants will be redeemable by us so long as they are held by the sponsor or its permitted transferees.

Founder shares

On December 23, 2016, our sponsor purchased 10,062,500 founder shares for an aggregate purchase price of \$25,000, or approximately \$0.002 per share. In March 2017, our sponsor transferred 40,000 founder shares to each of our independent director nominees at a price of \$0.002 per share. The 80,000 founder shares held by our nominees will not be subject to forfeiture in the event the underwriters’ overallotment option is not exercised. Prior to the initial investment in the company of \$25,000 by our sponsor, the company had no assets,

tangible or intangible. The per share purchase price of the founder shares was determined by dividing the amount of cash contributed to the company by the aggregate number of founder shares issued. The number of founder shares issued was determined based on the expectation that the founder shares would represent 20% of the outstanding shares after this offering. As such, our initial stockholders will collectively own 20% of our issued and outstanding shares after this offering (assuming they do not purchase any units in this offering). Up to 1,312,500 founder shares will be subject to forfeiture by our sponsor depending on the extent to which the underwriters' over-allotment option is exercised so that our initial stockholders will maintain ownership of 20% of our common stock after this offering.

The founder shares are identical to the shares of Class A common stock included in the units being sold in this offering, except that:

- the founder shares are shares of Class B common stock that automatically convert into shares of our Class A common stock at the time of our initial business combination, or at any time prior thereto at the option of the holder, on a one-for-one basis, subject to adjustment as described herein;
- the founder shares are subject to certain transfer restrictions, as described in more detail below;
- our sponsor, officers and directors have entered into a letter agreement with us, pursuant to which they have agreed (i) to waive their redemption rights with respect to any founder shares and any public shares held by them in connection with the completion of our initial business combination and (ii) to waive their rights to liquidating distributions from the trust account with respect to any founder shares held by them if we fail to complete our initial business combination within 24 months from the closing of this offering, although they will be entitled to liquidating distributions from the trust account with respect to any public shares they hold if we fail to complete our business combination within the prescribed time frame. If we submit our initial business combination to our public stockholders for a vote, we will complete our initial business combination only if a majority of the outstanding shares of common stock voted are voted in favor of the initial business combination. Pursuant to the letter agreement, our sponsor, officers and directors have agreed to vote any founder shares held by them and any public shares purchased during or after this offering (including in open market and privately negotiated transactions) in favor of our initial business combination. As a result, in addition to our initial stockholders' founder shares, we would need 13,125,001, or 37.5%, of the 35,000,000 public shares sold in this offering to be voted in favor of a transaction (assuming all outstanding shares are voted) in order to have our initial business combination approved (assuming the over-allotment option is not exercised); and
- the founder shares are entitled to registration rights.

Transfer restrictions on founder shares

Our initial stockholders have agreed not to transfer, assign or sell any of their founder shares until the earlier to occur of: (A) one year after the completion of our initial business combination or (B) subsequent to our initial business combination, (x) if the last sale price of our Class A common stock equals or exceeds \$12.00 per share (as adjusted for stock splits, stock dividends, reorganizations, recapitalizations and the like) for any 20 trading days within any 30-trading day period commencing at least 150 days after our initial business combination, or (y) the date on which we complete a liquidation, merger, stock exchange or other similar transaction that results in all of our stockholders having the right to exchange their shares of common stock for cash, securities or other property (except as described herein under the section of this prospectus entitled “Principal Stockholders—Restrictions on Transfers of Founder Shares and Private Placement Warrants”). We refer to such transfer restrictions throughout this prospectus as the lock-up.

Founder shares conversion and anti-dilution rights

The shares of Class B common stock will automatically convert into shares of our Class A common stock at the time of our initial business combination on a one-for-one basis, subject to adjustment for stock splits, stock dividends, reorganizations, recapitalizations and the like, and subject to further adjustment as provided herein. In the case that additional shares of Class A common stock, or equity-linked securities, are issued or deemed issued in excess of the amounts offered in this prospectus and related to the closing of the initial business combination, including pursuant to a specified future issuance, the ratio at which shares of Class B common stock shall convert into shares of Class A common stock will be adjusted (unless the holders of a majority of the outstanding shares of Class B common stock agree to waive such adjustment with respect to any such issuance or deemed issuance, including a specified future issuance) so that the number of shares of Class A common stock issuable upon conversion of all shares of Class B common stock will equal, in the aggregate, on an as-converted basis, 20% of the sum of the total number of all shares of common stock outstanding upon the completion of this offering plus all shares of Class A common stock and equity-linked securities issued or deemed issued in connection with the initial business combination (excluding any shares or equity-linked securities issued, or to be issued, to any seller in the business combination and any private placement-equivalent warrants issued to our sponsor or its affiliates upon conversion of loans made to us). Holders of founder shares may also elect to convert their shares of Class B common stock into an equal number of shares of Class A common stock, subject to adjustment as provided above, at any time.

Voting

Holders of the Class A common stock and holders of the Class B common stock will vote together as a single class on all matters submitted to a vote of our stockholders, except as required by law. Each share of common stock will have one vote on all such matters.

Private placement warrants

Our sponsor has committed, pursuant to a written agreement, to purchase an aggregate of 6,000,000 private placement warrants (or 6,700,000 if the over-allotment option is exercised in full), each exercisable to purchase one share of our Class A common stock at \$11.50 per share, at a price of \$1.50 warrant (approximately \$9,000,000 in the aggregate or \$10,050,000 in the aggregate if the over-allotment option is exercised in full) in a private placement that will occur simultaneously with the closing of this offering. Each private placement warrant entitles the holder thereof to purchase one share of our Class A common stock at a price of \$11.50 per share. A portion of the purchase price of the private placement warrants will be added to the proceeds from this offering to be held in the trust account such that at the time of closing \$350.0 million (or \$402.5 million if the underwriters exercise their over-allotment option in full) will be held in the trust account. If we do not complete our initial business combination within 24 months from the closing of this offering, the proceeds from the sale of the private placement warrants held in the trust account will be used to fund the redemption of our public shares (subject to the requirements of applicable law) and the private placement warrants will expire worthless.

The private placement warrants will be non-redeemable and exercisable on a cashless basis so long as they are held by the sponsor or its permitted transferees. If the private placement warrants are held by holders other than the sponsor or its permitted transferees, the private placement warrants will be redeemable by us and exercisable by the holders on the same basis as the warrants included in the units being sold in this offering.

Transfer restrictions on private placement warrants

The private placement warrants (including the Class A common stock issuable upon exercise of the private placement warrants) will not be transferable, assignable or saleable until 30 days after the completion of our initial business combination (except as described under the section of this prospectus entitled “Principal Stockholders—Restrictions on Transfers of Founder Shares and Private Placement Warrants”).

Cashless exercise of private placement warrants

If holders of private placement warrants elect to exercise them on a cashless basis, they would pay the exercise price by surrendering their warrants for that number of shares of Class A common stock equal to the quotient obtained by dividing (x) the product of the number of shares of Class A common stock underlying the warrants, multiplied by the difference between the exercise price of the warrants and the “fair market value” (defined below) by (y) the fair market value. The “fair market value” shall mean the average reported last sale price of the Class A common stock for the 10 trading days ending on the third trading day prior to the date on which the notice of warrant exercise is sent to the warrant agent. The reason that we have agreed that these

warrants will be exercisable on a cashless basis so long as they are held by the sponsor or its permitted transferees is because it is not known at this time whether they will be affiliated with us following a business combination. If they remain affiliated with us, their ability to sell our securities in the open market will be significantly limited. We expect to have policies in place that prohibit insiders from selling our securities except during specific periods of time. Even during such periods of time when insiders will be permitted to sell our securities, an insider cannot trade in our securities if he or she is in possession of material non-public information. Accordingly, unlike public stockholders who could sell the shares of Class A common stock issuable upon exercise of the warrants freely in the open market, the insiders could be significantly restricted from doing so. As a result, we believe that allowing the holders to exercise such warrants on a cashless basis is appropriate.

Proceeds to be held in trust account

Of the net proceeds of this offering and the sale of the private placement warrants, \$350,000,000, or \$10.00 per unit (\$402,500,000, or \$10.00 per unit, if the underwriters' over-allotment option is exercised in full) will be placed into a U.S.-based trust account at J.P. Morgan Chase Bank, N.A., with American Stock Transfer & Trust Company acting as trustee. These proceeds include \$12,250,000 (or \$14,087,500 if the underwriters' over-allotment option is exercised in full) in deferred underwriting commissions.

Except with respect to interest earned on the funds held in the trust account that may be released to us to pay our franchise and income tax obligations, the proceeds from this offering and the sale of the private placement warrants will not be released from the trust account until the earliest of (a) the completion of our initial business combination, (b) the redemption of any public shares properly tendered in connection with a stockholder vote to amend our amended and restated certificate of incorporation to modify the substance or timing of our obligation to redeem 100% of our public shares if we do not complete our initial business combination within 24 months from the closing of this offering and (c) the redemption of our public shares if we are unable to complete our business combination within 24 months from the closing of this offering, subject to applicable law. The proceeds deposited in the trust account could become subject to the claims of our creditors, if any, which could have priority over the claims of our public stockholders.

Anticipated expenses and funding sources

Except as described above with respect to the payment of taxes, unless and until we complete our initial business combination, no proceeds held in the trust account will be available for our use. Based upon current interest rates, we expect the trust account to generate approximately \$1,225,000 of interest annually. Unless and until we

complete our initial business combination, we may pay our expenses only from:

- the net proceeds of this offering and the sale of the private placement warrants not held in the trust account, which will be approximately \$1,250,000 in working capital after the payment of approximately \$750,000 in expenses relating to this offering; and
- any loans or additional investments from our sponsor, members of our management team or their affiliates or other third parties, although they are under no obligation to advance funds or invest in us, and provided that any such loans will not have any claim on the proceeds held in the trust account unless such proceeds are released to us upon completion of a business combination.

Conditions to completing our initial business combination

There is no limitation on our ability to raise funds privately, including pursuant to any specified future issuance, or through loans in connection with our initial business combination. Our initial business combination must occur with one or more target businesses that together have an aggregate fair market value of at least 80% of our assets held in the trust account (excluding the deferred underwriting commissions and taxes payable on the income earned on the trust account) at the time of the agreement to enter into the initial business combination.

If our board is not able to independently determine the fair market value of the target business or businesses or we are considering an initial business combination with an affiliated entity, we will obtain an opinion from an independent investment banking firm that is a member of FINRA or an independent accounting firm. We anticipate structuring our initial business combination either (i) in such a way so that the post-transaction company in which our public stockholders own shares will own or acquire 100% of the equity interests or assets of the target business or businesses, or (ii) in such a way that the post-transaction company owns or acquires less than 100% of such interests or assets of the target business in order to meet certain objectives of the target management team or stockholders, or for other reasons, including an Affiliated Joint Acquisition as described above. However, we will only complete a business combination if the post-transaction company owns or acquires 50% or more of the outstanding voting securities of the target or otherwise acquires a controlling interest in the target sufficient for it not to be required to register as an investment company under the Investment Company Act. Even if the post-transaction company owns or acquires 50% or more of the voting securities of the target, our stockholders prior to the business combination may collectively own a minority interest in the post business combination company, depending on valuations ascribed to the target and us in the business combination transaction. If less than 100% of the equity interests or assets of a target business or businesses are owned or acquired by the post-transaction company, the portion of such business or businesses that is owned or

acquired is what will be valued for purposes of the 80% of net assets test, provided that in the event that the business combination involves more than one target business, the 80% of net assets test will be based on the aggregate value of all of the transactions and we will treat the target businesses together as the initial business combination for purposes of a tender offer or for seeking stockholder approval, as applicable.

Permitted purchases of public shares by our affiliates

If we seek stockholder approval of our initial business combination and we do not conduct redemptions in connection with our initial business combination pursuant to the tender offer rules, our initial stockholders, directors, officers, advisors or their affiliates may purchase shares in privately negotiated transactions or in the open market either prior to or following the completion of our initial business combination. There is no limit on the number of shares our initial stockholders, directors, officers, advisors or their affiliates may purchase in such transactions, subject to compliance with applicable law and the rules of NASDAQ. However, they have no current commitments, plans or intentions to engage in such transactions and have not formulated any terms or conditions for any such transactions. One purpose and effect of any such transactions would be to seek to obtain the necessary number of votes in favor of our initial business combination, as our sponsor, directors and officers have agreed, pursuant to the letter agreement, to vote any founder shares held by them and any public shares purchased during or after this offering (including in open market and privately negotiated transactions) in favor of our initial business combination. If they engage in such transactions, they will not make any such purchases when they are in possession of any material nonpublic information not disclosed to the seller or if such purchases are prohibited by Regulation M under the Exchange Act. We do not currently anticipate that such purchases, if any, would constitute a tender offer subject to the tender offer rules under the Exchange Act or a going-private transaction subject to the going-private rules under the Exchange Act; however, if the purchasers determine at the time of any such purchases that the purchases are subject to such rules, the purchasers will comply with such rules. Subsequent to the consummation of this offering, we will adopt an insider trading policy which will require insiders to refrain from purchasing shares during certain periods and when they are in possession of any material nonpublic information and to clear all trades with our legal counsel prior to execution. We cannot currently determine whether our insiders will make such purchases pursuant to a Rule 10b5-1 plan, as the decision whether to make such purchases pursuant to a Rule 10b5-1 plan will be dependent upon several factors, including but not limited to, the timing and size of such purchases. Depending on such circumstances, our insiders may either make such purchases pursuant to a Rule 10b5-1 plan or determine that such a plan is not necessary.

Redemption rights for public stockholders upon completion of our initial business combination

We will provide our stockholders with the opportunity to redeem all or a portion of their public shares upon the completion of our initial business combination at a per-share price, payable in cash, equal to the aggregate amount then on deposit in the trust account as of two business days prior to the consummation of our initial business combination, including interest earned on the funds held in the trust account and not previously released to us to pay our franchise and income taxes, divided by the number of then outstanding public shares, subject to the limitations described herein. The amount in the trust account is initially anticipated to be \$10.00 per public share. The per-share amount we will distribute to investors who properly redeem their shares will not be reduced by the deferred underwriting commissions we will pay to the underwriters. There will be no redemption rights upon the completion of our initial business combination with respect to our warrants. Our sponsor, officers and directors have entered into a letter agreement with us, pursuant to which they have agreed to waive their redemption rights with respect to any founder shares held by them and any public shares they may acquire during or after this offering in connection with the completion of our business combination or otherwise.

Manner of conducting redemptions

We will provide our public stockholders with the opportunity to redeem all or a portion of their public shares upon the completion of our initial business combination either (i) in connection with a stockholder meeting called to approve the business combination or (ii) by means of a tender offer. The decision as to whether we will seek stockholder approval of a proposed business combination or conduct a tender offer will be made by us, solely in our discretion, and will be based on a variety of factors such as the timing of the transaction and whether the terms of the transaction would require us to seek stockholder approval under the law or stock exchange listing requirements. Asset acquisitions and stock purchases would not typically require stockholder approval while direct mergers with our company where we do not survive and any transactions where we issue more than 20% of our outstanding common stock or seek to amend our amended and restated certificate of incorporation would require stockholder approval. We may conduct redemptions without a stockholder vote pursuant to the tender offer rules of the SEC unless stockholder approval is required by law or stock exchange listing requirements or we choose to seek stockholder approval for business or other legal reasons.

If a stockholder vote is not required and we do not decide to hold a stockholder vote for business or other legal reasons, we will, pursuant to our amended and restated certificate of incorporation:

- conduct the redemptions pursuant to Rule 13e-4 and Regulation 14E of the Exchange Act, which regulate issuer tender offers, and

- file tender offer documents with the SEC prior to completing our initial business combination which contain substantially the same financial and other information about the initial business combination and the redemption rights as is required under Regulation 14A of the Exchange Act, which regulates the solicitation of proxies.

Such provisions may be amended if approved by holders of 65% of our common stock entitled to vote thereon.

Whether or not we maintain our registration under the Exchange Act or our listing on NASDAQ, we will provide our public stockholders with the opportunity to redeem their public shares by one of the two methods listed above. Upon the public announcement of our business combination, if we elect to conduct redemptions pursuant to the tender offer rules, we or our sponsor will terminate any plan established in accordance with Rule 10b5-1 to purchase shares of our Class A common stock in the open market, in order to comply with Rule 14e-5 under the Exchange Act.

In the event we conduct redemptions pursuant to the tender offer rules, our offer to redeem will remain open for at least 20 business days, in accordance with Rule 14e-1(a) under the Exchange Act, and we will not be permitted to complete our initial business combination until the expiration of the tender offer period. In addition, the tender offer will be conditioned on public stockholders not tendering more than a specified number of public shares, which number will be based on the requirement that we may not redeem public shares in an amount that would cause our net tangible assets to be less than \$5,000,001 upon consummation of our initial business combination and after payment of underwriters' fees and commissions (so that we are not subject to the SEC's "penny stock" rules) or any greater net tangible asset or cash requirement which may be contained in the agreement relating to our initial business combination. If public stockholders tender more shares than we have offered to purchase, we will withdraw the tender offer and not complete the initial business combination.

If, however, stockholder approval of the transaction is required by law or stock exchange listing requirements, or we decide to obtain stockholder approval for business or other legal reasons, we will:

- conduct the redemptions in conjunction with a proxy solicitation pursuant to Regulation 14A of the Exchange Act, which regulates the solicitation of proxies, and not pursuant to the tender offer rules, and
- file proxy materials with the SEC.

If we seek stockholder approval, we will complete our initial business combination only if a majority of the outstanding shares of common stock voted are voted in favor of the business combination. A quorum

for such meeting will consist of the holders present in person or by proxy of shares of outstanding capital stock of the company representing a majority of the voting power of all outstanding shares of capital stock of the company entitled to vote at such meeting. Our initial stockholders will count towards this quorum and, pursuant to the letter agreement, our sponsor, officers and directors have agreed to vote their founder shares and any public shares purchased during or after this offering (including in open market and privately negotiated transactions) in favor of our initial business combination. For purposes of seeking approval of the majority of our outstanding shares of common stock voted, non-votes will have no effect on the approval of our initial business combination once a quorum is obtained. As a result, in addition to our initial stockholders' founder shares, we would need 13,125,001, or 37.5%, of the 35,000,000 public shares sold in this offering to be voted in favor of a transaction (assuming all outstanding shares are voted) in order to have our initial business combination approved (assuming the over-allotment option is not exercised). We intend to give approximately 30 days (but not less than 10 days nor more than 60 days) prior written notice of any such meeting, if required, at which a vote shall be taken to approve our initial business combination. These quorum and voting thresholds, and the voting agreements of our initial stockholders, may make it more likely that we will consummate our initial business combination. Each public stockholder may elect to redeem its public shares irrespective of whether they vote for or against the proposed transaction.

We may require our public stockholders seeking to exercise their redemption rights, whether they are record holders or hold their shares in "street name," to either tender their certificates to our transfer agent prior to the date set forth in the tender offer documents mailed to such holders, or up to two business days prior to the vote on the proposal to approve the business combination in the event we distribute proxy materials, or to deliver their shares to the transfer agent electronically. We believe that this will allow our transfer agent to efficiently process any redemptions without the need for further communication or action from the redeeming public stockholders, which could delay redemptions and result in additional administrative cost. If the proposed business combination is not approved and we continue to search for a target company, we will promptly return any certificates delivered, or shares tendered electronically, by public stockholders who elected to redeem their shares.

Our amended and restated certificate of incorporation will provide that in no event will we redeem our public shares in an amount that would cause our net tangible assets to be less than \$5,000,001 upon consummation of our initial business combination and after payment of underwriters' fees and commissions (so that we are not subject to the SEC's "penny stock" rules) or any greater net tangible asset or cash requirement which may be contained in the agreement relating to our initial business combination. For example, the proposed business

combination may require: (i) cash consideration to be paid to the target or its owners, (ii) cash to be transferred to the target for working capital or other general corporate purposes or (iii) the retention of cash to satisfy other conditions in accordance with the terms of the proposed business combination. In the event the aggregate cash consideration we would be required to pay for all shares of Class A common stock that are validly submitted for redemption plus any amount required to satisfy cash conditions pursuant to the terms of the proposed business combination exceed the aggregate amount of cash available to us, we will not complete the business combination or redeem any shares, and all shares of Class A common stock submitted for redemption will be returned to the holders thereof.

Limitation on redemption rights of stockholders holding 15% or more of the shares sold in this offering if we hold stockholder vote

Notwithstanding the foregoing redemption rights, if we seek stockholder approval of our initial business combination and we do not conduct redemptions in connection with our business combination pursuant to the tender offer rules, our amended and restated certificate of incorporation will provide that a public stockholder, together with any affiliate of such stockholder or any other person with whom such stockholder is acting in concert or as a “group” (as defined under Section 13 of the Exchange Act), will be restricted from redeeming its shares with respect to more than an aggregate of 15% of the shares sold in this offering. Such restriction will also be applicable to our affiliates. We believe the restriction described above will discourage stockholders from accumulating large blocks of shares, and subsequent attempts by such holders to use their ability to redeem their shares as a means to force us or our management to purchase their shares at a significant premium to the then-current market price or on other undesirable terms. Absent this provision, a public stockholder holding more than an aggregate of 15% of the shares sold in this offering could threaten to exercise its redemption rights against a business combination if such holder’s shares are not purchased by us or our management at a premium to the then-current market price or on other undesirable terms. By limiting our stockholders’ ability to redeem to no more than 15% of the shares sold in this offering, we believe we will limit the ability of a small group of stockholders to unreasonably attempt to block our ability to complete our business combination, particularly in connection with a business combination with a target that requires as a closing condition that we have a minimum net worth or a certain amount of cash. However, we would not be restricting our stockholders’ ability to vote all of their shares (including all shares held by those stockholders that hold more than 15% of the shares sold in this offering) for or against our business combination.

Redemption rights in connection with proposed amendments to our certificate of incorporation

Our amended and restated certificate of incorporation provides that any of its provisions related to pre-business combination activity (including the requirement to deposit proceeds of this offering and the private placement of warrants into the trust account and not release such amounts except in specified circumstances, and to provide redemption rights to public stockholders as described herein) may be amended if approved by holders of 65% of our common stock entitled to vote thereon, and corresponding provisions of the trust agreement governing the release of funds from our trust account may be amended if approved by holders of 65% of our common stock entitled to vote thereon. In all other instances, our amended and restated certificate of incorporation may be amended by holders of a majority of our outstanding common stock entitled to vote thereon, subject to applicable provisions of the Delaware General Corporation Law, or DGCL, or applicable stock exchange rules. Our initial stockholders, who will collectively beneficially own 20% of our common stock upon the closing of this offering (assuming they do not purchase any units in this offering), will participate in any vote to amend our amended and restated certificate of incorporation and/or trust agreement and will have the discretion to vote in any manner they choose. Our sponsor, executive officers, and directors have agreed, pursuant to a written agreement with us, that they will not propose any amendment to our amended and restated certificate of incorporation to modify the substance or timing of our obligation to redeem 100% of our public shares if we do not complete our initial business combination within 24 months from the closing of this offering, unless we provide our public stockholders with the opportunity to redeem their shares of common stock upon approval of any such amendment at a per-share price, payable in cash, equal to the aggregate amount then on deposit in the trust account, including interest (which interest shall be net of taxes payable) divided by the number of then outstanding public shares. Our initial stockholders have entered into a letter agreement with us pursuant to which they have agreed to waive their redemption rights with respect to any founder shares and public shares held by them in connection with the completion of our initial business combination.

Release of funds in trust account on closing of our initial business combination

On the completion of our initial business combination, all amounts held in the trust account will be released to us, less amounts released to a separate account controlled by the trustee for disbursement to redeeming stockholders. We will use these funds to pay amounts due to any public stockholders who exercise their redemption rights as described above under “Redemption rights for public stockholders upon completion of our initial business combination,” to pay the underwriters their deferred underwriting commissions, to pay all or a portion of the consideration payable to the target or owners of the

target of our initial business combination and to pay other expenses associated with our initial business combination. If our initial business combination is paid for using equity or debt securities, or not all of the funds released from the trust account are used for payment of the consideration in connection with our initial business combination, we may apply the balance of the cash released to us from the trust account for general corporate purposes, including for maintenance or expansion of operations of post-transaction businesses, the payment of principal or interest due on indebtedness incurred in completing our initial business combination, to fund the purchase of other companies or for working capital.

Redemption of public shares and distribution and liquidation if no initial business combination

Our amended and restated certificate of incorporation provides that we will have only 24 months from the closing of this offering to complete our initial business combination. If we are unable to complete our initial business combination within such 24-month period, we will: (i) cease all operations except for the purpose of winding up, (ii) as promptly as reasonably possible but not more than ten business days thereafter, redeem the public shares, at a per-share price, payable in cash, equal to the aggregate amount then on deposit in the trust account including interest earned on the funds held in the trust account and not previously released to us to pay our franchise and income taxes (less up to \$100,000 of interest to pay dissolution expenses), divided by the number of then outstanding public shares, which redemption will completely extinguish public stockholders' rights as stockholders (including the right to receive further liquidating distributions, if any), subject to applicable law, and (iii) as promptly as reasonably possible following such redemption, subject to the approval of our remaining stockholders and our board of directors, dissolve and liquidate, subject in each case to our obligations under Delaware law to provide for claims of creditors and the requirements of other applicable law. There will be no redemption rights or liquidating distributions with respect to our warrants, which will expire worthless if we fail to complete our business combination within the 24-month time period.

Our sponsor, officers and directors have entered into a letter agreement with us, pursuant to which they have waived their rights to liquidating distributions from the trust account with respect to any founder shares held by them if we fail to complete our initial business combination within 24 months from the closing of this offering. However, if our initial stockholders acquire public shares in or after this offering, they will be entitled to liquidating distributions from the trust account with respect to such public shares if we fail to complete our initial business combination within the allotted 24-month time period.

The underwriters have agreed to waive their rights to their deferred underwriting commission held in the trust account in the event we do not complete our initial business combination and subsequently liquidate and, in such event, such amounts will be included with the funds held in the trust account that will be available to fund the redemption of our public shares.

Limited payments to insiders

There will be no finder's fees, reimbursements or cash payments paid by us to our sponsor, officers or directors, or our or their affiliates, for services rendered to us prior to or in connection with the completion of our initial business combination. However, the following payments will be made to our sponsor, officers or directors, or our or their affiliates, none of which will be made from the proceeds of this offering held in the trust account prior to the completion of our initial business combination:

- Repayment of up to an aggregate of \$300,000 in loans made to us by our sponsor to cover offering-related and organizational expenses;
- Payment to an affiliate of our sponsor of \$5,000 per month, for up to 24 months, for office space, utilities and secretarial and administrative support;
- Reimbursement for any out-of-pocket expenses related to identifying, investigating and completing an initial business combination; and
- Repayment of loans which may be made by our sponsor or an affiliate of our sponsor or certain of our officers and directors to finance transaction costs in connection with an intended initial business combination, the terms of which have not been determined nor have any written agreements been executed with respect thereto. Up to \$1,500,000 of such loans may be convertible into warrants, at a price of \$1.50 per warrant at the option of the lender. The warrants would be identical to the private placement warrants, including as to exercise price, exercisability and exercise period.

Our audit committee will review on a quarterly basis all payments that were made to our sponsor, officers or directors, or our or their affiliates.

Audit Committee

We will establish and maintain an audit committee, which will be composed of a majority of independent directors and, within one year, will be composed of at least three independent directors to, among other things, monitor compliance with the terms described above and the other terms relating to this offering. If any noncompliance is identified, then the audit committee will be charged with the responsibility to immediately take all action necessary to rectify such noncompliance or otherwise to cause compliance with the terms of this offering. For more information, see the section of this prospectus entitled "Management—Committees of the Board of Directors—Audit Committee."

Conflicts of Interest

Kayne Anderson manages several investment vehicles. Funds managed by Kayne Anderson or its affiliates may compete with us for business combination opportunities. If these funds decide to pursue any such opportunity, we may be precluded from procuring such opportunities. In addition, investment ideas generated within Kayne Anderson may be suitable for both us and for a current or future Kayne Anderson fund and may be directed to such investment vehicle rather than to us. Neither Kayne Anderson nor members of our management team who are also employed by Kayne Anderson have any obligation to present us with any opportunity for a potential business combination of which they become aware, unless presented to such member solely in his or her capacity as an officer of the company. Kayne Anderson and/or our management, in their capacities as employees of Kayne Anderson or in their other endeavors, currently are required to present certain investment opportunities and potential business combinations to the various related entities described above, current Kayne Anderson investment vehicles, or third parties, before they present such opportunities to us. Kayne Anderson and our management may have similar obligations to future investment vehicles or third parties.

Notwithstanding the foregoing, we may, at our option, pursue an Affiliated Joint Acquisition opportunity with any such fund or other investment vehicle. Any such parties would co-invest only if (i) permitted by applicable regulatory and other legal limitations; (ii) we and Kayne Anderson considered a transaction to be mutually beneficial to us as well as the affiliated entity; and (iii) other business reasons exist to do so, such as the strategic merits of including such co-investors, the need for additional capital beyond the amount held in our trust account to fund the business combination transaction and/or the desire to obtain committed capital for closing the business combination transaction. Such entity may co-invest with us in the target business at the time of our initial business combination, or we could raise additional proceeds to complete the business combination by making a specified future issuance to any such fund or vehicle.

Indemnity

Our sponsor has agreed that it will be liable to us if and to the extent any claims by a vendor for services rendered or products sold to us, or a prospective target business with which we have entered into a letter of intent, confidentiality or similar agreement or business combination agreement, reduce the amount of funds in the trust account to below (i) \$10.00 per public share or (ii) such lesser amount per public share held in the trust account as of the date of the liquidation of the trust account due to reductions in the value of the trust assets, in each case net of the interest which may be withdrawn to pay taxes. This liability will not apply with respect to any claims by a third party who executed a waiver of any and all rights to seek access to the trust account and except as to any claims under our indemnity of the underwriters of this offering against certain liabilities, including liabilities under the Securities Act. Moreover, in

the event that an executed waiver is deemed to be unenforceable against a third party, then our sponsor will not be responsible to the extent of any liability for such third party claims. We have not independently verified whether our sponsor has sufficient funds to satisfy its indemnity obligations and believe that our sponsor's only assets are securities of our company. We have not asked our sponsor to reserve for such indemnification obligations. None of our officers or directors will indemnify us for claims by third parties including, without limitation, claims by vendors and prospective target businesses.

Risks

We are a newly formed company that has conducted no operations and has generated no revenues. Until we complete our initial business combination, we will have no operations and will generate no operating revenues. In making your decision whether to invest in our securities, you should take into account not only the background of our management team, but also the special risks we face as a blank check company. This offering is not being conducted in compliance with Rule 419 promulgated under the Securities Act. Accordingly, you will not be entitled to protections normally afforded to investors in Rule 419 blank check offerings. For additional information concerning how Rule 419 blank check offerings differ from this offering, please see the section of this prospectus entitled "Proposed Business—Comparison of This Offering to Those of Blank Check Companies Subject to Rule 419." You should carefully consider these and the other risks set forth in the section of this prospectus entitled "Risk Factors."

Summary Financial Data

The following table summarizes the relevant financial data for our business and should be read with our financial statements, which are included in this prospectus. We have not had any significant operations to date, so only balance sheet data is presented.

	December 31, 2016	
	Actual	As Adjusted
Balance Sheet Data:		
Working capital (deficiency)	\$(15,610)	\$339,022,624(1)
Total assets	45,734	351,272,624(2)
Total liabilities	23,110	12,250,000(3)
Value of Class A common stock that may be redeemed in connection with our initial business combination (\$10.00 per share)	—	334,022,620(4)
Stockholders' equity	\$ 22,624	\$ 5,000,004(5)

- (1) The “as adjusted” calculation includes \$350,000,000 cash held in trust from the proceeds of this offering and the sale of the private placement warrants, plus \$1,250,000 in cash held outside the trust account, plus \$22,624 of actual stockholder’s equity as of December 31, 2016, less \$12,250,000 of deferred underwriting commissions.
- (2) The “as adjusted” calculation equals \$350,000,000 cash held in trust from the proceeds of this offering and the sale of the private placement warrants, plus \$1,250,000 in cash held outside the trust account plus \$22,624 of actual stockholder’s equity as of December 31, 2016.
- (3) The “as adjusted” calculation includes \$12,250,000 of deferred underwriting commissions.
- (4) The “as adjusted” calculation equals the “as adjusted” total assets, less the “as adjusted” total liabilities, less the “as adjusted” stockholders’ equity, which is set to approximate the minimum net tangible assets threshold of at least \$5,000,001 upon consummation of our initial business combination and after payment of underwriters’ fees and commissions.
- (5) Excludes 33,402,262 shares of Class A common stock purchased in the public market which are subject to redemption in connection with our initial business combination. The “as adjusted” calculation equals the “as adjusted” total assets, less the “as adjusted” total liabilities, less the value of Class A common stock that may be redeemed in connection with our initial business combination (approximately \$10.00 per share).

If no business combination is completed within 24 months from the closing of this offering, the proceeds then on deposit in the trust account including interest earned on the funds held in the trust account and not previously released to us to pay our franchise and income taxes (less up to \$100,000 of interest to pay dissolution expenses), will be used to fund the redemption of our public shares. Our sponsor, officers and directors have entered into a letter agreement with us, pursuant to which they have agreed to waive their rights to liquidating distributions from the trust account with respect to any founder shares held by them if we fail to complete our initial business combination within such 24 month time period.

RISK FACTORS

An investment in our securities involves a high degree of risk. You should consider carefully all of the risks described below, together with the other information contained in this prospectus, before making a decision to invest in our units. If any of the following events occur, our business, financial condition and operating results may be materially adversely affected. In that event, the trading price of our securities could decline, and you could lose all or part of your investment.

We are a newly formed company with no operating history and no revenues, and you have no basis on which to evaluate our ability to achieve our business objective.

We are a newly formed company with no operating results, and we will not commence operations until obtaining funding through this offering. Because we lack an operating history, you have no basis upon which to evaluate our ability to achieve our business objective of completing our initial business combination with one or more target businesses. We have no plans, arrangements or understandings with any prospective target business concerning a business combination and may be unable to complete our business combination. If we fail to complete our business combination, we will never generate any operating revenues.

Our public stockholders may not be afforded an opportunity to vote on our proposed business combination, which means we may complete our initial business combination even though a majority of our public stockholders do not support such a combination.

We may choose not to hold a stockholder vote to approve our initial business combination unless the business combination would require stockholder approval under applicable law or stock exchange listing requirements or if we decide to hold a stockholder vote for business or other legal reasons. Except as required by law, the decision as to whether we will seek stockholder approval of a proposed business combination or will allow stockholders to sell their shares to us in a tender offer will be made by us, solely in our discretion, and will be based on a variety of factors, such as the timing of the transaction and whether the terms of the transaction would otherwise require us to seek stockholder approval. Accordingly, we may complete our initial business combination even if holders of a majority of our public shares do not approve of the business combination we complete. Please see the section of this prospectus entitled “Proposed Business—Stockholders May Not Have the Ability to Approve Our Initial Business Combination” for additional information.

If we seek stockholder approval of our initial business combination, our initial stockholders have agreed to vote in favor of such initial business combination, regardless of how our public stockholders vote.

Pursuant to the letter agreement, our sponsor, officers and directors have agreed to vote their founder shares, as well as any public shares purchased during or after this offering (including in open market and privately negotiated transactions), in favor of our initial business combination. As a result, in addition to our initial stockholders’ founder shares, we would need 13,125,001, or 37.5%, of the 35,000,000 public shares sold in this offering to be voted in favor of a transaction (assuming all outstanding shares are voted) in order to have our initial business combination approved (assuming the over-allotment option is not exercised). Our initial stockholders will own shares representing 20% of our outstanding shares of common stock immediately following the completion of this offering. Accordingly, if we seek stockholder approval of our initial business combination, the agreement by our initial stockholders to vote in favor of our initial business combination will increase the likelihood that we will receive the requisite stockholder approval for such initial business combination.

Your only opportunity to affect the investment decision regarding a potential business combination will be limited to the exercise of your right to redeem your shares from us for cash, unless we seek stockholder approval of the business combination.

At the time of your investment in us, you will not be provided with an opportunity to evaluate the specific merits or risks of one or more target businesses. Since our board of directors may complete a business

combination without seeking stockholder approval, public stockholders may not have the right or opportunity to vote on the business combination, unless we seek such stockholder vote. Accordingly, if we do not seek stockholder approval, your only opportunity to affect the investment decision regarding a potential business combination may be limited to exercising your redemption rights within the period of time (which will be at least 20 business days) set forth in our tender offer documents mailed to our public stockholders in which we describe our initial business combination.

The ability of our public stockholders to redeem their shares for cash may make our financial condition unattractive to potential business combination targets, which may make it difficult for us to enter into a business combination with a target.

We may seek to enter into a business combination transaction agreement with a prospective target that requires as a closing condition that we have a minimum net worth or a certain amount of cash. If too many public stockholders exercise their redemption rights, we would not be able to meet such closing condition and, as a result, would not be able to proceed with the business combination. Furthermore, in no event will we redeem our public shares in an amount that would cause our net tangible assets to be less than \$5,000,001 upon consummation of our initial business combination and after payment of underwriters' fees and commissions (so that we are not subject to the SEC's "penny stock" rules) or any greater net tangible asset or cash requirement which may be contained in the agreement relating to our initial business combination. Consequently, if accepting all properly submitted redemption requests would cause our net tangible assets to be less than \$5,000,001 upon consummation of our initial business combination and after payment of underwriters' fees and commissions or such greater amount necessary to satisfy a closing condition as described above, we would not proceed with such redemption and the related business combination and may instead search for an alternate business combination. Prospective targets will be aware of these risks and, thus, may be reluctant to enter into a business combination transaction with us.

The ability of our public stockholders to exercise redemption rights with respect to a large number of our shares may not allow us to complete the most desirable business combination or optimize our capital structure.

At the time we enter into an agreement for our initial business combination, we will not know how many stockholders may exercise their redemption rights, and therefore will need to structure the transaction based on our expectations as to the number of shares that will be submitted for redemption. If our business combination agreement requires us to use a portion of the cash in the trust account to pay the purchase price, or requires us to have a minimum amount of cash at closing, we will need to reserve a portion of the cash in the trust account to meet such requirements, or arrange for third party financing. In addition, if a larger number of shares are submitted for redemption than we initially expected, we may need to restructure the transaction to reserve a greater portion of the cash in the trust account or arrange for third party financing. Raising additional third party financing may involve dilutive equity issuances or the incurrence of indebtedness at higher than desirable levels. The above considerations may limit our ability to complete the most desirable business combination available to us or optimize our capital structure. The amount of the deferred underwriting commissions payable to the underwriters will not be adjusted for any shares that are redeemed in connection with a business combination. The per-share amount we will distribute to stockholders who properly exercise their redemption rights will not be reduced by the deferred underwriting commission and after such redemptions, the per-share value of shares held by non-redeeming stockholders will reflect our obligation to pay the deferred underwriting commissions.

The ability of our public stockholders to exercise redemption rights with respect to a large number of our shares could increase the probability that our initial business combination would be unsuccessful and that you would have to wait for liquidation in order to redeem your stock.

If our business combination agreement requires us to use a portion of the cash in the trust account to pay the purchase price, or requires us to have a minimum amount of cash at closing, the probability that our initial

business combination would be unsuccessful is increased. If our initial business combination is unsuccessful, you would not receive your pro rata portion of the trust account until we liquidate the trust account. If you are in need of immediate liquidity, you could attempt to sell your stock in the open market; however, at such time our stock may trade at a discount to the pro rata amount per share in the trust account. In either situation, you may suffer a material loss on your investment or lose the benefit of funds expected in connection with our redemption until we liquidate or you are able to sell your stock in the open market.

The requirement that we complete our initial business combination within the prescribed time frame may give potential target businesses leverage over us in negotiating a business combination and may decrease our ability to conduct due diligence on potential business combination targets as we approach our dissolution deadline, which could undermine our ability to complete our business combination on terms that would produce value for our stockholders.

Any potential target business with which we enter into negotiations concerning a business combination will be aware that we must complete our initial business combination within 24 months from the closing of this offering. Consequently, such target business may obtain leverage over us in negotiating a business combination, knowing that if we do not complete our initial business combination with that particular target business, we may be unable to complete our initial business combination with any target business. This risk will increase as we get closer to the timeframe described above. In addition, we may have limited time to conduct due diligence and may enter into our initial business combination on terms that we would have rejected upon a more comprehensive investigation.

We may not be able to complete our initial business combination within the prescribed time frame, in which case we would cease all operations except for the purpose of winding up and we would redeem our public shares and liquidate, in which case our public stockholders may only receive \$10.00 per share, or less than such amount in certain circumstances, and our warrants will expire worthless.

Our amended and restated certificate of incorporation provides that we must complete our initial business combination within 24 months from the closing of this offering. We may not be able to find a suitable target business and complete our initial business combination within such time period. If we have not completed our initial business combination within such time period, we will: (i) cease all operations except for the purpose of winding up, (ii) as promptly as reasonably possible but not more than ten business days thereafter, redeem the public shares, at a per-share price, payable in cash, equal to the aggregate amount then on deposit in the trust account including interest earned on the funds held in the trust account and not previously released to us to pay our franchise and income taxes (less up to \$100,000 of interest to pay dissolution expenses), divided by the number of then outstanding public shares, which redemption will completely extinguish public stockholders' rights as stockholders (including the right to receive further liquidating distributions, if any), subject to applicable law, and (iii) as promptly as reasonably possible following such redemption, subject to the approval of our remaining stockholders and our board of directors, dissolve and liquidate, subject in each case to our obligations under Delaware law to provide for claims of creditors and the requirements of other applicable law. In such case, our public stockholders may only receive \$10.00 per share, and our warrants will expire worthless. In certain circumstances, our public stockholders may receive less than \$10.00 per share on the redemption of their shares. See “—If third parties bring claims against us, the proceeds held in the trust account could be reduced and the per-share redemption amount received by stockholders may be less than \$10.00 per share” and other risk factors below.

If we seek stockholder approval of our initial business combination, our sponsor, directors, officers, advisors and their affiliates may elect to purchase shares or warrants from public stockholders, which may influence a vote on a proposed business combination and reduce the public “float” of our Class A common stock.

If we seek stockholder approval of our initial business combination and we do not conduct redemptions in connection with our business combination pursuant to the tender offer rules, our sponsor, directors, officers,

advisors or their affiliates may purchase shares or public warrants or a combination thereof in privately negotiated transactions or in the open market either prior to or following the completion of our initial business combination, although they are under no obligation to do so. However, they have no current commitments, plans or intentions to engage in such transactions and have not formulated any terms or conditions for any such transactions. None of the funds in the trust account will be used to purchase shares or public warrants in such transactions.

Such a purchase may include a contractual acknowledgement that such stockholder, although still the record holder of our shares is no longer the beneficial owner thereof and therefore agrees not to exercise its redemption rights. In the event that our sponsor, directors, officers, advisors or their affiliates purchase shares in privately negotiated transactions from public stockholders who have already elected to exercise their redemption rights, such selling stockholders would be required to revoke their prior elections to redeem their shares. The purpose of such purchases could be to vote such shares in favor of the business combination and thereby increase the likelihood of obtaining stockholder approval of the business combination, or to satisfy a closing condition in an agreement with a target that requires us to have a minimum net worth or a certain amount of cash at the closing of our business combination, where it appears that such requirement would otherwise not be met. The purpose of any such purchases of public warrants could be to reduce the number of public warrants outstanding or to vote such warrants on any matters submitted to the warrant holders for approval in connection with our initial business combination. Any such purchases of our securities may result in the completion of our initial business combination that may not otherwise have been possible. Any such purchases will be reported pursuant to Section 13 and Section 16 of the Exchange Act to the extent such purchasers are subject to such reporting requirements.

In addition, if such purchases are made, the public “float” of our Class A common stock or public warrants and the number of beneficial holders of our securities may be reduced, possibly making it difficult to obtain or maintain the quotation, listing or trading of our securities on a national securities exchange.

If a stockholder fails to receive notice of our offer to redeem our public shares in connection with our business combination, or fails to comply with the procedures for tendering its shares, such shares may not be redeemed.

We will comply with the tender offer rules or proxy rules, as applicable, when conducting redemptions in connection with our business combination. Despite our compliance with these rules, if a stockholder fails to receive our tender offer or proxy materials, as applicable, such stockholder may not become aware of the opportunity to redeem its shares. In addition, proxy materials or tender offer documents, as applicable, that we will furnish to holders of our public shares in connection with our initial business combination will describe the various procedures that must be complied with in order to validly tender or redeem public shares. For example, we may require our public stockholders seeking to exercise their redemption rights, whether they are record holders or hold their shares in “street name,” to either tender their certificates to our transfer agent prior to the date set forth in the tender offer documents mailed to such holders, or up to two business days prior to the vote on the proposal to approve the business combination in the event we distribute proxy materials, or to deliver their shares to the transfer agent electronically. In the event that a stockholder fails to comply with these or any other procedures, its shares may not be redeemed. See the section of this prospectus entitled “Proposed Business—Business Strategy—Tendering Stock Certificates in Connection with a Tender Offer or Redemption Rights.”

You will not have any rights or interests in funds from the trust account, except under certain limited circumstances. To liquidate your investment, therefore, you may be forced to sell your public shares or warrants, potentially at a loss.

Our public stockholders will be entitled to receive funds from the trust account only upon the earliest to occur of: (i) our completion of an initial business combination, (ii) the redemption of any public shares properly tendered in connection with a stockholder vote to amend our amended and restated certificate of incorporation to

modify the substance or timing of our obligation to redeem 100% of our public shares if we do not complete our initial business combination within 24 months from the closing of this offering and (iii) the redemption of our public shares if we are unable to complete an initial business combination within 24 months from the closing of this offering, subject to applicable law and as further described herein. In no other circumstances will a public stockholder have any right or interest of any kind in the trust account. Accordingly, to liquidate your investment, you may be forced to sell your public shares or warrants, potentially at a loss.

NASDAQ may delist our securities from trading on its exchange, which could limit investors' ability to make transactions in our securities and subject us to additional trading restrictions.

We have applied to have our units listed on NASDAQ on or promptly after the date of this prospectus and our Class A common stock and warrants listed on or promptly after their date of separation. We cannot guarantee that our securities will be approved for listing on NASDAQ. Although after giving effect to this offering we expect to meet, on a pro forma basis, the minimum initial listing standards set forth in the NASDAQ listing standards, we cannot assure you that our securities will be, or will continue to be, listed on NASDAQ in the future or prior to our initial business combination. In order to continue listing our securities on NASDAQ prior to our initial business combination, we must maintain certain financial, distribution and stock price levels. Generally, we must maintain a minimum amount in stockholders' equity (generally \$2,500,000) and a minimum number of holders of our securities (generally 300 public holders). Additionally, in connection with our initial business combination, we will be required to demonstrate compliance with NASDAQ's initial listing requirements, which are more rigorous than NASDAQ's continued listing requirements, in order to continue to maintain the listing of our securities on NASDAQ. For instance, our stock price would generally be required to be at least \$4.00 per share, our stockholders' equity would generally be required to be at least \$5.0 million and we would be required to have a minimum of 300 round lot holders of our securities. We cannot assure you that we will be able to meet those initial listing requirements at that time.

If NASDAQ delists our securities from trading on its exchange and we are not able to list our securities on another national securities exchange, we expect our securities could be quoted on an over-the-counter market. If this were to occur, we could face significant material adverse consequences, including:

- a limited availability of market quotations for our securities;
- reduced liquidity for our securities;
- a determination that our Class A common stock is a "penny stock" which will require brokers trading in our Class A common stock to adhere to more stringent rules and possibly result in a reduced level of trading activity in the secondary trading market for our securities;
- a limited amount of news and analyst coverage; and
- a decreased ability to issue additional securities or obtain additional financing in the future.

The National Securities Markets Improvement Act of 1996, which is a federal statute, prevents or preempts the states from regulating the sale of certain securities, which are referred to as "covered securities." Because we expect that our units and eventually our Class A common stock and warrants will be listed on NASDAQ, our units, Class A common stock and warrants will be covered securities. Although the states are preempted from regulating the sale of our securities, the federal statute does allow the states to investigate companies if there is a suspicion of fraud, and, if there is a finding of fraudulent activity, then the states can regulate or bar the sale of covered securities in a particular case. While we are not aware of a state having used these powers to prohibit or restrict the sale of securities issued by blank check companies, other than the State of Idaho, certain state securities regulators view blank check companies unfavorably and might use these powers, or threaten to use these powers, to hinder the sale of securities of blank check companies in their states. Further, if we were no longer listed on NASDAQ, our securities would not be covered securities and we would be subject to regulation in each state in which we offer our securities, including in connection with our business combination transaction.

You will not be entitled to protections normally afforded to investors of many other blank check companies.

Since the net proceeds of this offering and the sale of the private placement warrants are intended to be used to complete an initial business combination with a target business that has not been identified, we may be deemed to be a “blank check” company under the United States securities laws. However, because we will have net tangible assets in excess of \$5,000,000 upon the successful completion of this offering and the sale of the private placement warrants and will file a Current Report on Form 8-K, including an audited balance sheet demonstrating this fact, we are exempt from rules promulgated by the SEC to protect investors in blank check companies, such as Rule 419. Accordingly, investors will not be afforded the benefits or protections of those rules. Among other things, this means our units will be immediately tradable and we will have a longer period of time to complete our business combination than do companies subject to Rule 419. Moreover, if this offering were subject to Rule 419, that rule would prohibit the release of any interest earned on funds held in the trust account to us unless and until the funds in the trust account were released to us in connection with our completion of an initial business combination. For a more detailed comparison of our offering to offerings that comply with Rule 419, please see the section of this prospectus entitled “Proposed Business—Comparison of This Offering to Those of Blank Check Companies Subject to Rule 419.”

If we seek stockholder approval of our initial business combination and we do not conduct redemptions pursuant to the tender offer rules, and if you or a “group” of stockholders are deemed to hold in excess of 15% of our Class A common stock, you will lose the ability to redeem all such shares in excess of 15% of our Class A common stock.

If we seek stockholder approval of our initial business combination and we do not conduct redemptions in connection with our initial business combination pursuant to the tender offer rules, our amended and restated certificate of incorporation will provide that a public stockholder, together with any affiliate of such stockholder or any other person with whom such stockholder is acting in concert or as a “group” (as defined under Section 13 of the Exchange Act), will be restricted from seeking redemption rights with respect to more than an aggregate of 15% of the shares sold in this offering, which we refer to as the “Excess Shares.” However, we would not be restricting our stockholders’ ability to vote all of their shares (including Excess Shares) for or against our business combination. Your inability to redeem the Excess Shares will reduce your influence over our ability to complete our business combination and you could suffer a material loss on your investment in us if you sell Excess Shares in open market transactions. Additionally, you will not receive redemption distributions with respect to the Excess Shares if we complete our business combination. And as a result, you will continue to hold that number of shares exceeding 15% and, in order to dispose of such shares, would be required to sell your stock in open market transactions, potentially at a loss.

Because of our limited resources and the significant competition for business combination opportunities, it may be more difficult for us to complete our initial business combination. If we are unable to complete our initial business combination, our public stockholders may receive only approximately \$10.00 per share on our redemption of our public shares, or less than such amount in certain circumstances, and our warrants will expire worthless.

We expect to encounter intense competition from other entities having a business objective similar to ours, including private investors (which may be individuals or investment partnerships), other blank check companies and other entities competing for the types of businesses we intend to acquire. Many of these individuals and entities are well-established and have extensive experience in identifying and effecting, directly or indirectly, acquisitions of companies operating in or providing services to various industries. Many of these competitors possess greater technical, human and other resources or more industry knowledge than we do, and our financial resources will be relatively limited when contrasted with those of many of these competitors. While we believe there are numerous target businesses we could potentially acquire with the net proceeds of this offering and the sale of the private placement warrants, our ability to compete with respect to the acquisition of certain target

businesses that are sizable will be limited by our available financial resources. This inherent competitive limitation gives others an advantage in pursuing the acquisition of certain target businesses. Furthermore, because we are obligated to pay cash for the shares of Class A common stock which our public stockholders redeem in connection with our initial business combination, target companies will be aware that this may reduce the resources available to us for our initial business combination. This may place us at a competitive disadvantage in successfully negotiating a business combination. If we are unable to complete our initial business combination, our public stockholders may receive only approximately \$10.00 per share on the liquidation of our trust account and our warrants will expire worthless. In certain circumstances, our public stockholders may receive less than \$10.00 per share upon our liquidation. See “—If third parties bring claims against us, the proceeds held in the trust account could be reduced and the per-share redemption amount received by stockholders may be less than \$10.00 per share” and other risk factors below.

If the net proceeds of this offering and the sale of the private placement warrants not being held in the trust account are insufficient to allow us to operate for at least the next 24 months, we may be unable to complete our initial business combination, in which case our public stockholders may only receive \$10.00 per share, or less than such amount in certain circumstances, and our warrants will expire worthless.

The funds available to us outside of the trust account may not be sufficient to allow us to operate for at least the next 24 months, assuming that our initial business combination is not completed during that time. We believe that, upon the closing of this offering, the funds available to us outside of the trust account will be sufficient to allow us to operate for at least the next 24 months; however, we cannot assure you that our estimate is accurate. Of the funds available to us, we could use a portion of the funds available to us to pay fees to consultants to assist us with our search for a target business. We could also use a portion of the funds as a down payment or to fund a “no-shop” provision (a provision in letters of intent designed to keep target businesses from “shopping” around for transactions with other companies on terms more favorable to such target businesses) with respect to a particular proposed business combination, although we do not have any current intention to do so. If we entered into a letter of intent where we paid for the right to receive exclusivity from a target business and were subsequently required to forfeit such funds (whether as a result of our breach or otherwise), we might not have sufficient funds to continue searching for, or conduct due diligence with respect to, a target business. If we are unable to complete our initial business combination, our public stockholders may receive only approximately \$10.00 per share on the liquidation of our trust account and our warrants will expire worthless. In certain circumstances, our public stockholders may receive less than \$10.00 per share upon our liquidation. See “—If third parties bring claims against us, the proceeds held in the trust account could be reduced and the per-share redemption amount received by stockholders may be less than \$10.00 per share” and other risk factors below.

If the net proceeds of this offering and the sale of the private placement warrants not being held in the trust account are insufficient, it could limit the amount available to fund our search for a target business or businesses and complete our initial business combination and we will depend on loans from our sponsor or management team to fund our search for a business combination, to pay our franchise and income taxes and to complete our initial business combination. If we are unable to obtain these loans, we may be unable to complete our initial business combination.

Of the net proceeds of this offering and the sale of the private placement warrants, only approximately \$1,250,000 will be available to us initially outside the trust account to fund our working capital requirements. In the event that our offering expenses exceed our estimate of \$750,000, we may fund such excess with funds not to be held in the trust account. In such case, the amount of funds we intend to be held outside the trust account would decrease by a corresponding amount. Conversely, in the event that the offering expenses are less than our estimate of \$750,000, the amount of funds we intend to be held outside the trust account would increase by a corresponding amount. If we are required to seek additional capital, we would need to borrow funds from our sponsor, management team or other third parties to operate or may be forced to liquidate. Neither our sponsor, members of our management team nor any of their affiliates is under any obligation to advance funds to us in such circumstances. Any such advances would be repaid only from funds held outside the trust account or from

funds released to us upon completion of our initial business combination. We do not expect to seek loans from parties other than our sponsor or an affiliate of our sponsor as we do not believe third parties will be willing to loan such funds and provide a waiver against any and all rights to seek access to funds in our trust account. If we are unable to obtain these loans, we may be unable to complete our initial business combination. If we are unable to complete our initial business combination because we do not have sufficient funds available to us, we will be forced to cease operations and liquidate the trust account. Consequently, our public stockholders may only receive approximately \$10.00 per share on our redemption of our public shares, and our warrants will expire worthless. In certain circumstances, our public stockholders may receive less than \$10.00 per share on the redemption of their shares. See “—If third parties bring claims against us, the proceeds held in the trust account could be reduced and the per-share redemption amount received by stockholders may be less than \$10.00 per share” and other risk factors below.

Subsequent to our completion of our initial business combination, we may be required to take write-downs or write-offs, restructuring and impairment or other charges that could have a significant negative effect on our financial condition, results of operations and our stock price, which could cause you to lose some or all of your investment.

Even if we conduct extensive due diligence on a target business with which we combine, we cannot assure you that this diligence will surface all material issues that may be present inside a particular target business, that it would be possible to uncover all material issues through a customary amount of due diligence, or that factors outside of the target business and outside of our control will not later arise. As a result of these factors, we may be forced to later write-down or write-off assets, restructure our operations, or incur impairment or other charges that could result in our reporting losses. Even if our due diligence successfully identifies certain risks, unexpected risks may arise and previously known risks may materialize in a manner not consistent with our preliminary risk analysis. Even though these charges may be non-cash items and not have an immediate impact on our liquidity, the fact that we report charges of this nature could contribute to negative market perceptions about us or our securities. In addition, charges of this nature may cause us to violate net worth or other covenants to which we may be subject as a result of assuming pre-existing debt held by a target business or by virtue of our obtaining debt financing to partially finance the business combination. Accordingly, any stockholders who choose to remain stockholders following the business combination could suffer a reduction in the value of their shares. Such stockholders are unlikely to have a remedy for such reduction in value.

If third parties bring claims against us, the proceeds held in the trust account could be reduced and the per-share redemption amount received by stockholders may be less than \$10.00 per share.

Our placing of funds in the trust account may not protect those funds from third-party claims against us. Although we will seek to have all vendors, service providers, prospective target businesses or other entities with which we do business execute agreements with us waiving any right, title, interest or claim of any kind in or to any monies held in the trust account for the benefit of our public stockholders, such parties may not execute such agreements, or even if they execute such agreements they may not be prevented from bringing claims against the trust account, including, but not limited to, fraudulent inducement, breach of fiduciary responsibility or other similar claims, as well as claims challenging the enforceability of the waiver, in each case in order to gain advantage with respect to a claim against our assets, including the funds held in the trust account. If any third party refuses to execute an agreement waiving such claims to the monies held in the trust account, our management will perform an analysis of the alternatives available to it and will only enter into an agreement with a third party that has not executed a waiver if management believes that such third party’s engagement would be significantly more beneficial to us than any alternative.

Examples of possible instances where we may engage a third party that refuses to execute a waiver include the engagement of a third party consultant whose particular expertise or skills are believed by management to be significantly superior to those of other consultants that would agree to execute a waiver or in cases where management is unable to find a service provider willing to execute a waiver. In addition, there is no guarantee

that such entities will agree to waive any claims they may have in the future as a result of, or arising out of, any negotiations, contracts or agreements with us and will not seek recourse against the trust account for any reason. Upon redemption of our public shares, if we are unable to complete our business combination within the prescribed timeframe, or upon the exercise of a redemption right in connection with our business combination, we will be required to provide for payment of claims of creditors that were not waived that may be brought against us within the 10 years following redemption. Accordingly, the per-share redemption amount received by public stockholders could be less than the \$10.00 per share initially held in the trust account, due to claims of such creditors. Our sponsor has agreed that it will be liable to us if and to the extent any claims by a vendor for services rendered or products sold to us, or a prospective target business with which we have entered into a letter of intent, confidentiality or similar agreement or business combination agreement, reduce the amount of funds in the trust account to below (i) \$10.00 per public share or (ii) such lesser amount per public share held in the trust account as of the date of the liquidation of the trust account due to reductions in the value of the trust assets, in each case net of the interest which may be withdrawn to pay taxes. This liability will not apply with respect to any claims by a third party who executed a waiver of any and all rights to seek access to the trust account and except as to any claims under our indemnity of the underwriters of this offering against certain liabilities, including liabilities under the Securities Act. Moreover, in the event that an executed waiver is deemed to be unenforceable against a third party, then our sponsor will not be responsible to the extent of any liability for such third party claims. We have not independently verified whether our sponsor has sufficient funds to satisfy its indemnity obligations and believe that our sponsor's only assets are securities of our company. We have not asked our sponsor to reserve for such indemnification obligations. Therefore, we cannot assure you that our sponsor would be able to satisfy those obligations. As a result, if any such claims were successfully made against the trust account, the funds available for our initial business combination and redemptions could be reduced to less than \$10.00 per public share. In such event, we may not be able to complete our initial business combination, and you would receive such lesser amount per share in connection with any redemption of your public shares. None of our officers or directors will indemnify us for claims by third parties including, without limitation, claims by vendors and prospective target businesses.

Our directors may decide not to enforce the indemnification obligations of our sponsor, resulting in a reduction in the amount of funds in the trust account available for distribution to our public stockholders.

In the event that the proceeds in the trust account are reduced below the lesser of (i) \$10.00 per public share or (ii) such lesser amount per share held in the trust account as of the date of the liquidation of the trust account due to reductions in the value of the trust assets, in each case net of the interest which may be withdrawn to pay taxes, and our sponsor asserts that it is unable to satisfy its obligations or that it has no indemnification obligations related to a particular claim, our independent directors would determine whether to take legal action against our sponsor to enforce its indemnification obligations.

While we currently expect that our independent directors would take legal action on our behalf against our sponsor to enforce its indemnification obligations to us, it is possible that our independent directors in exercising their business judgment may choose not to do so if, for example, the cost of such legal action is deemed by the independent directors to be too high relative to the amount recoverable or if the independent directors determine that a favorable outcome is not likely. If our independent directors choose not to enforce these indemnification obligations, the amount of funds in the trust account available for distribution to our public stockholders may be reduced below \$10.00 per share.

If, after we distribute the proceeds in the trust account to our public stockholders, we file a bankruptcy petition or an involuntary bankruptcy petition is filed against us that is not dismissed, a bankruptcy court may seek to recover such proceeds, and we and our board may be exposed to claims of punitive damages.

If, after we distribute the proceeds in the trust account to our public stockholders, we file a bankruptcy petition or an involuntary bankruptcy petition is filed against us that is not dismissed, any distributions received by stockholders could be viewed under applicable debtor/creditor and/or bankruptcy laws as either a "preferential

transfer” or a “fraudulent conveyance.” As a result, a bankruptcy court could seek to recover all amounts received by our stockholders. In addition, our board of directors may be viewed as having breached its fiduciary duty to our creditors and/or having acted in bad faith, thereby exposing itself and us to claims of punitive damages, by paying public stockholders from the trust account prior to addressing the claims of creditors.

If, before distributing the proceeds in the trust account to our public stockholders, we file a bankruptcy petition or an involuntary bankruptcy petition is filed against us that is not dismissed, the claims of creditors in such proceeding may have priority over the claims of our stockholders and the per-share amount that would otherwise be received by our stockholders in connection with our liquidation may be reduced.

If, before distributing the proceeds in the trust account to our public stockholders, we file a bankruptcy petition or an involuntary bankruptcy petition is filed against us that is not dismissed, the proceeds held in the trust account could be subject to applicable bankruptcy law, and may be included in our bankruptcy estate and subject to the claims of third parties with priority over the claims of our stockholders. To the extent any bankruptcy claims deplete the trust account, the per-share amount that would otherwise be received by our stockholders in connection with our liquidation may be reduced.

If we are deemed to be an investment company under the Investment Company Act, we may be required to institute burdensome compliance requirements and our activities may be restricted, which may make it difficult for us to complete our business combination.

If we are deemed to be an investment company under the Investment Company Act, our activities may be restricted, including:

- restrictions on the nature of our investments; and
- restrictions on the issuance of securities, each of which may make it difficult for us to complete our business combination.

In addition, we may have imposed upon us burdensome requirements, including:

- registration as an investment company;
- adoption of a specific form of corporate structure; and
- reporting, record keeping, voting, proxy and disclosure requirements and other rules and regulations.

In order not to be regulated as an investment company under the Investment Company Act, unless we can qualify for an exclusion, we must ensure that we are engaged primarily in a business other than investing, reinvesting or trading in securities and that our activities do not include investing, reinvesting, owning, holding or trading “investment securities” constituting more than 40% of our total assets (exclusive of U.S. government securities and cash items) on an unconsolidated basis. Our business will be to identify and complete a business combination and thereafter to operate the post-transaction business or assets for the long term. We do not plan to buy businesses or assets with a view to resale or profit from their resale. We do not plan to buy unrelated businesses or assets or to be a passive investor.

We do not believe that our anticipated principal activities will subject us to the Investment Company Act. To this end, the proceeds held in the trust account may only be invested in United States “government securities” within the meaning of Section 2(a)(16) of the Investment Company Act having a maturity of 180 days or less or in money market funds meeting certain conditions under Rule 2a-7 promulgated under the Investment Company Act which invest only in direct U.S. government treasury obligations. Pursuant to the trust agreement, the trustee is not permitted to invest in other securities or assets. By restricting the investment of the proceeds to these instruments, and by having a business plan targeted at acquiring and growing businesses for the long term (rather

than on buying and selling businesses in the manner of a merchant bank or private equity fund), we intend to avoid being deemed an “investment company” within the meaning of the Investment Company Act. This offering is not intended for persons who are seeking a return on investments in government securities or investment securities. The trust account is intended as a holding place for funds pending the earliest to occur of: (i) the completion of our primary business objective, which is a business combination; (ii) the redemption of any public shares properly tendered in connection with a stockholder vote to amend our amended and restated certificate of incorporation to modify the substance or timing of our obligation to redeem 100% of our public shares if we do not complete our initial business combination within 24 months from the closing of this offering; or (iii) absent a business combination, our return of the funds held in the trust account to our public stockholders as part of our redemption of the public shares. If we do not invest the proceeds as discussed above, we may be deemed to be subject to the Investment Company Act. If we were deemed to be subject to the Investment Company Act, compliance with these additional regulatory burdens would require additional expenses for which we have not allotted funds and may hinder our ability to complete a business combination or may result in our liquidation. If we are unable to complete our initial business combination, our public stockholders may receive only approximately \$10.00 per share on the liquidation of our trust account and our warrants will expire worthless.

Changes in laws or regulations, or a failure to comply with any laws and regulations, may adversely affect our business, investments and results of operations.

We are subject to laws and regulations enacted by national, regional and local governments. In particular, we will be required to comply with certain SEC and other legal requirements. Compliance with, and monitoring of, applicable laws and regulations may be difficult, time consuming and costly.

Those laws and regulations and their interpretation and application may also change from time to time and those changes could have a material adverse effect on our business, investments and results of operations. In addition, a failure to comply with applicable laws or regulations, as interpreted and applied, could have a material adverse effect on our business and results of operations.

Our stockholders may be held liable for claims by third parties against us to the extent of distributions received by them upon redemption of their shares.

Under the DGCL, stockholders may be held liable for claims by third parties against a corporation to the extent of distributions received by them in a dissolution. The pro rata portion of our trust account distributed to our public stockholders upon the redemption of our public shares in the event we do not complete our initial business combination within 24 months from the closing of this offering may be considered a liquidating distribution under Delaware law. If a corporation complies with certain procedures set forth in Section 280 of the DGCL intended to ensure that it makes reasonable provision for all claims against it, including a 60-day notice period during which any third-party claims can be brought against the corporation, a 90-day period during which the corporation may reject any claims brought, and an additional 150-day waiting period before any liquidating distributions are made to stockholders, any liability of stockholders with respect to a liquidating distribution is limited to the lesser of such stockholder’s pro rata share of the claim or the amount distributed to the stockholder, and any liability of the stockholder would be barred after the third anniversary of the dissolution. However, it is our intention to redeem our public shares as soon as reasonably possible following the 24th month from the closing of this offering in the event we do not complete our business combination and, therefore, we do not intend to comply with the foregoing procedures.

Because we will not be complying with Section 280, Section 281(b) of the DGCL requires us to adopt a plan, based on facts known to us at such time that will provide for our payment of all existing and pending claims or claims that may be potentially brought against us within the 10 years following our dissolution. However, because we are a blank check company, rather than an operating company, and our operations will be limited to searching for prospective target businesses to acquire, the only likely claims to arise would be from our vendors (such as lawyers, investment bankers, etc.) or prospective target businesses. If our plan of distribution complies

with Section 281(b) of the DGCL, any liability of stockholders with respect to a liquidating distribution is limited to the lesser of such stockholder's pro rata share of the claim or the amount distributed to the stockholder, and any liability of the stockholder would likely be barred after the third anniversary of the dissolution. We cannot assure you that we will properly assess all claims that may be potentially brought against us. As such, our stockholders could potentially be liable for any claims to the extent of distributions received by them (but no more) and any liability of our stockholders may extend beyond the third anniversary of such date. Furthermore, if the pro rata portion of our trust account distributed to our public stockholders upon the redemption of our public shares in the event we do not complete our initial business combination within 24 months from the closing of this offering is not considered a liquidating distribution under Delaware law and such redemption distribution is deemed to be unlawful, then pursuant to Section 174 of the DGCL, the statute of limitations for claims of creditors could then be six years after the unlawful redemption distribution, instead of three years, as in the case of a liquidating distribution.

We may not hold an annual meeting of stockholders until after the consummation of our initial business combination, which could delay the opportunity for our stockholders to elect directors.

In accordance with NASDAQ corporate governance requirements, we are not required to hold an annual meeting until one year after our first fiscal year end following our listing on NASDAQ. Under Section 211(b) of the DGCL, we are, however, required to hold an annual meeting of stockholders for the purposes of electing directors in accordance with our bylaws unless such election is made by written consent in lieu of such a meeting. We may not hold an annual meeting of stockholders to elect new directors prior to the consummation of our initial business combination, and thus we may not be in compliance with Section 211(b) of the DGCL, which requires an annual meeting. Therefore, if our stockholders want us to hold an annual meeting prior to the consummation of our initial business combination, they may attempt to force us to hold one by submitting an application to the Delaware Court of Chancery in accordance with Section 211(c) of the DGCL.

We are not registering the shares of Class A common stock issuable upon exercise of the warrants under the Securities Act or any state securities laws at this time, and such registration may not be in place when an investor desires to exercise warrants, thus precluding such investor from being able to exercise its warrants except on a cashless basis. If the issuance of the shares upon exercise of warrants is not registered, qualified or exempt from registration or qualification, the holder of such warrant will not be entitled to exercise such warrant and such warrant may have no value and expire worthless.

We are not registering the shares of Class A common stock issuable upon exercise of the warrants under the Securities Act or any state securities laws at this time. However, under the terms of the warrant agreement, we have agreed that as soon as practicable, but in no event later than 15 business days after the closing of our initial business combination, we will use our reasonable best efforts to file with the SEC a registration statement for the registration under the Securities Act of the shares of Class A common stock issuable upon exercise of the warrants and thereafter will use our reasonable best efforts to cause the same to become effective within 60 business days following our initial business combination and to maintain a current prospectus relating to the Class A common stock issuable upon exercise of the warrants, until the expiration of the warrants in accordance with the provisions of the warrant agreement. We cannot assure you that we will be able to do so if, for example, any facts or events arise which represent a fundamental change in the information set forth in the registration statement or prospectus, the financial statements contained or incorporated by reference therein are not current or correct or the SEC issues a stop order. If the shares issuable upon exercise of the warrants are not registered under the Securities Act, we will be required to permit holders to exercise their warrants on a cashless basis. However, no warrant will be exercisable for cash or on a cashless basis, and we will not be obligated to issue any shares to holders seeking to exercise their warrants, unless the issuance of the shares upon such exercise is registered or qualified under the securities laws of the state of the exercising holder, or an exemption from registration is available. Notwithstanding the above, if our Class A common stock is at the time of any exercise of a warrant not listed on a national securities exchange such that it satisfies the definition of a "covered security" under Section 18(b)(1) of the Securities Act, we may, at our option, require holders of public warrants who exercise their warrants to do so on a "cashless basis" in accordance with Section 3(a)(9) of the Securities Act

and, in the event we so elect, we will not be required to file or maintain in effect a registration statement, but we will be required to use our best efforts to register or qualify the shares under applicable blue sky laws to the extent an exemption is not available. In no event will we be required to net cash settle any warrant, or issue securities or other compensation in exchange for the warrants in the event that we are unable to register or qualify the shares underlying the warrants under applicable state securities laws and there is no exemption available. If the issuance of the shares upon exercise of the warrants is not so registered or qualified or exempt from registration or qualification, the holder of such warrant shall not be entitled to exercise such warrant and such warrant may have no value and expire worthless. In such event, holders who acquired their warrants as part of a purchase of units will have paid the full unit purchase price solely for the shares of Class A common stock included in the units. If and when the warrants become redeemable by us, we may exercise our redemption right even if we are unable to register or qualify the underlying shares of Class A common stock for sale under all applicable state securities laws.

The grant of registration rights to our initial stockholders may make it more difficult to complete our initial business combination, and the future exercise of such rights may adversely affect the market price of our Class A common stock.

Pursuant to an agreement to be entered into concurrently with the issuance and sale of the securities in this offering, our initial stockholders and their permitted transferees can demand that we register the private placement warrants and the shares of Class A common stock issuable upon exercise of the founder shares and the private placement warrants held by them and holders of warrants that may be issued upon conversion of working capital loans may demand that we register such warrants or the Class A common stock issuable upon exercise of such warrants. We will bear the cost of registering these securities. The registration and availability of such a significant number of securities for trading in the public market may have an adverse effect on the market price of our Class A common stock. In addition, the existence of the registration rights may make our initial business combination more costly or difficult to conclude. This is because the stockholders of the target business may increase the equity stake they seek in the combined entity or ask for more cash consideration to offset the negative impact on the market price of our Class A common stock that is expected when the securities owned by our initial stockholders or holders of working capital loans or their respective permitted transferees are registered.

Because we intend to seek a business combination with a target business in the energy industry, we expect our future operations to be subject to risks associated with this industry.

We intend to focus our search for a target business in the energy industry. Within the energy industry, Kayne Anderson has historically focused primarily on upstream and midstream companies. We may pursue a target business in these sectors or any other sector within the energy industry. Because we have not yet approached any specific target business, we cannot provide specific risks of any business combination.

However, our concentration in the energy sector may present more risk than if we acquired a business that was broadly diversified over multiple sectors of the economy. A downturn in one or more sectors within the energy industry, material declines in energy-related commodity prices (such as the decline in commodity prices experienced since mid-2014), adverse political, legislative or regulatory developments or other events could have a larger impact on us than on a company that does not concentrate in the energy sector.

In addition, there are several specific risks associated with companies that operate in the energy sector, including, but not limited to, the following:

Supply and Demand Risk. Energy companies could be adversely affected by reductions in the supply of or demand for energy commodities. In addition, energy companies could be adversely affected by increases in supply of energy commodities if there is not a corresponding increase in demand for such commodities. Supply of energy commodities could be affected by a variety of factors, including depletion of resources, depressed commodity prices, access to capital for energy companies engaged in exploration and production, catastrophic events, labor relations, increased environmental or other governmental regulation, equipment malfunctions and maintenance difficulties, volumes of imports or exports, international politics, policies of OPEC, and increased

competition from alternative energy sources. A decline in demand for energy commodities could result from factors such as adverse economic conditions; increased taxation; increased environmental or other governmental regulation; increased fuel economy; increased energy conservation or use of alternative energy sources; legislation intended to promote the use of alternative energy sources; or increased commodity prices.

Commodity Pricing Risk. The operations and financial performance of energy companies may be directly affected by energy commodity prices, especially those companies that own the underlying energy commodity or receive payments for services that are based on commodity prices. Such impact may be a result of changes in the price for such commodity or a result of changes in the price of one energy commodity relative to the price of another energy commodity (for example, the price of natural gas relative to the price of natural gas liquids). Commodity prices fluctuate for several reasons, including changes in market and economic conditions, the impact of weather on demand, levels of domestic and international production, policies implemented by OPEC (such as Saudi Arabia's policy to maintain its market share or more recently the decision by OPEC to reduce its production levels), energy conservation, domestic and foreign governmental regulation and taxation and the availability of local, intrastate and interstate transportation systems. Crude oil and natural gas liquids prices declined by over 65% from July 2014 to February 2016. Prices have since increased but remain well below July 2014 levels. These severe price declines have negatively impacted the financial position of companies in the energy industry over the last two years.

Regulatory Risk. Energy companies are subject to significant federal, state and local government regulation in virtually every aspect of their operations, including (i) how facilities are constructed, maintained and operated, (ii) how services are provided, (iii) environmental and safety controls, and, in some cases (iv) the prices they may charge for the products and services they provide. Such regulation can change rapidly or over time in both scope and intensity. Various governmental authorities have the power to enforce compliance with these regulations and the permits issued under them. As a result, state or local governments and agencies may have the ability to significantly delay or stop activities such as hydraulic fracturing, disposal of wastewater or the construction of pipeline infrastructure by enacting laws or regulations or making it difficult or impossible to obtain permits. Violators are subject to administrative, civil and criminal penalties, including civil fines, injunctions or both. Stricter laws, regulations or enforcement policies could be enacted in the future which would likely increase compliance costs and may adversely affect the financial performance of energy companies. Recent events surrounding necessary permits for pipelines (Dakota Access Pipeline and Constitution Pipeline as two examples) have raised concerns about the ability of energy companies to place such projects in service and their ability to get the necessary financing to complete such projects. Changes to laws and increased regulations or enforcement policies as a result of pipeline spills (both onshore and offshore) or spills attributable to railroad accidents may also adversely affect the financial performance of energy companies. Additionally, changes to laws and increased regulation or restrictions to the use of hydraulic fracturing, the disposal of wastewater associated with hydraulic fracturing and production or the emission of greenhouse gases may adversely impact the ability of energy companies to economically develop oil and natural gas resources.

The operation of energy assets is subject to stringent and complex federal, state and local environmental laws and regulations. Failure to comply with these laws and regulations may trigger a variety of administrative, civil and criminal enforcement measures, including the assessment of monetary penalties, the imposition of remedial requirements, and the issuance of orders enjoining future operations. Certain environmental statutes, including RCRA, CERCLA, the federal Oil Pollution Act and analogous state laws and regulations, impose strict, joint and several liability for costs required to clean up and restore sites where hazardous substances have been disposed of or otherwise released. Moreover, it is not uncommon for neighboring landowners and other third parties to file claims for personal injury and property damage allegedly caused by the release of hazardous substances or other waste products into the environment. Federal, state and local governments may enact laws, and federal, state and local agencies (such as the Environmental Protection Agency) may promulgate rules or regulations, that prohibit or significantly regulate the operation of energy assets. For instance, increased regulatory scrutiny of hydraulic fracturing, which is used by energy companies to develop oil and natural gas reserves, could result in additional laws and regulations governing hydraulic fracturing or, potentially, prohibiting the action. Increased regulatory scrutiny of the disposal of wastewater, which is a byproduct of

hydraulic fracturing and production of unconventional reserves (and must be disposed), could result in additional laws or regulations governing such disposal activities. For example, research exists linking the disposal of wastewater to increased earthquake activity in oil and natural gas producing regions, and legislation and regulations have been proposed in states like Oklahoma and Colorado to limit or prohibit further underground wastewater disposal. While we are not able to predict the likelihood of additional laws or regulations or their impact, it is possible that additional restrictions on hydraulic fracturing or wastewater disposal could result in a reduction in production of oil, natural gas and natural gas liquids. The use of hydraulic fracturing is critical to the recovery of economic amounts of oil, natural gas and natural gas liquids from unconventional reserves, and the associated wastewater must be disposed.

In response to scientific studies suggesting that emissions of certain gases, commonly referred to as greenhouse gases, including gases associated with oil and gas production such as carbon dioxide, methane and nitrous oxide among others, may be contributing to a warming of the earth's atmosphere and other adverse environmental effects, various governmental authorities have considered or taken actions to reduce emissions of greenhouse gases. For example, the EPA has taken action to regulate greenhouse gas emissions. In addition, certain states (individually or in regional cooperation), have taken or proposed measures to reduce emissions of greenhouse gases. Also, the U.S. Congress has proposed legislative measures for imposing restrictions or requiring emissions fees for greenhouse gases. The adoption and implementation of any federal, state or local regulations imposing reporting obligations on, or limiting emissions of greenhouse gases from, energy companies could result in significant costs to reduce emissions of greenhouse gases associated with their operations or could adversely affect the supply of or demand for crude oil, natural gas, natural gas liquids or other hydrocarbon products, which in turn could reduce production of those commodities. As a result, any such legislation or regulation could have a material adverse impact on the financial performance energy companies.

Depletion Risk. Energy reserves naturally deplete as they are produced over time, and to maintain or grow their revenues, companies engaged in the production of natural gas, natural gas liquids, crude oil and other energy commodities need to maintain or expand their reserves through exploration of new sources of supply, through the development of existing sources, through acquisitions, or through long-term contracts to acquire reserves. The financial performance of these companies may be adversely affected if they are unable to cost-effectively acquire additional reserves sufficient to replace the natural decline. If these companies fail to add reserves by acquiring or developing them, reserves and production will decline over time as they are produced.

Reserve Risks. Energy companies engaged in the production of natural gas, natural gas liquids, crude oil and other energy commodities are subject to overstatement of the quantities of their reserves based upon any reserve estimates that prove to be inaccurate, that no commercially productive amounts of such energy commodities will be discovered as a result of drilling or other exploration activities, the curtailment, delay or cancellation of exploration activities are as a result of low commodity prices, unexpected conditions or miscalculations, title problems, pressure or irregularities in formations, equipment failures or accidents, adverse weather conditions, compliance with environmental and other governmental requirements and cost of, or shortages or delays in the availability of, drilling rigs and other exploration equipment, and operational risks and hazards associated with the development of the underlying properties, including natural disasters, blowouts, explosions, fires, leakage of such energy commodities, mechanical failures, cratering, and pollution.

Catastrophic Event Risk. Energy companies are subject to many dangers inherent in the production, exploration, management, transportation, processing and distribution of natural gas, natural gas liquids, crude oil, refined petroleum products and other hydrocarbons. These dangers include leaks, fires, explosions, train wrecks, damage to facilities and equipment resulting from natural disasters, inadvertent damage to facilities and equipment (such as those suffered by BP's Deepwater Horizon drilling platform in the 2010 Macondo oil spill or recent oil spills by various onshore pipelines) and terrorist acts. The U.S. government has issued warnings that energy assets, specifically domestic energy infrastructure (e.g., pipelines), may be targeted in future terrorist attacks. These dangers give rise to risks of substantial losses as a result of loss or destruction of reserves; damage to or destruction of property, facilities and equipment; pollution and environmental damage; and personal injury or loss of life. Any occurrence of such catastrophic events could bring about a limitation, suspension or

discontinuation of the operations of certain assets owned by such energy company. Energy companies may not be fully insured against all risks inherent in their business operations and, therefore, accidents and catastrophic events could adversely affect such companies' financial condition.

Acquisition Risk. The abilities of energy companies to grow can be highly dependent on their ability to make acquisitions that result in an increase in cash flows. In the event that energy companies are unable to make such accretive acquisitions because they are unable to identify attractive acquisition candidates and negotiate acceptable purchase contracts, because they are unable to raise financing for such acquisitions on economically acceptable terms, or because they are outbid by competitors, their future growth will be limited. Furthermore, even if energy companies do consummate acquisitions that they believe will be accretive, the acquisitions may instead result in a decrease in cash flow. Any acquisition involves risks, including, among other things: mistaken assumptions about volumes, revenues and costs, including synergies; the assumption of unknown liabilities; limitations on rights to indemnity from the seller; the diversion of management's attention from other business concerns; unforeseen difficulties operating in new product or geographic areas; and customer or key employee losses at the acquired businesses.

Contract Rejection/Renegotiation Risk. Energy companies that operate midstream assets are also subject to the credit risk of their customers. For example, during 2015 and 2016, many energy companies that explore for and produce oil, natural gas and natural gas liquids filed for bankruptcy. During the bankruptcy process, the debtor energy company may be able to reject a contract that it has with a midstream company that provides services for the debtor, which services could include gathering, processing, transporting, fractionating or storing the debtor energy company's production. If a contract is successfully rejected during bankruptcy, the affected midstream company will have an unsecured claim for damages but will likely only recover a portion of its claim for damages and may not recover anything at all. A midstream company that provides services to an energy company that is in financial distress could experience a material adverse impact to its financial performance and results of operations.

Political Instability Risk. Energy companies are subject to disruption as a result of terrorist activities, war, and other geopolitical events, including the upheaval in the Middle East or other energy producing regions. The U.S. government has issued warnings that energy assets, specifically those related to pipeline and other energy infrastructure, production facilities and transmission and distribution facilities, may be targeted in future terrorist attacks. Internal unrest, acts of violence or strained relations between a government and energy companies or other governments may affect the operations and profitability of energy companies.

Weather Risk. Weather conditions and the seasonality of weather patterns play a role in the cash flows of certain energy companies. Although most energy companies can reasonably predict seasonal weather demand based on normal weather patterns, extreme weather conditions, such as the hurricanes that severely damaged cities along the U.S. Gulf Coast in the last 15 years, demonstrate that no amount of preparation can protect energy companies from the unpredictability of the weather. The damage done by extreme weather also may serve to increase insurance premiums for energy assets owned by energy companies, could significantly increase the volatility in the supply of energy-related commodities and could adversely affect such companies' financial condition.

Sector Specific Risk. Energy companies are also subject to risks that are specific to the sector in which they operate. For example, energy companies that operate midstream assets are subject to supply and demand fluctuations in the markets they serve which may be impacted by a wide range of factors including fluctuating commodity prices, weather, increased conservation or use of alternative fuel sources, increased governmental or environmental regulation, depletion, rising interest rates, declines in domestic or foreign production, accidents or catastrophic events, and economic conditions, among others. Further, midstream companies are exposed to the natural declines in the production of the oil and gas fields they serve. Gathering and processing assets are most directly impacted by production declines, as volumes will decline if new wells are not drilled and connected to a system, but all midstream assets could potentially be negatively impacted by production declines. For example, as a result of a substantial increase in new midstream assets built over the last five years, several domestic shale basins have (or are expected to have) excess capacity to take supply to end-user markets. This excess capacity can lead to

increased competition among midstream companies and lower rates for services provided, which would have a negative impact on the operating results and financial performance for these companies. In addition, some gathering and processing contracts subject the owner of such assets to direct commodity price risk.

Exploration and production companies that own oil and gas reserves are particularly vulnerable to declines in the demand for and prices of crude oil and natural gas. The accuracy of any reserve estimate is a function of the quality of available data, the accuracy of assumptions regarding future commodity prices and future exploration and development costs and engineering and geological interpretations and judgments. Any significant variance from the assumptions used could result in the actual quantity of reserves and future net cash flow being materially different from those estimated in reserve reports. Substantial downward adjustments in reserve estimates could have a material adverse effect on the value of such reserves and the financial condition of such company. In addition, due to natural declines in reserves and production, energy companies must economically find or acquire and develop additional reserves in order to maintain and grow their production levels and cash flow.

Past performance by Kayne Anderson, including our management team, may not be indicative of future performance of an investment in the Company.

Information regarding performance by, or businesses associated with, Kayne Anderson and its affiliates is presented for informational purposes only. Past performance by Kayne Anderson, including our management team, is not a guarantee either (i) of success with respect to any business combination we may consummate or (ii) that we will be able to locate a suitable candidate for our initial business combination. You should not rely on the historical record of Kayne Anderson's or our management team's performance as indicative of our future performance of an investment in the company or the returns the company will, or is likely to, generate going forward. Our officers and directors have not had experience with blank check companies or special purpose acquisition corporations in the past.

We may seek business combination opportunities in industries or sectors which may or may not be outside of our management's area of expertise.

We may consider a business combination outside of our management's area of expertise if a business combination candidate is presented to us and we determine that such candidate offers an attractive business combination opportunity for our company. Although our management will endeavor to evaluate the risks inherent in any particular business combination candidate, we cannot assure you that we will adequately ascertain or assess all of the significant risk factors. We also cannot assure you that an investment in our units will not ultimately prove to be less favorable to investors in this offering than a direct investment, if an opportunity were available, in a business combination candidate. In the event we elect to pursue an business combination outside of the areas of our management's expertise, our management's expertise may not be directly applicable to its evaluation or operation, and the information contained in this prospectus regarding the areas of our management's expertise would not be relevant to an understanding of the business that we elect to acquire. As a result, our management may not be able to adequately ascertain or assess all of the significant risk factors. Accordingly, any stockholders who choose to remain stockholders following our business combination could suffer a reduction in the value of their shares. Such stockholders are unlikely to have a remedy for such reduction in value.

Although we have identified general criteria and guidelines that we believe are important in evaluating prospective target businesses, we may enter into our initial business combination with a target that does not meet such criteria and guidelines, and as a result, the target business with which we enter into our initial business combination may not have attributes entirely consistent with our general criteria and guidelines.

Although we have identified general criteria and guidelines for evaluating prospective target businesses, it is possible that a target business with which we enter into our initial business combination will not have all of these positive attributes. If we complete our initial business combination with a target that does not meet some or all of

these guidelines, such combination may not be as successful as a combination with a business that does meet all of our general criteria and guidelines. In addition, if we announce a prospective business combination with a target that does not meet our general criteria and guidelines, a greater number of stockholders may exercise their redemption rights, which may make it difficult for us to meet any closing condition with a target business that requires us to have a minimum net worth or a certain amount of cash. In addition, if stockholder approval of the transaction is required by law, or we decide to obtain stockholder approval for business or other legal reasons, it may be more difficult for us to attain stockholder approval of our initial business combination if the target business does not meet our general criteria and guidelines. If we are unable to complete our initial business combination, our public stockholders may receive only approximately \$10.00 per share on the liquidation of our trust account and our warrants will expire worthless.

We may seek business combination opportunities with a financially unstable business or an entity lacking an established record of revenue, cash flow or earnings, which could subject us to volatile revenues, cash flows or earnings or difficulty in retaining key personnel.

To the extent we complete our initial business combination with a financially unstable business or an entity lacking an established record of revenues or earnings, we may be affected by numerous risks inherent in the operations of the business with which we combine. These risks include volatile revenues or earnings and difficulties in obtaining and retaining key personnel. Although our officers and directors will endeavor to evaluate the risks inherent in a particular target business, we may not be able to properly ascertain or assess all of the significant risk factors and we may not have adequate time to complete due diligence. Furthermore, some of these risks may be outside of our control and leave us with no ability to control or reduce the chances that those risks will adversely impact a target business.

We are not required to obtain an opinion from an independent investment banking firm or from an independent accounting firm, and consequently, you may have no assurance from an independent source that the price we are paying for the business is fair to our company from a financial point of view.

Unless we complete our business combination with an affiliated entity or our board cannot independently determine the fair market value of the target business or businesses, we are not required to obtain an opinion from an independent investment banking firm that is a member of FINRA or from an independent accounting firm that the price we are paying is fair to our company from a financial point of view. If no opinion is obtained, our stockholders will be relying on the judgment of our board of directors, who will determine fair market value based on standards generally accepted by the financial community. Such standards used will be disclosed in our proxy materials or tender offer documents, as applicable, related to our initial business combination.

We may issue additional common stock or preferred stock to complete our initial business combination or under an employee incentive plan after completion of our initial business combination. We may also issue shares of Class A common stock upon the conversion of the Class B common stock at a ratio greater than one-to-one at the time of our initial business combination as a result of the anti-dilution provisions contained in our amended and restated certificate of incorporation. Any such issuances would dilute the interest of our stockholders and likely present other risks.

Our amended and restated certificate of incorporation authorizes the issuance of up to 200,000,000 shares of Class A common stock, par value \$0.0001 per share, 20,000,000 shares of Class B common stock, par value \$0.0001 per share, and 1,000,000 shares of preferred stock, par value \$0.0001 per share. Immediately after this offering, there will be 147,333,333 and 11,250,000 (assuming, in each case, that the underwriters have not exercised their over-allotment option) authorized but unissued shares of Class A common stock and Class B common stock, respectively, available for issuance, which amount takes into account the shares of Class A common stock reserved for issuance upon exercise of outstanding warrants but not the shares of Class A common stock issuable upon conversion of Class B common stock, which amount is not currently determinable. Immediately after the consummation of this offering, there will be no shares of preferred stock issued and outstanding. Shares of Class B common stock are convertible into shares of our Class A common stock initially

at a one-for-one ratio but subject to adjustment as set forth herein, including in certain circumstances in which we issue Class A common stock or equity-linked securities related to our initial business combination. Shares of Class B common stock are also convertible at the option of the holder at any time.

We may issue a substantial number of additional shares of common or preferred stock to complete our initial business combination (including pursuant to a specified future issuance) or under an employee incentive plan after completion of our initial business combination. We may also issue shares of Class A common stock upon conversion of the Class B common stock at a ratio greater than one-to-one at the time of our initial business combination as a result of the anti-dilution provisions contained in our amended and restated certificate of incorporation. However, our amended and restated certificate of incorporation will provide, among other things, that prior to our initial business combination, we may not issue additional shares of capital stock that would entitle the holders thereof to (i) receive funds from the trust account or (ii) vote on any initial business combination. The issuance of additional shares of common or preferred stock:

- may significantly dilute the equity interest of investors in this offering;
- may subordinate the rights of holders of common stock if preferred stock is issued with rights senior to those afforded our common stock;
- could cause a change of control if a substantial number of shares of our common stock are issued, which may affect, among other things, our ability to use our net operating loss carry forwards, if any, and could result in the resignation or removal of our present officers and directors; and
- may adversely affect prevailing market prices for our units, Class A common stock and/or warrants.

Resources could be wasted in researching business combinations that are not completed, which could materially adversely affect subsequent attempts to locate and acquire or merge with another business. If we are unable to complete our initial business combination, our public stockholders may receive only approximately \$10.00 per share, or less than such amount in certain circumstances, on the liquidation of our trust account and our warrants will expire worthless.

We anticipate that the investigation of each specific target business and the negotiation, drafting and execution of relevant agreements, disclosure documents and other instruments will require substantial management time and attention and substantial costs for accountants, attorneys, consultants and others. If we decide not to complete a specific initial business combination, the costs incurred up to that point for the proposed transaction likely would not be recoverable. Furthermore, if we reach an agreement relating to a specific target business, we may fail to complete our initial business combination for any number of reasons including those beyond our control. Any such event will result in a loss to us of the related costs incurred which could materially adversely affect subsequent attempts to locate and acquire or merge with another business. If we are unable to complete our initial business combination, our public stockholders may receive only approximately \$10.00 per share on the liquidation of our trust account and our warrants will expire worthless.

Our ability to successfully effect our initial business combination and to be successful thereafter will be totally dependent upon the efforts of our key personnel, some of whom may join us following our initial business combination. The loss of key personnel could negatively impact the operations and profitability of our post-combination business.

Our ability to successfully effect our business combination is dependent upon the efforts of our key personnel. The role of our key personnel in the target business, however, cannot presently be ascertained. Although some of our key personnel may remain with the target business in senior management or advisory positions following our business combination, it is likely that some or all of the management of the target business will remain in place. While we intend to closely scrutinize any individuals we employ after our initial business combination, we cannot assure you that our assessment of these individuals will prove to be correct. These individuals may be unfamiliar with the requirements of operating a company regulated by the SEC, which could cause us to have to expend time and resources helping them become familiar with such requirements.

In addition, the officers and directors of a business combination candidate may resign upon completion of our initial business combination. The departure of a business combination target's key personnel could negatively impact the operations and profitability of our post-combination business. The role of a business combination candidate's key personnel upon the completion of our initial business combination cannot be ascertained at this time. Although we contemplate that certain members of a business combination candidate's management team will remain associated with the business combination candidate following our initial business combination, it is possible that members of the management of a business combination candidate will not wish to remain in place. The loss of key personnel could negatively impact the operations and profitability of our post-combination business.

Kayne Anderson's financial position could change, negatively impacting its role in helping us complete our initial business combination.

Kayne Anderson's financial position could be negatively impacted due to a variety of factors, including investor redemptions, lower management fees and/or performance fees and higher operating expenses. From time to time, Kayne Anderson is party to lawsuits, which if resolved in an unfavorable manner for Kayne Anderson, could have a material impact on Kayne Anderson's financial position. To the extent Kayne Anderson's financial position is less stable, it may have difficulty retaining certain key investment professionals, which could negatively impact Kayne Anderson's ability to help us complete our initial business combination.

We are dependent upon our executive officers and directors and their departure could adversely affect our ability to operate.

Our operations are dependent upon a relatively small group of individuals and, in particular, our executive officers and directors. We believe that our success depends on the continued service of our executive officers and directors, at least until we have completed our business combination. We do not have an employment agreement with, or key-man insurance on the life of, any of our directors or executive officers. The unexpected loss of the services of one or more of our directors or executive officers could have a detrimental effect on us.

Our key personnel may negotiate employment or consulting agreements with a target business in connection with a particular business combination. These agreements may provide for them to receive compensation following our business combination and as a result, may cause them to have conflicts of interest in determining whether a particular business combination is the most advantageous.

Our key personnel may be able to remain with the company after the completion of our business combination only if they are able to negotiate employment or consulting agreements in connection with the business combination. Such negotiations would take place simultaneously with the negotiation of the business combination and could provide for such individuals to receive compensation in the form of cash payments and/or our securities for services they would render to us after the completion of the business combination. The personal and financial interests of such individuals may influence their motivation in identifying and selecting a target business. However, we believe the ability of such individuals to remain with us after the completion of our business combination will not be the determining factor in our decision as to whether or not we will proceed with any potential business combination. There is no certainty, however, that any of our key personnel will remain with us after the completion of our business combination. We cannot assure you that any of our key personnel will remain in senior management or advisory positions with us. The determination as to whether any of our key personnel will remain with us will be made at the time of our initial business combination.

We may have a limited ability to assess the management of a prospective target business and, as a result, may effect our initial business combination with a target business whose management may not have the skills, qualifications or abilities to manage a public company, which could, in turn, negatively impact the value of our stockholders' investment in us.

When evaluating the desirability of effecting our initial business combination with a prospective target business, our ability to assess the target business's management may be limited due to a lack of time, resources

or information. Our assessment of the capabilities of the target's management, therefore, may prove to be incorrect and such management may lack the skills, qualifications or abilities we suspected. Should the target's management not possess the skills, qualifications or abilities necessary to manage a public company, the operations and profitability of the post-combination business may be negatively impacted. Accordingly, any stockholders who choose to remain stockholders following the business combination could suffer a reduction in the value of their shares. Such stockholders are unlikely to have a remedy for such reduction in value.

Our officers and directors will allocate their time to other businesses thereby causing conflicts of interest in their determination as to how much time to devote to our affairs. This conflict of interest could have a negative impact on our ability to complete our initial business combination.

Our officers and directors are not required to, and will not, commit their full time to our affairs, which may result in a conflict of interest in allocating their time between our operations and our search for a business combination and their other businesses. We do not intend to have any full-time employees prior to the completion of our initial business combination. Each of our officers is engaged in other business endeavors for which he may be entitled to substantial compensation and our officers are not obligated to contribute any specific number of hours per week to our affairs. In particular, all of our officers and directors are employed by Kayne Anderson, which is an investment manager to various public and private investment funds, which make investments in securities or other interests of or relating to companies in industries we may target for our initial business combination. Our independent directors may also serve as officers or board members for other entities. If our officers' and directors' other business affairs require them to devote substantial amounts of time to such affairs in excess of their current commitment levels, it could limit their ability to devote time to our affairs which may have a negative impact on our ability to complete our initial business combination. For a complete discussion of our officers' and directors' other business affairs, please see the section of this prospectus entitled "Management—Directors and Officers."

Certain of our officers and directors are now, and all of them may in the future become, affiliated with entities engaged in making investments in business activities similar to those intended to be conducted by us and, accordingly, may have conflicts of interest in allocating their time and determining to which entity a particular business opportunity should be presented.

Following the completion of this offering and until we consummate our initial business combination, we intend to engage in the business of identifying and combining with one or more businesses. Our sponsor and officers and directors are, and may in the future become, affiliated with entities that are engaged in making and managing investments in a similar business.

Our officers and directors also may become aware of business opportunities which may be appropriate for presentation to us and the other entities to which they owe certain fiduciary or contractual duties.

Accordingly, they may have conflicts of interest in determining to which entity a particular business opportunity should be presented. These conflicts may not be resolved in our favor and a potential target business may be presented to another entity prior to its presentation to us. Our amended and restated certificate of incorporation will provide that we renounce our interest in any corporate opportunity offered to any director or officer unless such opportunity is expressly offered to such person solely in his or her capacity as a director or officer of our company and such opportunity is one we are legally and contractually permitted to undertake and would otherwise be reasonable for us to pursue, and to the extent the director or officer is permitted to refer that opportunity to us without violating another legal obligation.

For a complete discussion of our officers' and directors' business affiliations and the potential conflicts of interest that you should be aware of, please see the sections of this prospectus entitled "Management—Directors and Officers," "Management—Conflicts of Interest" and "Certain Relationships and Related Party Transactions."

Our officers, directors, security holders and their respective affiliates may have competitive pecuniary interests that conflict with our interests.

We have not adopted a policy that expressly prohibits our directors, officers, security holders or affiliates from having a direct or indirect pecuniary or financial interest in any investment to be acquired or disposed of by us or in any transaction to which we are a party or have an interest. In fact, we may enter into a business combination with a target business that is affiliated with our sponsor, our directors or officers, although we do not intend to do so, or we may acquire a target business through an Affiliated Joint Acquisition with one or more affiliates of Kayne Anderson and/or one or more investors in funds or separate accounts managed by Kayne Anderson. We do not have a policy that expressly prohibits any such persons from engaging for their own account in business activities of the types conducted by us. Accordingly, such persons or entities may have a conflict between their interests and ours.

In particular, Kayne Anderson and its affiliates also are focused on investments in the energy industry. As a result, there may be substantial overlap between companies that would be a suitable business combination for us and companies that would make an attractive target for such other affiliates.

We may engage in a business combination with one or more target businesses that have relationships with entities that may be affiliated with our sponsor, officers, directors or existing holders which may raise potential conflicts of interest.

In light of the involvement of our sponsor, officers and directors with other entities, we may decide to acquire one or more businesses affiliated with our sponsor, officers or directors. Our directors also serve as officers and board members for other entities, including, without limitation, those described under the section of this prospectus entitled “Management—Conflicts of Interest.” Such entities may compete with us for business combination opportunities. Our sponsor, officers and directors are not currently aware of any specific opportunities for us to complete our business combination with any entities with which they are affiliated, and there have been no preliminary discussions concerning a business combination with any such entity or entities. Although we will not be specifically focusing on, or targeting, any transaction with any affiliated entities, we would pursue such a transaction if we determined that such affiliated entity met our criteria for a business combination as set forth in the section of this prospectus entitled “Proposed Business—Selection of a Target Business and Structuring of our Initial Business Combination” and such transaction was approved by a majority of our disinterested directors. Despite our agreement to obtain an opinion from an independent investment banking firm that is a member of FINRA, or from an independent accounting firm, regarding the fairness to our company from a financial point of view of a business combination with one or more domestic or international businesses affiliated with our officers, directors or existing holders, potential conflicts of interest still may exist and, as a result, the terms of the business combination may not be as advantageous to our public stockholders as they would be absent any conflicts of interest. In order to satisfy applicable regulatory or other legal requirements applicable to an Affiliated Joint Acquisition, our business combination may be effected on less favorable terms than otherwise would apply if the business combination were not an Affiliated Joint Acquisition.

We may acquire a target business through an Affiliated Joint Acquisition with one or more affiliates of Kayne Anderson and/or one or more investors in funds managed by Kayne Anderson. This may result in conflicts of interest as well as dilutive issuances of our securities.

We may, at our option, pursue an Affiliated Joint Acquisition opportunity with an entity affiliated with Kayne Anderson and/or one or more investors in funds or separate accounts managed by Kayne Anderson. Any such parties would co-invest only if (i) permitted by applicable regulatory and other legal limitations; (ii) we and Kayne Anderson considered a transaction to be mutually beneficial to us as well as the affiliated entity; and (iii) other business reasons exist to do so, such as the strategic merits of including such co-investors, the need for additional capital beyond the amount held in our trust account to fund the business combination transaction and/or the desire to obtain committed capital for closing the business combination transaction. An Affiliated Joint

Acquisition may be effected through a co-investment with us in the target business at the time of our initial business combination, or we could raise additional proceeds to complete the business combination by issuing to such parties a class of equity or equity-linked securities. Accordingly, such persons or entities may have a conflict between their interests and ours.

In addition, any specified future issuance in connection with Affiliated Joint Acquisition would trigger the anti-dilution provisions of our Class B common stock, which, unless waived, would result in an adjustment to the conversion ratio of our Class B common stock such that our initial stockholders and their permitted transferees, if any, would retain their aggregate percentage ownership at 20% of the sum of the total number of all shares of common stock outstanding upon completion of this offering plus all shares issued in the specified future issuance. If such adjustment is not waived as described elsewhere in this prospectus, the specified future issuance would not reduce the percentage ownership of holders of our Class B common stock, but would reduce the percentage ownership of holders of our Class A common stock.

We will not have a majority of independent directors at completion of this offering and will not have an audit committee consisting entirely of independent directors for up to a year following our initial public offering. You will not know at the time of this offering the identities of independent directors that may be responsible for evaluating an initial business combination, including with a company that is affiliated with Kayne Anderson or an Affiliated Joint Transaction.

NASDAQ listing standards require that a majority of our board of directors be independent. In conformity with NASDAQ's "phase-in" rules, within one year of our initial public offering, a majority of our board of directors will be independent; currently, we have two independent directors out of four total. Thus, upon our initial public offering, and for up to a year afterwards, we will not have a majority of independent directors and will not have an audit committee consisting entirely of independent directors. As a result, investors will not know the identities of all of the independent directors and will be unable to evaluate the qualifications and backgrounds of such additional independent directors or the full composition of the board at the time of this offering. Also, at the time of this offering, investors will not know the independent directors that may be responsible for evaluating an initial business combination, including any such business combination with a company affiliated with Kayne Anderson or an Affiliated Joint Acquisition. After additional independent directors are appointed, those additional independent directors will be available to evaluate any initial business combination, including any such business combination with a company affiliated with Kayne Anderson or an Affiliated Joint Acquisition. In addition, while we currently expect to add two more independent directors after completion of our initial public offering, we cannot assure you that we will be able to do so in time for them to evaluate the risks associated with an initial business combination as described above.

Since our sponsor, officers and directors will lose their entire investment in us if our business combination is not completed, a conflict of interest may arise in determining whether a particular business combination target is appropriate for our initial business combination.

On December 23, 2016, our sponsor purchased an aggregate of 10,062,500 founder shares for an aggregate purchase price of \$25,000, or approximately \$0.002 per share. In March 2017, our sponsor transferred 40,000 founder shares to each of our independent director nominees at a price of \$0.002 per share. The 80,000 founder shares held by our nominees will not be subject to forfeiture in the event the underwriters' overallotment option is not exercised. The number of founder shares issued was determined based on the expectation that such founder shares would represent 20% of the outstanding shares after this offering. The founder shares will be worthless if we do not complete an initial business combination. In addition, our sponsor has committed to purchase an aggregate of 6,000,000 (or 6,700,000 if the underwriters' over-allotment option is exercised in full) private placement warrants, each exercisable for one share of our Class A common stock at \$11.50 per share, for a purchase price of approximately \$9,000,000 (or \$10,050,000 if the underwriters' over-allotment option is exercised in full), or \$1.50 per warrant, that will also be worthless if we do not complete a business combination. Holders of founder shares have agreed (A) to vote any shares owned by them in favor of any proposed business

combination and (B) not to redeem any founder shares in connection with a stockholder vote to approve a proposed initial business combination. In addition, we may obtain loans from our sponsor, affiliates of our sponsor or an officer or director. The personal and financial interests of our officers and directors may influence their motivation in identifying and selecting a target business combination, completing an initial business combination and influencing the operation of the business following the initial business combination.

We may issue notes or other debt securities, or otherwise incur substantial debt, to complete a business combination, which may adversely affect our leverage and financial condition and thus negatively impact the value of our stockholders' investment in us.

Although we have no commitments as of the date of this prospectus to issue any notes or other debt securities, or to otherwise incur outstanding debt following this offering, we may choose to incur substantial debt to complete our business combination. We have agreed that we will not incur any indebtedness unless we have obtained from the lender a waiver of any right, title, interest or claim of any kind in or to the monies held in the trust account. As such, no issuance of debt will affect the per-share amount available for redemption from the trust account. Nevertheless, the incurrence of debt could have a variety of negative effects, including:

- default and foreclosure on our assets if our operating revenues after an initial business combination are insufficient to repay our debt obligations;
- acceleration of our obligations to repay the indebtedness even if we make all principal and interest payments when due if we breach certain covenants that require the maintenance of certain financial ratios or reserves without a waiver or renegotiation of that covenant;
- our immediate payment of all principal and accrued interest, if any, if the debt security is payable on demand;
- our inability to obtain necessary additional financing if the debt security contains covenants restricting our ability to obtain such financing while the debt security is outstanding;
- our inability to pay dividends on our common stock;
- using a substantial portion of our cash flow to pay principal and interest on our debt, which will reduce the funds available for dividends on our common stock if declared, our ability to pay expenses, make capital expenditures and acquisitions, and fund other general corporate purposes;
- limitations on our flexibility in planning for and reacting to changes in our business and in the industry in which we operate;
- increased vulnerability to adverse changes in general economic, industry and competitive conditions and adverse changes in government regulation;
- limitations on our ability to borrow additional amounts for expenses, capital expenditures, acquisitions, debt service requirements, and execution of our strategy; and
- other disadvantages compared to our competitors who have less debt.

We may only be able to complete one business combination with the proceeds of this offering and the sale of the private placement warrants, which will cause us to be solely dependent on a single business which may have a limited number of services and limited operating activities. This lack of diversification may negatively impact our operating results and profitability.

Of the net proceeds from this offering and the sale of the private placement warrants, \$350,000,000 (or \$402,500,000 if the underwriters' over-allotment option is exercised in full) will be available to complete our business combination and pay related fees and expenses (which includes up to approximately \$12,250,000, or up to approximately \$14,087,500 if the over-allotment option is exercised in full, for the payment of deferred underwriting commissions).

We may effectuate our business combination with a single target business or multiple target businesses simultaneously or within a short period of time. However, we may not be able to effectuate our business combination with more than one target business because of various factors, including the existence of complex accounting issues and the requirement that we prepare and file pro forma financial statements with the SEC that present operating results and the financial condition of several target businesses as if they had been operated on a combined basis. By completing our initial business combination with only a single entity, our lack of diversification may subject us to numerous economic, competitive and regulatory developments. Further, we would not be able to diversify our operations or benefit from the possible spreading of risks or offsetting of losses, unlike other entities which may have the resources to complete several business combinations in different industries or different areas of a single industry. In addition, we intend to focus our search for an initial business combination in a single industry. Accordingly, the prospects for our success may be:

- solely dependent upon the performance of a single business, property or asset, or
- dependent upon the development or market acceptance of a single or limited number of products, processes or services.

This lack of diversification may subject us to numerous economic, competitive and regulatory risks, any or all of which may have a substantial adverse impact upon the particular industry in which we may operate subsequent to our business combination.

We may attempt to simultaneously complete business combinations with multiple prospective targets, which may hinder our ability to complete our business combination and give rise to increased costs and risks that could negatively impact our operations and profitability.

If we determine to simultaneously acquire several businesses that are owned by different sellers, we will need for each of such sellers to agree that our purchase of its business is contingent on the simultaneous closings of the other business combinations, which may make it more difficult for us, and delay our ability, to complete our initial business combination. We do not, however, intend to purchase multiple businesses in unrelated industries in conjunction with our initial business combination. With multiple business combinations, we could also face additional risks, including additional burdens and costs with respect to possible multiple negotiations and due diligence investigations (if there are multiple sellers) and the additional risks associated with the subsequent assimilation of the operations and services or products of the acquired companies in a single operating business. If we are unable to adequately address these risks, it could negatively impact our profitability and results of operations.

We may attempt to complete our initial business combination with a private company about which little information is available, which may result in a business combination with a company that is not as profitable as we suspected, if at all.

In pursuing our business combination strategy, we may seek to effectuate our initial business combination with a privately held company. By definition, very little public information exists about private companies, and we could be required to make our decision on whether to pursue a potential initial business combination on the basis of limited information, which may result in a business combination with a company that is not as profitable as we suspected, if at all.

Our management may not be able to maintain control of a target business after our initial business combination.

We may structure a business combination so that the post-transaction company in which our public stockholders own shares will own less than 100% of the equity interests or assets of a target business, but we will only complete such business combination if the post-transaction company owns or acquires 50% or more of the outstanding voting securities of the target or otherwise acquires a controlling interest in the target sufficient for

us not to be required to register as an investment company under the Investment Company Act. We will not consider any transaction that does not meet such criteria. Even if the post- transaction company owns 50% or more of the voting securities of the target, our stockholders prior to the business combination may collectively own a minority interest in the post business combination company, depending on valuations ascribed to the target and us in the business combination transaction. For example, we could pursue a transaction in which we issue a substantial number of new shares of Class A common stock in exchange for all of the outstanding capital stock of a target. In this case, we would acquire a 100% interest in the target. However, as a result of the issuance of a substantial number of new shares of common stock, our stockholders immediately prior to such transaction could own less than a majority of our outstanding shares of common stock subsequent to such transaction. In addition, other minority stockholders may subsequently combine their holdings resulting in a single person or group obtaining a larger share of the company's stock than we initially acquired. Accordingly, this may make it more likely that our management will not be able to maintain our control of the target business. We cannot provide assurance that, upon loss of control of a target business, new management will possess the skills, qualifications or abilities necessary to profitably operate such business.

We do not have a specified maximum redemption threshold. The absence of such a redemption threshold may make it possible for us to complete a business combination with which a substantial majority of our stockholders do not agree.

Our amended and restated certificate of incorporation will not provide a specified maximum redemption threshold, except that in no event will we redeem our public shares in an amount that would cause our net tangible assets to be less than \$5,000,001 upon consummation of our initial business combination and after payment of underwriters' fees and commissions (such that we are not subject to the SEC's "penny stock" rules) or any greater net tangible asset or cash requirement which may be contained in the agreement relating to our initial business combination. As a result, we may be able to complete our business combination even though a substantial majority of our public stockholders do not agree with the transaction and have redeemed their shares or, if we seek stockholder approval of our initial business combination and do not conduct redemptions in connection with our business combination pursuant to the tender offer rules, have entered into privately negotiated agreements to sell their shares to our sponsor, officers, directors, advisors or their affiliates. In the event the aggregate cash consideration we would be required to pay for all shares of Class A common stock that are validly submitted for redemption plus any amount required to satisfy cash conditions pursuant to the terms of the proposed business combination exceed the aggregate amount of cash available to us, we will not complete the business combination or redeem any shares, all shares of Class A common stock submitted for redemption will be returned to the holders thereof, and we instead may search for an alternate business combination.

In order to effectuate our initial business combination, we may seek to amend our amended and restated certificate of incorporation or governing instruments in a manner that will make it easier for us to complete our initial business combination but that our stockholders may not support.

In order to effectuate a business combination, blank check companies have, in the recent past, amended various provisions of their charters and modified governing instruments. For example, blank check companies have amended the definition of business combination, increased redemption thresholds and extended the time to consummate an initial business combination. We cannot assure you that we will not seek to amend our charter or governing instruments or extend the time to consummate an initial business combination in order to effectuate our initial business combination.

The provisions of our amended and restated certificate of incorporation that relate to our pre-business combination activity (and corresponding provisions of the agreement governing the release of funds from our trust account) may be amended with the approval of holders of 65% of our common stock. We may be able, therefore, to amend our amended and restated certificate of incorporation and the trust agreement to facilitate the completion of an initial business combination that some of our stockholders may not support.

Our amended and restated certificate of incorporation provides that any of its provisions related to pre-business combination activity (including the requirement to deposit proceeds of this offering and the private

placement of warrants into the trust account and not release such amounts except in specified circumstances, and to provide redemption rights to public stockholders as described herein) may be amended if approved by holders of 65% of our common stock entitled to vote thereon, and corresponding provisions of the trust agreement governing the release of funds from our trust account may be amended if approved by holders of 65% of our common stock entitled to vote thereon. In all other instances, our amended and restated certificate of incorporation may be amended by holders of a majority of our outstanding common stock entitled to vote thereon, subject to applicable provisions of the DGCL or applicable stock exchange rules. Our initial stockholders, who will collectively beneficially own up to 20% of our common stock upon the closing of this offering (assuming they do not purchase any units in this offering), will participate in any vote to amend our amended and restated certificate of incorporation and/or trust agreement and will have the discretion to vote in any manner they choose. As a result, we may be able to amend the provisions of our amended and restated certificate of incorporation which govern our pre-business combination behavior to facilitate our ability to complete a business combination with which you do not agree. Our stockholders may pursue remedies against us for any breach of our amended and restated certificate of incorporation.

Our sponsor, officers and directors have agreed, pursuant to a written agreement with us, that they will not propose any amendment to our amended and restated certificate of incorporation to modify the substance or timing of our obligation to redeem 100% of our public shares if we do not complete our initial business combination within 24 months from the closing of this offering, unless we provide our public stockholders with the opportunity to redeem their shares of Class A common stock upon approval of any such amendment at a per-share price, payable in cash, equal to the aggregate amount then on deposit in the trust account, divided by the number of then outstanding public shares. These agreements are contained in a letter agreement that we have entered into with our sponsor, officers and directors. Our stockholders are not parties to, or third-party beneficiaries of, these agreements and, as a result, will not have the ability to pursue remedies against our sponsor, officers or directors for any breach of these agreements. As a result, in the event of a breach, our stockholders would need to pursue a stockholder derivative action, subject to applicable law.

We may be unable to obtain additional financing to complete our initial business combination or to fund the operations and growth of a target business, which could compel us to restructure or abandon a particular business combination.

We have not selected any specific business combination target, but intend to target businesses larger than we could acquire with the net proceeds of this offering and the sale of the private placement warrants. As a result, we may be required to seek additional financing to complete such proposed initial business combination. We cannot assure you that such financing will be available on acceptable terms, if at all. To the extent that additional financing proves to be unavailable when needed to complete our initial business combination, we would be compelled to either restructure the transaction or abandon that particular business combination and seek an alternative target business candidate. Further, the amount of additional financing we may be required to obtain could increase as a result of future growth capital needs for any particular transaction, the depletion of the available net proceeds in search of a target business, the obligation to repurchase for cash a significant number of shares from stockholders who elect redemption in connection with our initial business combination and/or the terms of negotiated transactions to purchase shares in connection with our initial business combination. If we are unable to complete our initial business combination, our public stockholders may receive only approximately \$10.00 per share plus any pro rata interest earned on the funds held in the trust account and not previously released to us to pay our franchise and income taxes on the liquidation of our trust account and our warrants will expire worthless. In addition, even if we do not need additional financing to complete our business combination, we may require such financing to fund the operations or growth of the target business. The failure to secure additional financing could have a material adverse effect on the continued development or growth of the target business. None of our officers, directors or stockholders is required to provide any financing to us in connection with or after our initial business combination. If we are unable to complete our initial business combination, our public stockholders may only receive approximately \$10.00 per share on the liquidation of our trust account, and our warrants will expire worthless.

Our initial stockholders may exert a substantial influence on actions requiring a stockholder vote, potentially in a manner that you do not support.

Upon the closing of this offering, our initial stockholders will own shares representing 20% of our issued and outstanding shares of common stock (assuming they do not purchase any units in this offering). Accordingly, they may exert a substantial influence on actions requiring a stockholder vote, potentially in a manner that you do not support, including amendments to our amended and restated certificate of incorporation and approval of major corporate transactions. If our initial stockholders purchase any units in this offering or if our initial stockholders purchase any additional shares of common stock in the aftermarket or in privately negotiated transactions, this would increase their control. Factors that would be considered in making such additional purchases would include consideration of the current trading price of our Class A common stock. In addition, our board of directors, whose members were elected by our initial stockholders, is and will be divided into three classes, each of which will generally serve for a term of three years with only one class of directors being elected in each year. We may not hold an annual meeting of stockholders to elect new directors prior to the completion of our business combination, in which case all of the current directors will continue in office until at least the completion of the business combination. If there is an annual meeting, as a consequence of our “staggered” board of directors, only a minority of the board of directors will be considered for election and our initial stockholders, because of their ownership position, will have considerable influence regarding the outcome. Accordingly, our initial stockholders will continue to exert control at least until the completion of our business combination.

Our sponsor paid an aggregate of \$25,000, or approximately \$0.002 per founder share, and, accordingly, you will experience immediate and substantial dilution from the purchase of our Class B common stock.

The difference between the public offering price per share (allocating all of the unit purchase price to the Class A common stock and none to the warrant included in the unit) and the pro forma net tangible book value per share of our Class A common stock after this offering constitutes the dilution to you and the other investors in this offering. Our sponsor acquired the founder shares at a nominal price, significantly contributing to this dilution. Upon the closing of this offering, and assuming no value is ascribed to the warrants included in the units, you and the other public stockholders will incur an immediate and substantial dilution of approximately 95.2% (or \$9.52 per share, assuming no exercise of the underwriters’ over-allotment option), the difference between the pro forma net tangible book value per share of \$0.48 and the initial offering price of \$10.00 per unit. In addition, because of the anti-dilution rights of the founder shares, any equity or equity-linked securities issued in connection with our initial business combination would be disproportionately dilutive to our Class A common stock.

We may amend the terms of the warrants in a manner that may be adverse to holders with the approval by the holders of at least 50% of the then outstanding public warrants. As a result, the exercise price of your warrants could be increased, the exercise period could be shortened and the number of shares of our Class A common stock purchasable upon exercise of a warrant could be decreased, all without your approval.

Our warrants will be issued in registered form under a warrant agreement between American Stock Transfer & Trust Company, as warrant agent, and us. The warrant agreement provides that the terms of the warrants may be amended without the consent of any holder to cure any ambiguity or correct any defective provision, but requires the approval by the holders of at least 50% of the then outstanding public warrants to make any change that adversely affects the interests of the registered holders of public warrants. Accordingly, we may amend the terms of the public warrants in a manner adverse to a holder if holders of at least 50% of the then outstanding public warrants approve of such amendment. Although our ability to amend the terms of the public warrants with the consent of at least 50% of the then outstanding public warrants is unlimited, examples of such amendments could be amendments to, among other things, increase the exercise price of the warrants, convert the warrants into cash or stock, shorten the exercise period or decrease the number of shares of our Class A common stock purchasable upon exercise of a warrant.

We may redeem your unexpired warrants prior to their exercise at a time that is disadvantageous to you, thereby making your warrants worthless.

We have the ability to redeem outstanding warrants at any time after they become exercisable and prior to their expiration, at a price of \$0.01 per warrant, provided that the last reported sales price of our Class A common stock equals or exceeds \$18.00 per share for any 20 trading days within a 30 trading-day period ending on the third trading day prior to the date on which we give proper notice of such redemption and provided certain other conditions are met. If and when the warrants become redeemable by us, we may exercise our redemption right even if we are unable to register or qualify the underlying securities for sale under all applicable state securities laws. Redemption of the outstanding warrants could force you (i) to exercise your warrants and pay the exercise price therefor at a time when it may be disadvantageous for you to do so, (ii) to sell your warrants at the then-current market price when you might otherwise wish to hold your warrants or (iii) to accept the nominal redemption price which, at the time the outstanding warrants are called for redemption, is likely to be substantially less than the market value of your warrants. None of the private placement warrants will be redeemable by us so long as they are held by the sponsor or its permitted transferees.

Our warrants and founder shares may have an adverse effect on the market price of our Class A common stock and make it more difficult to effectuate our business combination.

We will be issuing warrants to purchase 11,666,667 shares of our Class A common stock (or up to 13,416,667 shares of Class A common stock if the underwriters' over-allotment option is exercised in full) as part of the units offered by this prospectus and, simultaneously with the closing of this offering, we will be issuing in a private placement warrants to purchase an aggregate of 6,000,000 (or up to 6,700,000 if the underwriters' over-allotment option is exercised in full) shares of Class A common stock at \$11.50 per share. Our initial stockholders currently own an aggregate of 10,062,500 founder shares. The founder shares are convertible into shares of Class A common stock on a one-for-one basis, subject to adjustment as set forth herein. In addition, if our sponsor makes any working capital loans, up to \$1,500,000 of such loans may be converted into warrants, at the price of \$1.50 per warrant at the option of the lender. Such warrants would be identical to the private placement warrants, including as to exercise price, exercisability and exercise period.

To the extent we issue shares of Class A common stock to effectuate a business combination, the potential for the issuance of a substantial number of additional shares of Class A common stock upon exercise of these warrants and conversion rights could make us a less attractive business combination vehicle to a target business. Any such issuance will increase the number of issued and outstanding shares of our Class A common stock and reduce the value of the shares of Class A common stock issued to complete the business combination. Therefore, our warrants and founder shares may make it more difficult to effectuate a business combination or increase the cost of acquiring the target business.

The private placement warrants are identical to the warrants sold as part of the units in this offering except that, so long as they are held by our sponsor or its permitted transferees, (i) they will not be redeemable by us, (ii) they (including the Class A common stock issuable upon exercise of these warrants) may not, subject to certain limited exceptions, be transferred, assigned or sold by our sponsor until 30 days after the completion of our initial business combination and (iii) they may be exercised by the holders on a cashless basis.

Because each unit contains one-third of one warrant and only a whole warrant may be exercised, the units may be worth less than units of other blank check companies.

Each unit contains one-third of one warrant. Because, pursuant to the warrant agreement, the warrants may only be exercised for a whole number of shares, only a whole warrant may be exercised at any given time. This is different from other offerings similar to ours whose units include one share of common stock and one warrant to purchase one whole share. We have established the components of the units in this way in order to reduce the dilutive effect of the warrants upon completion of a business combination since the warrants will be exercisable

in the aggregate for one third of the number of shares compared to units that each contain a warrant to purchase one whole share, thus making us, we believe, a more attractive merger partner for target businesses. Nevertheless, this unit structure may cause our units to be worth less than if they included a warrant to purchase one whole share.

The determination of the offering price of our units and the size of this offering is more arbitrary than the pricing of securities and size of an offering of an operating company in a particular industry. You may have less assurance, therefore, that the offering price of our units properly reflects the value of such units than you would have in a typical offering of an operating company.

Prior to this offering there has been no public market for any of our securities. The public offering price of the units and the terms of the warrants were negotiated between us and the underwriters. In determining the size of this offering, management held customary organizational meetings with representatives of the underwriters, both prior to our inception and thereafter, with respect to the state of capital markets, generally, and the amount the underwriters believed they reasonably could raise on our behalf. Factors considered in determining the size of this offering, prices and terms of the units, including the Class A common stock and warrants underlying the units, include:

- the history and prospects of companies whose principal business is the acquisition of other companies;
- prior offerings of those companies;
- our prospects for acquiring an operating business;
- a review of debt to equity ratios in leveraged transactions;
- our capital structure;
- an assessment of our management and their experience in identifying operating companies;
- general conditions of the securities markets at the time of this offering; and
- other factors as were deemed relevant.

Although these factors were considered, the determination of our offering price is more arbitrary than the pricing of securities of an operating company in a particular industry since we have no historical operations or financial results.

There is currently no market for our securities and a market for our securities may not develop, which would adversely affect the liquidity and price of our securities.

There is currently no market for our securities. Stockholders therefore have no access to information about prior market history on which to base their investment decision. Following this offering, the price of our securities may vary significantly due to one or more potential business combinations and general market or economic conditions. Furthermore, an active trading market for our securities may never develop or, if developed, it may not be sustained. You may be unable to sell your securities unless a market can be established and sustained.

Because we must furnish our stockholders with target business financial statements, we may lose the ability to complete an otherwise advantageous initial business combination with some prospective target businesses.

The federal proxy rules require that a proxy statement with respect to a vote on a business combination meeting certain financial significance tests include historical and/or pro forma financial statement disclosure in periodic reports. We will include the same financial statement disclosure in connection with our tender offer documents, whether or not they are required under the tender offer rules. These financial statements may be

required to be prepared in accordance with, or be reconciled to, accounting principles generally accepted in the United States of America, or GAAP, or international financial reporting standards, or IFRS, depending on the circumstances and the historical financial statements may be required to be audited in accordance with the standards of the Public Company Accounting Oversight Board (United States), or PCAOB. These financial statement requirements may limit the pool of potential target businesses we may acquire because some targets may be unable to provide such financial statements in time for us to disclose such statements in accordance with federal proxy rules and complete our initial business combination within the prescribed time frame.

We are an emerging growth company within the meaning of the Securities Act, and if we take advantage of certain exemptions from disclosure requirements available to emerging growth companies, this could make our securities less attractive to investors and may make it more difficult to compare our performance with other public companies.

We are an “emerging growth company” within the meaning of the Securities Act, as modified by the JOBS Act, and we may take advantage of certain exemptions from various reporting requirements that are applicable to other public companies that are not emerging growth companies including, but not limited to, not being required to comply with the auditor attestation requirements of Section 404 of the Sarbanes-Oxley Act, reduced disclosure obligations regarding executive compensation in our periodic reports and proxy statements, and exemptions from the requirements of holding a nonbinding advisory vote on executive compensation and stockholder approval of any golden parachute payments not previously approved. As a result, our stockholders may not have access to certain information they may deem important. We could be an emerging growth company for up to five years, although circumstances could cause us to lose that status earlier, including if the market value of our Class A common stock held by non-affiliates exceeds \$700 million as of any June 30 before that time, in which case we would no longer be an emerging growth company as of the following December 31. We cannot predict whether investors will find our securities less attractive because we will rely on these exemptions. If some investors find our securities less attractive as a result of our reliance on these exemptions, the trading prices of our securities may be lower than they otherwise would be, there may be a less active trading market for our securities and the trading prices of our securities may be more volatile.

Further, Section 102(b)(1) of the JOBS Act exempts emerging growth companies from being required to comply with new or revised financial accounting standards until private companies (that is, those that have not had a Securities Act registration statement declared effective or do not have a class of securities registered under the Exchange Act) are required to comply with the new or revised financial accounting standards. The JOBS Act provides that a company can elect to opt out of the extended transition period and comply with the requirements that apply to non-emerging growth companies but any such an election to opt out is irrevocable. We have elected not to opt out of such extended transition period, which means that when a standard is issued or revised and it has different application dates for public or private companies, we, as an emerging growth company, can adopt the new or revised standard at the time private companies adopt the new or revised standard. This may make comparison of our financial statements with another public company which is neither an emerging growth company nor an emerging growth company which has opted out of using the extended transition period difficult or impossible because of the potential differences in accountant standards used.

Compliance obligations under the Sarbanes-Oxley Act may make it more difficult for us to effectuate our initial business combination, require substantial financial and management resources, and increase the time and costs of completing a business combination.

Section 404 of the Sarbanes-Oxley Act requires that we evaluate and report on our system of internal controls beginning with our Annual Report on Form 10-K for the year ending December 31, 2018. Only in the event we are deemed to be a large accelerated filer or an accelerated filer will we be required to comply with the independent registered public accounting firm attestation requirement on our internal control over financial reporting. Further, for as long as we remain an emerging growth company, we will not be required to comply with the independent registered public accounting firm attestation requirement on our internal control over

financial reporting. The fact that we are a blank check company makes compliance with the requirements of the Sarbanes-Oxley Act particularly burdensome on us as compared to other public companies because a target company with which we seek to complete our business combination may not be in compliance with the provisions of the Sarbanes-Oxley Act regarding adequacy of its internal controls. The development of the internal control of any such entity to achieve compliance with the Sarbanes-Oxley Act may increase the time and costs necessary to complete any such business combination.

Provisions in our amended and restated certificate of incorporation and Delaware law may inhibit a takeover of us, which could limit the price investors might be willing to pay in the future for our Class A common stock and could entrench management.

Our amended and restated certificate of incorporation will contain provisions that may discourage unsolicited takeover proposals that stockholders may consider to be in their best interests. These provisions include a staggered board of directors and the ability of the board of directors to designate the terms of and issue new series of preferred shares, which may make the removal of management more difficult and may discourage transactions that otherwise could involve payment of a premium over prevailing market prices for our securities.

We are also subject to anti-takeover provisions under Delaware law, which could delay or prevent a change of control. Together these provisions may make the removal of management more difficult and may discourage transactions that otherwise could involve payment of a premium over prevailing market prices for our securities.

Provisions in our amended and restated certificate of incorporation and Delaware law may have the effect of discouraging lawsuits against our directors and officers.

Our amended and restated certificate of incorporation will require, to the fullest extent permitted by law, that derivative actions brought in our name, actions against directors, officers and employees for breach of fiduciary duty and other similar actions may be brought only in the Court of Chancery in the State of Delaware and, if brought outside of Delaware, the stockholder bringing such suit will be deemed to have consented to service of process on such stockholder's counsel. This provision may have the effect of discouraging lawsuits against our directors and officers.

Cyber incidents or attacks directed at us could result in information theft, data corruption, operational disruption and/or financial loss.

We depend on digital technologies, including information systems, infrastructure and cloud applications and services, including those of third parties with which we may deal. Sophisticated and deliberate attacks on, or security breaches in, our systems or infrastructure, or the systems or infrastructure of third parties or the cloud, could lead to corruption or misappropriation of our assets, proprietary information and sensitive or confidential data. As an early stage company without significant investments in data security protection, we may not be sufficiently protected against such occurrences. We may not have sufficient resources to adequately protect against, or to investigate and remediate any vulnerability to, cyber incidents. It is possible that any of these occurrences, or a combination of them, could have adverse consequences on our business and lead to financial loss.

If we effect our initial business combination with a company with operations or opportunities outside of the United States, we would be subject to a variety of additional risks that may negatively impact our operations.

If we effect our initial business combination with a company with operations or opportunities outside of the United States, we would be subject to any special considerations or risks associated with companies operating in an international setting, including any of the following:

- higher costs and difficulties inherent in managing cross-border business operations and complying with different commercial and legal requirements of overseas markets;

- rules and regulations regarding currency redemption;
- complex corporate withholding taxes on individuals;
- laws governing the manner in which future business combinations may be effected;
- tariffs and trade barriers;
- regulations related to customs and import/export matters;
- longer payment cycles and challenges in collecting accounts receivable;
- tax issues, such as tax law changes and variations in tax laws as compared to the United States;
- currency fluctuations and exchange controls;
- rates of inflation;
- cultural and language differences;
- employment regulations;
- crime, strikes, riots, civil disturbances, terrorist attacks, natural disasters and wars;
- deterioration of political relations with the United States; and
- government appropriations of assets.

We may not be able to adequately address these additional risks. If we were unable to do so, our operations might suffer, which may adversely impact our results of operations and financial condition.

CAUTIONARY NOTE REGARDING FORWARD-LOOKING STATEMENTS

Certain statements in this prospectus may constitute “forward-looking statements” for purposes of the federal securities laws. Our forward-looking statements include, but are not limited to, statements regarding our or our management team’s expectations, hopes, beliefs, intentions or strategies regarding the future. In addition, any statements that refer to projections, forecasts or other characterizations of future events or circumstances, including any underlying assumptions, are forward-looking statements. The words “anticipate,” “believe,” “continue,” “could,” “estimate,” “expect,” “intends,” “may,” “might,” “plan,” “possible,” “potential,” “predict,” “project,” “should,” “would” and similar expressions may identify forward-looking statements, but the absence of these words does not mean that a statement is not forward-looking. Forward-looking statements in this prospectus may include, for example, statements about:

- our ability to select an appropriate target business or businesses;
- our ability to complete our initial business combination;
- our expectations around the performance of the prospective target business or businesses;
- our success in retaining or recruiting, or changes required in, our officers, key employees or directors following our initial business combination;
- our officers and directors allocating their time to other businesses and potentially having conflicts of interest with our business or in approving our initial business combination, as a result of which they would then receive expense reimbursements;
- our potential ability to obtain additional financing to complete our initial business combination;
- our pool of prospective target businesses;
- the ability of our officers and directors to generate a number of potential acquisition opportunities;
- our public securities’ potential liquidity and trading;
- the lack of a market for our securities;
- the use of proceeds not held in the trust account or available to us from interest income on the trust account balance; or
- our financial performance following this offering.

The forward-looking statements contained in this prospectus are based on our current expectations and beliefs concerning future developments and their potential effects on us. There can be no assurance that future developments affecting us will be those that we have anticipated. These forward-looking statements involve a number of risks, uncertainties (some of which are beyond our control) or other assumptions that may cause actual results or performance to be materially different from those expressed or implied by these forward-looking statements. These risks and uncertainties include, but are not limited to, those factors described under the section of this prospectus entitled “Risk Factors.” Should one or more of these risks or uncertainties materialize, or should any of our assumptions prove incorrect, actual results may vary in material respects from those projected in these forward-looking statements. We undertake no obligation to update or revise any forward-looking statements, whether as a result of new information, future events or otherwise, except as may be required under applicable securities laws.

USE OF PROCEEDS

We are offering 35,000,000 units at an offering price of \$10.00 per unit. We estimate that the net proceeds of this offering together with the funds we will receive from the sale of the private placement warrants will be used as set forth in the following table.

	Without Over-Allotment Option	Over-Allotment Option Fully Exercised
<i>Gross proceeds</i>		
Gross proceeds from units offered to public(1)	\$350,000,000	\$402,500,000
Gross proceeds from private placement warrants offered in the private placement	9,000,000	10,050,000
Total gross proceeds	\$359,000,000	\$412,550,000
<i>Offering expenses(2)</i>		
Underwriting commissions (2% of gross proceeds from units offered to public, excluding deferred portion)(3)	\$ 7,000,000	\$ 8,050,000
Legal fees and expenses	250,000	250,000
Accounting fees and expenses	47,500	47,500
SEC/FINRA Expenses	107,525	107,525
Travel and road show	20,000	20,000
NASDAQ listing and filing fees	75,000	75,000
Director and Officer liability insurance premiums	100,000	100,000
Printing and engraving expenses	75,000	75,000
Miscellaneous	74,975	74,975
Total offering expenses (excluding underwriting commissions)	\$ 750,000	\$ 750,000
Proceeds after offering expenses	\$351,250,000	\$403,750,000
Held in trust account(3)	\$350,000,000	\$402,500,000
% of public offering size	100%	100%
Not held in trust account	\$ 1,250,000	\$ 1,250,000

The following table shows the use of the approximately \$1,250,000 of net proceeds not held in the trust account.(4)

	Amount	% of Total
Legal, accounting, due diligence, travel, and other expenses in connection with any business combination(5)	\$ 500,000	\$ 40.0%
Legal and accounting fees related to regulatory reporting obligations	150,000	12.0%
Payment for office space, utilities and secretarial and administrative support (\$5,000 per month for up to 24 months)	120,000	9.6%
Consulting, travel and miscellaneous expenses incurred during search for initial business combination target	150,000	12.0%
Reserve for liquidation	100,000	8.0%
Working capital to cover miscellaneous expenses (including franchise taxes net of anticipated interest income)	230,000	18.4%
Total	\$1,250,000	100.0%

(1) Includes gross proceeds from this offering of \$350,000,000 (or \$402,500,000 if the underwriter's overallotment option is exercised in full) as well as amounts payable to public stockholders who properly redeem their shares in connection with our successful completion of our initial business combination.

- (2) A portion of the offering expenses will be paid from the proceeds of loans from our sponsor of up to \$300,000 as described in this prospectus. As of December 31, 2016, we had borrowed \$20,000 (of up to \$300,000 available to us) under the promissory note with our sponsor to be used for a portion of the expenses of this offering. These amounts will be repaid upon completion of this offering out of the \$750,000 of offering proceeds that has been allocated for the payment of offering expenses (other than underwriting commissions). In the event that offering expenses are more than as set forth in this table, they will be repaid using a portion of the \$1,250,000 of offering proceeds not held in the trust account and set aside for post-closing working capital expenses. In the event that offering expenses are less than set forth in this table, any such amounts will be used for post-closing working capital expenses.
- (3) The underwriters have agreed to defer underwriting commissions equal to 3.5% of the gross proceeds of this offering. Upon completion of our initial business combination, \$12,250,000, which constitutes the underwriters' deferred commissions (or \$14,087,500 if the underwriters' over-allotment option is exercised in full) will be paid to the underwriters from the funds held in the trust account, and the remaining funds will be released to us and can be used to pay all or a portion of the purchase price of the business or businesses with which our initial business combination occurs or for general corporate purposes, including payment of principal or interest on indebtedness incurred in connection with our initial business combination, to fund the purchases of other companies or for working capital. The underwriters will not be entitled to any interest accrued on the deferred underwriting discounts and commissions.
- (4) These expenses are estimates only and do not include interest which may be available to us from the trust account. Our actual expenditures for some or all of these items may differ from the estimates set forth herein. For example, we may incur greater legal and accounting expenses than our current estimates in connection with negotiating and structuring our business combination based upon the level of complexity of such business combination. In the event we identify a business combination target in a specific industry subject to specific regulations, we may incur additional expenses associated with legal due diligence and the engagement of special legal counsel. In addition, our staffing needs may vary and as a result, we may engage a number of consultants to assist with legal and financial due diligence. We do not anticipate any change in our intended use of proceeds, other than fluctuations among the current categories of allocated expenses, which fluctuations, to the extent they exceed current estimates for any specific category of expenses, would not be available for our expenses.
- (5) Includes estimated amounts that may also be used in connection with our business combination to fund a "no shop" provision and commitment fees for financing.

Of the net proceeds of this offering and the sale of the private placement warrants, \$350,000,000 (or \$402,500,000 if the underwriters' over-allotment option is exercised in full), including \$12,250,000 (or \$14,087,500 if the underwriters' over-allotment option is exercised in full) of deferred underwriting commissions, will be placed in a U.S.-based trust account at J.P. Morgan Chase Bank, N.A., with American Stock Transfer & Trust Company acting as trustee, and will be invested only in U.S. government treasury bills with a maturity of 180 days or less or in money market funds meeting certain conditions under Rule 2a-7 under the Investment Company Act which invest only in direct U.S. government treasury obligations. We estimate that the interest earned on the trust account will be approximately \$1,225,000 per year, assuming an interest rate of 0.35% per year. Except with respect to interest earned on the funds held in the trust account that may be released to us to pay our franchise and income tax obligations, the proceeds from this offering and the sale of the private placement warrants will not be released from the trust account until the earliest to occur of: (a) the completion of our initial business combination, (b) the redemption of any public shares properly tendered in connection with a stockholder vote to amend our amended and restated certificate of incorporation to modify the substance or timing of our obligation to redeem 100% of our public shares if we do not complete our initial business combination within 24 months from the closing of this offering and (c) the redemption of our public shares if we are unable to complete our business combination within 24 months from the closing of this offering, subject to applicable law.

The net proceeds held in the trust account may be used as consideration to pay the sellers of a target business with which we ultimately complete our business combination. If our initial business combination is paid

for using equity or debt securities, or not all of the funds released from the trust account are used for payment of the consideration in connection with our business combination, we may apply the balance of the cash released from the trust account for general corporate purposes, including for maintenance or expansion of operations of the post-transaction company, the payment of principal or interest due on indebtedness incurred in completing our initial business combination, to fund the purchase of other companies or for working capital.

We believe that amounts not held in trust will be sufficient to pay the costs and expenses to which such proceeds are allocated. This belief is based on the fact that while we may begin preliminary due diligence of a target business in connection with an indication of interest, we intend to undertake in-depth due diligence, depending on the circumstances of the relevant prospective business combination, only after we have negotiated and signed a letter of intent or other preliminary agreement that addresses the terms of a business combination. However, if our estimate of the costs of undertaking in-depth due diligence and negotiating a business combination is less than the actual amount necessary to do so, we may be required to raise additional capital, the amount, availability and cost of which is currently unascertainable. If we are required to seek additional capital, we could seek such additional capital through loans or additional investments from our sponsor, members of our management team or their affiliates, but such persons are not under any obligation to advance funds to, or invest in, us.

Commencing on the date of this prospectus, we have agreed to pay an affiliate of our sponsor a total of \$5,000 per month for office space, utilities and secretarial and administrative support. Upon completion of our initial business combination or our liquidation, we will cease paying these monthly fees.

Prior to the closing of this offering, our sponsor has agreed to loan us up to \$300,000 to be used for a portion of the expenses of this offering. As of December 31, 2016, we had borrowed \$20,000 under the promissory note with our sponsor to be used for a portion of the expenses of this offering. These loans are non-interest bearing, unsecured and are due at the earlier of June 30, 2017 or the closing of this offering. The loan will be repaid upon the closing of this offering out of the \$2,000,000 of offering proceeds not held in the trust account.

In addition, in order to finance transaction costs in connection with an intended initial business combination, our sponsor or an affiliate of our sponsor or certain of our officers and directors may, but are not obligated to, loan us funds as may be required. If we complete our initial business combination, we would repay such loaned amounts out of the proceeds of the trust account released to us. Otherwise, such loans would be repaid only out of funds held outside the trust account. In the event that our initial business combination does not close, we may use a portion of the working capital held outside the trust account to repay such loaned amounts but no proceeds from our trust account would be used to repay such loaned amounts. Up to \$1,500,000 of such loans may be convertible into warrants, at a price of \$1.50 per warrant at the option of the lender. The warrants would be identical to the private placement warrants, including as to exercise price, exercisability and exercise period. The terms of such loans by our officers and directors, if any, have not been determined and no written agreements exist with respect to such loans. We do not expect to seek loans from parties other than our sponsor or an affiliate of our sponsor as we do not believe third parties will be willing to loan such funds and provide a waiver against any and all rights to seek access to funds in our trust account.

If we seek stockholder approval of our initial business combination and we do not conduct redemptions in connection with our business combination pursuant to the tender offer rules, our sponsor, directors, officers, advisors or their affiliates may purchase shares in privately negotiated transactions either prior to or following the completion of our initial business combination. There is no limit on the number of shares our initial stockholders, directors, officers, advisors or their affiliates may purchase in such transactions, subject to compliance with applicable law and the rules of NASDAQ. However, they have no current commitments, plans or intentions to engage in such transactions and have not formulated any terms or conditions for any such transactions. One purpose and effect of any such transactions would be to seek to obtain the necessary number of votes in favor of our initial business combination, as our sponsor, directors and officers have agreed, pursuant to the letter

agreement, to vote any founder shares held by them and any public shares purchased during or after this offering (including in open market and privately negotiated transactions) in favor of our initial business combination. If they engage in such transactions, they will not make any such purchases when they are in possession of any material non-public information not disclosed to the seller or if such purchases are prohibited by Regulation M under the Exchange Act. We do not currently anticipate that such purchases, if any, would constitute a tender offer subject to the tender offer rules under the Exchange Act or a going-private transaction subject to the going-private rules under the Exchange Act; however, if the purchasers determine at the time of any such purchases that the purchases are subject to such rules, the purchasers will comply with such rules.

We may not redeem our public shares in an amount that would cause our net tangible assets to be less than \$5,000,001 upon consummation of our initial business combination and after payment of underwriters' fees and commissions (so that we are not subject to the SEC's "penny stock" rules) and the agreement for our business combination may require as a closing condition that we have a minimum net worth or a certain amount of cash. If too many public stockholders exercise their redemption rights so that we cannot satisfy the net tangible asset requirement or any net worth or cash requirements, we would not proceed with the redemption of our public shares or the business combination, and instead may search for an alternate business combination.

A public stockholder will be entitled to receive funds from the trust account only upon the earliest to occur of: (i) our completion of an initial business combination, (ii) the redemption of any public shares properly tendered in connection with a stockholder vote to amend our amended and restated certificate of incorporation to modify the substance or timing of our obligation to redeem 100% of our public shares if we do not complete our initial business combination within 24 months from the closing of this offering and (iii) the redemption of our public shares if we are unable to complete our business combination within 24 months following the closing of this offering, subject to applicable law and as further described herein and any limitations (including but not limited to cash requirements) created by the terms of the proposed business combination. In no other circumstances will a public stockholder have any right or interest of any kind to or in the trust account.

Our sponsor, officers and directors have entered into a letter agreement with us, pursuant to which they have agreed to waive their redemption rights with respect to any founder shares and any public shares held by them in connection with the completion of our initial business combination. In addition, our initial stockholders have agreed to waive their rights to liquidating distributions from the trust account with respect to any founder shares held by them if we fail to complete our business combination within the prescribed time frame. However, if our sponsor or any of our officers, directors or affiliates acquires public shares in or after this offering, they will be entitled to liquidating distributions from the trust account with respect to such public shares if we fail to complete our initial business combination within the prescribed time frame.

DIVIDEND POLICY

We have not paid any cash dividends on our common stock to date and do not intend to pay cash dividends prior to the completion of our initial business combination. The payment of cash dividends in the future will be dependent upon our revenues and earnings, if any, capital requirements and general financial condition subsequent to completion of our initial business combination. The payment of any cash dividends subsequent to our initial business combination will be within the discretion of our board of directors at such time. In addition, our board of directors is not currently contemplating and does not anticipate declaring any stock dividends in the foreseeable future. However, if we increase the size of the offering, we will effect a stock dividend with respect to our Class B common stock immediately prior to the consummation of the offering in such amount as to maintain the ownership of our initial stockholders at 20% of the issued and outstanding shares of our common stock upon the consummation of this offering. Further, if we incur any indebtedness in connection with our business combination, our ability to declare dividends may be limited by restrictive covenants we may agree to in connection therewith.

DILUTION

The difference between the public offering price per share of Class A common stock, assuming no value is attributed to the warrants included in the units we are offering pursuant to this prospectus or the private placement warrants, and the pro forma net tangible book value per share of our Class A common stock after this offering constitutes the dilution to investors in this offering. Such calculation does not reflect any dilution associated with the sale and exercise of warrants, including the private placement warrants, which would cause the actual dilution to the public stockholders to be higher, particularly where a cashless exercise is utilized. Net tangible book value per share is determined by dividing our net tangible book value, which is our total tangible assets less total liabilities (including the value of Class A common stock which may be redeemed for cash), by the number of outstanding shares of our Class A common stock.

At December 31, 2016, our net tangible book value was \$(15,610), or approximately \$(.00) per share of common stock. After giving effect to the sale of 35,000,000 shares of Class A common stock included in the units we are offering by this prospectus, the sale of the private placement warrants and the deduction of underwriting commissions and estimated expenses of this offering, our pro forma net tangible book value at December 31, 2016 would have been \$5,000,004, or approximately \$0.48 per share, representing an immediate increase in net tangible book value (as decreased by the value of the approximately 33,402,262 shares of Class A common stock that may be redeemed for cash and assuming no exercise of the underwriters' over-allotment option) of \$9.52 per share to our initial stockholders as of the date of this prospectus and an immediate dilution of \$10.00 per share or 100% to our public stockholders not exercising their redemption rights. Total dilution to public stockholders from this offering will be \$9.52 per share. The dilution to new investors if the underwriters exercise the over-allotment option in full would be an immediate dilution of 9.58 per share or 95.8%.

The following table illustrates the dilution to the public stockholders on a per-share basis, assuming no value is attributed to the warrants included in the units or the private placement warrants:

Public offering price		\$10.00
Net tangible book value before this offering	\$ (0.00)	
Increase attributable to public stockholders	9.52	
Decrease attributable to public shares subject to redemption	<u>(10.00)</u>	
Pro forma net tangible book value after this offering and the sale of the private placement warrants		<u>\$ 0.48</u>
Dilution to public stockholders		<u>\$ 9.52</u>

For purposes of presentation, we have reduced our pro forma net tangible book value after this offering (assuming no exercise of the underwriters' over-allotment option) by \$334,022,620 because holders of up to approximately 95.6% of our public shares may redeem their shares for a pro rata share of the aggregate amount then on deposit in the trust account at a per share redemption price equal to the amount in the trust account as set forth in our tender offer or proxy materials (initially anticipated to be the aggregate amount held in trust two days prior to the commencement of our tender offer or stockholders meeting, including interest earned on the funds held in the trust account and not previously released to us to pay our franchise and income taxes), divided by the number of shares of Class A common stock sold in this offering.

The following table sets forth information with respect to our initial stockholders and the public stockholders:

	Shares Purchased		Total Consideration		Average Price Per Share
	Number	Percentage	Amount	Percentage	
Initial Stockholders(1)	8,750,000	20.0%	\$ 25,000	0.007%	\$ 0.003
Public Stockholders	35,000,000	80.0%	350,000,000	99.993%	\$10.000
	<u>43,750,000</u>	<u>100.0%</u>	<u>\$350,025,000</u>	<u>100.000%</u>	

(1) Assumes no exercise of the underwriters' over-allotment option and the corresponding forfeiture of an aggregate of 1,312,500 shares of Class B common stock held by our sponsor.

The pro forma net tangible book value per share after the offering is calculated as follows:

Numerator:

Net tangible book value before this offering	\$ (15,610)
Proceeds from this offering and the sale of the private placement warrants, net of expenses	351,250,000
Offering costs excluded from net tangible book value before this offering	38,234
Less: deferred underwriters' commissions payable	(12,250,000)
Less: amount of Class A common stock subject to redemption to maintain net tangible assets of \$5,000,001	(334,022,620)
	<u>\$ 5,000,004</u>

Denominator:

Shares of Class B common stock outstanding prior to this offering	10,062,500
Shares of Class B common stock forfeited if over-allotment is not exercised	(1,312,500)
Shares of Class A common stock included in the units offered	35,000,000
Less: shares of Class A common stock subject to redemption	(33,402,262)
	<u>10,347,738</u>

CAPITALIZATION

The following table sets forth our capitalization at December 31, 2016, and as adjusted to give effect to the sale of our units and the private placement warrants and the application of the estimated net proceeds derived from the sale of such securities:

	December 31, 2016	
	Actual	As Adjusted(1)
Deferred underwriting commissions	\$ —	\$ 12,250,000
Promissory note to affiliate(2)	20,000	—
Class A common stock, subject to redemption(3)	—	334,022,620
Stockholders' equity (deficit):		
Preferred stock, \$0.0001 par value, 1,000,000 shares authorized (actual and as adjusted); none issued or outstanding (actual and as adjusted)	—	—
Common stock		
Class A common stock, \$0.0001 par value, 200,000,000 shares authorized (actual and as adjusted); no shares issued and outstanding (actual); 1,597,738 shares issued and outstanding (excluding 33,402,262 shares subject to redemption) (as adjusted)	—	160
Class B convertible common stock, \$0.0001 par value, 20,000,000 shares authorized (actual and as adjusted); 10,062,500 shares issued and outstanding (actual); 8,750,000 shares issued and outstanding (as adjusted)(4)	1,006	875
Additional paid-in capital	23,994	5,001,345
Accumulated deficit	(2,376)	(2,376)
Total stockholders' equity	22,624	5,000,004
Total capitalization	\$42,624	\$351,272,624

- (1) Assumes the over-allotment option has not been exercised and the resulting forfeiture of 1,312,500 founder shares held by our sponsor has occurred.
- (2) Our sponsor has agreed to loan us up to \$300,000 to be used for a portion of the expenses of this offering. As of December 31, 2016, we had borrowed \$20,000 under the promissory note with our sponsor to be used for a portion of the expenses of this offering.
- (3) Upon the completion of our initial business combination, we will provide our stockholders with the opportunity to redeem their public shares for cash equal to their pro rata share of the aggregate amount then on deposit in the trust account as of two business days prior to the consummation of the initial business combination including interest earned on the funds held in the trust account and not previously released to us to pay our franchise and income taxes, subject to the limitations described herein whereby our net tangible assets will be maintained at a minimum of \$5,000,001 and any limitations (including, but not limited to, cash requirements) created by the terms of the proposed business combination.
- (4) Actual share amount is prior to any forfeiture of founder shares by our sponsor and as adjusted amount assumes no exercise of the underwriters' over-allotment option.

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Overview

We are a blank check company incorporated as a Delaware corporation and formed for the purpose of effecting a merger, capital stock exchange, asset acquisition, stock purchase, reorganization or similar business combination with one or more businesses. We have not selected any specific business combination target and we have not, nor has anyone on our behalf, initiated any substantive discussions, directly or indirectly, with any business combination target. We intend to effectuate our initial business combination using cash from the proceeds of this offering and the private placement of the private placement warrants, our capital stock, debt or a combination of cash, stock and debt.

The issuance of additional shares of our stock in a business combination:

- may significantly dilute the equity interest of investors in this offering, which dilution would increase if the anti-dilution provisions in the Class B common stock resulted in the issuance of Class A shares on a greater than one-to-one basis upon conversion of the Class B common stock;
- may subordinate the rights of holders of our common stock if preferred stock is issued with rights senior to those afforded our common stock;
- could cause a change in control if a substantial number of shares of our common stock is issued, which may affect, among other things, our ability to use our net operating loss carry forwards, if any, and could result in the resignation or removal of our present officers and directors;
- may have the effect of delaying or preventing a change of control of us by diluting the stock ownership or voting rights of a person seeking to obtain control of us; and
- may adversely affect prevailing market prices for our Class A common stock and/or warrants.

Similarly, if we issue debt securities, it could result in:

- default and foreclosure on our assets if our operating revenues after an initial business combination are insufficient to repay our debt obligations;
- acceleration of our obligations to repay the indebtedness even if we make all principal and interest payments when due if we breach certain covenants that require the maintenance of certain financial ratios or reserves without a waiver or renegotiation of that covenant;
- our immediate payment of all principal and accrued interest, if any, if the debt security is payable on demand;
- our inability to obtain necessary additional financing if the debt security contains covenants restricting our ability to obtain such financing while the debt security is outstanding;
- our inability to pay dividends on our common stock;
- using a substantial portion of our cash flow to pay principal and interest on our debt, which will reduce the funds available for dividends on our common stock if declared, our ability to pay expenses, make capital expenditures and acquisitions, and fund other general corporate purposes;
- limitations on our flexibility in planning for and reacting to changes in our business and in the industry in which we operate;
- increased vulnerability to adverse changes in general economic, industry and competitive conditions and adverse changes in government regulation;
- limitations on our ability to borrow additional amounts for expenses, capital expenditures, acquisitions, debt service requirements, and execution of our strategy; and
- other purposes and other disadvantages compared to our competitors who have less debt.

As indicated in the accompanying financial statements, at December 31, 2016, we had \$7,500 in cash and deferred offering costs of \$38,234. Further, we expect to continue to incur significant costs in the pursuit of our business combination plans. We cannot assure you that our plans to raise capital or to complete our initial business combination will be successful.

Results of Operations and Known Trends or Future Events

We have neither engaged in any operations nor generated any revenues to date. Our only activities since inception have been organizational activities and those necessary to prepare for this offering. Following this offering, we will not generate any operating revenues until after completion of our initial business combination. We will generate non-operating income in the form of interest income on cash and cash equivalents after this offering. There has been no significant change in our financial or trading position and no material adverse change has occurred since the date of our audited financial statements. After this offering, we expect to incur increased expenses as a result of being a public company (for legal, financial reporting, accounting and auditing compliance), as well as expenses as we conduct due diligence on prospective business combination candidates. We expect our expenses to increase substantially after the closing of this offering.

Liquidity and Capital Resources

Our liquidity needs have been satisfied prior to the completion of this offering through receipt of \$25,000 from the sale of the founder shares to our sponsor and loans to us of \$20,000 by our sponsor under an unsecured promissory note to be used for a portion of the expenses of this offering (of up to \$300,000 available to us under such promissory note). We estimate that the net proceeds from (i) the sale of the units in this offering, after deducting offering expenses of approximately \$750,000, underwriting commissions of \$7,000,000 (\$8,050,000 if the underwriters' over-allotment option is exercised in full) (excluding deferred underwriting commissions of \$12,250,000 (or \$14,087,500 if the underwriters' over-allotment option is exercised in full)), and (ii) the sale of the private placement warrants for a purchase price of \$9,000,000 (or \$10,050,000 if the over-allotment option is exercised in full), will be \$351,250,000 (or \$403,750,000 if the underwriters' over-allotment option is exercised in full). Of this amount, \$350,000,000 (or \$402,500,000 if the underwriters' over-allotment option is exercised in full) will be held in the trust account, which includes \$12,250,000 (or \$14,087,500 if the underwriters' over-allotment option is exercised in full) of deferred underwriting commissions. The remaining approximately \$1,250,000 will not be held in the trust account. In the event that our offering expenses exceed our estimate of \$750,000, we may fund such excess with funds not to be held in the trust account. In such case, the amount of funds we intend to be held outside the trust account would decrease by a corresponding amount. Conversely, in the event that the offering expenses are less than our estimate of \$750,000, the amount of funds we intend to be held outside the trust account would increase by a corresponding amount.

We intend to use substantially all of the funds held in the trust account, including any amounts representing interest earned on the trust account (less deferred underwriting commissions) to complete our initial business combination. We may withdraw interest to pay franchise and income taxes. We estimate our annual franchise tax obligations, based on the number of shares of our common stock authorized and outstanding after the completion of this offering, to be \$180,000, which is the maximum amount of annual franchise taxes payable by us as a Delaware corporation per annum, which we may pay from funds from this offering held outside of the trust account or from interest earned on the funds held in our trust account and released to us for this purpose. Our annual income tax obligations will depend on the amount of interest and other income earned on the amounts held in the trust account. To the extent that our capital stock or debt is used, in whole or in part, as consideration to complete our initial business combination, the remaining proceeds held in the trust account will be used as working capital to finance the operations of the target business or businesses, make other acquisitions and pursue our growth strategies.

Prior to the completion of our initial business combination, we will have available to us the approximately \$1,250,000 of proceeds held outside the trust account. We will use these funds to identify and evaluate target

businesses, perform business due diligence on prospective target businesses, travel to and from the offices, plants or similar locations of prospective target businesses or their representatives or owners, review corporate documents and material agreements of prospective target businesses, and structure, negotiate and complete a business combination.

In order to fund working capital deficiencies or finance transaction costs in connection with an intended initial business combination, our sponsor or an affiliate of our sponsor or certain of our officers and directors may, but are not obligated to, loan us funds as may be required. If we complete our initial business combination, we would repay such loaned amounts. In the event that our initial business combination does not close, we may use a portion of the working capital held outside the trust account to repay such loaned amounts but no proceeds from our trust account would be used for such repayment. Up to \$1,500,000 of such loans may be convertible into warrants, at a price of \$1.50 per warrant at the option of the lender. The warrants would be identical to the private placement warrants, including as to exercise price, exercisability and exercise period. The terms of such loans by our officers and directors, if any, have not been determined and no written agreements exist with respect to such loans. We do not expect to seek loans from parties other than our sponsor or an affiliate of our sponsor as we do not believe third parties will be willing to loan such funds and provide a waiver against any and all rights to seek access to funds in our trust account.

We expect our primary liquidity requirements during that period to include approximately \$500,000 for legal, accounting, due diligence, travel and other expenses associated with structuring, negotiating and documenting successful business combinations; \$150,000 for legal and accounting fees related to regulatory reporting requirements; \$120,000 for office space, utilities and secretarial and administrative support; \$150,000 for consulting, travel and miscellaneous expenses incurred during the search for a business combination target; \$100,000 reserved for liquidation; and approximately \$230,000 for working capital that will be used for miscellaneous expenses and reserves (including franchise taxes net of anticipated interest income).

These amounts are estimates and may differ materially from our actual expenses. In addition, we could use a portion of the funds not being placed in trust to pay commitment fees for financing, fees to consultants to assist us with our search for a target business or as a down payment or to fund a “no-shop” provision (a provision designed to keep target businesses from “shopping” around for transactions with other companies on terms more favorable to such target businesses) with respect to a particular proposed business combination, although we do not have any current intention to do so. If we entered into an agreement where we paid for the right to receive exclusivity from a target business, the amount that would be used as a down payment or to fund a “no-shop” provision would be determined based on the terms of the specific business combination and the amount of our available funds at the time. Our forfeiture of such funds (whether as a result of our breach or otherwise) could result in our not having sufficient funds to continue searching for, or conducting due diligence with respect to, prospective target businesses.

We do not believe we will need to raise additional funds following this offering in order to meet the expenditures required for operating our business. However, if our estimates of the costs of identifying a target business, undertaking in-depth due diligence and negotiating an initial business combination are less than the actual amount necessary to do so, we may have insufficient funds available to operate our business prior to our business combination. Moreover, we may need to obtain additional financing either to complete our business combination or because we become obligated to redeem a significant number of our public shares upon completion of our business combination, in which case we may issue additional securities or incur debt in connection with such business combination, which may include a specified future issuance. In addition, we intend to target businesses larger than we could acquire with the net proceeds of this offering and the sale of the private placement warrants, and may as a result be required to seek additional financing to complete such proposed initial business combination. Subject to compliance with applicable securities laws, we would only complete such financing simultaneously with the completion of our business combination. If we are unable to complete our initial business combination because we do not have sufficient funds available to us, we will be forced to cease operations and liquidate the trust account. In addition, following our initial business combination, if cash on hand is insufficient, we may need to obtain additional financing in order to meet our obligations.

Controls and Procedures

We are not currently required to maintain an effective system of internal controls as defined by Section 404 of the Sarbanes-Oxley Act. We will be required to comply with the internal control requirements of the Sarbanes-Oxley Act for the fiscal year ending December 31, 2018. Only in the event that we are deemed to be a large accelerated filer or an accelerated filer would we be required to comply with the independent registered public accounting firm attestation requirement. Further, for as long as we remain an emerging growth company as defined in the JOBS Act, we intend to take advantage of certain exemptions from various reporting requirements that are applicable to other public companies that are not emerging growth companies including, but not limited to, not being required to comply with the independent registered public accounting firm attestation requirement.

Prior to the closing of this offering, we have not completed an assessment, nor has our independent registered public accounting firm tested our systems, of internal controls. We expect to assess the internal controls of our target business or businesses prior to the completion of our initial business combination and, if necessary, to implement and test additional controls as we may determine are necessary in order to state that we maintain an effective system of internal controls. A target business may not be in compliance with the provisions of the Sarbanes-Oxley Act regarding the adequacy of internal controls. Many small and mid-sized target businesses we may consider for our business combination may have internal controls that need improvement in areas such as:

- staffing for financial, accounting and external reporting areas, including segregation of duties;
- reconciliation of accounts;
- proper recording of expenses and liabilities in the period to which they relate;
- evidence of internal review and approval of accounting transactions;
- documentation of processes, assumptions and conclusions underlying significant estimates; and
- documentation of accounting policies and procedures.

Because it will take time, management involvement and perhaps outside resources to determine what internal control improvements are necessary for us to meet regulatory requirements and market expectations for our operation of a target business, we may incur significant expense in meeting our public reporting responsibilities, particularly in the areas of designing, enhancing, or remediating internal and disclosure controls. Doing so effectively may also take longer than we expect, thus increasing our exposure to financial fraud or erroneous financing reporting.

Once our management's report on internal controls is complete, we will retain our independent registered public accounting firm to audit and render an opinion on such report when required by Section 404. The independent auditors may identify additional issues concerning a target business's internal controls while performing their audit of internal control over financial reporting.

Quantitative and Qualitative Disclosures about Market Risk

The net proceeds of this offering and the sale of the private placement warrants held in the trust account will be invested in U.S. government treasury bills with a maturity of 180 days or less or in money market funds meeting certain conditions under Rule 2a-7 under the Investment Company Act which invest only in direct U.S. government treasury obligations. Due to the short-term nature of these investments, we believe there will be no associated material exposure to interest rate risk.

Related Party Transactions

On December 23, 2016, our sponsor purchased 10,062,500 founder shares for an aggregate purchase price of \$25,000, or approximately \$0.002 per share. In March 2017, our sponsor transferred 40,000 founder shares to

each of our independent director nominees at a price of \$0.002 per share. The 80,000 founder shares held by our nominees will not be subject to forfeiture in the event the underwriters' over-allotment option is not exercised. The number of founder shares issued was determined based on the expectation that such founder shares would represent 20% of the outstanding shares upon completion of this offering. The per share purchase price of the founder shares was determined by dividing the amount of cash contributed to the company by the aggregate number of founder shares issued. If we increase or decrease the size of the offering we will effect a stock dividend or a share contribution back to capital or other appropriate mechanism, as applicable, with respect to our Class B common stock immediately prior to the consummation of the offering in such amount as to maintain the ownership of our initial stockholders at 20.0% of the issued and outstanding shares of our common stock upon the consummation of this offering.

Commencing on the date of this prospectus, we have agreed to pay an affiliate of our sponsor a total of \$5,000 per month for office space, utilities and secretarial and administrative support. Upon completion of our initial business combination or our liquidation, we will cease paying these monthly fees.

Our sponsor, officers and directors, or any of their respective affiliates, will be reimbursed for any out-of-pocket expenses incurred in connection with activities on our behalf such as identifying potential target businesses and performing due diligence on suitable business combinations. Our audit committee will review on a quarterly basis all payments that were made to our sponsor, officers, directors or our or their affiliates and will determine which expenses and the amount of expenses that will be reimbursed. There is no cap or ceiling on the reimbursement of out-of-pocket expenses incurred by such persons in connection with activities on our behalf.

Prior to the consummation of this offering, our sponsor has agreed to loan us \$300,000 to be used for a portion of the expenses of this offering. These loans are non-interest bearing, unsecured and are due at the earlier of June 30, 2017 or the closing of this offering. The loan will be repaid upon the closing of this offering out of the \$2,000,000 of offering proceeds not held in the trust account.

In addition, in order to finance transaction costs in connection with an intended initial business combination, our sponsor or an affiliate of our sponsor or certain of our officers and directors may, but are not obligated to, loan us funds as may be required. If we complete our initial business combination, we would repay such loaned amounts. In the event that our initial business combination does not close, we may use a portion of the working capital held outside the trust account to repay such loaned amounts but no proceeds from our trust account would be used for such repayment. Up to \$1,500,000 of such loans may be convertible into warrants, at a price of \$1.50 per warrant at the option of the lender. Such warrants would be identical to the private placement warrants, including as to exercise price, exercisability and exercise period. The terms of such loans by our officers and directors, if any, have not been determined and no written agreements exist with respect to such loans. We do not expect to seek loans from parties other than our sponsor or an affiliate of our sponsor as we do not believe third parties will be willing to loan such funds and provide a waiver against any and all rights to seek access to funds in our trust account.

Our sponsor has committed to purchase an aggregate of 6,000,000 private placement warrants (or 6,700,000 if the underwriters' over-allotment option is exercised in full) at a price of \$1.50 per warrant (approximately \$9,000,000 in the aggregate or \$10,050,000 if the underwriters' over-allotment option is exercised in full) in a private placement that will occur simultaneously with the closing of this offering. Each private placement warrant entitles the holder thereof to purchase one share of our Class A common stock at a price of \$11.50 per share. Our sponsor will be permitted to transfer the private placement warrants held by it to certain permitted transferees, including our officers and directors and other persons or entities affiliated with or related to it, but the transferees receiving such securities will be subject to the same agreements with respect to such securities as the sponsor. Otherwise, these warrants will not, subject to certain limited exceptions, be transferable or saleable until 30 days after the completion of our business combination. The private placement warrants will be non-redeemable so long as they are held by our sponsor or its permitted transferees. The private placement warrants may also be exercised by the sponsor and its permitted transferees for cash or on a cashless basis.

Otherwise, the private placement warrants have terms and provisions that are identical to those of the warrants being sold as part of the units in this offering, including as to exercise price, exercisability and exercise period.

Pursuant to a registration rights agreement we will enter into with our initial stockholders on or prior to the closing of this offering, we may be required to register certain securities for sale under the Securities Act. These holders, and holders of warrants issued upon conversion of working capital loans, if any, are entitled under the registration rights agreement to make up to three demands that we register certain of our securities held by them for sale under the Securities Act and to have the securities covered thereby registered for resale pursuant to Rule 415 under the Securities Act. In addition, these holders have the right to include their securities in other registration statements filed by us. However, the registration rights agreement provides that we will not permit any registration statement filed under the Securities Act to become effective until the securities covered thereby are released from their lock-up restrictions, as described herein. We will bear the costs and expenses of filing any such registration statements. See the section of this prospectus entitled “Certain Relationships and Related Party Transactions.”

Off-Balance Sheet Arrangements; Commitments and Contractual Obligations; Quarterly Results

As of December 31, 2016, we did not have any off-balance sheet arrangements as defined in Item 303(a)(4)(ii) of Regulation S-K and did not have any commitments or contractual obligations. No unaudited quarterly operating data is included in this prospectus, as we have conducted no operations to date.

JOBS Act

On April 5, 2012, the JOBS Act was signed into law. The JOBS Act contains provisions that, among other things, relax certain reporting requirements for qualifying public companies. We will qualify as an “emerging growth company” and under the JOBS Act will be allowed to comply with new or revised accounting pronouncements based on the effective date for private (not publicly traded) companies. We are electing to delay the adoption of new or revised accounting standards, and as a result, we may not comply with new or revised accounting standards on the relevant dates on which adoption of such standards is required for non-emerging growth companies. As a result, our financial statements may not be comparable to companies that comply with new or revised accounting pronouncements as of public company effective dates.

Additionally, we are in the process of evaluating the benefits of relying on the other reduced reporting requirements provided by the JOBS Act. Subject to certain conditions set forth in the JOBS Act, if, as an “emerging growth company”, we choose to rely on such exemptions we may not be required to, among other things, (i) provide an independent registered public accounting firm’s attestation report on our system of internal controls over financial reporting pursuant to Section 404, (ii) provide all of the compensation disclosure that may be required of non-emerging growth public companies under the Dodd-Frank Wall Street Reform and Consumer Protection Act, (iii) comply with any requirement that may be adopted by the PCAOB regarding mandatory audit firm rotation or a supplement to the auditor’s report providing additional information about the audit and the financial statements (auditor discussion and analysis), and (iv) disclose certain executive compensation related items such as the correlation between executive compensation and performance and comparisons of the CEO’s compensation to median employee compensation. These exemptions will apply for a period of five years following the completion of this offering or until we are no longer an “emerging growth company,” whichever is earlier.

PROPOSED BUSINESS

Overview

We are a newly organized blank check company formed as a Delaware corporation for the purpose of effecting a merger, capital stock exchange, asset acquisition, stock purchase, reorganization or similar business combination with one or more businesses, which we refer to throughout this prospectus as our initial business combination. We have not selected any specific business combination target and we have not, nor has anyone on our behalf, initiated any substantive discussions, directly or indirectly, with any business combination target. We intend to acquire and operate a business in the energy industry and believe our management team is well suited to identify opportunities that have the potential to generate attractive risk-adjusted returns for our stockholders, although we may pursue a business combination opportunity in any business or industry. For our purposes, we define the energy industry as companies that own and operate assets that are used in or provided services to the energy sector, including, but not limited to, assets used in exploring, developing, producing, transporting, storing, gathering, processing, fractionating, refining, distributing or marketing of natural gas, natural gas liquids, crude oil or refined products.

Our management team and Kayne Anderson, an affiliate of our sponsor, have extensive experience in the energy industry—ranging from operating and acquiring companies within multiple sectors of the industry to making public and privately negotiated investments in the industry. We believe this experience makes us very well situated to identify, source, negotiate and execute a business combination with an attractive energy-related target.

We believe a key advantage in sourcing potential business combination targets is the network of contacts our management team and Kayne Anderson have, which includes senior executives in the industry, investment bankers, investment professionals at private equity firms and other financial sponsors and owners of private businesses. We believe Kayne Anderson's reputation and expertise in the energy industry will make us a preferred partner for potential business combination targets. Another key sourcing advantage is Kayne Anderson's existing investment activity in the energy industry, as we believe this will provide us with unique access to potential business combination targets. Further, we believe these industry relationships and investment activity give us a deep understanding of macro trends, investor expectations and market sentiment.

We believe the domestic energy industry is recovering from the downturn which began in late 2014. Based on our analysis, we are of the opinion that crude oil prices have stabilized and will continue to increase over the next few years, and recent actions taken by OPEC to reduce its crude oil production levels should accelerate the market rebalancing process. We believe that increased activity levels for upstream companies during 2017 are a result of higher crude oil prices and should result in a more robust operating environment for the domestic energy sector. We expect to identify many attractive business combination candidates because the prolonged downturn and less accommodating capital markets during this downturn have negatively impacted the financial health of many companies in the energy industry. We believe these factors will cause certain privately held and publicly traded companies to consider sales of all or a portion of their assets.

Our objective is to generate attractive returns for our stockholders. We seek to do this by utilizing a disciplined investment process when reviewing candidates for our initial business combination. Our management team and the investment professionals at Kayne Anderson are industry experts with the ability to identify attractive business combination candidates and capitalize on favorable industry trends. The diversity of our operating and investing experience will enable us to consider candidates in multiple sectors within the energy industry (with an emphasis on the midstream and upstream sectors) and target the area with the most compelling potential returns. We believe this flexibility increases the probability of successfully executing on our business strategy.

Kayne Anderson was founded in 1984 by Ric Kayne and John Anderson and has grown through a disciplined investment philosophy that emphasizes niche opportunities with attractive return expectations and

lower risk characteristics. As of February 28, 2017, Kayne Anderson had approximately \$26 billion under management, and of that amount, \$20 billion was invested in energy companies. Today, the firm is recognized as a premier asset manager specializing in energy, credit, equity marketable securities, specialty real estate and growth private equity.

Kayne Anderson's track record in energy investing began in 1992, and since that time the firm has raised eight upstream-focused private equity funds and numerous hedge funds, closed-end funds and separate accounts focused on investing in energy marketable securities. The firm has approximately 60 professionals focused on energy investing, including former industry executives, petroleum engineers, investment bankers and research analysts. As of February 28, 2017, the firm managed \$7 billion in energy private equity funds and \$12 billion in energy marketable securities funds.

Our Chief Executive Officer and a Senior Managing Director of Kayne Anderson, Robert Purgason, has over 35 years of experience in the energy industry, most recently serving as senior vice president, Access at Williams Companies, Inc. responsible for the Central Operation Area and Operational Excellence for the entire enterprise. Mr. Purgason has deep operational and commercial knowledge of midstream companies and has previously served as chief operating officer of Chesapeake Midstream Partners, L.L.C. and Crosstex Energy, L.P. Mr. Purgason's strong leadership abilities, deep technical knowledge and energy-related M&A expertise make him well suited to evaluate candidates for our initial business combination and to serve as our Chief Executive Officer. He has served on the Board of Directors and is the past Chairman of the Texas Pipeline Association, the Board of Visitors Dean's Advisory Council for the College of Engineering at The University of Oklahoma, the Advisory Board for the Chemical Biological & Materials Engineering School at The University of Oklahoma and past Program Chair and Director of GPA Midstream Association, where he authored numerous technical and marketing papers. He is currently a member of the Dallas Wildcat Committee and the National Association of Corporate Directors. Mr. Purgason also serves on the board of L.B. Foster Company, a manufacturing company specializing in rail, construction and energy related products.

Our Chairman, Kevin McCarthy, who is the co-founder and managing partner of Kayne Anderson's energy marketable securities business, has over 30 years of experience advising and investing in upstream and midstream companies. He has deep, long-standing relationships in the energy industry and serves as chairman of the board and chief executive officer of Kayne Anderson's four publicly traded closed-end funds (NYSE: KYN, KYE, KMF and KED) and is also on the board of directors of energy companies Range Resources Corporation (NYSE: RRC), a domestic upstream company, and ONEOK, Inc. (NYSE: OKE), the general partner of a large publicly traded MLP.

We will also draw on the experience of our Vice-Chairman and Kayne Anderson's co-Chairman, Robert Sinnott, who has over 40 years of investment experience and oversees Kayne Anderson's energy strategies. Since joining in 1992, Mr. Sinnott founded and built Kayne Anderson's energy investment platform into one of the largest domestic energy investment firms. Mr. Sinnott has significant relationships in the energy industry, and he serves as a director of California Resources Corporation (NYSE: CRC), a domestic upstream company. Mr. Sinnott also serves as a member of the board of directors that oversees Plains GP Holdings, L.P. (NYSE: PAGP) and Plains All American Pipeline, L.P. (NYSE: PAA), which is a large publicly traded master limited partnership (MLP).

With respect to the foregoing examples, past performance of Kayne Anderson and our management team is not a guarantee either (i) of success with respect to any business combination we may consummate or (ii) that we will be able to identify a suitable candidate for our initial business combination. You should not rely on the historical performance record of Kayne Anderson or our management as indicative of our future performance. Our officers and directors have not had experience with blank check companies or special purpose acquisition corporations in the past. In addition, for a list of our executive officers and entities for which a conflict of interest may or does exist between such officers and the company, as well as the priority and preference that such entity has with respect to performance of obligations and presentation of business opportunities to us, please refer to the table and subsequent explanatory paragraph under "Management—Conflicts of Interest".

Business Strategy

Our business strategy is to identify, combine with and maximize the value of a company with operations in the energy industry. In executing on this strategy, we will look to find a target that (i) complements the experience of our management team and Kayne Anderson, (ii) can benefit from our team's operating and financial expertise and (iii) represents a compelling investment opportunity. We will focus our efforts on opportunities where we feel we have a competitive advantage and are best situated to enhance the value of the business after completion of the business combination. The ultimate goal of this business strategy is to maximize stockholder value.

Our management team and the investment professionals at Kayne Anderson have an extensive network of contacts in the energy industry. We believe this network is a key competitive advantage in sourcing potential business combination targets. We also believe that Kayne Anderson's reputation, experience and track record of making investments in the energy industry will make us a preferred partner for potential business combination targets. We believe many privately held and publicly traded companies in the sector consider Kayne Anderson to be a trusted partner and recognize the firm's ability to add value and enhance returns.

In addition, we believe the breadth of Kayne Anderson's investment activities in the energy industry is a competitive advantage. Kayne Anderson is very active in both the midstream and upstream sectors across the capital structure (i.e., both equity and debt investments) in both publicly traded and privately held companies. As a result, Kayne Anderson believes it has a broader window into the energy industry, giving us a better understanding of macro trends, investor expectations and market sentiment.

Business Combination Criteria

Consistent with our business strategy, we have identified the following general criteria and guidelines that we believe are important in evaluating candidates for our initial business combination. We will use these criteria and guidelines in evaluating business combination opportunities, but we may decide to enter into our initial business combination with a target business that does not meet these criteria and guidelines. We intend to focus on candidates that we believe:

- are well positioned to benefit from a recovery in energy industry activity levels and/or increased levels of production from the key domestic shale basins;
- will benefit from our team's operating expertise, technical expertise, structuring expertise, extensive network, insight and capital markets expertise in the energy industry;
- have opportunities to grow the business through organic growth projects and third-party acquisitions;
- will be well received by public investors and are expected to have good access to the public capital markets;
- are engaged in activities that are consistent with Kayne Anderson's view of macro trends in the energy industry; and
- are expected to generate attractive risk-adjusted returns for our stockholders.

These criteria are not intended to be exhaustive. Any evaluation relating to the merits of a particular initial business combination may be based, to the extent relevant, on these general guidelines as well as other considerations, factors and criteria that our management may deem relevant. In the event that we decide to enter into our initial business combination with a target business that does not meet the above criteria and guidelines, we will disclose that the target business does not meet the above criteria in our stockholder communications related to our initial business combination, which, as discussed in this prospectus, would be in the form of proxy solicitation materials or tender offer documents that we would file with the SEC.

Initial Business Combination

NASDAQ rules require that we must complete one or more business combinations having an aggregate fair market value of at least 80% of the assets held in the trust account (excluding the deferred underwriting commissions and taxes payable on the income earned on the trust account) at the time of the agreement to enter into the initial business combination. Our board will make the determination as to the fair market value of a target business or businesses. If our board is not able to independently determine the fair market value of a target business or businesses, we will obtain an opinion from an independent investment banking firm that is a member of the Financial Industry Regulatory Authority, or “FINRA”, or an independent accounting firm with respect to the satisfaction of such criteria. While we consider it unlikely that our board will not be able to make an independent determination of the fair market value of a target business or businesses, it may be unable to do so if the board is less familiar or experienced with the target company’s business or there is a significant amount of uncertainty as to the value of the company’s assets or prospects.

We may, at our option, pursue an Affiliated Joint Acquisition with one or more entities affiliated with Kayne Anderson and/or one or more investors in funds or separate accounts managed by Kayne Anderson. Any such parties would co-invest only if permitted by applicable regulatory and other legal limitations and to the extent considered appropriate. An Affiliated Joint Acquisition may be effected through a co-investment with us in the target business at the time of our initial business combination, or we could raise additional proceeds to complete the business combination by issuing to such parties a class of equity or equity-linked securities. The amount and other terms and conditions of any such specified future issuance would be determined at the time thereof. We are not obligated to make any specified future issuance and may determine not to do so. This is not an offer for any specified future issuance. Pursuant to the anti-dilution provisions of our Class B common stock, any such specified future issuance would result in an adjustment to the conversion ratio such that our initial stockholders and their permitted transferees, if any, would retain their aggregate percentage ownership at 20% of the sum of the total number of all shares of common stock outstanding upon completion of this offering plus all shares issued in the specified future issuance, unless the holders of a majority of the then-outstanding shares of Class B common stock agreed to waive such adjustment with respect to the specified future issuance at the time thereof. We cannot determine at this time whether a majority of the holders of our Class B common stock would then agree to so waive such adjustment to the conversion ratio. They may waive such adjustment due to (but not limited to) the following: (i) closing conditions which are part of the agreement for our initial business combination; (ii) negotiation with Class A stockholders on structuring an initial business combination; (iii) negotiation with parties providing financing which would trigger the anti-dilution provisions of the Class B common stock; or (iv) as part of the Affiliated Joint Acquisition. If such adjustment is not waived, the specified future issuance would not reduce the percentage ownership of holders of our Class B common stock, but would reduce the percentage ownership of holders of our Class A common stock. If such adjustment is waived, the specified future issuance would reduce the percentage ownership of holders of both classes of our common stock.

We anticipate structuring our initial business combination either (i) in such a way so that the post-transaction company in which our public stockholders own shares will own or acquire 100% of the equity interests or assets of the target business or businesses, or (ii) in such a way so that the post-transaction company owns or acquires less than 100% of such interests or assets of the target business in order to meet certain objectives of the target management team or stockholders, or for other reasons, including an Affiliated Joint Acquisition as described above. However, we will only complete a business combination if the post-transaction company owns or acquires 50% or more of the outstanding voting securities of the target or otherwise acquires a controlling interest in the target sufficient for it not to be required to register as an investment company under the Investment Company Act. Even if the post-transaction company owns or acquires 50% or more of the voting securities of the target, our stockholders prior to the business combination may collectively own a minority interest in the post-transaction company, depending on valuations ascribed to the target and us in the business combination transaction. For example, we could pursue a transaction in which we issue a substantial number of new shares in exchange for all of the outstanding capital stock of a target. In this case, we would acquire a 100% controlling interest in the target. However, as a result of the issuance of a substantial number of new shares, our

stockholders immediately prior to our initial business combination could own less than a majority of our outstanding shares subsequent to our initial business combination. If less than 100% of the equity interests or assets of a target business or businesses are owned or acquired by the post-transaction company, the portion of such business or businesses that is owned or acquired is what will be valued for purposes of the 80% of net assets test. If the business combination involves more than one target business, the 80% of net assets test will be based on the aggregate value of all of the transactions and we will treat the target businesses together as the initial business combination for purposes of a tender offer or for seeking stockholder approval, as applicable.

Our Business Combination Process

In evaluating prospective business combinations, we will conduct a thorough due diligence review process. This due diligence review process will be specific to the target business, but will include, among other things, a review of historical and projected financial and operating data, meetings with management and their financial sponsors (if applicable), an assessment of the commodity price risk of the business and our ability to mitigate such risks with hedges, on-site inspection of assets, discussion with customers, legal and environmental reviews and other reviews as we deem appropriate. We will also utilize our expertise and Kayne Anderson's expertise operating energy-related assets and evaluating operating projections, financial projections and determining the appropriate return expectations given the risk profile of the target business.

We are not prohibited from pursuing an initial business combination with a company that is affiliated with Kayne Anderson or our officers or directors. In the event we seek to complete our initial business combination with a company that is affiliated with Kayne Anderson or our officers or directors, we, or a committee of independent directors, will obtain an opinion from an independent investment banking firm which is a member of FINRA or an independent accounting firm that our initial business combination is fair to our company from a financial point of view.

Members of our management team and our independent directors will directly or indirectly own founder shares and/or private placement warrants following this offering and, accordingly, may have a conflict of interest in determining whether a particular target business is an appropriate business with which to effectuate our initial business combination. Further, each of our officers and directors may have a conflict of interest with respect to evaluating a particular business combination if the retention or resignation of any such officers and directors were to be included by a target business as a condition to any agreement with respect to our initial business combination.

All of the members of our management team are employed by Kayne Anderson or affiliates of Kayne Anderson. Kayne Anderson and its affiliates are continuously made aware of potential business opportunities, one or more of which we may desire to pursue for a business combination; we have not, however, selected any specific business combination target and we have not, nor has anyone on our behalf, initiated any substantive discussions, directly or indirectly, with any business combination target.

Kayne Anderson and each of our officers and directors presently has, and any of them in the future may have additional, fiduciary or contractual obligations to other entities pursuant to which such officer or director is or will be required to present a business combination opportunity. For example, Kayne Anderson and certain of its officers currently are obligated by contract to offer or allocate certain investment opportunities first to specific private funds managed by them. Accordingly, if any of our officers or directors becomes aware of a business combination opportunity which is suitable for an entity to which he or she has then-current fiduciary or contractual obligations, he or she will honor his or her fiduciary or contractual obligations to present such opportunity to such entity. We believe, however, that the fiduciary duties or contractual obligations of Kayne Anderson and our officers or directors will not materially affect our ability to complete our initial business combination. In addition, we may, at our option, pursue an Affiliated Joint Acquisition opportunity with an entity to which Kayne Anderson or an officer or director has a fiduciary or contractual obligation. Any such entity may co-invest with us in the target business at the time of our initial business combination, or we could raise

additional proceeds to complete the business combination by making a specified future issuance to any such entity. Our amended and restated certificate of incorporation will provide that we renounce our interest in any corporate opportunity offered to any director or officer unless such opportunity is expressly offered to such person solely in his or her capacity as a director or officer of our company and such opportunity is one we are legally and contractually permitted to undertake and would otherwise be reasonable for us to pursue, and to the extent the director or officer is permitted to refer that opportunity to us without violating another legal obligation.

Our officers and directors have agreed not to become an officer or director of any other special purpose acquisition company with a class of securities registered under the Securities Exchange Act of 1934, as amended, or the Exchange Act, until we have entered into a definitive agreement regarding our initial business combination or we have failed to complete our initial business combination within 24 months after the closing of this offering.

Our Management Team

Members of our management team are not obligated to devote any specific number of hours to our matters but they intend to devote as much of their time as they deem necessary to our affairs until we have completed our initial business combination. The amount of time that any member of our management team will devote in any time period will vary based on whether a target business has been selected for our initial business combination and the current stage of the business combination process.

We believe our management team's operating and transaction experience and relationships with companies will provide us with a substantial number of potential business combination targets. Over the course of their careers, the members of our management team have developed a broad network of contacts and corporate relationships in the energy industry. This network has grown through the activities of our management team sourcing, acquiring and financing businesses, our management team's relationships with sellers, financing sources and target management teams and the experience of our management team in executing transactions under varying economic and financial market conditions. See the section of this prospectus entitled "Management" for a more complete description of our management team's experience

Status as a Public Company

We believe our structure will make us an attractive business combination partner to target businesses. As an existing public company, we offer a target business an alternative to the traditional initial public offering through a merger or other business combination. In this situation, the owners of the target business would exchange their shares of stock in the target business for shares of our stock or for a combination of shares of our stock and cash, allowing us to tailor the consideration to the specific needs of the sellers. Although there are various costs and obligations associated with being a public company, we believe target businesses will find this method a more certain and cost effective method to becoming a public company than the typical initial public offering. In a typical initial public offering, there are additional expenses incurred in marketing, road show and public reporting efforts that may not be present to the same extent in connection with a business combination with us.

Furthermore, once a proposed business combination is completed, the target business will have effectively become public, whereas an initial public offering is always subject to the underwriters' ability to complete the offering, as well as general market conditions, which could delay or prevent the offering from occurring or could have negative valuation consequences. Once public, we believe the target business would then have greater access to capital and an additional means of providing management incentives consistent with stockholders' interests. It can offer further benefits by augmenting a company's profile among potential new customers and vendors and aid in attracting talented employees.

We are an "emerging growth company," as defined in Section 2(a) of the Securities Act, as modified by the JOBS Act. As such, we are eligible to take advantage of certain exemptions from various reporting requirements that are applicable to other public companies that are not "emerging growth companies" including, but not

limited to, not being required to comply with the independent registered public accounting firm attestation requirements of Section 404 of the Sarbanes-Oxley Act, reduced disclosure obligations regarding executive compensation in our periodic reports and proxy statements, and exemptions from the requirements of holding a non-binding advisory vote on executive compensation and stockholder approval of any golden parachute payments not previously approved. If some investors find our securities less attractive as a result, there may be a less active trading market for our securities and the prices of our securities may be more volatile.

In addition, Section 107 of the JOBS Act also provides that an “emerging growth company” can take advantage of the extended transition period provided in Section 7(a)(2)(B) of the Securities Act for complying with new or revised accounting standards. In other words, an “emerging growth company” can delay the adoption of certain accounting standards until those standards would otherwise apply to private companies. We intend to take advantage of the benefits of this extended transition period.

We will remain an emerging growth company until the earlier of (1) the last day of the fiscal year (a) following the fifth anniversary of the completion of this offering, (b) in which we have total annual gross revenue of at least \$1.0 billion, or (c) in which we are deemed to be a large accelerated filer, which means the market value of our Class A common stock that is held by non-affiliates exceeds \$700 million as of the prior June 30th, and (2) the date on which we have issued more than \$1.0 billion in non-convertible debt securities during the prior three-year period.

Financial Position

With funds available for a business combination initially in the amount of \$337,750,000, after payment of \$12,250,000 of deferred underwriting fees (or \$388,412,500 after payment of up to \$14,087,500 of deferred underwriting fees if the underwriters’ over-allotment option is exercised in full), in each case before fees and expenses associated with our initial business combination, we offer a target business a variety of options such as creating a liquidity event for its owners, providing capital for the potential growth and expansion of its operations or strengthening its balance sheet by reducing its debt or leverage ratio. Because we are able to complete our business combination using our cash, debt or equity securities, or a combination of the foregoing, we have the flexibility to use the most efficient combination that will allow us to tailor the consideration to be paid to the target business to fit its needs and desires. However, we have not taken any steps to secure third party financing and there can be no assurance it will be available to us.

Effecting our Initial Business Combination

We are not presently engaged in, and we will not engage in, any operations for an indefinite period of time following this offering. We intend to effectuate our initial business combination using cash from the proceeds of this offering and the private placement of the private placement warrants, our capital stock, debt or a combination of these as the consideration to be paid in our initial business combination. We may seek to complete our initial business combination with a company or business that may be financially unstable or in its early stages of development or growth, which would subject us to the numerous risks inherent in such companies and businesses.

If our initial business combination is paid for using equity or debt securities, or not all of the funds released from the trust account are used for payment of the consideration in connection with our business combination or used for redemptions of purchases of our Class A common stock, we may apply the balance of the cash released to us from the trust account for general corporate purposes, including for maintenance or expansion of operations of the post-transaction company, the payment of principal or interest due on indebtedness incurred in completing our initial business combination, to fund the purchase of other companies or for working capital.

We may seek to raise additional funds through a private offering of debt or equity securities in connection with the completion of our initial business combination (which may include a specified future issuance), and we

may effectuate our initial business combination using the proceeds of such offering rather than using the amounts held in the trust account. In addition, we intend to target businesses larger than we could acquire with the net proceeds of this offering and the sale of the private placement warrants, and may as a result be required to seek additional financing to complete such proposed initial business combination. Subject to compliance with applicable securities laws, we would expect to complete such financing only simultaneously with the completion of our business combination. In the case of an initial business combination funded with assets other than the trust account assets, our proxy materials or tender offer documents disclosing the business combination would disclose the terms of the financing and, only if required by law, we would seek stockholder approval of such financing. There are no prohibitions on our ability to raise funds privately, including pursuant to any specified future issuance, or through loans in connection with our initial business combination. At this time, we are not a party to any arrangement or understanding with any third party with respect to raising any additional funds through the sale of securities or otherwise.

Sources of Target Businesses

We anticipate that target business candidates will be brought to our attention from various unaffiliated sources, including energy industry executives, investment bankers and investment professionals at private equity firms and other financial sponsors. Target businesses may be brought to our attention by such unaffiliated sources as a result of being solicited by us. These sources may also introduce us to target businesses in which they think we may be interested on an unsolicited basis, since many of these sources will have read this prospectus and know what types of businesses we are targeting. Our officers and directors, as well as our sponsor and their affiliates, may also bring to our attention target business candidates that they become aware of through their business contacts as a result of formal or informal inquiries or discussions they may have. In addition, we expect to receive a number of proprietary deal flow opportunities that would not otherwise necessarily be available to us as a result of the business relationships of our officers and directors and our sponsor and their affiliates. While we do not presently anticipate engaging the services of professional firms or other individuals that specialize in business acquisitions on any formal basis, we may engage these firms or other individuals in the future, in which event we may pay a finder's fee, consulting fee, advisory fee or other compensation to be determined in an arm's length negotiation based on the terms of the transaction. We will engage a finder only to the extent our management determines that the use of a finder may bring opportunities to us that may not otherwise be available to us or if finders approach us on an unsolicited basis with a potential transaction that our management determines is in our best interest to pursue. Payment of finder's fees is customarily tied to completion of a transaction, in which case any such fee will be paid out of the funds held in the trust account. In no event, however, will our sponsor or any of our existing officers or directors, or any entity with which they are affiliated, be paid any finder's fee, consulting fee or other compensation prior to, or for any services they render in order to effectuate, the completion of our initial business combination (regardless of the type of transaction that it is). We have agreed to pay an affiliate of our sponsor a total of \$5,000 per month for office space, utilities and secretarial and administrative support and to reimburse our sponsor for any out-of-pocket expenses related to identifying, investigating and completing an initial business combination. Some of our officers and directors may enter into employment or consulting agreements with the post-transaction company following our initial business combination. The presence or absence of any such fees or arrangements will not be used as a criterion in our selection process of a business combination candidate.

We are not prohibited from pursuing an initial business combination with a business combination target that is affiliated with our sponsor, officers or directors or making the business combination through a joint venture or other form of shared ownership with our sponsor, officers or directors. In the event we seek to complete our initial business combination with a business combination target that is affiliated with our sponsor, officers or directors, we, or a committee of independent directors, would obtain an opinion from an independent investment banking firm which is a member of FINRA or an independent accounting firm that such an initial business combination is fair to our company from a financial point of view. We are not required to obtain such an opinion in any other context.

As more fully discussed in the section of this prospectus entitled “Management—Conflicts of Interest,” if any of our officers or directors becomes aware of a business combination opportunity that falls within the line of business of any entity to which he or she has pre-existing fiduciary or contractual obligations, he or she may be required to present such business combination opportunity to such entity prior to presenting such business combination opportunity to us. Our officers and directors currently have certain relevant fiduciary duties or contractual obligations that may take priority over their duties to us. We may, at our option, pursue an Affiliated Joint Acquisition opportunity with an entity to which an officer or director has a fiduciary or contractual obligation. Any such entity may co-invest with us in the target business at the time of our initial business combination, or we could raise additional proceeds to complete the business combination by making a specified future issuance to any such entity.

Selection of a Target Business and Structuring of our Initial Business Combination

Our initial business combination must occur with one or more target businesses that together have an aggregate fair market value of at least 80% of our assets held in the trust account (excluding the deferred underwriting commissions and taxes payable on the income earned on the trust account) at the time of the agreement to enter into the initial business combination. The fair market value of the target or targets will be determined by our board of directors based upon one or more standards generally accepted by the financial community, such as discounted cash flow valuation, a valuation based on trading multiples of comparable public businesses or a valuation based on the financial metrics of M&A transactions of comparable businesses. If our board is not able to independently determine the fair market value of the target business or businesses, we will obtain an opinion from an independent investment banking firm that is a member of FINRA, or from an independent accounting firm, with respect to the satisfaction of such criteria. We do not intend to purchase multiple businesses in unrelated industries in conjunction with our initial business combination. Subject to this requirement, our management will have virtually unrestricted flexibility in identifying and selecting one or more prospective target businesses, although we will not be permitted to effectuate our initial business combination with another blank check company or a similar company with nominal operations.

In any case, we will only complete an initial business combination in which we own or acquire 50% or more of the outstanding voting securities of the target or otherwise acquire a controlling interest in the target sufficient for it not to be required to register as an investment company under the Investment Company Act. If we own or acquire less than 100% of the equity interests or assets of a target business or businesses, the portion of such business or businesses that are owned or acquired by the post-transaction company is what will be valued for purposes of the 80% of net assets test. There is no basis for investors in this offering to evaluate the possible merits or risks of any target business with which we may ultimately complete our business combination.

To the extent we effect our business combination with a company or business that may be financially unstable or in its early stages of development or growth we may be affected by numerous risks inherent in such company or business. Although our management will endeavor to evaluate the risks inherent in a particular target business, we cannot assure you that we will properly ascertain or assess all significant risk factors.

The time required to select and evaluate a target business and to structure and complete our initial business combination, and the costs associated with this process, are not currently ascertainable with any degree of certainty. Any costs incurred with respect to the identification and evaluation of a prospective target business with which our business combination is not ultimately completed will result in our incurring losses and will reduce the funds we can use to complete another business combination.

Lack of Business Diversification

For an indefinite period of time after the completion of our initial business combination, the prospects for our success may depend entirely on the future performance of a single business. Unlike other entities that have the resources to complete business combinations with multiple entities in one or several industries, it is probable

that we will not have the resources to diversify our operations and mitigate the risks of being in a single line of business. In addition, we intend to focus our search for an initial business combination in a single industry. By completing our business combination with only a single entity, our lack of diversification may:

- subject us to negative economic, competitive and regulatory developments, any or all of which may have a substantial adverse impact on the particular industry in which we operate after our initial business combination, and
- cause us to depend on (i) the performance of a single asset or small collection of assets and/or (ii) the sale of a limited number of services.

Limited Ability to Evaluate the Target’s Management Team

Although we intend to closely scrutinize the management of a prospective target business when evaluating the desirability of effecting our business combination with that business, our assessment of the target business’ management may not prove to be correct. In addition, the future management may not have the necessary skills, qualifications or abilities to manage a public company. Furthermore, the future role of members of our management team, if any, in the target business cannot presently be stated with any certainty. While it is possible that one or more of our directors will remain associated in some capacity with us following our business combination, it is unlikely that any of them will devote their full efforts to our affairs subsequent to our business combination. Moreover, we cannot assure you that members of our management team will have significant experience or knowledge relating to the operations of the particular target business.

We cannot assure you that any of our key personnel will remain in senior management or advisory positions with the combined company. The determination as to whether any of our key personnel will remain with the combined company will be made at the time of our initial business combination.

Following a business combination, we may seek to recruit additional managers to supplement the incumbent management of the target business. We cannot assure you that we will have the ability to recruit additional managers, or that additional managers will have the requisite skills, knowledge or experience necessary to enhance the incumbent management.

Stockholders May Not Have the Ability to Approve our Initial Business Combination

We may conduct redemptions without a stockholder vote pursuant to the tender offer rules of the SEC. However, we will seek stockholder approval if it is required by law or applicable stock exchange rule, or we may decide to seek stockholder approval for business or other legal reasons. Presented in the table below is a graphic explanation of the types of initial business combinations we may consider and whether stockholder approval is currently required under Delaware law for each such transaction.

<u>Type of Transaction</u>	<u>Whether Stockholder Approval is Required</u>
Purchase of assets	No
Purchase of stock of target not involving a merger with the company	No
Merger of target into a subsidiary of the company	No
Merger of the company with a target	Yes

Under NASDAQ’s listing rules, stockholder approval would be required for our initial business combination if, for example:

- we issue shares of Class A common stock that will be equal to or in excess of 20% of the number of shares of our Class A common stock then outstanding;
- any of our directors, officers or substantial stockholders (as defined by NASDAQ rules) has a 5% or greater interest (or such persons collectively have a 10% or greater interest), directly or indirectly, in the

target business or assets to be acquired or otherwise and the present or potential issuance of common stock could result in an increase in outstanding common shares or voting power of 5% or more; or

- the issuance or potential issuance of common stock will result in our undergoing a change of control.

Permitted Purchases of our Securities

In the event we seek stockholder approval of our business combination and we do not conduct redemptions in connection with our business combination pursuant to the tender offer rules, our sponsor, directors, officers, advisors or their affiliates may purchase shares in privately negotiated transactions or in the open market either prior to or following the completion of our initial business combination. There is no limit on the number of shares our initial stockholders, directors, officers, advisors or their affiliates may purchase in such transactions, subject to compliance with applicable law and the rules of NASDAQ. However, they have no current commitments, plans or intentions to engage in such transactions and have not formulated any terms or conditions for any such transactions. None of the funds in the trust account will be used to purchase shares in such transactions. One purpose and effect of any such transactions would be to seek to obtain the necessary number of votes in favor of our initial business combination, as our sponsor, directors and officers have agreed, pursuant to the letter agreement, to vote any founder shares held by them and any public shares purchased during or after this offering (including in open market and privately negotiated transactions) in favor of our initial business combination. They will not make any such purchases when they are in possession of any material non-public information not disclosed to the seller or if such purchases are prohibited by Regulation M under the Exchange Act. Such a purchase may include a contractual acknowledgement that such stockholder, although still the record holder of our shares is no longer the beneficial owner thereof and therefore agrees not to exercise its redemption rights. Subsequent to the consummation of this offering, we will adopt an insider trading policy which will require insiders to refrain from purchasing shares during certain periods and when they are in possession of any material nonpublic information and to clear all trades with our legal counsel prior to execution. We cannot currently determine whether our insiders will make such purchases pursuant to a Rule 10b5-1 plan, as the decision whether to make such purchases pursuant to a Rule 10b5-1 plan will be dependent upon several factors, including but not limited to, the timing and size of such purchases. Depending on such circumstances, our insiders may either make such purchases pursuant to a Rule 10b5-1 plan or determine that such a plan is not necessary.

In the event that our sponsor, directors, officers, advisors or their affiliates purchase shares in privately negotiated transactions from public stockholders who have already elected to exercise their redemption rights, such selling stockholders would be required to revoke their prior elections to redeem their shares. We do not currently anticipate that such purchases, if any, would constitute a tender offer subject to the tender offer rules under the Exchange Act or a going-private transaction subject to the going-private rules under the Exchange Act; however, if the purchasers determine at the time of any such purchases that the purchases are subject to such rules, the purchasers will comply with such rules.

The purpose of such purchases would be to (i) vote such shares in favor of the business combination and thereby increase the likelihood of obtaining stockholder approval of the business combination or (ii) to satisfy a closing condition in an agreement with a target that requires us to have a minimum net worth or a certain amount of cash at the closing of our business combination, where it appears that such requirement would otherwise not be met. This may result in the completion of our business combination that may not otherwise have been possible.

In addition, if such purchases are made, the public “float” of our common stock may be reduced and the number of beneficial holders of our securities may be reduced, which may make it difficult to maintain or obtain the quotation, listing or trading of our securities on a national securities exchange.

Our sponsor, officers, directors and/or their affiliates anticipate that they may identify the stockholders with whom our sponsor, officers, directors or their affiliates may pursue privately negotiated purchases by either the

stockholders contacting us directly or by our receipt of redemption requests submitted by stockholders following our mailing of proxy materials in connection with our initial business combination. To the extent that our sponsor, officers, directors, advisors or their affiliates enter into a private purchase, they would identify and contact only potential selling stockholders who have expressed their election to redeem their shares for a pro rata share of the trust account or vote against the business combination. Our sponsor, officers, directors, advisors or their affiliates will only purchase shares if such purchases comply with Regulation M under the Exchange Act and the other federal securities laws.

Any purchases by our sponsor, officers, directors and/or their affiliates who are affiliated purchasers under Rule 10b-18 under the Exchange Act will only be made to the extent such purchases are able to be made in compliance with Rule 10b-18, which is a safe harbor from liability for manipulation under Section 9(a)(2) and Rule 10b-5 of the Exchange Act. Rule 10b-18 has certain technical requirements that must be complied with in order for the safe harbor to be available to the purchaser. Our sponsor, officers, directors and/or their affiliates will not make purchases of common stock if the purchases would violate Section 9(a)(2) or Rule 10b-5 of the Exchange Act.

Redemption Rights for Public Stockholders upon Completion of our Initial Business Combination

We will provide our public stockholders with the opportunity to redeem all or a portion of their shares of Class A common stock upon the completion of our initial business combination at a per-share price, payable in cash, equal to the aggregate amount then on deposit in the trust account as of two business days prior to the consummation of the initial business combination including interest earned on the funds held in the trust account and not previously released to us to pay our franchise and income taxes, divided by the number of then outstanding public shares, subject to the limitations described herein. The amount in the trust account is initially anticipated to be approximately \$10.00 per public share. The per-share amount we will distribute to investors who properly redeem their shares will not be reduced by the deferred underwriting commissions we will pay to the underwriters. Our sponsor, officers and directors have entered into a letter agreement with us, pursuant to which they have agreed to waive their redemption rights with respect to any founder shares and any public shares held by them in connection with the completion of our business combination.

Manner of Conducting Redemptions

We will provide our public stockholders with the opportunity to redeem all or a portion of their shares of Class A common stock upon the completion of our initial business combination either (i) in connection with a stockholder meeting called to approve the business combination or (ii) by means of a tender offer. The decision as to whether we will seek stockholder approval of a proposed business combination or conduct a tender offer will be made by us, solely in our discretion, and will be based on a variety of factors such as the timing of the transaction and whether the terms of the transaction would require us to seek stockholder approval under the law or stock exchange listing requirement. Asset acquisitions and stock purchases would not typically require stockholder approval while direct mergers with our company where we do not survive and any transactions where we issue more than 20% of our outstanding common stock or seek to amend our amended and restated certificate of incorporation would require stockholder approval. If we structure a business combination transaction with a target company in a manner that requires stockholder approval, we will not have discretion as to whether to seek a stockholder vote to approve the proposed business combination. We may conduct redemptions without a stockholder vote pursuant to the tender offer rules of the SEC unless stockholder approval is required by law or stock exchange listing requirements or we choose to seek stockholder approval for business or other legal reasons.

If a stockholder vote is not required and we do not decide to hold a stockholder vote for business or other legal reasons, we will, pursuant to our amended and restated certificate of incorporation:

- conduct the redemptions pursuant to Rule 13e-4 and Regulation 14E of the Exchange Act, which regulate issuer tender offers, and

- file tender offer documents with the SEC prior to completing our initial business combination which contain substantially the same financial and other information about the initial business combination and the redemption rights as is required under Regulation 14A of the Exchange Act, which regulates the solicitation of proxies.

Upon the public announcement of our business combination, we or our sponsor will terminate any plan established in accordance with Rule 10b5-1 to purchase shares of our Class A common stock in the open market if we elect to redeem our public shares through a tender offer, to comply with Rule 14e-5 under the Exchange Act.

In the event we conduct redemptions pursuant to the tender offer rules, our offer to redeem will remain open for at least 20 business days, in accordance with Rule 14e-1(a) under the Exchange Act, and we will not be permitted to complete our initial business combination until the expiration of the tender offer period. In addition, the tender offer will be conditioned on public stockholders not tendering more than a specified number of public shares which are not purchased by our sponsor, which number will be based on the requirement that we may not redeem public shares in an amount that would cause our net tangible assets to be less than \$5,000,001 upon consummation of our initial business combination and after payment of underwriters' fees and commissions (so that we are not subject to the SEC's "penny stock" rules) or any greater net tangible asset or cash requirement which may be contained in the agreement relating to our initial business combination. If public stockholders tender more shares than we have offered to purchase, we will withdraw the tender offer and not complete the initial business combination.

If, however, stockholder approval of the transaction is required by law or stock exchange listing requirement, or we decide to obtain stockholder approval for business or other legal reasons, we will, pursuant to our amended and restated certificate of incorporation:

- conduct the redemptions in conjunction with a proxy solicitation pursuant to Regulation 14A of the Exchange Act, which regulates the solicitation of proxies, and not pursuant to the tender offer rules, and
- file proxy materials with the SEC.

In the event that we seek stockholder approval of our initial business combination, we will distribute proxy materials and, in connection therewith, provide our public stockholders with the redemption rights described above upon completion of the initial business combination.

If we seek stockholder approval, we will complete our initial business combination only if a majority of the outstanding shares of common stock voted are voted in favor of the business combination. A quorum for such meeting will consist of the holders present in person or by proxy of shares of outstanding capital stock of the company representing a majority of the voting power of all outstanding shares of capital stock of the company entitled to vote at such meeting. Our initial stockholders will count toward this quorum and pursuant to the letter agreement, our sponsor, officers and directors have agreed to vote their founder shares and any public shares purchased during or after this offering (including in open market and privately negotiated transactions) in favor of our initial business combination. For purposes of seeking approval of the majority of our outstanding shares of common stock voted, non-votes will have no effect on the approval of our initial business combination once a quorum is obtained. As a result, in addition to our initial stockholders' founder shares, we would need 13,125,001, or 37.5%, of the 35,000,000 public shares sold in this offering to be voted in favor of a transaction (assuming all outstanding shares are voted) in order to have our initial business combination approved (assuming the over-allotment option is not exercised). We intend to give approximately 30 days (but not less than 10 days nor more than 60 days) prior written notice of any such meeting, if required, at which a vote shall be taken to approve our initial business combination. These quorum and voting thresholds, and the voting agreements of our initial stockholders, may make it more likely that we will consummate our initial business combination. Each public stockholder may elect to redeem its public shares irrespective of whether they vote for or against the proposed transaction.

Our amended and restated certificate of incorporation will provide that in no event will we redeem our public shares in an amount that would cause our net tangible assets to be less than \$5,000,001 upon consummation of our initial business combination and after payment of underwriters' fees and commissions (so that we are not subject to the SEC's "penny stock" rules) or any greater net tangible asset or cash requirement which may be contained in the agreement relating to our initial business combination. For example, the proposed business combination may require: (i) cash consideration to be paid to the target or its owners, (ii) cash to be transferred to the target for working capital or other general corporate purposes or (iii) the retention of cash to satisfy other conditions in accordance with the terms of the proposed business combination. In the event the aggregate cash consideration we would be required to pay for all shares of Class A common stock that are validly submitted for redemption plus any amount required to satisfy cash conditions pursuant to the terms of the proposed business combination exceed the aggregate amount of cash available to us, we will not complete the business combination or redeem any shares, and all shares of Class A common stock submitted for redemption will be returned to the holders thereof.

Limitation on Redemption upon Completion of our Initial Business Combination if we Seek Stockholder Approval

Notwithstanding the foregoing, if we seek stockholder approval of our initial business combination and we do not conduct redemptions in connection with our business combination pursuant to the tender offer rules, our amended and restated certificate of incorporation will provide that a public stockholder, together with any affiliate of such stockholder or any other person with whom such stockholder is acting in concert or as a "group" (as defined under Section 13 of the Exchange Act), will be restricted from seeking redemption rights with respect to more than an aggregate of 15% of the shares sold in this offering, which we refer to as the "Excess Shares." Such restriction shall also be applicable to our affiliates. We believe this restriction will discourage stockholders from accumulating large blocks of shares, and subsequent attempts by such holders to use their ability to exercise their redemption rights against a proposed business combination as a means to force us or our management to purchase their shares at a significant premium to the then-current market price or on other undesirable terms. Absent this provision, a public stockholder holding more than an aggregate of 15% of the shares sold in this offering could threaten to exercise its redemption rights if such holder's shares are not purchased by us or our management at a premium to the then-current market price or on other undesirable terms. By limiting our stockholders' ability to redeem no more than 15% of the shares sold in this offering, we believe we will limit the ability of a small group of stockholders to unreasonably attempt to block our ability to complete our business combination, particularly in connection with a business combination with a target that requires as a closing condition that we have a minimum net worth or a certain amount of cash. However, we would not be restricting our stockholders' ability to vote all of their shares (including Excess Shares) for or against our business combination.

Tendering Stock Certificates in Connection with a Tender Offer or Redemption Rights

We may require our public stockholders seeking to exercise their redemption rights, whether they are record holders or hold their shares in "street name," to either tender their certificates to our transfer agent prior to the date set forth in the tender offer documents mailed to such holders, or up to two business days prior to the vote on the proposal to approve the business combination in the event we distribute proxy materials, or to deliver their shares to the transfer agent electronically using Depository Trust Company's DWAC (Deposit/Withdrawal At Custodian) System, at the holder's option. The tender offer or proxy materials, as applicable, that we will furnish to holders of our public shares in connection with our initial business combination will indicate whether we are requiring public stockholders to satisfy such delivery requirements. Accordingly, a public stockholder would have from the time we send out our tender offer materials until the close of the tender offer period, or up to two days prior to the vote on the business combination if we distribute proxy materials, as applicable, to tender its shares if it wishes to seek to exercise its redemption rights. Given the relatively short exercise period, it is advisable for stockholders to use electronic delivery of their public shares.

There is a nominal cost associated with the above-referenced tendering process and the act of certificating the shares or delivering them through the DWAC System. The transfer agent will typically charge the tendering broker \$80.00 and it would be up to the broker whether or not to pass this cost on to the redeeming holder. However, this fee would be incurred regardless of whether or not we require holders seeking to exercise redemption rights to tender their shares. The need to deliver shares is a requirement of exercising redemption rights regardless of the timing of when such delivery must be effectuated.

The foregoing is different from the procedures used by many blank check companies. In order to perfect redemption rights in connection with their business combinations, many blank check companies would distribute proxy materials for the stockholders' vote on an initial business combination, and a holder could simply vote against a proposed business combination and check a box on the proxy card indicating such holder was seeking to exercise his or her redemption rights. After the business combination was approved, the company would contact such stockholder to arrange for him or her to deliver his or her certificate to verify ownership. As a result, the stockholder then had an "option window" after the completion of the business combination during which he or she could monitor the price of the company's stock in the market. If the price rose above the redemption price, he or she could sell his or her shares in the open market before actually delivering his or her shares to the company for cancellation. As a result, the redemption rights, to which stockholders were aware they needed to commit before the stockholder meeting, would become "option" rights surviving past the completion of the business combination until the redeeming holder delivered its certificate. The requirement for physical or electronic delivery prior to the meeting ensures that a redeeming holder's election to redeem is irrevocable once the business combination is approved.

Any request to redeem such shares, once made, may be withdrawn at any time up to the date set forth in the tender offer materials or the date of the stockholder meeting set forth in our proxy materials, as applicable. Furthermore, if a holder of a public share delivered its certificate in connection with an election of redemption rights and subsequently decides prior to the applicable date not to elect to exercise such rights, such holder may simply request that the transfer agent return the certificate (physically or electronically). It is anticipated that the funds to be distributed to holders of our public shares electing to redeem their shares will be distributed promptly after the completion of our business combination.

If our initial business combination is not approved or completed for any reason, then our public stockholders who elected to exercise their redemption rights would not be entitled to redeem their shares for the applicable pro rata share of the trust account. In such case, we will promptly return any certificates delivered by public holders who elected to redeem their shares.

If our initial proposed business combination is not completed, we may continue to try to complete a business combination with a different target until 24 months from the closing of this offering.

Redemption of Public Shares and Liquidation if no Initial Business Combination

Our amended and restated certificate of incorporation provides that we will have only 24 months from the closing of this offering to complete our initial business combination. If we are unable to complete our business combination within such 24-month period, we will: (i) cease all operations except for the purpose of winding up, (ii) as promptly as reasonably possible but not more than ten business days thereafter, redeem the public shares, at a per-share price, payable in cash, equal to the aggregate amount then on deposit in the trust account including interest earned on the funds held in the trust account and not previously released to us to pay our franchise and income taxes (less up to \$100,000 of interest to pay dissolution expenses), divided by the number of then outstanding public shares, which redemption will completely extinguish public stockholders' rights as stockholders (including the right to receive further liquidating distributions, if any), subject to applicable law, and (iii) as promptly as reasonably possible following such redemption, subject to the approval of our remaining stockholders and our board of directors, dissolve and liquidate, subject in each case to our obligations under Delaware law to provide for claims of creditors and the requirements of other applicable law. There will be no

redemption rights or liquidating distributions with respect to our warrants, which will expire worthless if we fail to complete our business combination within the 24-month time period.

Our sponsor, officers and directors have entered into a letter agreement with us, pursuant to which they have waived their rights to liquidating distributions from the trust account with respect to any founder shares held by them if we fail to complete our initial business combination within 24 months from the closing of this offering. However, if our initial stockholders acquire public shares in or after this offering, they will be entitled to liquidating distributions from the trust account with respect to such public shares if we fail to complete our initial business combination within the allotted 24-month time period.

Our sponsor, officers and directors have agreed, pursuant to a written agreement with us, that they will not propose any amendment to our amended and restated certificate of incorporation to modify the substance or timing of our obligation to redeem 100% of our public shares if we do not complete our initial business combination within 24 months from the closing of this offering, unless we provide our public stockholders with the opportunity to redeem their shares of Class A common stock upon approval of any such amendment at a per-share price, payable in cash, equal to the aggregate amount then on deposit in the trust account including interest earned on the funds held in the trust account and not previously released to us to pay our franchise and income taxes divided by the number of then outstanding public shares. However, we may not redeem our public shares in an amount that would cause our net tangible assets to be less than \$5,000,001 upon consummation of our initial business combination and after payment of underwriters' fees and commissions (so that we are not subject to the SEC's "penny stock" rules).

We expect that all costs and expenses associated with implementing our plan of dissolution, as well as payments to any creditors, will be funded from amounts remaining out of the approximately \$1,250,000 of proceeds held outside the trust account, although we cannot assure you that there will be sufficient funds for such purpose. However, if those funds are not sufficient to cover the costs and expenses associated with implementing our plan of dissolution, to the extent that there is any interest accrued in the trust account not required to pay franchise and income taxes on interest income earned on the trust account balance, we may request the trustee to release to us an additional amount of up to \$100,000 of such accrued interest to pay those costs and expenses.

If we were to expend all of the net proceeds of this offering and the sale of the private placement warrants, other than the proceeds deposited in the trust account, and without taking into account interest, if any, earned on the trust account, the per-share redemption amount received by stockholders upon our dissolution would be approximately \$10.00. The proceeds deposited in the trust account could, however, become subject to the claims of our creditors which would have higher priority than the claims of our public stockholders. We cannot assure you that the actual per-share redemption amount received by stockholders will not be substantially less than \$10.00. Under Section 281(b) of the DGCL, our plan of dissolution must provide for all claims against us to be paid in full or make provision for payments to be made in full, as applicable, if there are sufficient assets. These claims must be paid or provided for before we make any distribution of our remaining assets to our stockholders. While we intend to pay such amounts, if any, we cannot assure you that we will have funds sufficient to pay or provide for all creditors' claims.

Although we will seek to have all vendors, service providers, prospective target businesses or other entities with which we do business execute agreements with us waiving any right, title, interest or claim of any kind in or to any monies held in the trust account for the benefit of our public stockholders, there is no guarantee that they will execute such agreements or even if they execute such agreements that they would be prevented from bringing claims against the trust account including but not limited to fraudulent inducement, breach of fiduciary responsibility or other similar claims, as well as claims challenging the enforceability of the waiver, in each case in order to gain an advantage with respect to a claim against our assets, including the funds held in the trust account. If any third party refuses to execute an agreement waiving such claims to the monies held in the trust account, our management will perform an analysis of the alternatives available to it and will only enter into an agreement with a third party that has not executed a waiver if management believes that such third party's

engagement would be significantly more beneficial to us than any alternative. Examples of possible instances where we may engage a third party that refuses to execute a waiver include the engagement of a third party consultant whose particular expertise or skills are believed by management to be significantly superior to those of other consultants that would agree to execute a waiver or in cases where management is unable to find a service provider willing to execute a waiver.

In addition, there is no guarantee that such entities will agree to waive any claims they may have in the future as a result of, or arising out of, any negotiations, contracts or agreements with us and will not seek recourse against the trust account for any reason. Our sponsor has agreed that it will be liable to us if and to the extent any claims by a vendor for services rendered or products sold to us, or a prospective target business with which we have entered into a letter of intent, confidentiality or similar agreement or business combination agreement, reduce the amount of funds in the trust account to below (i) \$10.00 per public share or (ii) such lesser amount per public share held in the trust account as of the date of the liquidation of the trust account, due to reductions in value of the trust assets, in each case net of the amount of interest which may be withdrawn to pay taxes, except as to any claims by a third party who executed a waiver of any and all rights to seek access to the trust account and except as to any claims under our indemnity of the underwriters of this offering against certain liabilities, including liabilities under the Securities Act. In the event that an executed waiver is deemed to be unenforceable against a third party, then our sponsor will not be responsible to the extent of any liability for such third party claims. We have not independently verified whether our sponsor has sufficient funds to satisfy its indemnity obligations and believe that our sponsor's only assets are securities of our company. We have not asked our sponsor to reserve for such indemnification obligations. Therefore, we cannot assure you that our sponsor would be able to satisfy those obligations. As a result, if any such claims were successfully made against the trust account, the funds available for our initial business combination and redemptions could be reduced to less than \$10.00 per public share. In such event, we may not be able to complete our initial business combination, and you would receive such lesser amount per share in connection with any redemption of your public shares. None of our officers or directors will indemnify us for claims by third parties including, without limitation, claims by vendors and prospective target businesses.

In the event that the proceeds in the trust account are reduced below (i) \$10.00 per public share or (ii) such lesser amount per public share held in the trust account as of the date of the liquidation of the trust account, due to reductions in value of the trust assets, in each case net of the amount of interest which may be withdrawn to pay taxes, and our sponsor asserts that it is unable to satisfy its indemnification obligations or that it has no indemnification obligations related to a particular claim, our independent directors would determine whether to take legal action against our sponsor to enforce its indemnification obligations. While we currently expect that our independent directors would take legal action on our behalf against our sponsor to enforce its indemnification obligations to us, it is possible that our independent directors in exercising their business judgment may choose not to do so if, for example, the cost of such legal action is deemed by the independent directors to be too high relative to the amount recoverable or if the independent directors determine that a favorable outcome is not likely. We have not asked our sponsor to reserve for such indemnification obligations and we cannot assure you that our sponsor would be able to satisfy those obligations. Accordingly, we cannot assure you that due to claims of creditors the actual value of the per-share redemption price will not be less than \$10.00 per public share.

We will seek to reduce the possibility that our sponsor will have to indemnify the trust account due to claims of creditors by endeavoring to have all vendors, service providers, prospective target businesses or other entities with which we do business execute agreements with us waiving any right, title, interest or claim of any kind in or to monies held in the trust account. Our sponsor will also not be liable as to any claims under our indemnity of the underwriters of this offering against certain liabilities, including liabilities under the Securities Act. We will have access to up to approximately \$1,250,000 from the proceeds of this offering with which to pay any such potential claims (including costs and expenses incurred in connection with our liquidation, currently estimated to be no more than approximately \$100,000). In the event that we liquidate and it is subsequently determined that the reserve for claims and liabilities is insufficient, stockholders who received funds from our trust account could be liable for claims made by creditors. In the event that our offering expenses exceed our

estimate of \$750,000, we may fund such excess with funds from the funds not to be held in the trust account. In such case, the amount of funds we intend to be held outside the trust account would decrease by a corresponding amount. Conversely, in the event that the offering expenses are less than our estimate of \$750,000, the amount of funds we intend to be held outside the trust account would increase by a corresponding amount.

Under the DGCL, stockholders may be held liable for claims by third parties against a corporation to the extent of distributions received by them in a dissolution. The pro rata portion of our trust account distributed to our public stockholders upon the redemption of our public shares in the event we do not complete our business combination within 24 months from the closing of this offering may be considered a liquidating distribution under Delaware law. If the corporation complies with certain procedures set forth in Section 280 of the DGCL intended to ensure that it makes reasonable provision for all claims against it, including a 60-day notice period during which any third-party claims can be brought against the corporation, a 90-day period during which the corporation may reject any claims brought, and an additional 150-day waiting period before any liquidating distributions are made to stockholders, any liability of stockholders with respect to a liquidating distribution is limited to the lesser of such stockholder's pro rata share of the claim or the amount distributed to the stockholder, and any liability of the stockholder would be barred after the third anniversary of the dissolution.

Furthermore, if the pro rata portion of our trust account distributed to our public stockholders upon the redemption of our public shares in the event we do not complete our business combination within 24 months from the closing of this offering, is not considered a liquidating distribution under Delaware law and such redemption distribution is deemed to be unlawful, then pursuant to Section 174 of the DGCL, the statute of limitations for claims of creditors could then be six years after the unlawful redemption distribution, instead of three years, as in the case of a liquidating distribution. If we are unable to complete our business combination within 24 months from the closing of this offering, we will: (i) cease all operations except for the purpose of winding up, (ii) as promptly as reasonably possible but not more than ten business days thereafter, redeem the public shares, at a per-share price, payable in cash, equal to the aggregate amount then on deposit in the trust account including interest earned on the funds held in the trust account and not previously released to us to pay our franchise and income taxes (less up to \$100,000 of interest to pay dissolution expenses), divided by the number of then outstanding public shares, which redemption will completely extinguish public stockholders' rights as stockholders (including the right to receive further liquidating distributions, if any), subject to applicable law, and (iii) as promptly as reasonably possible following such redemption, subject to the approval of our remaining stockholders and our board of directors, dissolve and liquidate, subject in each case to our obligations under Delaware law to provide for claims of creditors and the requirements of other applicable law. Accordingly, it is our intention to redeem our public shares as soon as reasonably possible following our 24th month and, therefore, we do not intend to comply with those procedures. As such, our stockholders could potentially be liable for any claims to the extent of distributions received by them (but no more) and any liability of our stockholders may extend well beyond the third anniversary of such date.

Because we will not be complying with Section 280, Section 281(b) of the DGCL requires us to adopt a plan, based on facts known to us at such time that will provide for our payment of all existing and pending claims or claims that may be potentially brought against us within the subsequent 10 years. However, because we are a blank check company, rather than an operating company, and our operations will be limited to searching for prospective target businesses to acquire, the only likely claims to arise would be from our vendors (such as lawyers, investment bankers, etc.) or prospective target businesses. As described above, pursuant to the obligation contained in our underwriting agreement, we will seek to have all vendors, service providers, prospective target businesses or other entities with which we do business execute agreements with us waiving any right, title, interest or claim of any kind in or to any monies held in the trust account. As a result of this obligation, the claims that could be made against us are significantly limited and the likelihood that any claim that would result in any liability extending to the trust account is remote. Further, our sponsor may be liable only to the extent necessary to ensure that the amounts in the trust account are not reduced below (i) \$10.00 per public share or (ii) such lesser amount per public share held in the trust account as of the date of the liquidation of the trust account, due to reductions in value of the trust assets, in each case net of the amount of interest withdrawn

to pay taxes and will not be liable as to any claims under our indemnity of the underwriters of this offering against certain liabilities, including liabilities under the Securities Act. In the event that an executed waiver is deemed to be unenforceable against a third party, our sponsor will not be responsible to the extent of any liability for such third-party claims.

If we file a bankruptcy petition or an involuntary bankruptcy petition is filed against us that is not dismissed, the proceeds held in the trust account could be subject to applicable bankruptcy law, and may be included in our bankruptcy estate and subject to the claims of third parties with priority over the claims of our stockholders. To the extent any bankruptcy claims deplete the trust account, we cannot assure you we will be able to return \$10.00 per share to our public stockholders. Additionally, if we file a bankruptcy petition or an involuntary bankruptcy petition is filed against us that is not dismissed, any distributions received by stockholders could be viewed under applicable debtor/creditor and/or bankruptcy laws as either a “preferential transfer” or a “fraudulent conveyance.” As a result, a bankruptcy court could seek to recover all amounts received by our stockholders. Furthermore, our board may be viewed as having breached its fiduciary duty to our creditors and/or may have acted in bad faith, and thereby exposing itself and our company to claims of punitive damages, by paying public stockholders from the trust account prior to addressing the claims of creditors. We cannot assure you that claims will not be brought against us for these reasons.

Our public stockholders will be entitled to receive funds from the trust account only in the event of the redemption of our public shares if we do not complete our business combination within 24 months from the closing of this offering or if they redeem their respective shares for cash upon the completion of the initial business combination. In no other circumstances will a stockholder have any right or interest of any kind to or in the trust account. In the event we seek stockholder approval in connection with our initial business combination, a stockholder’s voting in connection with the business combination alone will not result in a stockholder’s redeeming its shares to us for an applicable pro rata share of the trust account. Such stockholder must have also exercised its redemption rights described above.

Comparison of Redemption or Purchase Prices in Connection with our Initial Business Combination and if We Fail to Complete our Business Combination

The following table compares the redemptions and other permitted purchases of public shares that may take place in connection with the completion of our initial business combination and if we are unable to complete our business combination within 24 months from the closing of this offering.

	<u>Redemptions in Connection with our Initial Business Combination</u>	<u>Other Permitted Purchases of Public Shares by us or our Affiliates</u>	<u>Redemptions if we fail to Complete an Initial Business Combination</u>
Calculation of redemption price	Redemptions at the time of our initial business combination may be made pursuant to a tender offer or in connection with a stockholder vote. The redemption price will be the same whether we conduct redemptions pursuant to a tender offer or in connection with a stockholder vote. In either case, our public stockholders may	If we seek stockholder approval of our initial business combination, our sponsor, directors, officers, advisors or their affiliates may purchase shares in privately negotiated transactions or in the open market prior to or following completion of our initial business combination. There is no limit to the prices that our sponsor,	If we are unable to complete our business combination within 24 months from the closing of this offering, we will redeem all public shares at a per-share price, payable in cash, equal to the aggregate amount, then on deposit in the trust account (which is initially anticipated to be \$10.00 per public

	<u>Redemptions in Connection with our Initial Business Combination</u>	<u>Other Permitted Purchases of Public Shares by us or our Affiliates</u>	<u>Redemptions if we fail to Complete an Initial Business Combination</u>
	redeem their public shares for cash equal to the aggregate amount then on deposit in the trust account as of two business days prior to the consummation of the initial business combination (which is initially anticipated to be \$10.00 per public share), including interest earned on the funds held in the trust account and not previously released to us to pay our franchise and income taxes divided by the number of then outstanding public shares, subject to the limitation that no redemptions will take place, if all of the redemptions would cause our net tangible assets to be less than \$5,000,001 upon consummation of our initial business combination and any limitations (including but not limited to cash requirements) agreed to in connection with the negotiation of terms of a proposed business combination.	directors, officers, advisors or their affiliates may pay in these transactions.	share including interest earned on the funds held in the trust account and not previously released to us to pay our franchise and income taxes (less up to \$100,000 of interest to pay dissolution expenses), divided by the number of then outstanding public shares.
Impact to remaining stockholders	The redemptions in connection with our initial business combination will reduce the book value per share for our remaining stockholders, who will bear the burden of the deferred underwriting commissions and franchise and income taxes payable.	If the permitted purchases described above are made there would be no impact to our remaining stockholders because the purchase price would not be paid by us.	The redemption of our public shares if we fail to complete our business combination will reduce the book value per share for the shares held by our initial stockholders, who will be our only remaining stockholders after such redemptions.

Comparison of This Offering to Those of Blank Check Companies Subject to Rule 419

The following table compares the terms of this offering to the terms of an offering by a blank check company subject to the provisions of Rule 419. This comparison assumes that the gross proceeds, underwriting commissions and underwriting expenses of our offering would be identical to those of an offering undertaken by a company subject to Rule 419, and that the underwriters will not exercise their over-allotment option. None of the provisions of Rule 419 apply to our offering.

	<u>Terms of Our Offering</u>	<u>Terms Under a Rule 419 Offering</u>
Escrow of offering proceeds	\$350,000,000 of the net proceeds of this offering and the sale of the private placement warrants will be deposited into a U.S.-based trust account at J.P. Morgan Chase Bank, N.A., with American Stock Transfer & Trust Company acting as trustee.	Approximately \$308,700,000 of the offering proceeds would be deposited into either an escrow account with an insured depository institution or in a separate bank account established by a broker-dealer in which the broker-dealer acts as trustee for persons having the beneficial interests in the account.
Investment of net proceeds	\$350,000,000 of the net offering proceeds and the sale of the private placement warrants held in trust will be invested only in U.S. government treasury bills with a maturity of 180 days or less or in money market funds meeting certain conditions under Rule 2a-7 under the Investment Company Act which invest only in direct U.S. government treasury obligations.	Proceeds could be invested only in specified securities such as a money market fund meeting conditions of the Investment Company Act or in securities that are direct obligations of, or obligations guaranteed as to principal or interest by, the United States.
Receipt of interest on escrowed funds	Interest on proceeds from the trust account to be paid to stockholders is reduced by (i) any income or franchise taxes paid or payable, and (ii) in the event of our liquidation for failure to complete our initial business combination within the allotted time, up to \$100,000 of net interest that may be released to us should we have no or insufficient working capital to fund the costs and expenses of our dissolution and liquidation.	Interest on funds in escrow account would be held for the sole benefit of investors, unless and only after the funds held in escrow were released to us in connection with our completion of a business combination.
Limitation on fair value or net assets of target business	NASDAQ rules require that we must complete one or more business combinations having an aggregate fair market value of at least 80% of the assets held in the trust account (excluding the	The fair value or net assets of a target business must represent at least 80% of the maximum offering proceeds.

deferred underwriting commissions and taxes payable on the income earned on the trust account) at the time of the agreement to enter into the initial business combination.

Trading of securities issued

The units will begin trading on or promptly after the date of this prospectus. The Class A common stock and warrants comprising the units will begin separate trading on the 52nd day following the date of this prospectus unless Citigroup Global Markets Inc., Deutsche Bank Securities Inc., and Credit Suisse inform us of their decision to allow earlier separate trading, subject to our having filed the Current Report on Form 8-K described below and having issued a press release announcing when such separate trading will begin. We will file the Current Report on Form 8-K promptly after the closing of this offering, which is anticipated to take place three business days from the date of this prospectus. If the over-allotment option is exercised following the initial filing of such Current Report on Form 8-K, an additional Current Report on Form 8-K will be filed to provide updated financial information to reflect the exercise of the over-allotment option.

No trading of the units or the underlying Class A common stock and warrants would be permitted until the completion of a business combination. During this period, the securities would be held in the escrow or trust account.

Exercise of the warrants

The warrants cannot be exercised until the later of 30 days after the completion of our initial business combination or 12 months from the closing of this offering.

The warrants could be exercised prior to the completion of a business combination, but securities received and cash paid in connection with the exercise would be deposited in the escrow or trust account.

Election to remain an investor

We will provide our public stockholders with the opportunity to redeem their public shares for cash equal to their pro rata share of the aggregate amount then on deposit in the trust account as of two business days prior to the

A prospectus containing information pertaining to the business combination required by the SEC would be sent to each investor. Each investor would be given the opportunity to notify the company in

consummation of our initial business combination, including interest earned on the funds held in the trust account and not previously released to us to pay our franchise and income taxes, upon the completion of our initial business combination, subject to the limitations described herein. We may not be required by law to hold a stockholder vote. We intend to give approximately 30 days (but not less than 10 days nor more than 60 days) prior written notice of any such meeting, if required, at which a vote shall be taken to approve our initial business combination. If we are not required by law and do not otherwise decide to hold a stockholder vote, we will, pursuant to our amended and restated certificate of incorporation, conduct the redemptions pursuant to the tender offer rules of the SEC and file tender offer documents with the SEC which will contain substantially the same financial and other information about the initial business combination and the redemption rights as is required under the SEC's proxy rules. In the event we conduct redemptions pursuant to the tender offer rules, our offer to redeem will remain open for at least 20 business days, in accordance with Rule 14e-1(a) under the Exchange Act, and we will not be permitted to complete our initial business combination until the expiration of the tender offer period. If, however, we hold a stockholder vote, we will, like many blank check companies, offer to redeem shares in conjunction with a proxy solicitation pursuant to the tender offer rules. If we seek stockholder approval, we will complete our initial business combination only if a majority of the outstanding shares of common stock voted are

voted in favor of the business combination. Additionally, each public stockholder may elect to redeem their public shares irrespective of whether they vote for or against the proposed transaction. A quorum for such meeting will consist of the holders present in person or by proxy of shares of outstanding capital stock of the company representing a majority of the voting power of all outstanding shares of capital stock of the company entitled to vote at such meeting.

Business combination deadline

If we are unable to complete an initial business combination within 24 months from the closing of this offering, we will (i) cease all operations except for the purpose of winding up, (ii) as promptly as reasonably possible but not more than ten business days thereafter, redeem 100% of the public shares, at a per-share price, payable in cash, equal to the aggregate amount then on deposit in the trust account including interest earned on the funds held in the trust account and not previously released to us to pay our franchise and income taxes (less up to \$100,000 of interest to pay dissolution expenses), divided by the number of then outstanding public shares, which redemption will completely extinguish public stockholders' rights as stockholders (including the right to receive further liquidating distributions, if any), subject to applicable law, and (iii) as promptly as reasonably possible following such redemption, subject to the approval of our remaining stockholders and our board of directors, dissolve and liquidate, subject in each case to our obligations under Delaware law to provide for claims of creditors and the requirements of other applicable law.

If a business combination has not been completed within 18 months after the effective date of the company's registration statement, funds held in the trust or escrow account are returned to investors.

Terms Under a Rule 419 Offering

Limitation on redemption rights of stockholders holding more than 15% of the shares sold in this offering if we hold a stockholder vote

If we seek stockholder approval of our initial business combination and we do not conduct redemptions in connection with our initial business combination pursuant to the tender offer rules, our amended and restated certificate of incorporation will provide that a public stockholder (including our affiliates), together with any affiliate of such stockholder or any other person with whom such stockholder is acting in concert or as a “group” (as defined under Section 13 of the Exchange Act), will be restricted from seeking redemption rights with respect to Excess Shares (more than an aggregate of 15% of the shares sold in this offering). Our public stockholders’ inability to redeem Excess Shares will reduce their influence over our ability to complete our initial business combination and they could suffer a material loss on their investment in us if they sell any Excess Shares in open market transactions.

Many blank check companies provide no restrictions on the ability of stockholders to redeem shares based on the number of shares held by such stockholders in connection with an initial business combination.

Tendering stock certificates in connection with a tender offer or redemption rights

We may require our public stockholders seeking to exercise their redemption rights, whether they are record holders or hold their shares in “street name,” to either tender their certificates to our transfer agent prior to the date set forth in the tender offer documents mailed to such holders or up to two business days prior to the vote on the proposal to approve the business combination in the event we distribute proxy materials, or to deliver their shares to the transfer agent electronically using The Depository Trust Company’s DWAC System, at the holder’s option. The tender offer or proxy materials, as applicable, that we will furnish to holders of

In order to perfect redemption rights in connection with their business combinations, holders could vote against a proposed business combination and check a box on the proxy card indicating such holders were seeking to exercise their redemption rights. After the business combination was approved, the company would contact such stockholders to arrange for them to deliver their certificate to verify ownership.

Terms of Our Offering

Terms Under a Rule 419 Offering

our public shares in connection with our initial business combination will indicate whether we are requiring public stockholders to satisfy such delivery requirements.

Accordingly, a public stockholder would have from the time we send out our tender offer materials until the close of the tender offer period, or up to two days prior to the vote on the business combination if we distribute proxy materials, as applicable, to tender its shares if it wishes to seek to exercise its redemption rights

Release of funds

Except with respect to interest earned on the funds held in the trust account that may be released to us to pay our franchise and income tax obligations, the proceeds from this offering held in the trust account will not be released from the trust account until the earliest to occur of: (i) the completion of our initial business combination, (ii) the redemption of any public shares properly tendered in connection with a stockholder vote to amend our amended and restated certificate of incorporation to modify the substance or timing of our obligation to redeem 100% of our public shares if we do not complete our initial business combination within 24 months from the closing of this offering and (iii) the redemption of 100% of our public shares if we are unable to complete a business combination within the required time frame (subject to the requirements of applicable law). On the completion of our initial business combination, all amounts held in the trust account will be released to us, less amounts released to a separate account controlled by the trustee for disbursement to redeeming

The proceeds held in the escrow account are not released until the earlier of the completion of a business combination or the failure to effect a business combination within the allotted time.

stockholders. We will use these funds to pay amounts due to any public stockholders who exercise their redemption rights as described above under “Redemption rights for public stockholders upon completion of our initial business combination,” to pay the underwriters their deferred underwriting commissions, to pay all or a portion of the consideration payable to the target or owners of the target of our initial business combination and to pay other expenses associated with our initial business combination.

Competition

In identifying, evaluating and selecting a target business for our business combination, we may encounter intense competition from other entities having a business objective similar to ours, including other blank check companies, private equity groups and leveraged buyout funds, and operating businesses seeking strategic business combinations. Many of these entities are well established and have extensive experience identifying and effecting business combinations directly or through affiliates. Moreover, many of these competitors possess greater financial, technical, human and other resources than we do. Our ability to acquire larger target businesses will be limited by our available financial resources. This inherent limitation gives others an advantage in pursuing the business combination of a target business. Furthermore, our obligation to pay cash in connection with our public stockholders who exercise their redemption rights may reduce the resources available to us for our initial business combination and our outstanding warrants, and the future dilution they potentially represent, may not be viewed favorably by certain target businesses. Either of these factors may place us at a competitive disadvantage in successfully negotiating an initial business combination.

Facilities

Our executive offices are located at 811 Main Street, 14th Floor, Houston, TX 77002, and our telephone number is (713) 493-2000. Our executive offices are provided to us by an affiliate of our sponsor. Commencing on the date of this prospectus, we have agreed to pay an affiliate of our sponsor a total of \$5,000 per month for office space, utilities and secretarial and administrative support. We consider our current office space adequate for our current operations.

Employees

We currently have two officers. Members of our management team are not obligated to devote any specific number of hours to our matters but they intend to devote as much of their time as they deem necessary to our affairs until we have completed our initial business combination. The amount of time that any such person will devote in any time period will vary based on whether a target business has been selected for our initial business combination and the current stage of the business combination process.

Periodic Reporting and Financial Information

We will register our units, Class A common stock and warrants under the Exchange Act and have reporting obligations, including the requirement that we file annual, quarterly and current reports with the SEC. In accordance with the requirements of the Exchange Act, our annual reports will contain financial statements audited by our independent registered public accountants.

We will provide stockholders with audited financial statements of the prospective target business as part of the tender offer materials or proxy solicitation materials sent to stockholders to assist them in assessing the target business. In all likelihood, these financial statements will need to be prepared in accordance with GAAP. We cannot assure you that any particular target business identified by us as a potential business combination candidate will have financial statements prepared in accordance with GAAP or that the potential target business will be able to prepare its financial statements in accordance with GAAP. To the extent that this requirement cannot be met, we may not be able to acquire the proposed target business. While this may limit the pool of potential business combination candidates, we do not believe that this limitation will be material.

We will be required to evaluate our internal control procedures for the fiscal year ending December 31, 2018 as required by the Sarbanes-Oxley Act. Only in the event we are deemed to be a large accelerated filer or an accelerated filer will we be required to have our internal control procedures audited. A target company may not be in compliance with the provisions of the Sarbanes-Oxley Act regarding adequacy of their internal controls. The development of the internal controls of any such entity to achieve compliance with the Sarbanes-Oxley Act may increase the time and costs necessary to complete any such business combination.

Legal Proceedings

There is no material litigation, arbitration or governmental proceeding currently pending against us or any members of our management team in their capacity as such.

MANAGEMENT

Officers, Directors and Director Nominees

Our officers, directors and director nominees are as follows:

<u>Name</u>	<u>Age</u>	<u>Position</u>
Kevin S. McCarthy	57	Chairman of the Board of Directors
Robert V. Sinnott	67	Vice-Chairman of the Board of Directors
Robert S. Purgason	60	Chief Executive Officer
Terry A. Hart	47	Chief Financial Officer
D. Mark Leland	55	Director Nominee
R. Rudolph Reinfrank	61	Director Nominee

Kevin S. McCarthy has been our Chairman since March 2017 and served as our Chief Executive Officer from inception until February 2017. Since joining Kayne Anderson in 2004, Mr. McCarthy has been a managing partner for the advisor to the firm’s publicly traded closed-end funds (NYSE: KYN, KYE, KMF and KED). He has been responsible for MLP private equity investments and has served as chairman and chief executive officer of KYN, KYE, KMF and KED. In addition to his directorships at Kayne Anderson funds, since 2005 he has served on the board of directors of Range Resources Corporation (NYSE: RRC), a domestic upstream company, and since 2015 has served on the board of directors of ONEOK, Inc. (NYSE: OKE), the general partner of a large publicly traded MLP. Prior to joining Kayne Anderson in 2004, Mr. McCarthy was most recently global head of energy at UBS Securities LLC, or UBS. In this role, he had senior responsibility for all of UBS’ energy investment banking activities, including direct responsibilities for securities underwriting and mergers and acquisitions in the MLP industry. From 1995 to 2000, Mr. McCarthy led the energy investment banking activities of Dean Witter Reynolds and then PaineWebber Incorporated. Mr. McCarthy earned a B.A. in Economics and Geology from Amherst College and an M.B.A. in Finance from the Wharton School at the University of Pennsylvania. He is well qualified to serve as one of our directors due to his energy finance and investment experience.

Robert V. Sinnott has been our Vice-Chairman since March 2017. He is also co-chairman of Kayne Anderson Capital Advisors, L.P., a position he has held since 2016. He has over 40 years of investment experience and oversees Kayne Anderson’s energy strategies. Since joining Kayne Anderson in 1992, Mr. Sinnott founded and built the firm’s energy platform into one of the largest energy investment firms in the country with over \$19 billion in energy investments. He maintains a direct management role in the firm’s energy private equity group and serves as the portfolio manager for two of Kayne Anderson’s hedge funds. In addition, since 1998, Mr. Sinnott has been a member of the board of directors that oversees Plains GP Holdings, L.P. (NYSE: PAGP) and Plains All American Pipeline, L.P. (NYSE: PAA), which is, a large publicly traded MLP, and since 2014 he has been a director of California Resources Corporation (NYSE: CRC), a domestic upstream company. From 1986 to 1992, Mr. Sinnott was a vice president and senior securities officer of the Investment Banking Division of Citibank. Prior to that, Mr. Sinnott led Citigroup’s midstream finance efforts in Houston, Texas. He has also worked for a large diversified pipeline company with subsidiaries in the oil and gas exploration and energy services industries. Mr. Sinnott and five others opened Bank of America’s energy lending activities in Houston in 1976 where they financed independent oil and gas companies as well as diversified pipeline companies. Mr. Sinnott received a B.A. from the University of Virginia and an M.B.A. from Harvard University. He is well qualified to serve as one of our directors due to his operations, finance and investment experience in the energy industry.

Robert S. Purgason has been our Chief Executive Officer since February 2017. Since that time he has also been Senior Managing Director of Kayne Anderson. Mr. Purgason has over 35 years of experience in the energy industry and most recently served as senior vice president, Access at Williams Companies, Inc. until January 2017, responsible for the Central Operation Area and Operational Excellence for the entire enterprise.

Mr. Purgason also held other roles at the Williams Companies, Inc. and its affiliates from 2015 to January 2017. He has operational and commercial knowledge of midstream companies and served as chief operating officer of Chesapeake Midstream Partners, L.L.C. (subsequently named Access Midstream Partners, LP) from 2009 to 2015, and also served as chief operating officer of Crosstex Energy, L.P. (subsequently named EnLink Midstream LLC) from 2006 to 2009. From 2004 to 2006, he served as senior vice president of the Treating Division at Crosstex Energy, L.P. Prior to joining Crosstex, he spent 18 years at Williams Companies, Inc. and its affiliates in various senior-level positions in natural gas liquids, gas marketing, mergers and acquisitions and major project development. He has served on the Board of Directors and is the past Chairman of the Texas Pipeline Association, the Board of Visitors Dean's Advisory Council for the College of Engineering at The University of Oklahoma, the Advisory Board for the Chemical, Biological & Materials Engineering School at The University of Oklahoma and past Program Chair and Director of GPA Midstream Association, where he authored numerous technical and marketing papers. He is currently a member of the Dallas Wildcat Committee and the National Association of Corporate Directors. Since 2014, Mr. Purgason has served on the board of L.B. Foster Company (NASDAQ: FSTR), a manufacturing company specializing in rail, construction and energy related products. He holds a B.S. degree in Chemical Engineering with honors from the University of Oklahoma.

Terry A. Hart has been our Chief Financial Officer since our inception. Mr. Hart is a managing director for Kayne Anderson Capital Advisors, L.P. and since 2005 has served as Chief Financial Officer of Kayne Anderson's publicly traded closed-end funds and since 2015 as a director of Kayne Anderson Energy Development Company. He is responsible for the oversight of finance, accounting and financial reporting. Prior to joining Kayne Anderson in 2005, Mr. Hart was most recently a senior vice president and controller at Dynegy Inc. (NYSE:DYN), an electricity provider. Prior to that, Mr. Hart served as assistant treasurer and director of structured finance at Dynegy, Inc. He began his finance and accounting career in 1992 with Illinova Corporation, which was acquired by Dynegy Inc. in 2000. Mr. Hart earned a B.S. in Accounting from Southern Illinois University and an M.B.A. from the University of Illinois.

D. Mark Leland will serve as one of our directors as of the effective date of the prospectus which is part of this registration statement. Mr. Leland has served on the board of directors of Deltic Timber Corporation since 2016 and served as its interim president and chief executive officer from October 2016 to March 2017. Mr. Leland has served on the board of directors for the general partner of Rice Midstream Partners LP since 2014 and currently serves as chairman of the audit committee and a member of the conflicts committee. Previously, Mr. Leland served as executive vice president and chief financial officer of El Paso Corporation, a natural gas-focused pipeline and production company, from 2005 to 2009 and president of El Paso's midstream business unit from 2009 to 2012, and as director of El Paso Pipeline Partners, L.P. from its formation in 2007 to 2012. He served as senior vice president and chief financial officer of El Paso Exploration & Production Company from 2004 to 2005. Mr. Leland served as vice president and chief operating officer of the general partner of GulfTerra Energy Partners, L.P. in 2003, and as vice president and controller from 1997 to 2003. Mr. Leland served on the board of directors of the general partner of Oiltanking Partners, L.P., a crude oil and petroleum products storage provider, from 2012 until 2015 and on the board of directors of KiOR, Inc., a renewable fuels company, from 2013 until 2015. Mr. Leland received a B.B.A. in finance with a minor in economics from the University of Puget Sound in Washington. He is well qualified to serve on our Board of Directors due to his extensive operational and financial experience in the midstream energy industry and his experience on the boards of directors of numerous publicly traded energy companies.

R. Rudolph Reinfrank will serve as one of our directors as of the effective date of the prospectus which is part of this registration statement. Mr. Reinfrank has served since 2009 as the managing general partner of Riverford Partners, LLC, a strategic advisory and investment firm which acts as an investor and strategic advisor to growth companies and companies in transition. In 2000, Mr. Reinfrank co-founded and served as a managing general partner of Clarity Management, LLC, the general partner and management company for Clarity Partners, L.P., an investment firm, until 2009. In 2005, he co-founded Clarity China, L.P., an investment firm focused on investments in China, and was affiliated with the firm until 2010. From 1997 to present, he co-founded and served as a managing general partner of Rader Reinfrank & Co., an investment firm. Since 1993, Mr. Reinfrank

has served on the board of directors of Parker Drilling Company, a contract driller and service provider. Since 2013, Mr. Reinfrank has served on the board of directors and as chairman of the audit committee of Apollo Investment Corporation, a closed-end investment management company. Mr. Reinfrank previously has served on the boards of directors for Weatherford International PLC (NYSE: WFT), an oil and gas services company, from 1995 to 1998, Enterra Corporation (NYSE: EN), a specialized services provider to the oil and gas industries, from 1986 to 1995 and CRC-Evans Pipeline International, Inc., a pipeline equipment and supply company, from 1986 to 1992. Since 2009, Mr. Reinfrank has also been a senior advisor to Pall Mall Capital, Limited (London), an independent corporate finance business, and Transnational Capital Corporation, a capital formation, financial structuring, and merger and acquisitions advisory services provider, since 2010. Mr. Reinfrank holds an M.B.A. from the Anderson Graduate School of Business at the University of California, Los Angeles and a B.A. in Economics from Stanford University. Mr. Reinfrank is well-qualified to serve on our Board of Directors due to his investment, strategic advice and counseling background and financing expertise.

Number and Terms of Office of Officers and Directors

We will have four directors upon completion of this offering. Our board of directors will be divided into three classes with only one class of directors being elected in each year and each class (except for those directors appointed prior to our first annual meeting of stockholders) serving a three-year term. The term of office of the first class of directors, consisting of Mr. Leland, will expire at our first annual meeting of stockholders. The term of office of the second class of directors, consisting of Mr. Reinfrank, will expire at the second annual meeting of stockholders. The term of office of the third class of directors, consisting of Messrs. Sinnott and McCarthy, will expire at the third annual meeting of stockholders. We expect to add two more independent directors after completion of our initial public offering, one to our first class of directors and one to our second class of directors. We may not hold an annual meeting of stockholders until after we consummate our initial business combination.

Our officers are appointed by the board of directors and serve at the discretion of the board of directors, rather than for specific terms of office. Our board of directors is authorized to appoint persons to the offices set forth in our bylaws as it deems appropriate. Our bylaws provide that our officers may consist of a Chairman of the Board, Chief Executive Officer, President, Chief Financial Officer, Vice Presidents, Secretary, Treasurer and such other offices as may be determined by the board of directors.

Director Independence

NASDAQ listing standards require that a majority of our board of directors be independent. In conformity with NASDAQ's "phase-in" rules, within one year of our initial public offering, a majority of our board of directors will be independent. An "independent director" is defined generally as a person other than an officer or employee of the company or its subsidiaries or any other individual having a relationship which in the opinion of the company's board of directors, would interfere with the director's exercise of independent judgment in carrying out the responsibilities of a director. Our board of directors has determined that Messrs. Leland and Reinfrank are "independent directors" as defined in the NASDAQ listing standards and applicable SEC rules. Our independent directors will have regularly scheduled meetings at which only independent directors are present.

Officer and Director Compensation

None of our officers or directors has received any cash compensation for services rendered to us. Commencing on the date of this prospectus, we have agreed to pay an affiliate of our sponsor a total of \$5,000 per month for office space, utilities and secretarial and administrative support. Upon completion of our initial business combination or our liquidation, we will cease paying these monthly fees. No compensation of any kind, including finder's and consulting fees, will be paid by us to our sponsor, officers and directors, or any of their respective affiliates, for services rendered prior to or in connection with the completion of our initial business combination. However, these individuals will be reimbursed for any out-of-pocket expenses incurred in

connection with activities on our behalf such as identifying potential target businesses and performing due diligence on suitable business combinations. Our audit committee will review on a quarterly basis all payments that were made to our sponsor, officers or directors, or our or their affiliates.

After the completion of our initial business combination, directors or members of our management team who remain with us may be paid consulting or management fees from the combined company. All of these fees will be fully disclosed to stockholders, to the extent then known, in the tender offer materials or proxy solicitation materials furnished to our stockholders in connection with a proposed business combination. We have not established any limit on the amount of such fees that may be paid by the combined company to our directors or members of management. It is unlikely the amount of such compensation will be known at the time of the proposed business combination, because the directors of the post-combination business will be responsible for determining officer and director compensation. Any compensation to be paid to our officers will be determined, or recommended to the board of directors for determination, either by a compensation committee constituted solely by independent directors or by a majority of the independent directors on our board of directors.

We do not intend to take any action to ensure that members of our management team maintain their positions with us after the consummation of our initial business combination, although it is possible that some or all of our officers and directors may negotiate employment or consulting arrangements to remain with us after our initial business combination. The existence or terms of any such employment or consulting arrangements to retain their positions with us may influence our management's motivation in identifying or selecting a target business but we do not believe that the ability of our management to remain with us after the consummation of our initial business combination will be a determining factor in our decision to proceed with any potential business combination. We are not party to any agreements with our officers and directors that provide for benefits upon termination of employment.

Committees of the Board of Directors

Our board of directors will have two standing committees: an audit committee and a compensation committee. Subject to phase-in rules and a limited exception, the rules of NASDAQ and Rule 10A-3 of the Exchange Act require that the audit committee of a listed company be comprised solely of independent directors, and the rules of NASDAQ require that the compensation committee of a listed company be comprised solely of independent directors.

Audit Committee

Prior to the consummation of this offering, we will establish an audit committee of the board of directors. Messrs. Leland, Reinfrank and McCarthy will serve as members of our audit committee, and Mr. Reinfrank will chair the audit committee. Under the NASDAQ listing standards and applicable SEC rules, we are required to have three members of the audit committee, all of whom must be independent, subject to the exception described below. Messrs. Leland and Reinfrank meet the independent director standard under NASDAQ listing standards and under Rule 10-A-3(b)(1) of the Exchange Act; Mr. McCarthy does not. Because we expect to list our securities on NASDAQ in connection with our initial public offering, we have one year from the date of this offering to have our audit committee be comprised of solely of independent members. We intend to identify one additional independent director to serve on our audit committee within one year of the closing of this offering, at which time Mr. McCarthy will resign from the audit committee.

Each member of the audit committee is financially literate and our board of directors has determined that Mr. Reinfrank qualifies as an "audit committee financial expert" as defined in applicable SEC rules.

We will adopt an audit committee charter, which will detail the principal functions of the audit committee, including:

- the appointment, compensation, retention, replacement, and oversight of the work of the independent registered public accounting firm engaged by us;
- pre-approving all audit and permitted non-audit services to be provided by the independent registered public accounting firm engaged by us, and establishing pre-approval policies and procedures;
- setting clear hiring policies for employees or former employees of the independent registered public accounting firm, including but not limited to, as required by applicable laws and regulations;
- setting clear policies for audit partner rotation in compliance with applicable laws and regulations;
- obtaining and reviewing a report, at least annually, from the independent registered public accounting firm describing (i) the independent registered public accounting firm's internal quality-control procedures, (ii) any material issues raised by the most recent internal quality-control review, or peer review, of the audit firm, or by any inquiry or investigation by governmental or professional authorities within the preceding five years respecting one or more independent audits carried out by the firm and any steps taken to deal with such issues and (iii) all relationships between the independent registered public accounting firm and us to assess the independent registered public accounting firm's independence;
- reviewing and approving any related party transaction required to be disclosed pursuant to Item 404 of Regulation S-K promulgated by the SEC prior to us entering into such transaction; and
- reviewing with management, the independent registered public accounting firm, and our legal advisors, as appropriate, any legal, regulatory or compliance matters, including any correspondence with regulators or government agencies and any employee complaints or published reports that raise material issues regarding our financial statements or accounting policies and any significant changes in accounting standards or rules promulgated by the Financial Accounting Standards Board, the SEC or other regulatory authorities.

Compensation Committee

Prior to the consummation of this offering, we will establish a compensation committee of the board of directors. Messrs. Leland and Reinfrank will serve as members of our compensation committee. Under the NASDAQ listing standards and applicable SEC rules, we are required to have at least two members of the compensation committee, all of whom must be independent. Messrs. Leland and Reinfrank are independent and Mr. Leland will chair the compensation committee.

We will adopt a compensation committee charter, which will detail the principal functions of the compensation committee, including:

- reviewing and approving on an annual basis the corporate goals and objectives relevant to our Chief Executive Officer's compensation, if any is paid by us, evaluating our Chief Executive Officer's performance in light of such goals and objectives and determining and approving the remuneration (if any) of our Chief Executive Officer based on such evaluation;
- reviewing and approving on an annual basis the compensation, if any is paid by us, of all of our other officers;
- reviewing on an annual basis our executive compensation policies and plans;
- implementing and administering our incentive compensation equity-based remuneration plans;
- assisting management in complying with our proxy statement and annual report disclosure requirements;
- approving all special perquisites, special cash payments and other special compensation and benefit arrangements for our officers and employees;

- if required, producing a report on executive compensation to be included in our annual proxy statement; and
- reviewing, evaluating and recommending changes, if appropriate, to the remuneration for directors.

Notwithstanding the foregoing, as indicated above, other than the \$5,000 per month administrative fee payable to an affiliate of our sponsor and reimbursement of expenses, no compensation of any kind, including finders, consulting or other similar fees, will be paid to any of our existing stockholders, officers, directors or any of their respective affiliates, prior to, or for any services they render in order to effectuate the consummation of a business combination. Accordingly, it is likely that prior to the consummation of an initial business combination, the compensation committee will only be responsible for the review and recommendation of any compensation arrangements to be entered into in connection with such initial business combination.

The charter will also provide that the compensation committee may, in its sole discretion, retain or obtain the advice of a compensation consultant, legal counsel or other adviser and will be directly responsible for the appointment, compensation and oversight of the work of any such adviser. However, before engaging or receiving advice from a compensation consultant, external legal counsel or any other adviser, the compensation committee will consider the independence of each such adviser, including the factors required by NASDAQ and the SEC.

Director Nominations

We do not have a standing nominating committee. In accordance with Rule 5605(e)(1)(A) of the NASDAQ Rules, a majority of the independent directors may recommend a director nominee for selection by the board of directors. The board of directors believes that the independent directors can satisfactorily carry out the responsibility of properly selecting or approving director nominees without the formation of a standing nominating committee. As there is no standing nominating committee, we do not have a nominating committee charter in place.

The board of directors will also consider director candidates recommended for nomination by our stockholders during such times as they are seeking proposed nominees to stand for election at the next annual meeting of stockholders (or, if applicable, a special meeting of stockholders). Our stockholders that wish to nominate a director for election to the Board should follow the procedures set forth in our bylaws.

We have not formally established any specific, minimum qualifications that must be met or skills that are necessary for directors to possess. In general, in identifying and evaluating nominees for director, the board of directors considers educational background, diversity of professional experience, knowledge of our business, integrity, professional reputation, independence, wisdom, and the ability to represent the best interests of our stockholders.

Compensation Committee Interlocks and Insider Participation

None of our officers currently serves, or in the past year has served, as a member of the compensation committee of any entity that has one or more officers serving on our board of directors. Mr. McCarthy, our Chief Executive Officer and a director, serves as Chief Executive Officer of Kayne Anderson Energy Development Company. Mr. Hart, our Chief Financial Officer, serves as a director of Kayne Anderson Energy Development Company.

Code of Ethics

Prior to the consummation of this offering, we will have adopted a Code of Ethics applicable to our directors, officers and employees. We will file a copy of our Code of Ethics and our audit committee charter as exhibits to the registration statement of which this prospectus is a part. You will be able to review these documents by accessing our public filings at the SEC's web site at www.sec.gov. In addition, a copy of the Code

of Ethics will be provided without charge upon request from us. We intend to disclose any amendments to or waivers of certain provisions of our Code of Ethics in a Current Report on Form 8-K. See the section of this prospectus entitled “Where You Can Find Additional Information.”

Conflicts of Interest

Kayne Anderson manages several investment vehicles. Funds managed by Kayne Anderson or its affiliates may compete with us for business combination opportunities. If these funds decide to pursue any such opportunity, we may be precluded from procuring such opportunities. In addition, investment ideas generated within Kayne Anderson may be suitable for both us and for a current or future Kayne Anderson fund and may be directed to such investment vehicle rather than to us. Neither Kayne Anderson nor members of our management team who are also employed by Kayne Anderson have any obligation to present us with any opportunity for a potential business combination of which they become aware, unless presented to such member solely in his or her capacity as an officer of the company. Kayne Anderson and/or our management, in their capacities as employees of Kayne Anderson or in their other endeavors, currently are required to present certain investment opportunities and potential business combinations to the various related entities described above, current Kayne Anderson investment vehicles, or third parties, before they present such opportunities to us. Kayne Anderson and our management may have similar obligations to future investment vehicles or third parties.

Notwithstanding the foregoing, we may, at our option, pursue an Affiliated Joint Acquisition opportunity with any such fund or other investment vehicle, but such parties would co-invest only if permitted by applicable regulatory and other legal limitations and to the extent considered appropriate. Such entity may co-invest with us in the target business at the time of our initial business combination, or we could raise additional proceeds to complete the business combination by making a specified future issuance to any such fund or vehicle.

Kayne Anderson and each of our officers and directors presently has, and any of them in the future may have additional, fiduciary or contractual obligations to other entities pursuant to which such officer or director is or will be required to present a business combination opportunity. For example, Kayne Anderson and certain of its officers currently are obligated by contract to offer or allocate certain investment opportunities first to specific private funds managed by them. Accordingly, if any of our officers or directors becomes aware of a business combination opportunity which is suitable for an entity to which he or she has then-current fiduciary or contractual obligations, he or she will honor his or her fiduciary or contractual obligations to present such opportunity to such entity. We believe, however, that the fiduciary duties or contractual obligations of Kayne Anderson and our officers or directors will not materially affect our ability to complete our initial business combination. In addition, we may, at our option, pursue an Affiliated Joint Acquisition opportunity with an entity to which Kayne Anderson or an officer or director has a fiduciary or contractual obligation. Any such entity may co-invest with us in the target business at the time of our initial business combination, or we could raise additional proceeds to complete the business combination by making a specified future issuance to any such entity. Our amended and restated certificate of incorporation will provide that we renounce our interest in any corporate opportunity offered to any director or officer unless such opportunity is expressly offered to such person solely in his or her capacity as a director or officer of our company and such opportunity is one we are legally and contractually permitted to undertake and would otherwise be reasonable for us to pursue, and to the extent the director or officer is permitted to refer that opportunity to us without violating another legal obligation.

Our officers and directors have agreed not to become an officer or director of any other special purpose acquisition company with a class of securities registered under the Exchange Act, until we have entered into a definitive agreement regarding our initial business combination or we have failed to complete our initial business combination within 24 months after the closing of this offering. Potential investors should also be aware of the following other potential conflicts of interest:

- None of our officers or directors is required to commit his or her full time to our affairs and, accordingly, may have conflicts of interest in allocating his or her time among various business activities.

- In the course of their other business activities, our officers and directors may become aware of investment and business opportunities which may be appropriate for presentation to us as well as the other entities with which they are affiliated. Our management may have conflicts of interest in determining to which entity a particular business opportunity should be presented.
- Our initial stockholders have agreed to waive their redemption rights with respect to any founder shares and any public shares held by them in connection with the consummation of our initial business combination. Additionally, our initial stockholders have agreed to waive their redemption rights with respect to any founder shares held by them if we fail to consummate our initial business combination within 24 months after the closing of this offering. If we do not complete our initial business combination within such applicable time period, the proceeds of the sale of the private placement warrants held in the trust account will be used to fund the redemption of our public shares, and the private placement warrants will expire worthless. With certain limited exceptions, the founder shares will not be transferable, assignable by our sponsor until the earlier of: (A) one year after the completion of our initial business combination or (B) subsequent to our initial business combination, (x) if the last sale price of our Class A common stock equals or exceeds \$12.00 per share (as adjusted for stock splits, stock dividends, reorganizations, recapitalizations and the like) for any 20 trading days within any 30-trading day period commencing at least 150 days after our initial business combination, or (y) the date on which we complete a liquidation, merger, capital stock exchange, reorganization or other similar transaction that results in all of our stockholders having the right to exchange their shares of common stock for cash, securities or other property. With certain limited exceptions, the private placement warrants and the Class A common stock underlying such warrants, will not be transferable, assignable or saleable by our sponsor or its permitted transferees until 30 days after the completion of our initial business combination. Since our sponsor and officers and directors may directly or indirectly own common stock and warrants following this offering, our officers and directors may have a conflict of interest in determining whether a particular target business is an appropriate business with which to effectuate our initial business combination.
- Our officers and directors may have a conflict of interest with respect to evaluating a particular business combination if the retention or resignation of any such officers and directors was included by a target business as a condition to any agreement with respect to our initial business combination.
- Our sponsor, officers or directors may have a conflict of interest with respect to evaluating a business combination and financing arrangements as we may obtain loans from our sponsor or an affiliate of our sponsor or any of our officers or directors to finance transaction costs in connection with an intended initial business combination. Up to \$1,500,000 of such loans may be convertible into warrants at a price of \$1.50 per warrant at the option of the lender. Such warrants would be identical to the private placement warrants, including as to exercise price, exercisability and exercise period.

The conflicts described above may not be resolved in our favor.

In general, officers and directors of a corporation incorporated under the laws of the State of Delaware are required to present business opportunities to a corporation if:

- the corporation could financially undertake the opportunity;
- the opportunity is within the corporation's line of business; and
- it would not be fair to our company and its stockholders for the opportunity not to be brought to the attention of the corporation.

Accordingly, as a result of multiple business affiliations, our officers and directors may have similar legal obligations relating to presenting business opportunities meeting the above-listed criteria to multiple entities. Furthermore, our amended and restated certificate of incorporation will provide that we renounce our interest in any corporate opportunity offered to any director or officer unless such opportunity is expressly offered to such person solely in his or her capacity as a director or officer of our company and such opportunity is one we are

legally and contractually permitted to undertake and would otherwise be reasonable for us to pursue, and to the extent the director or officer is permitted to refer that opportunity to us without violating another legal obligation.

Below is a table summarizing the entities to which our executive officers, directors and director nominees currently have fiduciary duties or contractual obligations:

<u>Individual</u>	<u>Entity</u>	<u>Entity's Business</u>	<u>Affiliation</u>
Kevin S. McCarthy ⁽¹⁾⁽²⁾	Kayne Anderson Capital Advisors, L.P.	Institutional Investor	Managing Partner
	KA Fund Advisors, LLC	Institutional Investor	Co-Managing Partner
	Four closed-end funds managed by KA Fund Advisors, LLC ⁽³⁾	Investment Funds	Chairman of the Board and Chief Executive Officer
	Range Resources Corporation	Upstream Energy	Director
Robert V. Sinnott ⁽¹⁾⁽⁴⁾	ONEOK, Inc.	Midstream Energy	Director
	Kayne Anderson Capital Advisors, L.P.	Institutional Investor	Co-Chairman
	Plains GP Holdings, L.P.	Midstream Energy	Director
	Plains All American Pipeline, L.P.	Midstream Energy	Director
Robert S. Purgason ⁽¹⁾⁽⁵⁾	California Resources Corporation	Upstream Energy	Director
	KA Fund Advisors, LLC	Institutional Investor	Senior Managing Director
	L.B. Foster Company	Manufacturing	Director
Terry A. Hart ⁽¹⁾⁽⁶⁾	Kayne Anderson Capital Advisors, L.P.	Institutional Investor	Managing Director

	Parker Drilling Company	Contract Drilling and Services	Director
	Apollo Investment Corporation	Closed End Investment Management Company	Director
	Pall Mall Capital	Corporate Finance	Senior Advisor
	Transnational Capital Corporation	Advisory Services	Senior Advisor

- (1) Each of the entities listed in this table has priority and preference relative to our company with respect to the performance by each individual listed in this table of his obligations and the presentation by each such individual of business opportunities.
- (2) Mr. McCarthy has a fiduciary duty with respect to each of the listed entities.
- (3) Kayne Anderson MLP Investment Company (NYSE: KYN), Kayne Anderson Energy Total Return Fund, Inc. (NYSE: KYE), Kayne Anderson Midstream/Energy Fund, Inc. (NYSE: KMF) and Kayne Anderson Energy Development Company (NYSE: KED).
- (4) Mr. Sinnott has a fiduciary duty with respect to each of the listed entities.
- (5) Mr. Purgason has a fiduciary duty with respect to each of the listed entities.
- (6) Mr. Hart has a fiduciary duty with respect to each of the listed entities.
- (7) Mr. Leland has a fiduciary duty with respect to each of the listed entities.
- (8) Mr. Reinfrank has a fiduciary duty with respect to each of the listed entities.

Accordingly, if any of the above executive officers, directors or director nominees becomes aware of a business combination opportunity which is suitable for any of the above entities to which he or she has current fiduciary or contractual obligations, he or she will honor his or her fiduciary or contractual obligations to present such business combination opportunity to such entity, and only present it to us if such entity rejects the opportunity.

We are not prohibited from pursuing an initial business combination with a company that is affiliated with our sponsor, officers or directors. In the event we seek to complete our initial business combination with such a company, we, or a committee of independent directors, would obtain an opinion from an independent investment banking firm which is a member of FINRA, or from an independent accounting firm, that such an initial business combination is fair to our company from a financial point of view.

In the event that we submit our initial business combination to our public stockholders for a vote, pursuant to the letter agreement, our sponsor, officers and directors have agreed to vote any founder shares held by them and any public shares purchased during or after the offering (including in open market and privately negotiated transactions) in favor of our initial business combination.

Limitation on Liability and Indemnification of Officers and Directors

Our amended and restated certificate of incorporation will provide that our officers and directors will be indemnified by us to the fullest extent authorized by Delaware law, as it now exists or may in the future be amended. In addition, our amended and restated certificate of incorporation will provide that our directors will not be personally liable for monetary damages to us or our stockholders for breaches of their fiduciary duty as directors, unless they violated their duty of loyalty to us or our stockholders, acted in bad faith, knowingly or intentionally violated the law, authorized unlawful payments of dividends, unlawful stock purchases or unlawful redemptions, or derived an improper personal benefit from their actions as directors.

We will enter into agreements with our officers and directors to provide contractual indemnification in addition to the indemnification provided for in our amended and restated certificate of incorporation. Our bylaws also will permit us to secure insurance on behalf of any officer, director or employee for any liability arising out of his or her actions, regardless of whether Delaware law would permit such indemnification. We will purchase a policy of directors' and officers' liability insurance that insures our officers and directors against the cost of defense, settlement or payment of a judgment in some circumstances and insures us against our obligations to indemnify our officers and directors.

These provisions may discourage stockholders from bringing a lawsuit against our directors for breach of their fiduciary duty. These provisions also may have the effect of reducing the likelihood of derivative litigation against officers and directors, even though such an action, if successful, might otherwise benefit us and our stockholders. Furthermore, a stockholder's investment may be adversely affected to the extent we pay the costs of settlement and damage awards against officers and directors pursuant to these indemnification provisions.

We believe that these provisions, the insurance and the indemnity agreements are necessary to attract and retain talented and experienced officers and directors.

PRINCIPAL STOCKHOLDERS

The following table sets forth information regarding the beneficial ownership of our common stock as of the date of this prospectus, and as adjusted to reflect the sale of our common stock included in the units offered by this prospectus, and assuming no purchase of units in this offering, by:

- each person known by us to be the beneficial owner of more than 5% of our outstanding shares of common stock;
- each of our executive officers, directors and director nominees that beneficially owns shares of our common stock; and
- all our executive officers, directors and director nominees as a group.

Unless otherwise indicated, we believe that all persons named in the table have sole voting and investment power with respect to all shares of common stock beneficially owned by them. The following table does not reflect record or beneficial ownership of the private placement warrants as these warrants are not exercisable within 60 days of the date of this prospectus.

On December 23, 2016, our sponsor purchased 10,062,500 founder shares for an aggregate purchase price of \$25,000, or approximately \$0.002 per share. In March 2017, our sponsor transferred 40,000 founder shares to each of our independent director nominees at a price of \$0.002 per share. The 80,000 founder shares held by our nominees will not be subject to forfeiture in the event the underwriters' over-allotment option is not exercised. The following table presents the number of shares and percentage of our common stock owned by our initial stockholders before and after this offering. The post-offering numbers and percentages presented assume that the underwriters do not exercise their over-allotment option, that our sponsor forfeits 1,312,500 founder shares on a pro rata basis, and that there are 43,750,000 shares of our common stock issued and outstanding after this offering.

<u>Name and Address of Beneficial Owner(1)</u>	<u>Before Offering</u>		<u>After Offering</u>	
	<u>Number of Shares Beneficially Owned(2)</u>	<u>Approximate Percentage of Outstanding Common Stock</u>	<u>Number of Shares Beneficially Owned(2)</u>	<u>Approximate Percentage of Outstanding Common Stock</u>
Kayne Anderson Sponsor, LLC(3)	9,982,500	99.2%	8,670,000	19.8%
Robert V. Sinnott	—	—	—	—

D. Mark Leland	40,000	*	40,000	*
R. Rudolph Reinfrank	40,000	*	40,000	*
All executive officers, directors and director nominees as a group (6 individuals)	80,000	*	80,000	*

* less than 1%

- (1) Unless otherwise noted, the business address of each of the following entities or individuals is c/o Kayne Anderson Acquisition Corp., 811 Main, 14th Floor, Houston, TX 77002.
- (2) Interests shown consist solely of founder shares, classified as shares of Class B common stock. Such shares are convertible into shares of Class A common stock on a one-for-one basis, subject to adjustment, as described in the section of this prospectus entitled "Description of Securities."
- (3) Kayne Anderson Sponsor, LLC is the record holder of the shares reported herein. Kayne Anderson Capital Advisors, L.P. is the managing member of Kayne Anderson Sponsor, LLC and has voting and investment discretion with respect to the common stock held of record by Kayne Anderson Sponsor, LLC. Ric Kayne is the controlling shareholder of the owner of Kayne Anderson Investment Management, Inc., the general partner of Kayne Anderson Capital Advisors, L.P. As such, Kayne Anderson Capital Advisors, L.P. and Ric

Kayne may be deemed to have shared beneficial ownership of the common stock held directly by Kayne Anderson Sponsor, LLC. Additionally, certain of our officers and directors and employees of Kayne Anderson hold an interest in Kayne Anderson Sponsor, LLC. Each such entity or person disclaims any beneficial ownership of the reported shares other than to the extent of any pecuniary interest they may have therein, directly or indirectly. The business address of each of these entities and individuals is 811 Main Street, 14th Floor, Houston, TX 77002.

Immediately after this offering, our initial stockholders will beneficially own 20% of the then-issued and outstanding shares of our common stock (assuming they do not purchase any units in this offering). If we increase or decrease the size of the offering, we will effect a stock dividend or a share contribution back to capital, or other appropriate mechanism, as applicable, with respect to our Class B common stock immediately prior to the consummation of the offering in such amount as to maintain the ownership of our initial stockholders at 20% of our issued and outstanding shares of common stock upon the consummation of this offering. Because of this ownership block, our initial stockholders may be able to effectively influence the outcome of all matters requiring approval by our stockholders, including the election of directors, amendments to our amended and restated certificate of incorporation and approval of significant corporate transactions, including approval of our initial business combination.

The holders of the founder shares have agreed (A) to vote any shares owned by them in favor of any proposed business combination and (B) not to redeem any shares in connection with a stockholder vote to approve a proposed initial business combination.

Our sponsor and our executive officers and directors are deemed to be our “promoters” as such term is defined under the federal securities laws.

Restrictions on Transfers of Founder Shares and Private Placement Warrants

The founder shares and private placement warrants and any shares of Class A common stock issued upon conversion or exercise thereof are subject to transfer restrictions pursuant to lock-up provisions in a letter agreement with us to be entered into by our sponsor, officers and directors. Those lock-up provisions provide that such securities are not transferable or saleable (i) in the case of the founder shares, until the earlier of (A) one year after the completion of our initial business combination or (B) subsequent to our initial business combination, (x) if the last sale price of our Class A common stock equals or exceeds \$12.00 per share (as adjusted for stock splits, stock dividends, reorganizations, recapitalizations and the like) for any 20 trading days within any 30-trading day period commencing at least 150 days after our initial business combination, or (y) the date on which we complete a liquidation, merger, capital stock exchange, reorganization or other similar transaction that results in all of our stockholders having the right to exchange their shares of common stock for cash, securities or other property, and (ii) in the case of the private placement warrants and the Class A common stock underlying such warrants, until 30 days after the completion of our initial business combination, except in each case (a) to our officers or directors, any affiliates or family members of any of our officers or directors, any members of our sponsor, or any affiliates of our sponsor, (b) in the case of an individual, by gift to a member of one of the members of the individual’s immediate family or to a trust, the beneficiary of which is a member of one of the individual’s immediate family, an affiliate of such person or to a charitable organization; (c) in the case of an individual, by virtue of laws of descent and distribution upon death of the individual; (d) in the case of an individual, pursuant to a qualified domestic relations order; (e) by private sales or transfers made in connection with the consummation of a business combination at prices no greater than the price at which the shares were originally purchased; (f) in the event of our liquidation prior to the completion of our initial business combination; (g) by virtue of the laws of Delaware or our sponsor’s limited liability company agreement upon dissolution of our sponsor; or (h) in the event of our liquidation, merger, capital stock exchange, reorganization or other similar transaction which results in all of our stockholders having the right to exchange their shares of common stock for cash, securities or other property subsequent to our completion of our initial business combination; provided, however, that in the case of clauses (a) through (e) these permitted transferees must enter into a written agreement agreeing to be bound by these transfer restrictions.

CERTAIN RELATIONSHIPS AND RELATED PARTY TRANSACTIONS

On December 23, 2016, we issued an aggregate of 10,062,500 founder shares to our sponsor for an aggregate purchase price of \$25,000 in cash, or approximately \$0.002 per share. In March 2017, our sponsor transferred 40,000 founder shares to each of our independent director nominees at a price of \$0.002 per share. The 80,000 founder shares held by our nominees will not be subject to forfeiture in the event the underwriters' over-allotment option is not exercised. The number of founder shares issued was determined based on the expectation that such founder shares would represent 20% of the outstanding shares upon completion of this offering. If we increase or decrease the size of the offering, we will effect a stock dividend or a share contribution back to capital or other appropriate mechanism, as applicable, with respect to our Class B common stock immediately prior to the consummation of the offering in such amount as to maintain the ownership of our initial stockholders at 20.0% of the issued and outstanding shares of our common stock upon the consummation of this offering. Up to 1,312,500 founder shares are subject to forfeiture by our sponsor depending on the extent to which the underwriters' over-allotment option is exercised. The founder shares (including the Class A common stock issuable upon exercise thereof) may not, subject to certain limited exceptions, be transferred, assigned or sold by the holder.

Our sponsor has committed, pursuant to a written agreement, to purchase an aggregate of 6,000,000 (or 6,700,000 if the over-allotment option is exercised in full) private placement warrants for a purchase price of \$1.50 per warrant in a private placement that will occur simultaneously with the closing of this offering. As such, our sponsor's interest in this transaction is valued at between \$9,000,000 and \$10,050,000, depending on the number of private placement warrants purchased. Each private placement warrant entitles the holder thereof to purchase one share of our Class A common stock at a price of \$11.50 per share. The private placement warrants (including the Class A common stock issuable upon exercise thereof) may not, subject to certain limited exceptions, be transferred, assigned or sold by the holder.

As more fully discussed in the section of this prospectus entitled "Management—Conflicts of Interest," if any of our officers or directors becomes aware of a business combination opportunity that falls within the line of business of any entity to which he or she has then-current fiduciary or contractual obligations, he or she will honor his or her fiduciary or contractual obligations to present such opportunity to such entity. Our officers and directors currently have certain relevant fiduciary duties or contractual obligations that may take priority over their duties to us. We may, at our option, pursue an Affiliated Joint Acquisition opportunity with an entity to which an officer or director has a fiduciary or contractual obligation. Any such entity may co-invest with us in the target business at the time of our initial business combination, or we could raise additional proceeds to complete the business combination by making a specified future issuance to any such entity.

Commencing on the date of this prospectus, we have agreed to pay Kayne Anderson, an affiliate of our sponsor, a total of \$5,000 per month for office space, utilities and secretarial and administrative support. Upon completion of our initial business combination or our liquidation, we will cease paying these monthly fees.

No compensation of any kind, including finder's and consulting fees, will be paid by us to our sponsor, officers and directors, or any of their respective affiliates, for services rendered prior to or in connection with the completion of an initial business combination. However, these individuals will be reimbursed for any out-of-pocket expenses incurred in connection with activities on our behalf such as identifying potential target businesses and performing due diligence on suitable business combinations. Our audit committee will review on a quarterly basis all payments that were made to our sponsor, officers, directors or our or their affiliates and will determine which expenses and the amount of expenses that will be reimbursed. There is no cap or ceiling on the reimbursement of out-of-pocket expenses incurred by such persons in connection with activities on our behalf.

Prior to the closing of this offering, our sponsor has agreed to loan us up to \$300,000 to be used for a portion of the expenses of this offering. These loans are non-interest bearing, unsecured and are due at the earlier of June 30, 2017 or the closing of this offering. The loan will be repaid upon the closing of this offering out of

the estimated \$2,000,000 of offering proceeds not held in the trust account. The value of our sponsor's interest in this transaction corresponds to the principal amount outstanding under any such loan.

In addition, in order to finance transaction costs in connection with an intended initial business combination, our sponsor or an affiliate of our sponsor or certain of our officers and directors may, but are not obligated to, loan us funds as may be required. If we complete an initial business combination, we would repay such loaned amounts. In the event that the initial business combination does not close, we may use a portion of the working capital held outside the trust account to repay such loaned amounts but no proceeds from our trust account would be used for such repayment. Up to \$1,500,000 of such loans may be convertible into warrants at a price of \$1.50 per warrant at the option of the lender. The warrants would be identical to the private placement warrants, including as to exercise price, exercisability and exercise period. The terms of such loans by our officers and directors, if any, have not been determined and no written agreements exist with respect to such loans. We do not expect to seek loans from parties other than our sponsor or an affiliate of our sponsor as we do not believe third parties will be willing to loan such funds and provide a waiver against any and all rights to seek access to funds in our trust account.

After our initial business combination, members of our management team who remain with us may be paid consulting, management or other fees from the combined company with any and all amounts being fully disclosed to our stockholders, to the extent then known, in the tender offer or proxy solicitation materials, as applicable, furnished to our stockholders. It is unlikely the amount of such compensation will be known at the time of distribution of such tender offer materials or at the time of a stockholder meeting held to consider our initial business combination, as applicable, as it will be up to the directors of the post-combination business to determine executive and director compensation.

We will enter into a registration rights agreement with respect to the private placement warrants, the warrants issuable upon conversion of working capital loans (if any) and the shares of Class A common stock issuable upon exercise of the foregoing and upon conversion of the founder shares, which is described under the section of this prospectus entitled "Description of Securities—Registration Rights."

Related Party Policy

We have not yet adopted a formal policy for the review, approval or ratification of related party transactions. Accordingly, the transactions discussed above were not reviewed, approved or ratified in accordance with any such policy.

Prior to the consummation of this offering, we will adopt a code of ethics requiring us to avoid, wherever possible, all conflicts of interests, except under guidelines or resolutions approved by our board of directors (or the appropriate committee of our board) or as disclosed in our public filings with the SEC. Under our code of ethics, conflict of interest situations will include any financial transaction, arrangement or relationship (including any indebtedness or guarantee of indebtedness) involving the company. A form of the code of ethics that we plan to adopt prior to the consummation of this offering is filed as an exhibit to the registration statement of which this prospectus is a part.

In addition, our audit committee, pursuant to a written charter that we will adopt prior to the consummation of this offering, will be responsible for reviewing and approving related party transactions to the extent that we enter into such transactions. An affirmative vote of a majority of the members of the audit committee present at a meeting at which a quorum is present will be required in order to approve a related party transaction. A majority of the members of the entire audit committee will constitute a quorum. Without a meeting, the unanimous written consent of all of the members of the audit committee will be required to approve a related party transaction. A form of the audit committee charter that we plan to adopt prior to the consummation of this offering is filed as an exhibit to the registration statement of which this prospectus is a part. We also require each of our directors and executive officers to complete a directors' and officers' questionnaire that elicits information about related party transactions.

These procedures are intended to determine whether any such related party transaction impairs the independence of a director or presents a conflict of interest on the part of a director, employee or officer.

To further minimize conflicts of interest, we have agreed not to consummate an initial business combination with an entity that is affiliated with any of our sponsor, officers or directors unless we, or a committee of independent directors, have obtained an opinion from an independent investment banking firm which is a member of FINRA or an independent accounting firm that our initial business combination is fair to our company from a financial point of view. Furthermore, no finder's fees, reimbursements or cash payments will be paid by us to our sponsor, officers or directors, or our or their affiliates, for services rendered to us prior to or in connection with the completion of our initial business combination. However, the following payments will be made to our sponsor, officers or directors, or our or their affiliates, none of which will be made from the proceeds of this offering held in the trust account prior to the completion of our initial business combination:

- Repayment of up to an aggregate of \$300,000 in loans made to us by our sponsor to cover offering-related and organizational expenses;
- Payment to an affiliate of our sponsor of \$5,000 per month, for up to 24 months, for office space, utilities and secretarial and administrative support;
- Reimbursement for any out-of-pocket expenses related to identifying, investigating and completing an initial business combination; and
- Repayment of loans which may be made by our sponsor or an affiliate of our sponsor or certain of our officers and directors to finance transaction costs in connection with an intended initial business combination, the terms of which have not been determined nor have any written agreements been executed with respect thereto. Up to \$1,500,000 of such loans may be convertible into warrants, at a price of \$1.50 per warrant at the option of the lender.

Our audit committee will review on a quarterly basis all payments that were made to our sponsor, officers or directors, or our or their affiliates.

DESCRIPTION OF SECURITIES

Pursuant to our amended and restated certificate of incorporation, our authorized capital stock consists of 200,000,000 shares of Class A common stock, \$0.0001 par value, 20,000,000 shares of Class B common stock, \$0.0001 par value, and 1,000,000 shares of undesignated preferred stock, \$0.0001 par value. The following description summarizes the material terms of our capital stock. Because it is only a summary, it may not contain all the information that is important to you.

Units

Each unit has an offering price of \$10.00 and consists of one whole share of Class A common stock and one-third of one warrant. Each whole warrant entitles the holder thereof to purchase one share of our Class A common stock at a price of \$11.50 per share, subject to adjustment as described in this prospectus. Pursuant to the warrant agreement, a warrant holder may exercise its warrants only for a whole number of shares of Class A common stock. This means that only a whole warrant may be exercised at any given time by a warrant holder. No fractional warrants will be issued upon separation of the units and only whole warrants will trade. Accordingly, unless you purchase at least three units, you will not be able to receive or trade a whole warrant.

The Class A common stock and warrants comprising the units will begin separate trading on the 52nd day following the closing of this offering unless Citigroup Global Markets Inc., Deutsche Bank Securities Inc., and Credit Suisse inform us of their decision to allow earlier separate trading, subject to our having filed the Current Report on Form 8-K described below and having issued a press release announcing when such separate trading will begin. Once the shares of Class A common stock and warrants commence separate trading, holders will have the option to continue to hold units or separate their units into the component securities. Holders will need to have their brokers contact our transfer agent in order to separate the units into shares of Class A common stock and warrants.

In no event will the Class A common stock and warrants be traded separately until we have filed with the SEC a Current Report on Form 8-K which includes an audited balance sheet reflecting our receipt of the gross proceeds at the closing of this offering. We will file a Current Report on Form 8-K which includes this audited balance sheet upon the completion of this offering, which is anticipated to take place three business days after the date of this prospectus. If the underwriters' over-allotment option is exercised following the initial filing of such Current Report on Form 8-K, a second or amended Current Report on Form 8-K will be filed to provide updated financial information to reflect the exercise of the underwriters' over-allotment option.

Common Stock

Upon the closing of this offering, 43,750,000 shares of our common stock will be outstanding (assuming no exercise of the underwriters' over-allotment option and the corresponding forfeiture of 1,312,500 founder shares by our sponsor), consisting of:

- 35,000,000 shares of our Class A common stock underlying the units being offered in this offering; and
- 8,750,000 shares of Class B common stock held by our initial stockholders.

If we increase or decrease the size of the offering, we will effect a stock dividend or share contribution back to capital or other appropriate mechanism, as applicable, with respect to our Class B common stock immediately prior to the consummation of the offering in such amount as to maintain the ownership of founder shares by our initial stockholders prior to this offering at 20.0% of the issued and outstanding shares of our common stock upon the consummation of this offering.

Common stockholders of record are entitled to one vote for each share held on all matters to be voted on by stockholders. Holders of the Class A common stock and holders of the Class B common stock will vote together

as a single class on all matters submitted to a vote of our stockholders, except as required by law. Unless specified in our amended and restated certificate of incorporation or bylaws, or as required by applicable provisions of the DGCL or applicable stock exchange rules, the affirmative vote of a majority of our shares of common stock that are voted is required to approve any such matter voted on by our stockholders. Our board of directors will be divided into three classes, each of which will generally serve for a term of three years with only one class of directors being elected in each year. There is no cumulative voting with respect to the election of directors, with the result that the holders of more than 50% of the shares voted for the election of directors can elect all of the directors. Our stockholders are entitled to receive ratable dividends when, as and if declared by the board of directors out of funds legally available therefor.

Because our amended and restated certificate of incorporation authorizes the issuance of up to 200,000,000 shares of Class A common stock, if we were to enter into a business combination, we may (depending on the terms of such a business combination) be required to increase the number of shares of Class A common stock which we are authorized to issue at the same time as our stockholders vote on the business combination to the extent we seek stockholder approval in connection with our business combination.

In accordance with NASDAQ corporate governance requirements, we are not required to hold an annual meeting until no later than one year after our first fiscal year end following our listing on NASDAQ. Under Section 211(b) of the DGCL, we are, however, required to hold an annual meeting of stockholders for the purposes of electing directors in accordance with our bylaws, unless such election is made by written consent in lieu of such a meeting. We may not hold an annual meeting of stockholders to elect new directors prior to the consummation of our initial business combination, and thus we may not be in compliance with Section 211(b) of the DGCL, which requires an annual meeting. Therefore, if our stockholders want us to hold an annual meeting prior to the consummation of our initial business combination, they may attempt to force us to hold one by submitting an application to the Delaware Court of Chancery in accordance with Section 211(c) of the DGCL.

We will provide our stockholders with the opportunity to redeem all or a portion of their public shares upon the completion of our initial business combination at a per-share price, payable in cash, equal to the aggregate amount then on deposit in the trust account as of two business days prior to the consummation of our initial business combination including interest earned on the funds held in the trust account and not previously released to us to pay our franchise and income taxes, divided by the number of then outstanding public shares, subject to the limitations described herein. The amount in the trust account is initially anticipated to be approximately \$10.00 per public share. The per-share amount we will distribute to investors who properly redeem their shares will not be reduced by the deferred underwriting commissions we will pay to the underwriters. Our sponsor, officers and directors have entered into a letter agreement with us, pursuant to which they have agreed to waive their redemption rights with respect to any founder shares and any public shares held by them in connection with the completion of our business combination. Unlike many blank check companies that hold stockholder votes and conduct proxy solicitations in conjunction with their initial business combinations and provide for related redemptions of public shares for cash upon completion of such initial business combinations even when a vote is not required by law, if a stockholder vote is not required by law and we do not decide to hold a stockholder vote for business or other legal reasons, we will, pursuant to our amended and restated certificate of incorporation, conduct the redemptions pursuant to the tender offer rules of the SEC, and file tender offer documents with the SEC prior to completing our initial business combination. Our amended and restated certificate of incorporation will require these tender offer documents to contain substantially the same financial and other information about the initial business combination and the redemption rights as is required under the SEC's proxy rules. If, however, a stockholder approval of the transaction is required by law, or we decide to obtain stockholder approval for business or other legal reasons, we will, like many blank check companies, offer to redeem shares in conjunction with a proxy solicitation pursuant to the proxy rules and not pursuant to the tender offer rules. If we seek stockholder approval, we will complete our initial business combination only if a majority of the outstanding shares of common stock voted are voted in favor of the business combination. A quorum for such meeting will consist of the holders present in person or by proxy of shares of outstanding capital stock of the company representing a majority of the voting power of all outstanding shares of capital stock of the company entitled to vote at such meeting.

However, the participation of our sponsor, officers, directors, advisors or their affiliates in privately-negotiated transactions (as described in this prospectus), if any, could result in the approval of our business combination even if a majority of our public stockholders vote, or indicate their intention to vote, against such business combination. For purposes of seeking approval of the majority of our outstanding shares of common stock voted, non-votes will have no effect on the approval of our business combination once a quorum is obtained. We intend to give approximately 30 days (but not less than 10 days nor more than 60 days) prior written notice of any such meeting, if required, at which a vote shall be taken to approve our business combination. These quorum and voting thresholds, and the voting agreements of our initial stockholders, may make it more likely that we will consummate our initial business combination.

If we seek stockholder approval of our initial business combination and we do not conduct redemptions in connection with our business combination pursuant to the tender offer rules, our amended and restated certificate of incorporation will provide that a public stockholder, together with any affiliate of such stockholder or any other person with whom such stockholder is acting in concert or as a “group” (as defined under Section 13 of the Exchange Act), will be restricted from redeeming its shares with respect to more than an aggregate of 15% of the shares of common stock sold in this offering, which we refer to as the Excess Shares. However, we would not be restricting our stockholders’ ability to vote all of their shares (including Excess Shares) for or against our business combination. Our stockholders’ inability to redeem the Excess Shares will reduce their influence over our ability to complete our business combination, and such stockholders could suffer a material loss in their investment if they sell such Excess Shares on the open market. Additionally, such stockholders will not receive redemption distributions with respect to the Excess Shares if we complete the business combination. And, as a result, such stockholders will continue to hold that number of shares exceeding 15% and, in order to dispose such shares would be required to sell their stock in open market transactions, potentially at a loss.

If we seek stockholder approval in connection with our business combination, pursuant to the letter agreement our sponsor, officers and directors have agreed to vote their founder shares and any public shares purchased during or after this offering (including in open market and privately negotiated transactions) in favor of our initial business combination. As a result, in addition to our initial stockholders’ founder shares, we would need 13,125,001, or 37.5%, of the 35,000,000 public shares sold in this offering to be voted in favor of a transaction (assuming all outstanding shares are voted) in order to have our initial business combination approved (assuming the over-allotment option is not exercised). Additionally, each public stockholder may elect to redeem its public shares irrespective of whether they vote for or against the proposed transaction (subject to the limitation described in the preceding paragraph).

Pursuant to our amended and restated certificate of incorporation, if we are unable to complete our business combination within 24 months from the closing of this offering, we will (i) cease all operations except for the purpose of winding up, (ii) as promptly as reasonably possible but no more than ten business days thereafter subject to lawfully available funds therefor, redeem the public shares, at a per-share price, payable in cash, equal to the aggregate amount then on deposit in the trust account including interest earned on the funds held in the trust account and not previously released to us to pay our franchise and income taxes (less up to \$100,000 of interest to pay dissolution expenses), divided by the number of then outstanding public shares, which redemption will completely extinguish public stockholders’ rights as stockholders (including the right to receive further liquidating distributions, if any), subject to applicable law, and (iii) as promptly as reasonably possible following such redemption, subject to the approval of our remaining stockholders and our board of directors, dissolve and liquidate, subject in each case to our obligations under Delaware law to provide for claims of creditors and the requirements of other applicable law. Our sponsor, officers and directors have entered into a letter agreement with us, pursuant to which they have agreed to waive their rights to liquidating distributions from the trust account with respect to any founder shares held by them if we fail to complete our business combination within 24 months from the closing of this offering. However, if our initial stockholders acquire public shares in or after this offering, they will be entitled to liquidating distributions from the trust account with respect to such public shares if we fail to complete our business combination within the prescribed time period.

In the event of a liquidation, dissolution or winding up of the company after a business combination, our stockholders are entitled to share ratably in all assets remaining available for distribution to them after payment of liabilities and after provision is made for each class of stock, if any, having preference over the common stock. Our stockholders have no preemptive or other subscription rights. There are no sinking fund provisions applicable to the common stock, except that we will provide our stockholders with the opportunity to redeem their public shares for cash equal to their pro rata share of the aggregate amount then on deposit in the trust account, upon the completion of our initial business combination, subject to the limitations described herein.

Founder Shares

The founder shares are identical to the shares of Class A common stock included in the units being sold in this offering, and holders of founder shares have the same stockholder rights as public stockholders, except that (i) the founder shares are subject to certain transfer restrictions, as described in more detail below, (ii) our sponsor, officers and directors have entered into a letter agreement with us, pursuant to which they have agreed (A) to waive their redemption rights with respect to any founder shares and any public shares held by them in connection with the completion of our business combination and (B) to waive their rights to liquidating distributions from the trust account with respect to any founder shares held by them if we fail to complete our business combination within 24 months from the closing of this offering, although they will be entitled to liquidating distributions from the trust account with respect to any public shares they hold if we fail to complete our business combination within such time period, (iii) the founder shares are shares of our Class B common stock that will automatically convert into shares of our Class A common stock at the time of our initial business combination, or at any time prior thereto at the option of the holder, on a one-for-one basis, subject to adjustment as described herein and (iv) are entitled to registration rights. If we submit our business combination to our public stockholders for a vote, our sponsor, officers and directors have agreed pursuant to the letter agreement to vote any founder shares held by them and any public shares purchased during or after this offering (including in open market and privately negotiated transactions) in favor of our initial business combination.

The shares of Class B common stock will automatically convert into shares of Class A common stock at the time of our initial business combination on a one-for-one basis (subject to adjustment for stock splits, stock dividends, reorganizations, recapitalizations and the like), and subject to further adjustment as provided herein. In the case that additional shares of Class A common stock, or equity-linked securities, are issued or deemed issued in excess of the amounts offered in this prospectus and related to the closing of the business combination, including pursuant to a specified future issuance, the ratio at which shares of Class B common stock shall convert into shares of Class A common stock will be adjusted (unless the holders of a majority of the outstanding shares of Class B common stock agree to waive such adjustment with respect to any such issuance or deemed issuance, including a specified future issuance) so that the number of shares of Class A common stock issuable upon conversion of all shares of Class B common stock will equal, in the aggregate, on an as-converted basis, 20% of the sum of the total number of all shares of common stock outstanding upon completion of this offering plus all shares of Class A common stock and equity-linked securities issued or deemed issued in connection with the business combination (excluding any shares or equity-linked securities issued, or to be issued, to any seller in the business combination and any private placement-equivalent warrants issued to our sponsor or its affiliates upon conversion of loans made to us). Holders of founder shares may also elect to convert their shares of Class B common stock into an equal number of shares of Class A common stock, subject to adjustment as provided above, at any time.

With certain limited exceptions, the founder shares are not transferable, assignable or salable (except to our officers and directors and other persons or entities affiliated with our sponsor, each of whom will be subject to the same transfer restrictions) until the earlier of (A) one year after the completion of our initial business combination or (B) subsequent to our initial business combination, (x) if the last sale price of our Class A common stock equals or exceeds \$12.00 per share (as adjusted for stock splits, stock dividends, reorganizations, recapitalizations and the like) for any 20 trading days within any 30-trading day period commencing at least 150 days after our initial business combination, or (y) the date on which we complete a liquidation, merger,

capital stock exchange, reorganization or other similar transaction that results in all of our stockholders having the right to exchange their shares of common stock for cash, securities or other property.

Preferred Stock

Our amended and restated certificate of incorporation will provide that shares of preferred stock may be issued from time to time in one or more series. Our board of directors will be authorized to fix the voting rights, if any, designations, powers, preferences, the relative, participating, optional or other special rights and any qualifications, limitations and restrictions thereof, applicable to the shares of each series. Our board of directors will be able to, without stockholder approval, issue preferred stock with voting and other rights that could adversely affect the voting power and other rights of the holders of the common stock and could have anti-takeover effects. The ability of our board of directors to issue preferred stock without stockholder approval could have the effect of delaying, deferring or preventing a change of control of us or the removal of existing management. We have no preferred stock outstanding at the date hereof. Although we do not currently intend to issue any shares of preferred stock, we cannot assure you that we will not do so in the future. No shares of preferred stock are being issued or registered in this offering.

Warrants

Public Stockholders' Warrants

Each whole warrant entitles the registered holder to purchase one whole share of our Class A common stock at a price of \$11.50 per share, subject to adjustment as discussed below, at any time commencing on the later of 12 months from the closing of this offering or 30 days after the completion of our initial business combination. Pursuant to the warrant agreement, a warrant holder may exercise its warrants only for a whole number of shares of Class A common stock. This means that only a whole warrant may be exercised at any given time by a warrant holder. No fractional warrants will be issued upon separation of the units and only whole warrants will trade. Accordingly, unless you purchase at least three units, you will not be able to receive or trade a whole warrant. The warrants will expire five years after the completion of our initial business combination, at 5:00 p.m., New York City time, or earlier upon redemption or liquidation.

We will not be obligated to deliver any shares of Class A common stock pursuant to the exercise of a warrant and will have no obligation to settle such warrant exercise unless a registration statement under the Securities Act with respect to the shares of Class A common stock underlying the warrants is then effective and a prospectus relating thereto is current, subject to our satisfying our obligations described below with respect to registration. No warrant will be exercisable and we will not be obligated to issue shares of Class A common stock upon exercise of a warrant unless Class A common stock issuable upon such warrant exercise has been registered, qualified or deemed to be exempt under the securities laws of the state of residence of the registered holder of the warrants. In the event that the conditions in the two immediately preceding sentences are not satisfied with respect to a warrant, the holder of such warrant will not be entitled to exercise such warrant and such warrant may have no value and expire worthless. In the event that a registration statement is not effective for the exercised warrants, the purchaser of a unit containing such warrant will have paid the full purchase price for the unit solely for the share of Class A common stock underlying such unit.

We have agreed that as soon as practicable, but in no event later than 15 business days, after the closing of our initial business combination, we will use our reasonable best efforts to file with the SEC a registration statement for the registration, under the Securities Act, of the shares of Class A common stock issuable upon exercise of the warrants. We will use our reasonable best efforts to cause the same to become effective within 60 business days following our initial business combination and to maintain the effectiveness of such registration statement, and a current prospectus relating thereto, until the expiration of the warrants in accordance with the provisions of the warrant agreement. Notwithstanding the above, if our Class A common stock is at the time of any exercise of a warrant not listed on a national securities exchange such that it satisfies the definition of a

“covered security” under Section 18(b)(1) of the Securities Act, we may, at our option, require holders of public warrants who exercise their warrants to do so on a “cashless basis” in accordance with Section 3(a)(9) of the Securities Act and, in the event we so elect, we will not be required to file or maintain in effect a registration statement, but we will be required to use our best efforts to register or qualify the shares under applicable blue sky laws to the extent an exemption is not available.

Once the warrants become exercisable, we may call the warrants for redemption:

- in whole and not in part;
- at a price of \$0.01 per warrant;
- upon not less than 30 days’ prior written notice of redemption (the “30-day redemption period”) to each warrant holder; and
- if, and only if, the reported last sale price of the Class A common stock equals or exceeds \$18.00 per share for any 20 trading days within a 30-trading day period ending three business days before we send the notice of redemption to the warrant holders.

If and when the warrants become redeemable by us, we may exercise our redemption right even if we are unable to register or qualify the underlying securities for sale under all applicable state securities laws.

We have established the last of the redemption criterion discussed above to prevent a redemption call unless there is at the time of the call a significant premium to the warrant exercise price. If the foregoing conditions are satisfied and we issue a notice of redemption of the warrants, each warrant holder will be entitled to exercise its warrant prior to the scheduled redemption date. However, the price of the Class A common stock may fall below the \$18.00 redemption trigger price as well as the \$11.50 warrant exercise price after the redemption notice is issued.

If we call the warrants for redemption as described above, our management will have the option to require any holder that wishes to exercise its warrant to do so on a “cashless basis.” In determining whether to require all holders to exercise their warrants on a “cashless basis,” our management will consider, among other factors, our cash position, the number of warrants that are outstanding and the dilutive effect on our stockholders of issuing the maximum number of shares of Class A common stock issuable upon the exercise of our warrants. If our management takes advantage of this option, all holders of warrants would pay the exercise price by surrendering their warrants for that number of shares of Class A common stock equal to the quotient obtained by dividing (x) the product of the number of shares of Class A common stock underlying the warrants, multiplied by the difference between the exercise price of the warrants and the “fair market value” (defined below) by (y) the fair market value. The “fair market value” shall mean the average reported last sale price of the Class A common stock for the 10 trading days ending on the third trading day prior to the date on which the notice of redemption is sent to the holders of warrants. If our management takes advantage of this option, the notice of redemption will contain the information necessary to calculate the number of shares of Class A common stock to be received upon exercise of the warrants, including the “fair market value” in such case. Requiring a cashless exercise in this manner will reduce the number of shares to be issued and thereby lessen the dilutive effect of a warrant redemption. We believe this feature is an attractive option to us if we do not need the cash from the exercise of the warrants after our initial business combination. If we call our warrants for redemption and our management does not take advantage of this option, our sponsor and its permitted transferees would still be entitled to exercise their private placement warrants for cash or on a cashless basis using the same formula described above that other warrant holders would have been required to use had all warrant holders been required to exercise their warrants on a cashless basis, as described in more detail below.

A holder of a warrant may notify us in writing in the event it elects to be subject to a requirement that such holder will not have the right to exercise such warrant, to the extent that after giving effect to such exercise, such person (together with such person’s affiliates), to the warrant agent’s actual knowledge, would beneficially own

in excess of 4.9% or 9.8% (or such other amount as a holder may specify) of the shares of Class A common stock outstanding immediately after giving effect to such exercise.

If the number of outstanding shares of Class A common stock is increased by a stock dividend payable in shares of Class A common stock, or by a split-up of shares of Class A common stock or other similar event, then, on the effective date of such stock dividend, split-up or similar event, the number of shares of Class A common stock issuable on exercise of each warrant will be increased in proportion to such increase in the outstanding shares of Class A common stock. A rights offering to holders of Class A common stock entitling holders to purchase shares of Class A common stock at a price less than the fair market value will be deemed a stock dividend of a number of shares of Class A common stock equal to the product of (i) the number of shares of Class A common stock actually sold in such rights offering (or issuable under any other equity securities sold in such rights offering that are convertible into or exercisable for Class A common stock) and (ii) one (1) minus the quotient of (x) the price per share of Class A common stock paid in such rights offering divided by (y) the fair market value. For these purposes (i) if the rights offering is for securities convertible into or exercisable for Class A common stock, in determining the price payable for Class A common stock, there will be taken into account any consideration received for such rights, as well as any additional amount payable upon exercise or conversion and (ii) fair market value means the volume weighted average price of Class A common stock as reported during the ten (10) trading day period ending on the trading day prior to the first date on which the shares of Class A common stock trade on the applicable exchange or in the applicable market, regular way, without the right to receive such rights.

In addition, if we, at any time while the warrants are outstanding and unexpired, pay a dividend or make a distribution in cash, securities or other assets to the holders of Class A common stock on account of such shares of Class A common stock (or other shares of our capital stock into which the warrants are convertible), other than (a) as described above, (b) certain ordinary cash dividends, (c) to satisfy the redemption rights of the holders of Class A common stock in connection with a proposed initial business combination, (d) to satisfy the redemption rights of the holders of Class A common stock in connection with a stockholder vote to amend our amended and restated certificate of incorporation to modify the substance or timing of our obligation to redeem 100% of our Class A common stock if we do not complete our initial business combination within 24 months from the closing of this offering, or (e) in connection with the redemption of our public shares upon our failure to complete our initial business combination, then the warrant exercise price will be decreased, effective immediately after the effective date of such event, by the amount of cash and/or the fair market value of any securities or other assets paid on each share of Class A common stock in respect of such event.

If the number of outstanding shares of our Class A common stock is decreased by a consolidation, combination, reverse stock split or reclassification of shares of Class A common stock or other similar event, then, on the effective date of such consolidation, combination, reverse stock split, reclassification or similar event, the number of shares of Class A common stock issuable on exercise of each warrant will be decreased in proportion to such decrease in outstanding shares of Class A common stock.

Whenever the number of shares of Class A common stock purchasable upon the exercise of the warrants is adjusted, as described above, the warrant exercise price will be adjusted by multiplying the warrant exercise price immediately prior to such adjustment by a fraction (x) the numerator of which will be the number of shares of Class A common stock purchasable upon the exercise of the warrants immediately prior to such adjustment, and (y) the denominator of which will be the number of shares of Class A common stock so purchasable immediately thereafter.

In case of any reclassification or reorganization of the outstanding shares of Class A common stock (other than those described above or that solely affects the par value of such shares of Class A common stock), or in the case of any merger or consolidation of us with or into another corporation (other than a consolidation or merger in which we are the continuing corporation and that does not result in any reclassification or reorganization of our outstanding shares of Class A common stock), or in the case of any sale or conveyance to another corporation

or entity of the assets or other property of us as an entirety or substantially as an entirety in connection with which we are dissolved, the holders of the warrants will thereafter have the right to purchase and receive, upon the basis and upon the terms and conditions specified in the warrants and in lieu of the shares of our Class A common stock immediately theretofore purchasable and receivable upon the exercise of the rights represented thereby, the kind and amount of shares of stock or other securities or property (including cash) receivable upon such reclassification, reorganization, merger or consolidation, or upon a dissolution following any such sale or transfer, that the holder of the warrants would have received if such holder had exercised their warrants immediately prior to such event. If less than 70% of the consideration receivable by the holders of Class A common stock in such a transaction is payable in the form of Class A common stock in the successor entity that is listed for trading on a national securities exchange or is quoted in an established over-the-counter market, or is to be so listed for trading or quoted immediately following such event, and if the registered holder of the warrant properly exercises the warrant within thirty days following public disclosure of such transaction, the warrant exercise price will be reduced as specified in the warrant agreement based on the Black-Scholes value (as defined in the warrant agreement) of the warrant.

The warrants will be issued in registered form under a warrant agreement between American Stock Transfer & Trust Company, as warrant agent, and us. You should review a copy of the warrant agreement, which will be filed as an exhibit to the registration statement of which this prospectus is a part, for a complete description of the terms and conditions applicable to the warrants. The warrant agreement provides that the terms of the warrants may be amended without the consent of any holder to cure any ambiguity or correct any defective provision, but requires the approval by the holders of at least 50% of the then outstanding public warrants to make any change that adversely affects the interests of the registered holders of public warrants.

The warrants may be exercised upon surrender of the warrant certificate on or prior to the expiration date at the offices of the warrant agent, with the exercise form on the reverse side of the warrant certificate completed and executed as indicated, accompanied by full payment of the exercise price (or on a cashless basis, if applicable), by certified or official bank check payable to us, for the number of warrants being exercised. The warrant holders do not have the rights or privileges of holders of Class A common stock and any voting rights until they exercise their warrants and receive shares of Class A common stock. After the issuance of shares of Class A common stock upon exercise of the warrants, each holder will be entitled to one (1) vote for each share held of record on all matters to be voted on by stockholders.

No fractional shares will be issued upon exercise of the warrants. If, upon exercise of the warrants, a holder would be entitled to receive a fractional interest in a share, we will, upon exercise, round down to the nearest whole number of shares of Class A common stock to be issued to the warrant holder.

Private Placement Warrants

The private placement warrants (including the Class A common stock issuable upon exercise of the private placement warrants) will not be transferable, assignable or saleable until 30 days after the completion of our initial business combination (except, among other limited exceptions as described under the section of this prospectus entitled “Principal Stockholders—Restrictions on Transfers of Founder Shares and Private Placement Warrants,” to our officers and directors and other persons or entities affiliated with our sponsor) and they will not be redeemable by us so long as they are held by our sponsor or its permitted transferees. Otherwise, the private placement warrants have terms and provisions that are identical to those of the warrants being sold as part of the units in this offering, including as to exercise price, exercisability and exercise period. If the private placement warrants are held by holders other than the sponsor or its permitted transferees, the private placement warrants will be redeemable by us and exercisable by the holders on the same basis as the warrants included in the units being sold in this offering.

If holders of the private placement warrants elect to exercise them on a cashless basis, they would pay the exercise price by surrendering their warrants for that number of shares of Class A common stock equal to the

quotient obtained by dividing (x) the product of the number of shares of Class A common stock underlying the warrants, multiplied by the difference between the exercise price of the warrants and the “fair market value” (defined below) by (y) the fair market value. The “fair market value” shall mean the average reported last sale price of the Class A common stock for the 10 trading days ending on the third trading day prior to the date on which the notice of warrant exercise is sent to the warrant agent. The reason that we have agreed that these warrants will be exercisable on a cashless basis so long as they are held by the sponsor or its permitted transferees is because it is not known at this time whether they will be affiliated with us following a business combination. If they remain affiliated with us, their ability to sell our securities in the open market will be significantly limited. We expect to have policies in place that prohibit insiders from selling our securities except during specific periods of time. Even during such periods of time when insiders will be permitted to sell our securities, an insider cannot trade in our securities if he or she is in possession of material non-public information. Accordingly, unlike public stockholders who could sell the shares of Class A common stock issuable upon exercise of the warrants freely in the open market, the insiders could be significantly restricted from doing so. As a result, we believe that allowing the holders to exercise such warrants on a cashless basis is appropriate.

In order to finance transaction costs in connection with an intended initial business combination, our sponsor or an affiliate of our sponsor or certain of our officers and directors may, but are not obligated to, loan us funds as may be required. Up to \$1,500,000 of such loans may be convertible into warrants at a price of \$1.50 per warrant at the option of the lender. Such warrants would be identical to the private placement warrants, including as to exercise price, exercisability and exercise period.

Our sponsor has agreed not to transfer, assign or sell any of the private placement warrants (including the Class A common stock issuable upon exercise of any of these warrants) until the date that is 30 days after the date we complete our initial business combination, except that, among other limited exceptions as described under the section of this prospectus entitled “Principal Stockholders—Restrictions on Transfers of Founder Shares and Private Placement Warrants” made to our officers and directors and other persons or entities affiliated with our sponsor.

Dividends

We have not paid any cash dividends on our common stock to date and do not intend to pay cash dividends prior to the completion of a business combination. The payment of cash dividends in the future will be dependent upon our revenues and earnings, if any, capital requirements and general financial conditions subsequent to completion of a business combination. The payment of any cash dividends subsequent to a business combination will be within the discretion of our board of directors at such time. Our board of directors is not currently contemplating and does not anticipate declaring any stock dividends in the foreseeable future except if we increase the size of the offering, in which case we will effect a stock dividend immediately prior to the consummation of the offering in such amount as to maintain the ownership of founder shares by our initial stockholders prior to this offering at 20.0% of the issued and outstanding shares of our common stock upon the consummation of this offering. Further, if we incur any indebtedness, our ability to declare dividends may be limited by restrictive covenants we may agree to in connection therewith.

Our Transfer Agent and Warrant Agent

The transfer agent for our common stock and warrant agent for our warrants is American Stock Transfer & Trust Company. We have agreed to indemnify American Stock Transfer & Trust Company in its roles as transfer agent and warrant agent, its agents and each of its stockholders, directors, officers and employees against all claims and losses that may arise out of acts performed or omitted for its activities in that capacity, except for any liability due to any gross negligence, willful misconduct or bad faith of the indemnified person or entity.

Our Amended and Restated Certificate of Incorporation

Our amended and restated certificate of incorporation will contain certain requirements and restrictions relating to this offering that will apply to us until the completion of our initial business combination. These provisions cannot be amended without the approval of the holders of 65% of our common stock. Our initial stockholders, who will collectively beneficially own 20% of our common stock upon the closing of this offering (assuming they do not purchase any units in this offering), will participate in any vote to amend our amended and restated certificate of incorporation and will have the discretion to vote in any manner they choose. Specifically, our amended and restated certificate of incorporation provides, among other things, that:

- If we are unable to complete our initial business combination within 24 months from the closing of this offering, we will (i) cease all operations except for the purpose of winding up, (ii) as promptly as reasonably possible but not more than ten business days thereafter subject to lawfully available funds therefor, redeem 100% of the public shares, at a per-share price, payable in cash, equal to the aggregate amount then on deposit in the trust account including interest earned on the funds held in the trust account and not previously released to us to pay our franchise and income taxes (less up to \$100,000 of interest to pay dissolution expenses), divided by the number of then outstanding public shares, which redemption will completely extinguish public stockholders' rights as stockholders (including the right to receive further liquidating distributions, if any), subject to applicable law, and (iii) as promptly as reasonably possible following such redemption, subject to the approval of our remaining stockholders and our board of directors, dissolve and liquidate, subject in each case to our obligations under Delaware law to provide for claims of creditors and the requirements of other applicable law;
- Prior to our initial business combination, we may not issue additional shares of capital stock that would entitle the holders thereof to (i) receive funds from the trust account or (ii) vote on any initial business combination;
- Although we do not intend to enter into a business combination with a target business that is affiliated with our sponsor, our directors or our officers, we are not prohibited from doing so. In the event we enter into such a transaction, we, or a committee of independent directors, will obtain an opinion from an independent investment banking firm that is a member of FINRA or an independent accounting firm that such a business combination is fair to our company from a financial point of view;
- If a stockholder vote on our initial business combination is not required by law and we do not decide to hold a stockholder vote for business or other legal reasons, we will offer to redeem our public shares pursuant to Rule 13e-4 and Regulation 14E of the Exchange Act, and will file tender offer documents with the SEC prior to completing our initial business combination which contain substantially the same financial and other information about our initial business combination and the redemption rights as is required under Regulation 14A of the Exchange Act; whether or not we maintain our registration under the our Exchange Act or our listing on NASDAQ, we will provide our public stockholders with the opportunity to redeem their public shares by one of the two methods listed above;
- Our initial business combination must occur with one or more target businesses that together have an aggregate fair market value of at least 80% of our assets held in the trust account (excluding the deferred underwriting commissions and taxes payable on the income earned on the trust account) at the time of the agreement to enter into the initial business combination;
- If our stockholders approve an amendment to our amended and restated certificate of incorporation to modify the substance or timing of our obligation to redeem 100% of our public shares if we do not complete our business combination within 24 months from the closing of this offering, we will provide our public stockholders with the opportunity to redeem all or a portion of their shares of Class A common stock upon such approval at a per-share price, payable in cash, equal to the aggregate amount then on deposit in the trust account, including interest earned on the funds held in the trust account and not previously released to us to pay our franchise and income taxes, divided by the number of then outstanding public shares; and

- We will not effectuate our initial business combination with another blank check company or a similar company with nominal operations.

In addition, our amended and restated certificate of incorporation will provide that under no circumstances will we redeem our public shares in an amount that would cause our net tangible assets to be less than \$5,000,001 upon consummation of our initial business combination and after payment of underwriters' fees and commissions.

Certain Anti-Takeover Provisions of Delaware Law and our Amended and Restated Certificate of Incorporation and Bylaws

We will be subject to the provisions of Section 203 of the DGCL regulating corporate takeovers upon completion of this offering. This statute prevents certain Delaware corporations, under certain circumstances, from engaging in a "business combination" with:

- a stockholder who owns 15% or more of our outstanding voting stock (otherwise known as an "interested stockholder");
- an affiliate of an interested stockholder; or
- an associate of an interested stockholder, for three years following the date that the stockholder became an interested stockholder.

A "business combination" includes a merger or sale of more than 10% of our assets. However, the above provisions of Section 203 do not apply if:

- our board of directors approves the transaction that made the stockholder an "interested stockholder," prior to the date of the transaction;
- after the completion of the transaction that resulted in the stockholder becoming an interested stockholder, that stockholder owned at least 85% of our voting stock outstanding at the time the transaction commenced, other than statutorily excluded shares of common stock; or
- on or subsequent to the date of the transaction, the business combination is approved by our board of directors and authorized at a meeting of our stockholders, and not by written consent, by an affirmative vote of at least two-thirds of the outstanding voting stock not owned by the interested stockholder.

Our amended and restated certificate of incorporation will provide that our board of directors will be classified into three classes of directors. As a result, in most circumstances, a person can gain control of our board only by successfully engaging in a proxy contest at two or more annual meetings.

Our authorized but unissued common stock and preferred stock are available for future issuances without stockholder approval (including a specified future issuance) and could be utilized for a variety of corporate purposes, including future offerings to raise additional capital, acquisitions and employee benefit plans. The existence of authorized but unissued and unreserved common stock and preferred stock could render more difficult or discourage an attempt to obtain control of us by means of a proxy contest, tender offer, merger or otherwise.

Exclusive forum for certain lawsuits

Our amended and restated certificate of incorporation will require, to the fullest extent permitted by law, that derivative actions brought in our name, actions against directors, officers and employees for breach of fiduciary duty and other similar actions may be brought only in the Court of Chancery in the State of Delaware and, if brought outside of Delaware, the stockholder bringing the suit will be deemed to have consented to service of process on such stockholder's counsel. Although we believe this provision benefits us by providing increased consistency in the application of Delaware law in the types of lawsuits to which it applies, the provision may have the effect of discouraging lawsuits against our directors and officers.

Special meeting of stockholders

Our bylaws provide that special meetings of our stockholders may be called only by a majority vote of our board of directors, by our Chief Executive Officer or by our Chairman.

Advance notice requirements for stockholder proposals and director nominations

Our bylaws provide that stockholders seeking to bring business before our annual meeting of stockholders, or to nominate candidates for election as directors at our annual meeting of stockholders, must provide timely notice of their intent in writing. To be timely, a stockholder's notice will need to be received by the company secretary at our principal executive offices not later than the close of business on the 90th day nor earlier than the opening of business on the 120th day prior to the anniversary date of the immediately preceding annual meeting of stockholders. Pursuant to Rule 14a-8 of the Exchange Act, proposals seeking inclusion in our annual proxy statement must comply with the notice periods contained therein. Our bylaws also specify certain requirements as to the form and content of a stockholders' meeting. These provisions may preclude our stockholders from bringing matters before our annual meeting of stockholders or from making nominations for directors at our annual meeting of stockholders.

Action by written consent

Subsequent to the consummation of the offering, any action required or permitted to be taken by our common stockholders must be effected by a duly called annual or special meeting of such stockholders and may not be effected by written consent of the stockholders other than with respect to our Class B common stock.

Classified Board of Directors

Our board of directors will initially be divided into three classes, Class I, Class II and Class III, with members of each class serving staggered three-year terms. Our amended and restated certificate of incorporation will provide that the authorized number of directors may be changed only by resolution of the board of directors. Subject to the terms of any preferred stock, any or all of the directors may be removed from office at any time, but only for cause and only by the affirmative vote of holders of a majority of the voting power of all then outstanding shares of our capital stock entitled to vote generally in the election of directors, voting together as a single class. Any vacancy on our board of directors, including a vacancy resulting from an enlargement of our board of directors, may be filled only by vote of a majority of our directors then in office.

Class B Common Stock Consent Right

For so long as any shares of Class B common stock remain outstanding, we may not, without the prior vote or written consent of the holders of a majority of the shares of Class B common stock then outstanding, voting separately as a single class, amend, alter or repeal any provision our certificate of incorporation, whether by merger, consolidation or otherwise, if such amendment, alteration or repeal would alter or change the powers, preferences or relative, participating, optional or other or special rights of the Class B common stock. Any action required or permitted to be taken at any meeting of the holders of Class B common stock may be taken without a meeting, without prior notice and without a vote, if a consent or consents in writing, setting forth the action so taken, shall be signed by the holders of the outstanding Class B common stock having not less than the minimum number of votes that would be necessary to authorize or take such action at a meeting at which all shares of Class B common stock were present and voted.

Securities Eligible for Future Sale

Immediately after the consummation of this offering (assuming no exercise of the underwriters' over-allotment option) we will have 43,750,000 (or 50,312,500 if the underwriters' over-allotment option is exercised

in full) shares of common stock outstanding. Of these shares, the 35,000,000 shares (or 40,250,000 if the underwriters' over-allotment option is exercised in full) sold in this offering will be freely tradable without restriction or further registration under the Securities Act, except for any shares purchased by one of our affiliates within the meaning of Rule 144 under the Securities Act. All of the remaining 8,750,000 (or 10,062,500 if the underwriters' over-allotment option is exercised in full) shares and all 6,000,000 (or 6,700,000 if the underwriters' over-allotment option is exercised in full) private placement warrants are restricted securities under Rule 144, in that they were issued in private transactions not involving a public offering, and the shares of Class B common stock and private placement warrants are subject to transfer restrictions as set forth elsewhere in this prospectus. These restricted securities will be entitled to registration rights as more fully described below under "—Registration Rights."

Rule 144

Pursuant to Rule 144, a person who has beneficially owned restricted shares of our common stock or warrants for at least six months would be entitled to sell their securities provided that (i) such person is not deemed to have been one of our affiliates at the time of, or at any time during the three months preceding, a sale and (ii) we are subject to the Exchange Act periodic reporting requirements for at least three months before the sale and have filed all required reports under Section 13 or 15(d) of the Exchange Act during the 12 months (or such shorter period as we were required to file reports) preceding the sale.

Persons who have beneficially owned restricted shares of our common stock or warrants for at least six months but who are our affiliates at the time of, or at any time during the three months preceding, a sale, would be subject to additional restrictions, by which such person would be entitled to sell within any three-month period only a number of securities that does not exceed the greater of:

- 1% of the total number of shares of common stock then outstanding, which will equal 437,500 shares immediately after this offering (or 503,125 if the underwriters exercise their over-allotment option in full); or
- the average weekly reported trading volume of the common stock during the four calendar weeks preceding the filing of a notice on Form 144 with respect to the sale.

Sales by our affiliates under Rule 144 are also limited by manner of sale provisions and notice requirements and to the availability of current public information about us.

Restrictions on the Use of Rule 144 by Shell Companies or Former Shell Companies

Rule 144 is not available for the resale of securities initially issued by shell companies (other than business combination related shell companies) or issuers that have been at any time previously a shell company. However, Rule 144 also includes an important exception to this prohibition if the following conditions are met:

- the issuer of the securities that was formerly a shell company has ceased to be a shell company;
- the issuer of the securities is subject to the reporting requirements of Section 13 or 15(d) of the Exchange Act;
- the issuer of the securities has filed all Exchange Act reports and materials required to be filed, as applicable, during the preceding 12 months (or such shorter period that the issuer was required to file such reports and materials), other than Current Reports on Form 8-K; and
- at least one year has elapsed from the time that the issuer filed current Form 10 type information with the SEC reflecting its status as an entity that is not a shell company.

As a result, our initial stockholders will be able to sell their founder shares and private placement warrants, as applicable, pursuant to Rule 144 without registration one year after we have completed our initial business combination.

Registration Rights

The holders of the founder shares, private placement warrants and warrants that may be issued upon conversion of working capital loans (and any shares of Class A common stock issuable upon the exercise of the private placement warrants and warrants that may be issued upon conversion of working capital loans and upon conversion of the founder shares) will be entitled to registration rights pursuant to a registration rights agreement to be signed prior to or on the effective date of this offering, requiring us to register such securities for resale (in the case of the founder shares, only after conversion to our Class A common stock). The holders of the majority of these securities are entitled to make up to three demands, excluding short form demands, that we register such securities. In addition, the holders have certain “piggy-back” registration rights with respect to registration statements filed subsequent to our completion of our initial business combination and rights to require us to register for resale such securities pursuant to Rule 415 under the Securities Act. The holders of the founder shares, private placement warrants and warrants that may be issued upon conversion of working capital loans will not be able to sell these securities until termination of the applicable lock-up period, which occurs (i) in the case of the founder shares, on the earlier of (A) one year after the completion of our initial business combination or (B) subsequent to our initial business combination, (x) if the last sale price of our Class A common stock equals or exceeds \$12.00 per share (as adjusted for stock splits, stock dividends, reorganizations, recapitalizations and the like) for any 20 trading days within any 30-trading day period commencing at least 150 days after our initial business combination, or (y) the date on which we complete a liquidation, merger, capital stock exchange, reorganization or other similar transaction that results in all of our stockholders having the right to exchange their shares of common stock for cash, securities or other property and (ii) in the case of the private placement warrants and the respective Class A common stock underlying such warrants, 30 days after the completion of our initial business combination. We will bear the expenses incurred in connection with the filing of any such registration statements.

Listing of Securities

We have applied to list our units, Class A common stock and warrants on NASDAQ under the symbols “KAACU,” “KAAC” and “KAACW,” respectively. We expect that our units will be listed on NASDAQ on or promptly after the effective date of the registration statement. Following the date the shares of our Class A common stock and warrants are eligible to trade separately, we anticipate that the shares of our Class A common stock and warrants will be listed separately and as a unit on NASDAQ. We cannot guarantee that our securities will be approved for listing on NASDAQ.

UNITED STATES FEDERAL INCOME TAX CONSIDERATIONS

The following is a discussion of the material U.S. federal income tax consequences of the acquisition, ownership and disposition of our units, shares of Class A common stock and warrants, which we refer to collectively as our securities. Because the components of a unit are separable at the option of the holder, the holder of a unit generally should be treated, for U.S. federal income tax purposes, as the owner of the underlying Class A common stock and one-third of one warrant components of the unit, as the case may be. As a result, the discussion below with respect to actual holders of Class A common stock and warrants should also apply to holders of units (as the deemed owners of the underlying Class A common stock and warrants that comprise the units). This discussion applies only to securities that are held as a capital asset for U.S. federal income tax purposes and is applicable only to holders who purchased units in this offering.

This discussion does not describe all of the tax consequences that may be relevant to you in light of your particular circumstances, including the alternative minimum tax, the Medicare tax on certain investment income and the different consequences that may apply if you are subject to special rules that apply to certain types of investors, such as:

- financial institutions;
- insurance companies;
- dealers or traders subject to a mark-to-market method of accounting with respect to the securities;
- persons holding the securities as part of a “straddle,” hedge, integrated transaction or similar transaction;
- U.S. holders (as defined below) whose functional currency is not the U.S. dollar;
- partnerships or other pass-through entities for U.S. federal income tax purposes and any beneficial owners of such entities; and
- tax-exempt entities.

If you are a partnership for U.S. federal income tax purposes, the U.S. federal income tax treatment of your partners will generally depend on the status of the partners and your activities.

This discussion is based on the Internal Revenue Code of 1986, as amended (the “Code”), and administrative pronouncements, judicial decisions and final, temporary and proposed Treasury regulations as of the date hereof, changes to any of which subsequent to the date of this prospectus may affect the tax consequences described herein. This discussion does not address any aspect of state, local or non-U.S. taxation, or any U.S. federal taxes other than income taxes (such as gift and estate taxes).

You are urged to consult your tax advisor with respect to the application of U.S. federal tax laws to your particular situation, as well as any tax consequences arising under the laws of any state, local or foreign jurisdiction.

Personal Holding Company Status

We could be subject to a second level of U.S. federal income tax on a portion of our income if we are determined to be a personal holding company, or PHC, for U.S. federal income tax purposes. A U.S. corporation generally will be classified as a PHC for U.S. federal income tax purposes in a given taxable year if (i) at any time during the last half of such taxable year, five or fewer individuals (without regard to their citizenship or residency and including as individuals for this purpose certain entities such as certain tax-exempt organizations, pension funds and charitable trusts) own or are deemed to own (pursuant to certain constructive ownership rules) more than 50% of the stock of the corporation by value and (ii) at least 60% of the corporation’s adjusted ordinary gross income, as determined for U.S. federal income tax purposes, for such taxable year consists of PHC income (which includes, among other things, dividends, interest, certain royalties, annuities and, under certain circumstances, rents).

At least 60% of our adjusted ordinary gross income may consist of PHC income, depending on the date and size of our initial business combination. In addition, depending on the concentration of our stock in the hands of individuals, including the members of our sponsor and certain tax-exempt organizations, pension funds and charitable trusts, more than 50% of our stock may be owned or deemed owned (pursuant to the constructive ownership rules) by such persons during the last half of a taxable year. Thus, no assurance can be given that we will not be a PHC following this offering or in the future. If we are or were to become a PHC in a given taxable year, we would be subject to an additional PHC tax, currently 20%, on our undistributed PHC income, which generally includes our taxable income, subject to certain adjustments.

Allocation of Purchase Price and Characterization of a Unit

No statutory, administrative or judicial authority directly addresses the treatment of a unit or instruments similar to a unit for U.S. federal income tax purposes and, therefore, that treatment is not entirely clear. The acquisition of a unit should be treated for U.S. federal income tax purposes as the acquisition of one share of our Class A common stock and one-third of one warrant to acquire one share of our Class A common stock. We intend to treat the acquisition of a unit in this manner and, by purchasing a unit, you will agree to adopt such treatment for tax purposes. For U.S. federal income tax purposes, each holder of a unit must allocate the purchase price paid by such holder for such unit between the one share of Class A common stock and the one-third of one warrant based on the relative fair market value of each at the time of issuance. The price allocated to each share of Class A common stock and the one-third of one warrant should be the stockholder's tax basis in such share or one-third of one warrant, as the case may be. Any disposition of a unit should be treated for U.S. federal income tax purposes as a disposition of the share of Class A common stock and one-third of one warrant comprising the unit, and the amount realized on the disposition should be allocated between the Class A common stock and the one-third of one warrant based on their respective relative fair market values at the time of disposition. The separation of shares of Class A common stock and warrants comprising units should not be a taxable event for U.S. federal income tax purposes.

The foregoing treatment of the shares of Class A common stock and warrants and a holder's purchase price allocation are not binding on the Internal Revenue Service ("IRS") or the courts. Because there are no authorities that directly address instruments that are similar to the units, no assurance can be given that the IRS or the courts will agree with the characterization described above or the discussion below. Accordingly, each prospective investor is urged to consult its own tax advisors regarding the tax consequences of an investment in a unit (including alternative characterizations of a unit). The balance of this discussion assumes that the characterization of the units described above is respected for U.S. federal income tax purposes.

U.S. Holders

This section applies to you if you are a "U.S. holder." A U.S. holder is a beneficial owner of our units, shares of Class A common stock or warrants who or that is, for U.S. federal income tax purposes:

- an individual who is a citizen or resident of the United States;
- a corporation (or other entity taxable as a corporation for U.S. federal income tax purposes) organized in or under the laws of the United States, any state thereof or the District of Columbia; or
- an estate or trust the income of which is includible in gross income for U.S. federal income tax purposes regardless of its source.

Taxation of Distributions. If we pay cash distributions to U.S. holders of shares of our Class A common stock, such distributions generally will constitute dividends for U.S. federal income tax purposes to the extent paid from our current or accumulated earnings and profits, as determined under U.S. federal income tax principles. Distributions in excess of current and accumulated earnings and profits will constitute a return of capital that will be applied against and reduce (but not below zero) the U.S. holder's adjusted tax basis in our

Class A common stock. Any remaining excess will be treated as gain realized on the sale or other disposition of the Class A common stock and will be treated as described under “U.S. Holders—Gain or Loss on Sale, Taxable Exchange or Other Taxable Disposition of Class A Common Stock” below.

Dividends we pay to a U.S. holder that is a taxable corporation generally will qualify for the dividends received deduction if the requisite holding period is satisfied. With certain exceptions (including, but not limited to, dividends treated as investment income for purposes of investment interest deduction limitations), and provided certain holding period requirements are met, dividends we pay to a non-corporate U.S. holder generally will constitute “qualified dividends” that will be subject to tax at the maximum tax rate accorded to long-term capital gains. It is unclear whether the redemption rights with respect to the Class A common stock described in this prospectus may prevent a U.S. holder from satisfying the applicable holding period requirements with respect to the dividends received deduction or the preferential tax rate on qualified dividend income, as the case may be.

Gain or Loss on Sale, Taxable Exchange or Other Taxable Disposition of Class A Common Stock and Warrants. Upon a sale or other taxable disposition of our Class A common stock or warrants which, in general, would include a redemption of Class A common stock or warrants that is treated as a sale of such securities as described below, and including as a result of a dissolution and liquidation in the event we do not consummate an initial business combination within the required time period, a U.S. holder generally will recognize capital gain or loss in an amount equal to the difference between the amount realized and the U.S. holder’s adjusted tax basis in the Class A common stock or warrants. Any such capital gain or loss generally will be long-term capital gain or loss if the U.S. holder’s holding period for the Class A common stock or warrants so disposed of exceeds one year. It is unclear, however, whether the redemption rights with respect to the Class A common stock described in this prospectus may suspend the running of the applicable holding period for this purpose. Long-term capital gains recognized by non-corporate U.S. holders will be eligible to be taxed at reduced rates. The deductibility of capital losses is subject to limitations.

Generally, the amount of gain or loss recognized by a U.S. holder is an amount equal to the difference between (i) the sum of the amount of cash and the fair market value of any property received in such disposition (or, if the Class A common stock or warrants are held as part of units at the time of the disposition, the portion of the amount realized on such disposition that is allocated to the Class A common stock or the warrants based upon the then fair market values of the Class A common stock and the warrants included in the units) and (ii) the U.S. holder’s adjusted tax basis in its Class A common stock or warrants so disposed of. A U.S. holder’s adjusted tax basis in its Class A common stock or warrants generally will equal the U.S. holder’s acquisition cost (that is, as discussed above, the portion of the purchase price of a unit allocated to a share of Class A common stock or one-third of one warrant or, as discussed below, the U.S. holder’s initial basis for Class A common stock received upon exercise of warrants) less, in the case of a share of Class A common stock, any prior distributions treated as a return of capital.

Redemption of Class A Common Stock. In the event that a U.S. holder’s Class A common stock is redeemed pursuant to the redemption provisions described in this prospectus under the section of this prospectus entitled “Description of Securities—Common Stock” or if we purchase a U.S. holder’s Class A common stock in an open market transaction, the treatment of the transaction for U.S. federal income tax purposes will depend on whether the redemption qualifies as sale of the Class A common stock under Section 302 of the Code. If the redemption qualifies as a sale of common stock, the U.S. holder will be treated as described under “U.S. Holders—Gain or Loss on Sale, Taxable Exchange or Other Taxable Disposition of Class A Common Stock and Warrants” above. If the redemption does not qualify as a sale of common stock, the U.S. holder will be treated as receiving a corporate distribution with the tax consequences described above under “U.S. Holders—Taxation of Distributions”. Whether a redemption qualifies for sale treatment will depend largely on the total number of shares of our stock treated as held by the U.S. holder (including any stock constructively owned by the U.S. holder as a result of owning warrants) relative to all of our shares outstanding both before and after the redemption. The redemption of Class A common stock generally will be treated as a sale of the Class A common

stock (rather than as a corporate distribution) if the redemption (i) is “substantially disproportionate” with respect to the U.S. holder, (ii) results in a “complete termination” of the U.S. holder’s interest in us or (iii) is “not essentially equivalent to a dividend” with respect to the U.S. holder. These tests are explained more fully below.

In determining whether any of the foregoing tests are satisfied, a U.S. holder takes into account not only stock actually owned by the U.S. holder, but also shares of our stock that are constructively owned by it. A U.S. holder may constructively own, in addition to stock owned directly, stock owned by certain related individuals and entities in which the U.S. holder has an interest or that have an interest in such U.S. holder, as well as any stock the U.S. holder has a right to acquire by exercise of an option, which would generally include Class A common stock which could be acquired pursuant to the exercise of the warrants. In order to meet the substantially disproportionate test, the percentage of our outstanding voting stock actually and constructively owned by the U.S. holder immediately following the redemption of Class A common stock must, among other requirements, be less than 80% of the percentage of our outstanding voting stock actually and constructively owned by the U.S. holder immediately before the redemption. There will be a complete termination of a U.S. holder’s interest if either (i) all of the shares of our stock actually and constructively owned by the U.S. holder are redeemed or (ii) all of the shares of our stock actually owned by the U.S. holder are redeemed and the U.S. holder is eligible to waive, and effectively waives in accordance with specific rules, the attribution of stock owned by certain family members and the U.S. holder does not constructively own any other stock. The redemption of the Class A common stock will not be essentially equivalent to a dividend if a U.S. holder’s conversion results in a “meaningful reduction” of the U.S. holder’s proportionate interest in us. Whether the redemption will result in a meaningful reduction in a U.S. holder’s proportionate interest in us will depend on the particular facts and circumstances. However, the IRS has indicated in a published ruling that even a small reduction in the proportionate interest of a small minority stockholder in a publicly held corporation who exercises no control over corporate affairs may constitute such a “meaningful reduction.” A U.S. holder should consult with its own tax advisors as to the tax consequences of a redemption.

If none of the foregoing tests is satisfied, then the redemption will be treated as a corporate distribution and the tax effects will be as described under “U.S. Holders—Taxation of Distributions,” above. After the application of those rules, any remaining tax basis of the U.S. holder in the redeemed Class A common stock will be added to the U.S. holder’s adjusted tax basis in its remaining stock, or, if it has none, to the U.S. holder’s adjusted tax basis in its warrants or possibly in other stock constructively owned by it.

Exercise or Lapse of a Warrant. Except as discussed below with respect to the cashless exercise of a warrant, a U.S. holder generally will not recognize taxable gain or loss the acquisition of common stock upon exercise of a warrant for cash. The U.S. holder’s tax basis in the share of our Class A common stock received upon exercise of the warrant generally will be an amount equal to the sum of the U.S. holder’s initial investment in the warrant (i.e., the portion of the U.S. holder’s purchase price for units that is allocated to the warrant, as described above under “—General Treatment of Units”) and the exercise price. The U.S. holder’s holding period for the Class A common stock received upon exercise of the warrants will begin on the date following the date of exercise (or possibly the date of exercise) of the warrants and will not include the period during which the U.S. holder held the warrants. If a warrant is allowed to lapse unexercised, a U.S. holder generally will recognize a capital loss equal to such holder’s tax basis in the warrant.

The tax consequences of a cashless exercise of a warrant are not clear under current tax law. A cashless exercise may be tax-free, either because the exercise is not a gain realization event or because the exercise is treated as a recapitalization for U.S. federal income tax purposes. In either tax-free situation, a U.S. holder’s basis in the Class A common stock received would equal the holder’s basis in the warrant. If the cashless exercise were treated as not being a gain realization event, a U.S. holder’s holding period in the Class A common stock would be treated as commencing on the date following the date of exercise (or possibly the date of exercise) of the warrant. If the cashless exercise were treated as a recapitalization, the holding period of the Class A common stock would include the holding period of the warrant.

It is also possible that a cashless exercise could be treated in part as a taxable exchange in which gain or loss would be recognized. In such event, a U.S. holder could be deemed to have surrendered warrants equal to the number of shares of Class A common stock having a value equal to the exercise price for the total number of warrants to be exercised. The U.S. holder would recognize capital gain or loss in an amount equal to the difference between the fair market value of the Class A common stock represented by the warrants deemed surrendered and the U.S. holder's tax basis in the warrants deemed surrendered. In this case, a U.S. holder's tax basis in the Class A common stock received would equal the sum of the fair market value of the Class A common stock represented by the warrants deemed surrendered and the U.S. holder's tax basis in the warrants exercised. A U.S. holder's holding period for the Class A common stock would commence on the date following the date of exercise (or possibly the date of exercise) of the warrant.

Due to the absence of authority on the U.S. federal income tax treatment of a cashless exercise, there can be no assurance which, if any, of the alternative tax consequences and holding periods described above would be adopted by the IRS or a court of law. Accordingly, U.S. holders should consult their tax advisors regarding the tax consequences of a cashless exercise.

Possible Constructive Distributions. The terms of each warrant provide for an adjustment to the number of shares of common stock for which the warrant may be exercised or to the exercise price of the warrant in certain events, as discussed in the section of this prospectus entitled "Description of Securities—Warrants—Public Stockholders' Warrants." An adjustment which has the effect of preventing dilution generally is not taxable. The U.S. holders of the warrants would, however, be treated as receiving a constructive distribution from us if, for example, the adjustment increases the warrant holders' proportionate interest in our assets or earnings and profits (e.g., through an increase in the number of shares of common stock that would be obtained upon exercise) as a result of a distribution of cash to the holders of shares of our common stock which is taxable to the U.S. holders of such shares as described under "U.S. Holders—Taxation of Distributions" above. Such constructive distribution would be subject to tax as described under that section in the same manner as if the U.S. holders of the warrants received a cash distribution from us equal to the fair market value of such increased interest.

Information Reporting and Backup Withholding. In general, information reporting requirements may apply to dividends paid to a U.S. holder and to the proceeds of the sale or other disposition of our units, shares of Class A common stock and warrants, unless the U.S. holder is an exempt recipient. Backup withholding may apply to such payments if the U.S. holder fails to provide a taxpayer identification number, a certification of exempt status or has been notified by the IRS that it is subject to backup withholding (and such notification has not been withdrawn).

Any amounts withheld under the backup withholding rules will be allowed as a refund or a credit against a U.S. holder's U.S. federal income tax liability provided the required information is timely furnished to the IRS.

Non-U.S. Holders

This section applies to you if you are a "Non-U.S. holder." A Non-U.S. holder is a beneficial owner of our units, that is not a U.S. Holder for U.S. federal income tax purposes.

Taxation of Distributions. In general, any distributions we make to a Non-U.S. holder of shares of our Class A common stock, to the extent paid out of our current or accumulated earnings and profits (as determined under U.S. federal income tax principles), will constitute dividends for U.S. federal income tax purposes and, provided such dividends are not effectively connected with the Non-U.S. holder's conduct of a trade or business within the United States, we will be required to withhold tax from the gross amount of the dividend at a rate of 30%, unless such Non-U.S. holder is eligible for a reduced rate of withholding tax under an applicable income tax treaty and provides proper certification of its eligibility for such reduced rate (usually on an IRS Form W-8BEN or W-8BEN-E). Any distribution not constituting a dividend will be treated first as reducing (but not below zero) the Non-U.S. holder's adjusted tax basis in its shares of our Class A common stock and, to the

extent such distribution exceeds the Non-U.S. holder's adjusted tax basis, as gain realized from the sale or other disposition of the Class A common stock, which will be treated as described under "Non-U.S. Holders—Gain on Sale, Taxable Exchange or Other Taxable Disposition of Class A Common Stock and Warrants" below. In addition, if we determine that we are likely to be classified as a "U.S. real property holding corporation" (see "Non-U.S. Holders—Gain on Sale, Taxable Exchange or Other Taxable Disposition of Class A Common Stock and Warrants" below), we will withhold 15% of any distribution that exceeds our current and accumulated earnings and profits.

The withholding tax does not apply to dividends paid to a Non-U.S. holder who provides a Form W-8ECI, certifying that the dividends are effectively connected with the Non-U.S. holder's conduct of a trade or business within the United States. Instead, the effectively connected dividends will be subject to regular U.S. income tax as if the Non-U.S. holder were a U.S. resident, subject to an applicable income tax treaty providing otherwise. A Non-U.S. corporation receiving effectively connected dividends may also be subject to an additional "branch profits tax" imposed at a rate of 30% (or a lower treaty rate).

Exercise of a Warrant. The U.S. federal income tax treatment of a Non-U.S. holder's exercise of a warrant, or the lapse of a warrant held by a Non-U.S. holder, generally will correspond to the U.S. federal income tax treatment of the exercise or lapse of a warrant by a U.S. holder, as described under "U.S. holders—Exercise or Lapse of a Warrant" above, although to the extent a cashless exercise results in a taxable exchange, the consequences would be similar to those described below in "Non-U.S. Holders—Gain on Sale, Taxable Exchange or Other Taxable Disposition of Class A Common Stock and Warrants."

Gain on Sale, Taxable Exchange or Other Taxable Disposition of Class A Common Stock and Warrants. A Non-U.S. holder generally will not be subject to U.S. federal income or withholding tax in respect of gain recognized on a sale, taxable exchange or other taxable disposition of our Class A common stock, which would include a dissolution and liquidation in the event we do not complete an initial business combination within 24 months from the closing of this offering, or warrants (including an expiration or redemption of our warrants), in each case without regard to whether those securities were held as part of a unit, unless:

- the gain is effectively connected with the conduct of a trade or business by the Non-U.S. holder within the United States (and, under certain income tax treaties, is attributable to a United States permanent establishment or fixed base maintained by the Non-U.S. holder);
- the Non-U.S. holder is an individual present in the United States for 183 days or more in the taxable year of disposition and certain other conditions are met; or
- we are or have been a "U.S. real property holding corporation" for U.S. federal income tax purposes at any time during the shorter of the five-year period ending on the date of disposition or the period that the Non-U.S. holder held our Class A common stock, and, in the case where shares of our Class A common stock are regularly traded on an established securities market, the Non-U.S. holder has owned, directly or constructively, more than 5% of our Class A common stock at any time within the shorter of the five-year period preceding the disposition or such Non-U.S. holder's holding period for the shares of our Class A common stock. There can be no assurance that our Class A common stock will be treated as regularly traded on an established securities market for this purpose.

Unless an applicable treaty provides otherwise, gain described in the first bullet point above will be subject to tax at generally applicable U.S. federal income tax rates as if the Non-U.S. holder were a U.S. resident. Any gains described in the first bullet point above of a Non-U.S. holder that is a foreign corporation may also be subject to an additional "branch profits tax" at a 30% rate (or lower treaty rate). Gain described in the second bullet point above will be subject to a 30% U.S. federal income tax rate.

If the third bullet point above applies to a Non-U.S. holder, gain recognized by such holder on the sale, exchange or other disposition of our Class A common stock or warrants will be subject to tax at generally

applicable U.S. federal income tax rates. In addition, a buyer of our Class A common stock or warrants from such holder may be required to withhold U.S. federal income tax at a rate of 15% of the amount realized upon such disposition. We cannot determine whether we will be a U.S. real property holding corporation in the future until we complete an initial business combination. We will be classified as a U.S. real property holding corporation if the fair market value of our “U.S. real property interests” equals or exceeds 50 percent of the sum of the fair market value of our worldwide real property interests plus our other assets used or held for use in a trade or business, as determined for U.S. federal income tax purposes.

Redemption of Class A Common Stock. The characterization for U.S. federal income tax purposes of the redemption of a Non-U.S. holder’s Class A common stock pursuant to the redemption provisions described in the section of this prospectus entitled “Description of Securities—Common Stock” generally will correspond to the U.S. federal income tax characterization of such a redemption of a U.S. holder’s Class A common stock, as described under “U.S. Holders—Redemption of Class A Common Stock” above, and the consequences of the redemption to the Non-U.S. holder will be as described above under “Non-U.S. holders—Taxation of Distributions” and “Non-U.S. Holders—Gain on Sale, Taxable Exchange or Other Taxable Disposition of Class A Common Stock and Warrants,” as applicable.

Information Reporting and Backup Withholding. Information returns will be filed with the IRS in connection with payments of dividends and the proceeds from a sale or other disposition of our units, shares of Class A common stock and warrants. A Non-U.S. holder may have to comply with certification procedures to establish that it is not a United States person in order to avoid information reporting and backup withholding requirements. The certification procedures required to claim a reduced rate of withholding under a treaty will satisfy the certification requirements necessary to avoid the backup withholding as well. The amount of any backup withholding from a payment to a Non-U.S. holder will be allowed as a credit against such holder’s U.S. federal income tax liability and may entitle such holder to a refund, provided that the required information is timely furnished to the IRS.

FATCA Withholding Taxes. Provisions commonly referred to as “FATCA” impose withholding of 30% on payments of dividends (including constructive dividends) on our Class A common stock or warrants, and, beginning in 2019, sales or other disposition proceeds from our units, shares of Class A common stock and warrants to “foreign financial institutions” (which is broadly defined for this purpose and in general includes investment vehicles) and certain other Non-U.S. entities unless various U.S. information reporting and due diligence requirements (generally relating to ownership by U.S. persons of interests in or accounts with those entities) have been satisfied, or an exemption applies (typically certified as to by the delivery of a properly completed IRS Form W-8BEN-E). If FATCA withholding is imposed, a beneficial owner that is not a foreign financial institution generally will be entitled to a refund of any amounts withheld by filing a U.S. federal income tax return (which may entail significant administrative burden). Foreign financial institutions located in jurisdictions that have an intergovernmental agreement with the United States governing FATCA may be subject to different rules. Prospective investors should consult their tax advisers regarding the effects of FATCA on their investment in our securities.

UNDERWRITING

Citigroup Global Markets Inc., Deutsche Bank Securities Inc., and Credit Suisse are acting as joint book-running managers of the offering and as representatives of the underwriters named below. Subject to the terms and conditions of the underwriting agreement dated the date of this prospectus, each underwriter named below has severally agreed to purchase, and we have agreed to sell to that underwriter, the number of units set forth opposite the underwriter's name.

<u>Underwriter</u>	<u>Number of Units</u>
Citigroup Global Markets Inc.	
Deutsche Bank Securities Inc.	
Credit Suisse	
Total	35,000,000

The underwriting agreement provides that the obligations of the underwriters to purchase the units included in this offering are subject to approval of legal matters by counsel and to other conditions. The underwriters are obligated to purchase all of the units (other than those covered by the over-allotment option described below) if they purchase any of the units.

Units sold by the underwriters to the public will initially be offered at the initial public offering price set forth on the cover of this prospectus. Any units sold by the underwriters to securities dealers may be sold at a discount from the initial public offering price not to exceed \$ _____ per unit. If all of the units are not sold at the initial offering price, the underwriters may change the offering price and the other selling terms. The representatives have advised us that the underwriters do not intend to make sales to discretionary accounts.

If the underwriters sell more units than the total number set forth in the table above, we have granted to the underwriters an option, exercisable for 45 days from the date of this prospectus, to purchase up to 5,250,000 additional units at the public offering price less the underwriting discount. The underwriters may exercise this option solely for the purpose of covering over-allotments, if any, in connection with this offering. To the extent the option is exercised, each underwriter must purchase a number of additional units approximately proportionate to that underwriter's initial purchase commitment. Any units issued or sold under the option will be issued and sold on the same terms and conditions as the other units that are the subject of this offering.

We, our sponsor and our officers and directors have agreed that, for a period of 180 days from the date of this prospectus, we and they will not, without the prior written consent of the representatives, offer, sell, contract to sell, pledge or otherwise dispose of, directly or indirectly, any units, warrants, shares of common stock or any other securities convertible into, or exercisable, or exchangeable for, shares of common stock, subject to certain exceptions. The representatives in their sole discretion may release any of the securities subject to these lock-up agreements at any time without notice, other than in the case of the officers and directors, which shall be with notice. Our sponsor, officers and directors are also subject to separate transfer restrictions on their founder shares and private placement warrants pursuant to the insider letters as described herein.

Our initial stockholders have agreed not to transfer, assign or sell any of their founder shares until the earlier to occur of (A) one year after the completion of our initial business combination or (B) subsequent to our initial business combination, (x) if the last sale price of our Class A common stock equals or exceeds \$12.00 per share (as adjusted for stock splits, stock dividends, reorganizations, recapitalizations and the like) for any 20 trading days within any 30-trading day period commencing at least 150 days after our initial business combination, or (y) the date on which we complete a liquidation, merger, capital stock exchange, reorganization or other similar transaction that results in all of our stockholders having the right to exchange their shares of common stock for cash, securities or other property (except with respect to permitted transferees as described herein under the section of this prospectus entitled "Principal Stockholders—Restrictions on Transfers of Founder Shares and

Private Placement Warrants”). The private placement warrants (including the Class A common stock issuable upon exercise of the private placement warrants) will not be transferable, assignable or saleable until 30 days after the completion of our initial business combination (except with respect to permitted transferees as described herein under the section of this prospectus entitled “Principal Stockholders—Restrictions on Transfers of Founder Shares and Private Placement Warrants”).

Prior to this offering, there has been no public market for our securities. Consequently, the initial public offering price for the units was determined by negotiations between us and the representatives. Among the factors considered in determining the initial public offering price were the history and prospects of companies whose principal business is the acquisition of other companies, prior offerings of those companies, our management, our capital structure, and currently prevailing general conditions in the equity securities markets, including current market valuations of publicly traded companies considered comparable to our company. We cannot assure you, however, that the price at which the units, Class A common stock or warrants will sell in the public market after this offering will not be lower than the initial public offering price or that an active trading market in our units, Class A common stock or warrants will develop and continue after this offering.

We have applied to list our units on NASDAQ under the symbol “KAACU.” We cannot guarantee that our securities will be approved for listing on NASDAQ. We expect that our Class A common stock and warrants will be listed under the symbols “KAAC” and “KAACW,” respectively, once the Class A common stock and warrants begin separate trading.

The following table shows the underwriting discounts and commissions that we are to pay to the underwriters in connection with this offering. These amounts are shown assuming both no exercise and full exercise of the underwriters’ over-allotment option.

	Payable by Kayne Anderson Acquisition Corp.	
	No Exercise	Full Exercise
Per Unit(1)	\$ 0.55	\$ 0.55
Total(1)	\$19,250,000	\$22,137,500

(1) Includes \$0.35 per unit, or \$12,250,000 (or \$14,087,500 if the over-allotment option is exercised in full) in the aggregate payable to the underwriters for deferred underwriting commissions to be placed in a trust account located in the United States as described herein. The deferred commissions will be released to the underwriters only on completion of an initial business combination, in an amount equal to \$0.35 multiplied by the number of shares of Class A common stock sold as part of the units in this offering, as described in this prospectus.

If we do not complete our initial business combination and subsequently liquidate, the trustee and the underwriters have agreed that (i) they will forfeit any rights or claims to their deferred underwriting discounts and commissions, including any accrued interest thereon, then in the trust account upon liquidation, and (ii) that the deferred underwriters’ discounts and commissions will be distributed on a pro rata basis, including interest earned on the funds held in the trust account and not previously released to us to pay our franchise and income taxes to the public stockholders.

In connection with the offering, the underwriters may purchase and sell units in the open market. Purchases and sales in the open market may include short sales, purchases to cover short positions, which may include purchases pursuant to the over-allotment option and stabilizing purchases, in accordance with Regulation M under the Exchange Act.

- Short sales involve secondary market sales by the underwriters of a greater number of units than they are required to purchase in the offering.

- “Covered” short sales are sales of units in an amount up to the number of units represented by the underwriters’ over-allotment option.
- “Naked” short sales are sales of units in an amount in excess of the number of units represented by the underwriters’ over-allotment option.
- Covering transactions involve purchases of units either pursuant to the over-allotment option or in the open market after the distribution has been completed in order to cover short positions.
- To close a naked short position, the underwriters must purchase units in the open market after the distribution has been completed. A naked short position is more likely to be created if the underwriters are concerned that there may be downward pressure on the price of the units in the open market after pricing that could adversely affect investors who purchase in the offering.
- To close a covered short position, the underwriters must purchase units in the open market after the distribution has been completed or must exercise the over-allotment option. In determining the source of units to close the covered short position, the underwriters will consider, among other things, the price of units available for purchase in the open market as compared to the price at which they may purchase units through the over-allotment option.
- Stabilizing transactions involve bids to purchase units so long as the stabilizing bids do not exceed a specified maximum.

Purchases to cover short positions and stabilizing purchases, as well as other purchases by the underwriters for their own accounts, may have the effect of preventing or retarding a decline in the market price of the units. They may also cause the price of the units to be higher than the price that would otherwise exist in the open market in the absence of these transactions. The underwriters may conduct these transactions in the over-the-counter market or otherwise. If the underwriters commence any of these transactions, they may discontinue them at any time.

We estimate that our portion of the total expenses of this offering payable by us will be \$750,000, excluding underwriting discounts and commissions. We have agreed to reimburse the underwriters for all expenses and fees related to the review by FINRA, which will not exceed \$25,000.

We have agreed to indemnify the underwriters against certain liabilities, including liabilities under the Securities Act, or to contribute to payments the underwriters may be required to make because of any of those liabilities.

We are not under any contractual obligation to engage any of the underwriters to provide any services for us after this offering, and have no present intent to do so. However, any of the underwriters may introduce us to potential target businesses or assist us in raising additional capital in the future. If any of the underwriters provide services to us after this offering, we may pay such underwriter fair and reasonable fees that would be determined at that time in an arm’s length negotiation; provided that no agreement will be entered into with any of the underwriters and no fees for such services will be paid to any of the underwriters prior to the date that is 90 days from the date of this prospectus, unless FINRA determines that such payment would not be deemed underwriters’ compensation in connection with this offering and we may pay the underwriters of this offering or any entity with which they are affiliated a finder’s fee or other compensation for services rendered to us in connection with the completion of a business combination.

Some of the underwriters and their affiliates have engaged in, and may in the future engage in, investment banking and other commercial dealings in the ordinary course of business with us or our affiliates. They have received, or may in the future receive, customary fees and commissions for these transactions.

In addition, in the ordinary course of their business activities, the underwriters and their affiliates may make or hold a broad array of investments and actively trade debt and equity securities (or related derivative securities)

and financial instruments (including bank loans) for their own account and for the accounts of their customers. Such investments and securities activities may involve securities and/or instruments of ours or our affiliates. The underwriters and their affiliates may also make investment recommendations and/or publish or express independent research views in respect of such securities or financial instruments and may hold, or recommend to clients that they acquire, long and/or short positions in such securities and instruments.

Notice to Prospective Investors in the European Economic Area

In relation to each member state of the European Economic Area that has implemented the Prospectus Directive (each, a “relevant member state”), with effect from and including the date on which the Prospectus Directive is implemented in that relevant member state (the “relevant implementation date”), an offer of units described in this prospectus may not be made to the public in that relevant member state prior to the publication of a prospectus in relation to the units that has been approved by the competent authority in that relevant member state or, where appropriate, approved in another relevant member state and notified to the competent authority in that relevant member state, all in accordance with the Prospectus Directive, except that, with effect from and including the relevant implementation date, an offer of our units may be made to the public in that relevant member state at any time:

- to any legal entity which is a qualified investor as defined in the Prospectus Directive;
- to fewer than 100, or, if the relevant member state has implemented the relevant provisions of the 2010 PD Amending Directive, 150 natural or legal persons (other than qualified investors as defined in the Prospectus Directive), as permitted under the Prospectus Directive, subject to obtaining the prior consent of the relevant Dealer or Dealers nominated by the issuer for any such offer; or natural or legal persons (other than qualified investors as defined below) subject to obtaining the prior consent of the underwriters for any such offer; or
- in any other circumstances that do not require the publication by us of a prospectus pursuant to Article 3 of the Prospectus Directive.

Each purchaser of units described in this prospectus located within a relevant member state will be deemed to have represented, acknowledged and agreed that it is a “qualified investor” within the meaning of Article 2(1)(e) of the Prospectus Directive.

For the purpose of this provision, the expression an “offer of units to the public” in any relevant member state means the communication in any form and by any means of sufficient information on the terms of the offer and the units to be offered so as to enable an investor to decide to purchase or subscribe for the units, as the expression may be varied in that member state by any measure implementing the Prospectus Directive in that member state, and the expression “Prospectus Directive” means Directive 2003/71/EC (and amendments thereto, including the 2010 PD Amending Directive to the extent implemented by the relevant member state) and includes any relevant implementing measure in each relevant member state. The expression 2010 PD Amending Directive means Directive 2010/73/EU.

We have not authorized and do not authorize the making of any offer of units through any financial intermediary on their behalf, other than offers made by the underwriters with a view to the final placement of the units as contemplated in this prospectus. Accordingly, no purchaser of the units, other than the underwriters, is authorized to make any further offer of the units on behalf of us or the underwriters.

Notice to Prospective Investors in the United Kingdom

This prospectus is only being distributed to, and is only directed at, persons in the United Kingdom that are qualified investors within the meaning of Article 2(1)(e) of the Prospectus Directive that are also (i) investment professionals falling within Article 19(5) of the Financial Services and Markets Act 2000 (Financial Promotion)

Order 2005 (the “Order”) or (ii) high net worth entities, and other persons to whom it may lawfully be communicated, falling within Article 49(2)(a) to (d) of the Order (each such person being referred to as a “relevant person”). The units are only available to, and any invitation, offer or agreement to purchase or otherwise acquire such units will be engaged in only with, relevant persons. This prospectus and its contents are confidential and should not be distributed, published or reproduced (in whole or in part) or disclosed by recipients to any other persons in the United Kingdom. Any person in the United Kingdom that is not a relevant person should not act or rely on this document or any of its contents.

Notice to Prospective Investors in France

Neither this prospectus nor any other offering material relating to the units described in this prospectus has been submitted to the clearance procedures of the Autorité des Marchés Financiers or of the competent authority of another member state of the European Economic Area and notified to the Autorité des Marchés Financiers. The units have not been offered or sold and will not be offered or sold, directly or indirectly, to the public in France. Neither this prospectus nor any other offering material relating to the units has been or will be:

- released, issued, distributed or caused to be released, issued or distributed to the public in France; or
- used in connection with any offer for subscription or sale of the units to the public in France.

Such offers, sales and distributions will be made in France only:

- To qualified investors (investisseurs qualifiés) and/or to a restricted circle of investors (cercle restreint d’investisseurs), in each case investing for their own account, all as defined in, and in accordance with, articles L.411-2, D.411-1, D.411-2, D.734-1, D.744-1, D.754-1 and D.764-1 of the French Code monétaire et financier;
- to investment services providers authorized to engage in portfolio management on behalf of third parties; or
- in a transaction that, in accordance with article L.411-2-II-1° -or-2° -or 3° of the French Code monétaire et financier and article 211-2 of the General Regulations (Règlement Général) of the Autorité des Marchés Financiers, does not constitute a public offer (appel public à l’épargne).

The units may be resold directly or indirectly, only in compliance with articles L.411-1, L.411-2, L.412-1 and L.621-8 through L.621-8-3 of the French Code monétaire et financier.

Notice to Prospective Investors in Hong Kong

The units may not be offered or sold in Hong Kong by means of any document other than (i) in circumstances which do not constitute an offer to the public within the meaning of the Companies Ordinance (Cap. 32, Laws of Hong Kong), or (ii) to “professional investors” within the meaning of the Securities and Futures Ordinance (Cap. 571, Laws of Hong Kong) and any rules made thereunder, or (iii) in other circumstances which do not result in the document being a “prospectus” within the meaning of the Companies Ordinance (Cap. 32, Laws of Hong Kong) and no advertisement, invitation or document relating to the units may be issued or may be in the possession of any person for the purpose of issue (in each case whether in Hong Kong or elsewhere), which is directed at, or the contents of which are likely to be accessed or read by, the public in Hong Kong (except if permitted to do so under the laws of Hong Kong) other than with respect to units which are or are intended to be disposed of only to persons outside Hong Kong or only to “professional investors” within the meaning of the Securities and Futures Ordinance (Cap. 571, Laws of Hong Kong) and any rules made thereunder.

Notice to Prospective Investors in Japan

The units offered in this prospectus have not been and will not be registered under the Financial Instruments and Exchange Law of Japan. The units have not been offered or sold and will not be offered or sold, directly or indirectly, in Japan or to or for the account of any resident of Japan (including any corporation or other entity organized under the laws of Japan), except (i) pursuant to an exemption from the registration requirements of the Financial Instruments and Exchange Law and (ii) in compliance with any other applicable requirements of Japanese law.

Notice to Prospective Investors in Singapore

This prospectus has not been registered as a prospectus with the Monetary Authority of Singapore. Accordingly, this prospectus and any other document or material in connection with the offer or sale, or invitation for subscription or purchase, of the units may not be circulated or distributed, nor may the units be offered or sold, or be made the subject of an invitation for subscription or purchase, whether directly or indirectly, to persons in Singapore other than (i) to an institutional investor under Section 274 of the Securities and Futures Act, Chapter 289 of Singapore (the “SFA”), (ii) to a relevant person pursuant to Section 275(1), or any person pursuant to Section 275(1A), and in accordance with the conditions specified in Section 275 of the SFA or (iii) otherwise pursuant to, and in accordance with the conditions of, any other applicable provision of the SFA, in each case subject to compliance with conditions set forth in the SFA.

Where the units are subscribed or purchased under Section 275 of the SFA by a relevant person which is

- a corporation (which is not an accredited investor (as defined in Section 4A of the SFA)) the sole business of which is to hold investments and the entire share capital of which is owned by one or more individuals, each of whom is an accredited investor; or
- a trust (where the trustee is not an accredited investor) whose sole purpose is to hold investments and each beneficiary is an accredited investor,

shares, debentures and units of shares and debentures of that corporation or the beneficiaries’ rights and interest (howsoever described) in that trust shall not be transferred within six months after that corporation or that trust has acquired the shares pursuant to an offer made under Section 275 of the SFA except:

- to an institutional investor (for corporations, under Section 274 of the SFA) or to a relevant person defined in Section 275(2) of the SFA, or to any person pursuant to an offer that is made on terms that such shares, debentures and units of shares and debentures of that corporation or such rights and interest in that trust are acquired at a consideration of not less than \$200,000 (or its equivalent in a foreign currency) for each transaction, whether such amount is to be paid for in cash or by exchange of securities or other assets, and further for corporations, in accordance with the conditions specified in Section 275 of the SFA;
- where no consideration is or will be given for the transfer; or
- where the transfer is by operation of law.

Notice to Prospective Investors in Canada

The units may be sold in Canada only to purchasers purchasing, or deemed to be purchasing, as principal that are accredited investors, as defined in National Instrument 45-106 *Prospectus Exemptions* or subsection 73.3(1) of the *Securities Act* (Ontario), and are permitted clients, as defined in National Instrument 31-103 *Registration Requirements, Exemptions and Ongoing Registrant Obligations*. Any resale of the units must be made in accordance with an exemption from, or in a transaction not subject to, the prospectus requirements of applicable securities laws.

Securities legislation in certain provinces or territories of Canada may provide a purchaser with remedies for rescission or damages if this prospectus (including any amendment thereto) contains a misrepresentation, provided that the remedies for rescission or damages are exercised by the purchaser within the time limit prescribed by the securities legislation of the purchaser’s province or territory. The purchaser should refer to any applicable provisions of the securities legislation of the purchaser’s province or territory for particulars of these rights or consult with a legal advisor.

Pursuant to section 3A.3 of National Instrument 33-105 *Underwriting Conflicts* (NI 33-105), the underwriters are not required to comply with the disclosure requirements of NI 33-105 regarding underwriter conflicts of interest in connection with this offering.

Notice to Prospective Investors in the Dubai International Financial Centre

This prospectus relates to an Exempt Offer in accordance with the Offered Securities Rules of the Dubai Financial Services Authority (“DFSA”). This prospectus is intended for distribution only to persons of a type specified in the Offered Securities Rules of the DFSA. It must not be delivered to, or relied on by, any other person. The DFSA has no responsibility for reviewing or verifying any documents in connection with Exempt Offers. The DFSA has not approved this prospectus nor taken steps to verify the information set forth herein and has no responsibility for the prospectus. The securities to which this prospectus relates may be illiquid and/or subject to restrictions on their resale. Prospective purchasers of the securities offered should conduct their own due diligence on the securities. If you do not understand the contents of this prospectus you should consult an authorized financial advisor.

Notice to Prospective Investors in Australia

No placement document, prospectus, product disclosure statement or other disclosure document has been lodged with the Australian Securities and Investments Commission (“ASIC”), in relation to the offering. This prospectus does not constitute a prospectus, product disclosure statement or other disclosure document under the Corporations Act 2001 (the “Corporations Act”), and does not purport to include the information required for a prospectus, product disclosure statement or other disclosure document under the Corporations Act. Any offer in Australia of the securities may only be made to persons (the “Exempt Investors”) who are “sophisticated investors” (within the meaning of section 708(8) of the Corporations Act), “professional investors” (within the meaning of section 708(11) of the Corporations Act) or otherwise pursuant to one or more exemptions contained in section 708 of the Corporations Act so that it is lawful to offer the securities without disclosure to investors under Chapter 6D of the Corporations Act.

The securities applied for by Exempt Investors in Australia must not be offered for sale in Australia in the period of 12 months after the date of allotment under the offering, except in circumstances where disclosure to investors under Chapter 6D of the Corporations Act would not be required pursuant to an exemption under section 708 of the Corporations Act or otherwise or where the offer is pursuant to a disclosure document which complies with Chapter 6D of the Corporations Act. Any person acquiring securities must observe such Australian on-sale restrictions. This prospectus contains general information only and does not take account of the investment objectives, financial situation or particular needs of any particular person. It does not contain any securities recommendations or financial product advice. Before making an investment decision, investors need to consider whether the information in this prospectus is appropriate to their needs, objectives and circumstances, and, if necessary, seek expert advice on those matters.

Notice to Prospective Investors in Switzerland

The securities may not be publicly offered in Switzerland and will not be listed on the SIX Swiss Exchange (“SIX”) or on any other stock exchange or regulated trading facility in Switzerland. This document has been prepared without regard to the disclosure standards for issuance prospectuses under art. 652a or art. 1156 of the Swiss Code of Obligations or the disclosure standards for listing prospectuses under art. 27 ff. of the SIX Listing Rules or the listing rules of any other stock exchange or regulated trading facility in Switzerland. Neither this document nor any other offering or marketing material relating to the securities or the offering may be publicly distributed or otherwise made publicly available in Switzerland.

Neither this document nor any other offering or marketing material relating to the offering, the company, the shares have been or will be filed with or approved by any Swiss regulatory authority. In particular, this document will not be filed with, and the offer of securities will not be supervised by, the Swiss Financial Market Supervisory Authority FINMA (FINMA), and the offer of securities has not been and will not be authorized under the Swiss Federal Act on Collective Investment Schemes (“CISA”). The investor protection afforded to acquirers of interests in collective investment schemes under the CISA does not extend to acquirers of securities.

LEGAL MATTERS

Ellenoff Grossman & Schole LLP, New York, New York, has passed upon the validity of the securities offered hereby on behalf of us. Certain legal matters will be passed upon on behalf of the underwriters by Winston & Strawn LLP.

EXPERTS

The balance sheet of Kayne Anderson Acquisition Corp. as of December 31, 2016, and the related statements of operations, stockholder's equity and cash flows for the period from December 12, 2016 (date of inception) through December 31, 2016, have been audited by WithumSmith+Brown, PC, independent registered public accounting firm, as stated in their report which is incorporated herein. Such financial statements have been incorporated herein in reliance on the report of such firm given upon their authority as experts in accounting and auditing.

WHERE YOU CAN FIND ADDITIONAL INFORMATION

We have filed with the SEC a registration statement on Form S-1 under the Securities Act with respect to the securities we are offering by this prospectus. This prospectus does not contain all of the information included in the registration statement. For further information about us and our securities, you should refer to the registration statement and the exhibits and schedules filed with the registration statement. Whenever we make reference in this prospectus to any of our contracts, agreements or other documents, the references are materially complete but may not include a description of all aspects of such contracts, agreements or other documents, and you should refer to the exhibits attached to the registration statement for copies of the actual contract, agreement or other document.

Upon completion of this offering, we will be subject to the information requirements of the Exchange Act and will file annual, quarterly and current event reports, proxy statements and other information with the SEC. You can read our SEC filings, including the registration statement, over the Internet at the SEC's website at www.sec.gov. You may also read and copy any document we file with the SEC at its public reference facility at 100 F Street, N.E., Washington, D.C. 20549.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Board of Directors and Stockholder of
Kayne Anderson Acquisition Corp.

We have audited the accompanying balance sheet of Kayne Anderson Acquisition Corp. (the “Company”), as of December 31, 2016, and the related statements of operations, changes in stockholder’s equity and cash flows for the period from December 12, 2016 (date of inception) to December 31, 2016. These financial statements are the responsibility of the Company’s management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. Our audit included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company’s internal control over financial reporting. Accordingly, we express no such opinion. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Kayne Anderson Acquisition Corp. as of December 31, 2016, and the results of its operations and its cash flows for the period from December 12, 2016 (date of inception) to December 31, 2016, in accordance with accounting principles generally accepted in the United States of America.

NOTES TO FINANCIAL STATEMENTS

Note 1—Description of Organization and Business Operations

Organization and General

Kayne Anderson Acquisition Corp. (the “**Company**”) was incorporated in Delaware on December 12, 2016. The Company was formed for the purpose of effecting a merger, capital stock exchange, asset acquisition, stock purchase, reorganization or similar business combination with one or more businesses (the “**Initial Business Combination**”). The Company is an “emerging growth company,” as defined in Section 2(a) of the Securities Act of 1933, as amended, or the “**Securities Act**,” as modified by the Jumpstart Our Business Startups Act of 2012 (the “**JOBS Act**”).

At December 31, 2016, the Company had not commenced any operations. All activity for the period from December 12, 2016 (date of inception) through December 31, 2016 relates to the Company’s formation and the proposed initial public offering (“**Proposed Offering**”) described below. The Company will not generate any operating revenues until after completion of its Initial Business Combination, at the earliest. The Company will generate non-operating income in the form of interest income on cash and cash equivalents from the proceeds derived from the Proposed Offering. The Company has selected December 31 as its fiscal year end.

Sponsor and Proposed Financing

The Company’s sponsor is Kayne Anderson Sponsor, LLC, a Delaware limited liability company (the “**Sponsor**”). The Company intends to finance its Initial Business Combination with proceeds from the proposed \$350,000,000 initial public offering of Units (as defined below) (Note 3) and a \$9,000,000 private placement (Note 4). Upon the closing of the Proposed Offering and the private placement, \$350,000,000 (or \$402,500,000 if the underwriters’ over-allotment option is exercised in full—Note 3) will be held in a trust account (the “**Trust Account**”) (discussed below).

The Trust Account

The proceeds held in the Trust Account will be invested only in U.S. government treasury bills with a maturity of one hundred eighty (180) days or less or in money market funds that meet certain conditions under Rule 2a-7 under the Investment Company Act of 1940 and that invest only in direct U.S. government obligations. Funds will remain in the Trust Account until the earlier of (i) the consummation of the Initial Business Combination or (ii) the distribution of the Trust Account proceeds as described below. The remaining proceeds outside the Trust Account may be used to pay for business, legal and accounting due diligence on prospective acquisitions and continuing general and administrative expenses.

The Company’s certificate of incorporation will provide that, other than the withdrawal of interest to pay taxes, if any, none of the funds held in the Trust Account will be released until the earlier of: (i) the completion of the Initial Business Combination; (ii) the redemption of any shares of Class A common stock included in the Units (the “**Public Shares**”) being sold in the Proposed Offering that have been properly tendered in connection with a stockholder vote to amend the Company’s certificate of incorporation to modify the substance or timing of its obligation to redeem 100% of such shares of Class A common stock if it does not complete the Initial Business Combination within 24 months from the closing of the Proposed Offering; and (iii) the redemption of 100% of the shares of Class A common stock included in the Units being sold in the Proposed Offering if the Company is unable to complete an Initial Business Combination within 24 months from the closing of the Proposed Offering (subject to the requirements of law). The proceeds deposited in the Trust Account could become subject to the claims of the Company’s creditors, if any, which could have priority over the claims of the Company’s public stockholders.

Initial Business Combination

The Company's management has broad discretion with respect to the specific application of the net proceeds of the Proposed Offering, although substantially all of the net proceeds of the Proposed Offering are intended to be generally applied toward consummating an Initial Business Combination. The Initial Business Combination must occur with one or more target businesses that together have an aggregate fair market value of at least 80% of the assets held in the Trust Account (excluding the deferred underwriting commissions and taxes payable on income earned on the Trust Account) at the time of the agreement to enter into the Initial Business Combination. Furthermore, there is no assurance that the Company will be able to successfully effect an Initial Business Combination.

The Company, after signing a definitive agreement for an Initial Business Combination, will either (i) seek stockholder approval of the Initial Business Combination at a meeting called for such purpose in connection with which stockholders may seek to redeem their shares, regardless of whether they vote for or against the Initial Business Combination, for cash equal to their pro rata share of the aggregate amount then on deposit in the Trust Account as of two business days prior to the consummation of the Initial Business Combination, including interest but less taxes payable, or (ii) provide stockholders with the opportunity to sell their Public Shares to the Company by means of a tender offer (and thereby avoid the need for a stockholder vote) for an amount in cash equal to their pro rata share of the aggregate amount then on deposit in the Trust Account as of two business days prior to the consummation of the Initial Business Combination, including interest but less taxes payable. The decision as to whether the Company will seek stockholder approval of the Initial Business Combination or will allow stockholders to sell their Public Shares in a tender offer will be made by the Company, solely in its discretion, and will be based on a variety of factors such as the timing of the transaction and whether the terms of the transaction would otherwise require the Company to seek stockholder approval, unless a vote is required by law or under NASDAQ rules. If the Company seeks stockholder approval, it will complete its Initial Business Combination only if a majority of the outstanding shares of common stock voted are voted in favor of the Initial Business Combination. However, in no event will the Company redeem its Public Shares in an amount that would cause its net tangible assets to be less than \$5,000,001 upon consummation of the Initial Business Combination. In such case, the Company would not proceed with the redemption of its Public Shares and the related Initial Business Combination, and instead may search for an alternate Initial Business Combination.

If the Company holds a stockholder vote or there is a tender offer for shares in connection with an Initial Business Combination, a public stockholder will have the right to redeem its shares for an amount in cash equal to its pro rata share of the aggregate amount then on deposit in the Trust Account as of two business days prior to the consummation of the Initial Business Combination, including interest but less taxes payable. As a result, such shares of Class A common stock will be recorded at redemption amount and classified as temporary equity upon the completion of the Proposed Offering, in accordance with the Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") 480, "Distinguishing Liabilities from Equity."

Pursuant to the Company's amended and restated certificate of incorporation, if the Company is unable to complete the Initial Business Combination within 24 months from the closing of the Proposed Offering, the Company will (i) cease all operations except for the purpose of winding up, (ii) as promptly as reasonably possible but not more than ten business days thereafter, subject to lawfully available funds therefor, redeem the Public Shares, at a per-share price, payable in cash, equal to the aggregate amount then on deposit in the Trust Account including interest earned on the funds held in the Trust Account and not previously released to us to pay the Company's franchise and income taxes (less up to \$100,000 of interest to pay dissolution expenses), divided by the number of then outstanding Public Shares, which redemption will completely extinguish public stockholders' rights as stockholders (including the right to receive further liquidating distributions, if any), subject to applicable law, and (iii) as promptly as reasonably possible following such redemption, subject to the approval of the Company's remaining stockholders and the Company's board of directors, dissolve and liquidate, subject in each case to the Company's obligations under Delaware law to provide for claims of creditors and the requirements of other applicable law. The Sponsor and the Company's officers and directors will enter into a

letter agreement with the Company, pursuant to which they will agree to waive their rights to liquidating distributions from the Trust Account with respect to any Founder Shares (as defined below) held by them if the Company fails to complete the Initial Business Combination within 24 months of the closing of the Proposed Offering. However, if the Sponsor or any of the Company's directors, officers or affiliates acquire shares of Class A common stock in or after the Proposed Offering, they will be entitled to liquidating distributions from the Trust Account with respect to such shares if the Company fails to complete the Initial Business Combination within the prescribed time period.

In the event of a liquidation, dissolution or winding up of the Company after an Initial Business Combination, the Company's stockholders are entitled to share ratably in all assets remaining available for distribution to them after payment of liabilities and after provision is made for each class of stock, if any, having preference over the common stock. The Company's stockholders have no preemptive or other subscription rights. There are no sinking fund provisions applicable to the common stock, except that the Company will provide its stockholders with the opportunity to redeem their Public Shares for cash equal to their pro rata share of the aggregate amount then on deposit in the Trust Account, upon the completion of the Initial Business Combination, subject to the limitations described herein.

Note 2—Summary of Significant Accounting Policies

Basis of Presentation

The financial statements of the Company are presented in U.S. dollars in conformity with accounting principles generally accepted in the United States of America (“GAAP”). In connection with the Company's assessment of going concern considerations in accordance with ASU 2014-15, “Disclosures of Uncertainties about an Entity's Ability to Continue as a Going Concern”, as of December 31, 2016, the Company does not have sufficient liquidity to meet its current obligations. However, management has determined that the Company has access to funds from the Sponsor entity that are sufficient to fund the working capital needs of the Company until the earlier of the consummation of the Proposed Offering or a minimum one year from the date of issuance of these financial statements.

Emerging Growth Company

Section 102(b)(1) of the JOBS Act exempts emerging growth companies from being required to comply with new or revised financial accounting standards until private companies (that is, those that have not had a Securities Act registration statement declared effective or do not have a class of securities registered under the Exchange Act) are required to comply with the new or revised financial accounting standards. The JOBS Act provides that a company can elect to opt out of the extended transition period and comply with the requirements that apply to non-emerging growth companies but any such an election to opt out is irrevocable. The Company has elected not to opt out of such extended transition period which means that when a standard is issued or revised and it has different application dates for public or private companies, the Company, as an emerging growth company, can adopt the new or revised standard at the time private companies adopt the new or revised standard.

This may make comparison of the Company's financial statement with another public company which is neither an emerging growth company nor an emerging growth company which has opted out of using the extended transition period difficult or impossible because of the potential differences in accounting standards used.

Net Loss Per Common Share

Net loss per common share is computed by dividing net loss applicable to common stockholders by the weighted average number of common shares outstanding during the period, plus, to the extent dilutive, the

incremental number of shares of common stock to settle warrants, as calculated using the treasury stock method. At December 31, 2016, the Company did not have any dilutive securities and other contracts that could, potentially, be exercised or converted into common stock and then share in the earnings of the Company under the treasury stock method. As a result, diluted loss per common share is the same as basic loss per common share for the period.

Concentration of Credit Risk

Financial instruments that potentially subject the Company to concentrations of credit risk consist of cash accounts in a financial institution, which, at times, may exceed the Federal Depository Insurance Coverage of \$250,000. The Company has not experienced losses on these accounts and management believes the Company is not exposed to significant risks on such accounts.

Financial Instruments

The fair value of the Company's assets and liabilities, which qualify as financial instruments under the FASB ASC 820, "Fair Value Measurements and Disclosures," approximates the carrying amounts represented in the balance sheet.

Use of Estimates

The preparation of financial statements in conformity with GAAP requires the Company's management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Deferred Offering Costs

The Company complies with the requirements of the FASB ASC 340-10-S99-1 and SEC Staff Accounting Bulletin Topic 5A—"Expenses of Offering." Deferred offering costs of approximately \$38,000 consist principally of costs incurred in connection with formation and preparation for the Proposed Offering. These costs, together with the underwriter discount, will be charged to capital upon completion of the Proposed Offering or charged to operations if the Proposed Offering is not completed.

Income Taxes

The Company follows the asset and liability method of accounting for income taxes under FASB ASC 740, "Income Taxes." Deferred tax assets and liabilities are recognized for the estimated future tax consequences attributable to differences between the financial statements carrying amounts of existing assets and liabilities and their respective tax bases. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The effect on deferred tax assets and liabilities of a change in tax rates is recognized in income in the period that included the enactment date. Valuation allowances are established, when necessary, to reduce deferred tax assets to the amount expected to be realized.

FASB ASC 740 prescribes a recognition threshold and a measurement attribute for the financial statement recognition and measurement of tax positions taken or expected to be taken in a tax return. For those benefits to be recognized, a tax position must be more likely than not to be sustained upon examination by taxing authorities. There were no unrecognized tax benefits as of December 31, 2016. The Company recognizes accrued interest and penalties related to unrecognized tax benefits as income tax expense. No amounts were accrued for the payment of interest and penalties at December 31, 2016. The Company is currently not aware of any issues under review that could result in significant payments, accruals or material deviation from its position. The Company is subject to income tax examinations by major taxing authorities since inception.

Recent Accounting Pronouncements

In August 2014, FASB issued ASU 2014-15, “Presentation of Financial Statements—Going Concern” (Subtopic 205-40): Disclosure of Uncertainties about an Entity’s Ability to Continue as a Going Concern. ASU 2014-15 provides guidance on management’s responsibility to evaluate whether there is substantial doubt about an organization’s ability to continue as a going concern and to provide related footnote disclosures. For each reporting period, management will be required to evaluate whether there are conditions or events that raise substantial doubt about a company’s ability to continue as a going concern within one year from the date the financial statements are issued. The amendments in ASU 2014-15 are effective for annual reporting periods ending after December 15, 2016 and for annual and interim periods thereafter. Early adoption is permitted. The Company has adopted the methodologies prescribed by ASU 2014-15 and it did not have a material effect on its financial position or results of operations.

The Company’s management does not believe that any other recently issued, but not yet effective, accounting pronouncements, if currently adopted, would have a material effect on the Company’s financial statements.

Note 3—Public Offering

Pursuant to the Proposed Offering, the Company intends to offer for sale up to 35,000,000 units at a price of \$10.00 per unit (the “**Units**”). The Sponsor has committed to purchase an aggregate of 6,000,000 warrants at a price of \$1.50 per warrant in a private placement that will close simultaneously with the Proposed Offering.

Each Unit consists of one share of the Company’s Class A common stock, \$0.0001 par value, and one-third of one warrant (each, a “**Warrant**” and, collectively, the “**Warrants**”). Each whole Warrant entitles the holder to purchase one share of Class A common stock at a price of \$11.50 per share. No fractional warrants will be issued upon separation of the Units and only whole Warrants will trade. Each Warrant will become exercisable on the later of 30 days after the completion of the Company’s Initial Business Combination or 12 months from the closing of the Proposed Offering, and will expire five years after the completion of the Company’s Initial Business Combination or earlier upon redemption or liquidation. Once the Warrants become exercisable, the Company may redeem the outstanding Warrants in whole and not in part at a price of \$0.01 per Warrant upon a minimum of 30 days’ prior written notice of redemption, if and only if the last sale price of the Company’s Class A common stock equals or exceeds \$18.00 per share for any 20 trading days within a 30-trading day period ending on the third trading day prior to the date on which the Company sent the notice of redemption to the Warrant holders.

The Company expects to grant the underwriters a 45-day option to purchase up to 5,250,000 additional Units to cover any over-allotments at the initial public offering price less the underwriting discounts and commissions. The Units that would be issued in connection with the over-allotment option would be identical to the Units issued in the Proposed Offering.

The Company expects to pay an underwriting discount of 2.0% of the per Unit offering price to the underwriters at the closing of the Proposed Offering, with an additional fee (the “**Deferred Discount**”) of 3.5% of the gross offering proceeds payable upon the Company’s completion of an Initial Business Combination. The Deferred Discount will become payable to the underwriters from the amounts held in the Trust Account solely in the event the Company completes its Initial Business Combination.

Note 4—Related Party Transactions

Founder Shares

During December 2016, the Sponsor purchased 10,062,500 shares of Class B convertible common stock (the “**Founder Shares**”) for an aggregate price of \$25,000, or approximately \$0.002 per share. As used herein,

unless the context otherwise requires, “Founder Shares” shall be deemed to include the shares of Class A common stock issuable upon conversion thereof. The Founder Shares are identical to the Class A common stock included in the Units being sold in the Proposed Offering except that the Founder Shares automatically convert into shares of Class A common stock at the time of the Company’s Initial Business Combination and are subject to certain transfer restrictions, as described in more detail below. Holders of Founder Shares may also elect to convert their shares of Class B convertible common stock into an equal number of shares of Class A common stock, subject to adjustment as provided above, at any time. The Sponsor has agreed to forfeit up to 1,312,500 Founder Shares to the extent that the over-allotment option is not exercised in full by the underwriters. The forfeiture will be adjusted to the extent that the over-allotment option is not exercised in full by the underwriters so that the Founder Shares will represent 20.0% of the Company’s issued and outstanding shares after the Proposed Offering. If the Company increases or decreases the size of the offering, the Company will effect a stock dividend or share contribution back to capital, as applicable, immediately prior to the consummation of the Proposed Offering in such amount as to maintain the Founder Share ownership of the Company’s stockholders prior to the Proposed Offering at 20.0% of the Company’s issued and outstanding common stock upon the consummation of the Proposed Offering.

The Company’s initial stockholders will agree, subject to limited exceptions, not to transfer, assign or sell any of their Founder Shares until the earlier to occur of: (A) one year after the completion of the Initial Business Combination or (B) subsequent to the Initial Business Combination, (x) if the last sale price of the Company’s Class A common stock equals or exceeds \$12.00 per share (as adjusted for stock splits, stock dividends, reorganizations, recapitalizations and the like) for any 20 trading days within any 30-trading day period commencing at least 150 days after the Initial Business Combination, or (y) the date on which we complete a liquidation, merger, stock exchange or other similar transaction that results in all of the Company’s stockholders having the right to exchange their shares of common stock for cash, securities or other property.

The Sponsor has agreed to purchase an aggregate of 6,000,000 private placement warrants (or 6,700,000 if the over-allotment option is exercised in full) at a price of \$1.50 per whole warrant (approximately \$9,000,000 in the aggregate or \$10,050,000 in the aggregate if the over-allotment option is exercised in full) in a private placement that will occur simultaneously with the closing of the Proposed Offering (the “**Private Placement Warrants**”). Each whole Private Placement Warrant is exercisable for one whole share of the Company’s Class A common stock at a price of \$11.50 per share. A portion of the purchase price of the Private Placement Warrants will be added to the proceeds from the Proposed Offering to be held in the Trust Account such that at the closing of the Proposed Offering \$350,000,000 (or \$402,500,000 if the underwriters exercise their over-allotment option in full) will be held in the Trust Account. If the Initial Business Combination is not completed within 24 months from the closing of the Proposed Offering, the proceeds from the sale of the Private Placement Warrants held in the Trust Account will be used to fund the redemption of the Public Shares (subject to the requirements of applicable law) and the Private Placement Warrants will expire worthless. The Private Placement Warrants will be non-redeemable and exercisable on a cashless basis so long as they are held by the Sponsor or its permitted transferees.

The Sponsor and the Company’s officers and directors will agree, subject to limited exceptions, not to transfer, assign or sell any of their Private Placement Warrants until 30 days after the completion of the Initial Business Combination.

Registration Rights

The holders of Founder Shares, Private Placement Warrants and Warrants that may be issued upon conversion of working capital loans, if any, will be entitled to registration rights (in the case of the Founder Shares, only after conversion of such shares to shares of Class A common stock) pursuant to a registration rights agreement to be signed on or before the date of the prospectus for the Proposed Offering. These holders will be entitled to certain demand and “piggyback” registration rights.

The holders of Founder Shares Private Placement Warrants and Warrants that may be issued upon conversion of working capital loans will not be able to sell these securities until the termination of the applicable lock-up period for the securities to be registered. The Company will bear the expenses incurred in connection with the filing of any such registration statements.

Related Party Loans

On December 23, 2016, the Sponsor agreed to loan the Company an aggregate of up to \$300,000 to cover expenses related to the Proposed Offering pursuant to a promissory note (the “**Note**”). This loan is non-interest bearing and payable on the earlier of June 30, 2017 or the completion of the Proposed Offering. At December 31, 2016, the Company had \$20,000 borrowed under the Note.

Administrative Support Agreement

Commencing on the date the Units are first listed on the NASDAQ, the Company will agree to pay an affiliate of the Sponsor a total of \$5,000 per month for office space, utilities and secretarial and administrative support. Upon completion of the Initial Business Combination or the Company’s liquidation, the Company will cease paying these monthly fees.

Note 5—Stockholder’s Equity

Common Stock

The authorized common stock of the Company includes up to 200,000,000 shares of Class A common stock and 20,000,000 shares of Class B convertible common stock. If the Company enters into an Initial Business Combination, it may (depending on the terms of such an Initial Business Combination) be required to increase the number of shares of Class A common stock which the Company is authorized to issue at the same time as the Company’s stockholders vote on the Initial Business Combination, to the extent the Company seeks stockholder approval in connection with the Initial Business Combination. Holders of the Company’s common stock are entitled to one vote for each share of common stock. At December 31, 2016, there were 10,062,500 shares of Class B convertible common stock issued and outstanding.

Preferred Stock

The Company is authorized to issue 1,000,000 shares of preferred stock with such designations, voting and other rights and preferences as may be determined from time to time by the Company’s board of directors. At December 31, 2016, there were no shares of preferred stock issued or outstanding.

Note 6—Subsequent Events

In March 2017, the Sponsor transferred 40,000 Founder Shares to each of the Company’s independent director nominees at their original purchase price.

Subsequent to December 31, 2016, the Sponsor loaned the Company an additional \$175,000 under the promissory note to be used for a portion of the expenses related to the Proposed Offering.

Through and including _____, 2017 (the 25th day after the date of this prospectus), all dealers effecting transactions in the Class A common stock, whether or not participating in this offering, may be required to deliver a prospectus. This delivery requirement is in addition to a dealers' obligation to deliver a prospectus when acting as an underwriter and with respect to their unsold allotment or subscription.
